Medicine Hat College

CALENDAR

2020/21
Welcome to Medicine Hat College

Now is your time. Time to take action to achieve your goals or discover new things that interest you.

Deciding to attend Medicine Hat College is a great first step. Whether you’re looking to prepare for a specific career path or build a solid foundation for further education, we’re here to help.

Choose from a diverse array of programs that cover business and commerce; humanities; health and human services; visual and performing arts; science and technology; apprenticeship and pre-employment trades; foundational learning and academic upgrading; and non-credit, lifelong learning and continuing education courses.

Medicine Hat College is collaborative in nature meaning you’ll encounter many opportunities to complete degrees right here, or transfer your education to other institutions. Our partnerships – on campus and in our communities - also give you access to resources and experiences to enhance your learning. Work integrated opportunities, entrepreneur development, and innovation projects are all ways to add depth and value to your education at MHC.

Our student experience is unique, just like you. In our classrooms, you’ll find dedicated faculty that are invested in you as a person and as a student. Outside of class, you’ll connect with staff and services to support your success.

Medicine Hat College is about developing relationships, encouraging growth and building community. Take time to meet new people and explore new interests. Learn about other cultures or join a club. Try out for a Rattlers Athletics team or cheer them on from the stands. We encourage you to enjoy the moment, have some fun, and get the most from your college experience.

At the end of this academic journey are satisfied Medicine Hat College graduates. Feedback from a recent graduate survey indicated the overall quality of educational experiences (98%), the quality of teaching (98%), and the relevance of courses (96%). Overall, 92% of the respondents considered their program to be worth the financial cost.

Those are the numbers, but you deserve to be more than a number. You deserve to be you.

Find yourself, and your future, at Medicine Hat College.

Kevin Shufflebotham
President and CEO

Welcome from your Students’ Association

Welcome students, both new and old to Medicine Hat College. The Students’ Association of Medicine Hat College (SAMHC) is here for your benefit. We are your student government and we work for you. The SAMHC is the voice of the student body on campus, in the community, as well as at the provincial level.

The SAMHC provides multiple services for students to take advantage of, including our SAMHC app, to record your class schedule, track homework assignments and exam schedules, and generally just to act as a very handy guide for all things Student related. We also provide assistance with academic appeals, peer support, schedule numerous events throughout the year and maintain a student food bank for when or if the need arises. As well, if you have some spare time, and the inclination, we have a number of volunteer opportunities, and would always appreciate the help.

In addition to providing these important services, we are the voice of the student body on many different boards and committees on campus including the Board of Governors, General Academic Council, Human Rights Committee, and many more. This is your best chance to have your voice heard; come in to discuss any of your questions or concerns.

The SAMHC also sponsors a number of activities throughout the year. The Den is a multipurpose space were you can study, relieve some stress with a game of ping pong or pool or just hang out with friends. Follow SAMHC on Facebook or Instagram to keep up to date on the many entertainment events offered throughout the year.

The SAMHC believes that the key to maximizing your experience at Medicine Hat College is to get involved. Take part in the activities and events the SAMHC puts on, volunteer and/or join a student club, or run for a Student Representative position and come and work with us. In particular, helping the SAMHC through volunteer work will allow for the further development of activities and events and will provide you with some great résumé-building experiences. The SAMHC can only continue and grow with the help of students like you. Look us up at: www.samhc.ca.

**IMPORTANT NOTICE AND DISCLAIMER**

The material and information in this Calendar is compiled from academic and administrative office submissions and are time-sensitive. Every reasonable effort is made to ensure it is correct and accurate at the time of publication, but inaccuracies and errors may occur. The Medicine Hat College calendar is available online at www.mhc.ab.ca and will be updated as necessary to reflect changes to programs and services.

Official Medicine Hat College policies are published online at www.mhc.ab.ca/policiesandprocedures. If there is an inconsistency or conflict between the policies published in the Medicine Hat College calendar and those published on the college website, the policies published on the college website will prevail. Questions regarding college policies may be directed to policyanalyst@mhc.ab.ca.

