

The CHIP Timing System

This event uses the “Chip timing system”. The system utilizes a unique coded transponder chip, and an antenna mat at the Finish line. Times are taken at the FINISH line automatically by the chip passing over the mat. The chips are coded to your bib number so **PLEASE DON'T EXCHANGE CHIPS**. This event uses a “GUNTIME” for the start - everyone gets the same start time. The Chip **MUST be attached with the neoprene ankle band supplied. NO CHIP NO FINISH TIME!**

There will be volunteers at the finish line to remove the chips.

IF WE DO NOT RECEIVE YOUR CHIP BACK YOU WILL BE CHARGED \$40.00