By the act of registration with the Medicine Hat College, each student shall be deemed to have agreed to be bound by the regulations and policies of the College and of the program in which that student is enrolled as well as any relevant policies and regulations. Students are responsible for familiarizing themselves with the general information, rules and regulations contained in the Calendar, and with the specific information, rules and regulations of the program they are registered or enrolled or seek registration or enrolment, as well as the specific requirements of each applied degree, diploma, or certificate sought. It is the student’s responsibility to ensure that the courses chosen are appropriate to the program and graduation requirements.

Students should note that not every course listed in the Calendar is offered every year.

The Medicine Hat College has the responsibility and reserves the right to make changes in the information contained in the Calendar and will provide as much notice as administratively possible in effecting such change.
## ACADEMIC SCHEDULE 2020-2021

**July 2020**
- July 1: New Student Orientation
- July 3: Last day to opt-out of Student Health and Dental Plan (January Registrants Only)
- July 5: Victoria Day (College Closed)
- July 6: New Year’s Day (College Closed)
- July 19: Last day to opt-out of Student Health and Dental Plan

**August 2020**
- August 3: Last day to pay tuition and fees for Winter semester classes
- August 4: Withdraw with "W" Grade Deadline
- August 19: Christmas Break (College Closed)

**September 2020**
- September 1: Transfer Credit and Prior Learning Assessment and Recognition Fall Deadline
- September 2: New Student Orientation
- September 7: Labour Day (College Closed)
- September 9: Add Deadline
- September 16: Drop Deadline
- September 22: Last day to opt-out of Student Health and Dental Plan
- September 23: Last day to pay tuition and fees for Spring Session A & A/B

**October 2020**
- October 12: Thanksgiving Day (College Closed)

**November 2020**
- November 11: Remembrance Day (College Closed)
- November 12 & 13: Student Study Break (No Classes)
- November 19: Withdraw with “W” Grade Deadline

**December 2020**
- December 1: Winter Semester Residence Fees Due
- December 8: Add Deadline
- December 10-19: Last day of Credit Classes
- December 24-31: Exams for Credit Classes

**January 2021**
- January 1: New Year’s Day (College Closed)
- January 4: College Open
- January 5: All Credit Classes Begin
- January 13: Add Deadline
- January 19: Drop Deadline
- January 19: Transfer Credit and Prior Learning Assessment Recognition Winter Deadline
- January 26: Last day to opt-out of Student Health and Dental Plan (January Registrants Only)
- January 28-31: Last day to pay tuition and fees for Winter semester classes

**February 2021**
- February 15: Alberta Family Day (College Closed)
- February 16-19: Student Study Break (No Classes)

**March 2021**
- March 24: Withdraw with “W” Grade Deadline

Learning Supports

Medicine Hat College is committed to the success of its learners and offers a number of supports to assist with academics and with adjustment to the college learning environment.

**Academic Advising • 403.529.3819 • info@mhc.ab.ca**
Academic Advising is an interactive process where advisors provide students with professional and accurate information on course selection, policies and procedures and make referrals to student support services. Advising is a shared responsibility between the student and the college in which advisors proactively engage students and encourage them to become active and responsible participants in their educational journey. Knowledge gained through advising empowers students to make educated choices regarding their academic plans. Advising can be done in person, by e-mail or by telephone.

**Academic Coaching Services • 403.529.3819**
Academic coaching is an interactive process focused on you and the skills required for student success. Together with an academic strategist, you can examine your learning style, habits of working, current goals and any difficulties or barriers to success. Exploring your strengths and challenges and developing the necessary skills for student success can help you reach your full academic potential. The academic strategist is available for confidential, one-to-one appointments and small group meetings. Workshops on a variety of topics and drop-in times in the Vera Bracken Library at the Student Success Centre are also available.

**Academic Resources Centre • 403.529.3896**
The Academic Resources Centre offers help in a number of areas that are key to success. These include how to take better notes, prepare term papers, write exams, cope with exam anxiety, and manage your time. Assistance is offered through mini courses (as advertised), peer tutoring, and one on one time with our centre tutor who specializes in math and science at upgrading levels.

**Accessibility Services • 403.529.3824**
Students who identify themselves as having disabilities can access supports such as tutors, scribes (note takers), isolated exam rooms, adaptive technology and materials (as available), accessible residence accommodation, and referrals to funding agencies. To ensure that arrangements are in place at the beginning of the semester, you are encouraged to contact the Accessibility Services Coordinator.

**Faculty**
The Medicine Hat College faculty offers quality learning experiences in classroom, lab, field, practicum, clinical, and virtual settings. Regardless of their educational backgrounds -- though many are doctoral or master’s prepared professionals -- our faculty are passionate about teaching and are professionals who offer students the expertise that comes with career experience in their various fields. In addition to providing quality instruction, faculty also enable students to access them for assistance, consultation, and discussion outside instructional contact hours.

**Indigenous Student Support Office • 403.504.3503**
The Indigenous Student Support Office is located in F130. We provide support and connection to Indigenous and non-Indigenous students to a wide range of academic, financial, and personal supports and services in a welcoming and supportive environment. We provide a familiar space and a sense of belonging for Indigenous/Metis/Inuit students, and serve as a link to the elders and community supports for cultural resources, teachings and events. The Indigenous Support Office welcomes all students and the community to learn and experience FNMI culture.

**Library • 403.529.3867**
The Vera Bracken Library at the Medicine Hat Campus and the Brooks Campus Library offer bright, comfortable spaces to work, study, or take a break. Our skilled library staff team will help you navigate thousands of books, ebooks, journal articles, magazines, videos, curriculum materials and more, both online and in print. We are happy to assist you in-person at the service desks, or by appointment, telephone, text message, online chat, or e-mail. Whether you need space for a group discussion or a carrel for quiet study, free wifi or access to desktop computers, laptops, and iPads, you can find it in the library.

**Writing Specialist • Vera Bracken Library**
Writing support is available to guide students with their academic writing. Located in the Vera Bracken Library, the Writing Specialist provides practical writing support for written assignments, essays and research projects. Assistance with formatting, thesis development, grammar, punctuation, outlines, self-editing, and the writing process in general is also provided. Support is offered through one-on-one appointments, group sessions, drop-in, and workshops.

**Services and Facilities**

**Bookstore • 403.529.3809**
In addition to college textbooks, we carry a wide selection of stationery, electronic gadgets, drafting and art supplies, as well as giftware and leisure books. We also carry a variety of both MHC and Rattlers branded clothing. September thru June our store hours are 8:00 a.m. - 4:00 p.m. Monday-Friday. During July and August our hours are 9:30 a.m. - 2:30 p.m. Monday-Friday. Stop by and visit The Bookstore located just inside the main doors across from the Security Desk.

**Bus Services**
Medicine Hat City Transit provides regular bus service to the campus. For further information, check out the City of Medicine Hat transit website at [www.medicinehat.ca](http://www.medicinehat.ca).

**Cafeteria**
Medicine Hat College cafeteria offers a variety of affordable menu choices. Our selections range from healthy salads from our salad bar, made to order wraps and sandwiches, hot entrée, food fresh off the grill as well as hot soups and pizza. Let us know if you have special dietary needs and we will do our best to accommodate you. Don’t forget to check out our freshly baked muffins and pastries. We have daily specials from the grill and entrée corner as well. In a rush, check out our Grab N Go selection of sandwiches, salads, fruit and meals to go.
Common Grounds
Need a coffee? Stop by the Common Grounds coffee shop and enjoy one of our many coffee choices, latte, espresso or a delicious flavored coffee. We also have a nice selection of teas, cold or hot. Stop by and relax with a fresh brewed cup, just visit with friends or to study. Common Grounds is the place to be.

Counselling Services • 403.529.3819
Counselling services are available Monday to Friday, for students who require additional support or referrals to community services while attending college. Services are free for students. Appointments are recommended and can be made by calling the number above. The counsellors reserve some emergency appointments during the week if an appointment is needed. If you know of a student who is at risk, you can refer them to counselling services through the Students at Risk Support system online or, by calling the number above.

Crave Pub • 403.504.3540
Crave is the campus pub that is owned and operated by Medicine Hat College. Crave hosts many different kinds of events, and is also a proud sponsor of the Rattlers Athletics program. Crave offers affordable menu items, locally sourced menu items with the student budget in mind, for pricing. We offer daily food and drink specials, and are conveniently located right here on campus, so stop in and shoot some pool, or watch one of our flat screen TVs.

Financial Aid Office • 403.504.3594
The Student Financial Aid Office is able to provide you with information about student loans, grants and various funding options; assist you with student loan applications and processing; provide you information regarding scholarships, awards, and bursaries; and provide you with assistance and guidance when funding is delayed or insufficient.

Health and Dental Plan • 403.529.3925
The Students’ Association of Medicine Hat College provides an Extended Health and Dental Care Plan to member students. A mandatory fee for the Plan is assessed to all full time domestic students (International students are covered under GuardMe through the International office) during the registration process. To verify whether you are enrolled in the SAMHC Health & Dental Plan, check your fee statement and look for the “Student Association Health/Dental Fee” line items. You may opt out of the Plan if you provide proof of comparable coverage for an extended health and/or dental care benefits plan and complete the online waiver form before the opt out deadline. Please see the Fees section in the Calendar for further information. Students: print your prescription drug card, download claim forms & benefits guide booklets, and opt out online (deadlines apply) at www.samhc.ca.

Inclusive Post-Secondary Education • 403.504.3623 inclusiveeducation@mhc.ab.ca
Through the Inclusive Post-Secondary Education initiative, Medicine Hat College supports students with developmental disabilities to realize and achieve their educational and career goals.

International Education Office • 403.529.3819
The International Education Office focuses on creating awareness of MHC programs among prospective international students, coordinates programs to support international students and facilitates international and intercultural learning opportunities for students, faculty and staff.

International Health & Dental Plan • 403.529.3819
Guard.me health insurance is provided to international students wishing to study abroad and faculty and staff working abroad. International students in credit courses are automatically charged for the mandatory insurance upon registration of courses. Students must collect their health insurance card each semester from the International Education Office. Information and claim forms regarding Guard.me health insurance can be found at the International Education Office or at www.guard.me.

Medical Services
Health Matters Clinic offers their service at Medicine Hat College to provide walk-in services to students and employees. Walk-in clinic services are available to MHC students and employees. Hours vary, so please check with the clinic.

Parking
MHC enforces a year-round, pay parking policy for all vehicles parked on the Medicine Hat campus. The hours of enforcement are 7 a.m. to 7 p.m., Monday through Friday, excluding statutory holidays and days of college closure. Parking permits are available for purchase at the MHC Bookstore or from coin operated dispensers in various parking lot locations on campus. Disabled parking is available to permit holders in designated locations.

MHC CALENDAR 2020/2021 11
ABOUT MEDICINE HAT COLLEGE

are times when demand exceeds availability. Parking is on a first come, first served basis. During times of construction, maintenance and special events it may be necessary to reduce parking availability. Student Residence parking permits are not valid in parking lots on campus.

Peer Support Centre • 403.502.8992
Need a break? Need someone to listen or to talk to? The Peer Support Centre (PSC), part of the Students’ Association of Medicine Hat College, is happy to provide confidential peer-to-peer assistance to students experiencing stress, relationship issues, loss, sexual health and/or drug or alcohol related issues. For those seeking knowledge, the PSC also provides a wealth of printed and informal resources on all aspects of wellness. The PSC also runs a food bank where you can access a short-term supply of food and otherwise obtain assistance with food insecurity issues. Look for “Weekly Breadbaskets” where bread and other delicious baked goods are available to students outside of the Students’ Association office – best of all, it’s free!

Residence • 403.529.3820
Your home at the Medicine Hat and Brooks College Residence is a comfortable, four bedroom, fully furnished unit. Each unit comes equipped with; internet, fridge, stove, freezer, microwave, washer, dryer, and vacuum. Bedrooms have an extra-long single bed, study desk, office chair, and closet with shelving. All you need to bring is your own dishes, pots, pans, cutlery, coffee pot, and toaster.
Our Medicine Hat College Residence offers a cozy Community Room for students to get together and hang out, watch movies, or cook in the newly renovated kitchen space.

Student Employment and Career Centre • 403.504.2208
The Student Employment & Career Centre provides services geared to help Medicine Hat College students figure out their career pathway and obtain meaningful employment. Whether through career advising, interest inventories, resume and interview support, or through our annual Career Expo and Job Fair, the Student Employment & Career Centre serves as a valuable bridge between students and the careers that await them. The Student Employment & Career Centre staff work with hundreds of employers each academic year to highlight job opportunities and connect them with MHC students and graduates. Students and alumni are welcome to obtain services through one-on-one appointments, workshops, and email consultations. Located in the Centre Core, the Student Employment & Career Centre looks forward to assisting students with achieving their career-related goals.

Sport and Wellness

Alberta Sport Development Centre • 403.504.3547
The Alberta Sport Development Centre Southeast offers a variety of services and programs to emerging athletes within Medicine Hat and southeastern Alberta such as, the Athlete Enhancement Program (individual and team program), Performance Profiling and Winning Edge Seminars. The Alberta Sport Development Centre Southeast is part of the ASDC Network, a vital component towards building sport excellence in Alberta.

Be Fit for Life Centre & Campus Wellness • 403.504.3548
The MHC Be Fit for Life Centre coordinates a variety of services for college students, employees, alumni and community. Fitness Services offered include body composition assessment, fitness evaluation, fitness consultation, exercise program design and occupational fitness testing. The Be Fit for Life Centre hosts the annual Rattler Run and delivers campus & community group fitness classes, wellness initiatives, presentations and certification courses including Alberta Fitness Leadership Certification courses and exams. The MHC Centre is one of a network of nine Be Fit for Life Centre’s in Alberta, is a leader in promoting the development of physical literacy through PLAY Medicine Hat, and is a founding member of Moving & Choosing and Females in Action Moving and Empowering (FAME).

Campus Recreation & Intramurals • 403.529.3834
Interested in intramurals? We offer a variety of fun and competitive sports for all levels. We encourage students and staff to register for volleyball, ball hockey, dodgeball, basketball and much more. Have something else in mind. Let us know.

Rattlers
Medicine Hat College competes in the Alberta College Athletic Conference (ACAC). Men’s and Women’s teams compete in volleyball, basketball, soccer, futsal and golf. Scholarships are available to all student-athletes who play on a Rattlers team. Whether you are an athlete or not, you can come and cheer on the teams in our gym or on the soccer pitches free of charge.

Fitness Centre • 403.529.3840
Our fitness centre (located in the G Wing) offers a large selection of cardio and weight equipment for all levels of users. Laundry and towel services are available, as well as lockers are available. Please see the equipment staff for details. Please visit the Fitness Centre for hours of operation of all our facilities.

Lifestyle

Campus Life
Campus Life Committee is a group of students, staff, and faculty dedicated to fostering a sense of community on campus through fun and congenial activities. These activities include Spirit Days; come out and wear your black and gold to support the Rattler Athletic teams. Sponsors decorating contests for Halloween and Christmas as well as the annual Beach the Blues event, which offers a much needed respite in the middle of winter. The committee also organizes the annual staff, faculty Christmas party and fun events that bring the college community together.

 Clubs and Organizations

Clubs • 403.529.3925
If you are interested in forming a club on campus, you can obtain more information and the necessary forms from the SAMHC. Some examples of clubs are: SEUS (Science & Engineering Undergraduate Society), Social Work Students, BAS (Business Ambassador Students) and ENACTUS (Entrepreneurial) For a copy of the club package and list of active clubs please visit www.samhc.ca.
Students’ Association • 403.529.3925
The Students’ Association of Medicine Hat College (SAMHC) is the voice for all students on campus and in provincial forums. Representatives from the SAMHC sit on the General Academic Council and the Medicine Hat College Board of Governors. Elections for the Executive Council of the SAMHC are held in March of each year and the Executive Council members hold their positions, which are paid, from May 1 until April 30 of each year. The Executive Council takes direction from the Students’ Association Council, a chief decision making body comprised of six or more elected student representatives. The elections for positions on the Students’ Association Council takes place in September. All students are welcome to attend the meetings of the Council, which take place monthly. The SAMHC sponsors activities, provides a Student APP, (look for SAMHC in the App store or Google play store) and offers a number of services including photocopying, faxing, and locker rentals. The SAMHC office is located in the F-wing in room F113 (across from Crave Pub) and the office is open weekdays until 4 p.m.

International Opportunities • 403.504.3615
The global community is a vital part of Medicine Hat College. The College’s international activity is guided by the philosophy that education and learning is greatly enhanced by an understanding of different cultures, languages and peoples. By incorporating a global focus in its programming, serving a diverse range of Canadian and international students, and providing opportunities for work and study abroad, the College aims to provide all learners with opportunities to develop the skills and attitudes required to function successfully in an interconnected global society, world, and economy. Medicine Hat College has a strong commitment to prepare students for the workplace of increasing cultural diversity and encourages students to participate in education programs abroad and on campus. International Education offers several opportunities for students interested in gaining international or intercultural experience.

Faculty-led Study Abroad
This option is initiated by a faculty member to complete a program or course component in an international location.

Summer Study Abroad
Medicine Hat College partners open their campus to students who are looking to travel abroad for the summer and study for a short period, normally from 3-7 weeks.

Semester Exchange
Through an exchange agreement with a partner university or college, each institution allows selected full-time Canadian students in good academic standing to enroll at a partner institution for one or two semesters.

International Education Ambassador Program
International Education Ambassadors work closely with the International Education Office to support international education activities and programs at Medicine Hat College. Ambassadors participate in a variety of events and activities related to the transition of international students to MHC and promotion of cultural awareness and global experiences.

International Degree Completion
Medicine Hat College is proud to facilitate relationships with international universities and colleges that offer Medicine Hat College diploma graduates the opportunity to earn an International degree. This program enables Medicine Hat College diploma to international partner institutions for credit towards a four-year bachelor degree.

International and Other Opportunities
The International Education Office will work with students, courses and programs to facilitate international learning opportunities of value.
ADMISSIONS

General Admission Requirements

Admission to any program found in the Academic Calendar follow the academic and institutional policies of Medicine Hat College. Additional programs and education pathways are also available through Medicine Hat College’s Continuing Studies Division and support additional admission pathways to the College’s Academic programming.

Medicine Hat College’s admission processes are transparent and equitable. Medicine Hat College encourages applications from any student or potential student that is in possession of the academic subject admission requirements at the level required for successful entry to a Medicine Hat College or collaborative program for which Medicine Hat College admits. Students not in possession of the requirements for admission should connect directly with the institution for additional pathways to their goals. Challenges to admission assessments should be sent to admissions@mhc.ab.ca where they may be escalated to the Associate Registrar for review.

Completion of a high school credential is not a requirement for entry into Medicine Hat College’s programs provided students present the appropriate level of subject requirements.

Applications

Applications can be made in-person, or online. A $75 application fee is accepted for any Medicine Hat College program found in this Academic Calendar.

Transcripts

Applicants are required to provide official transcripts for admission. Alberta high school and post-secondary transcripts will be requested by Medicine Hat College on behalf of a student once the application has been made. Students attending from outside of Alberta must consult with the official transcript authority of their province or country in order to provide official transcripts directly to the College. Post-secondary official transcripts must be provided from the Registrar’s Office of each institution attended. Transcripts noting transfer credit from a previous institution do not exempt students from providing both transcripts directly from the original post-secondary institutions. Photocopies or faxed copies of transcripts are not considered official, but may be considered for conditional admission purposes where appropriate.

Note: High school and post-secondary school official transcripts must be received by the Admissions Office prior to the start of classes. Failure to provide transcripts will result in registration and/or admission being withdrawn.

English Language Proficiency Requirements

Medicine Hat College conducts academic learning in English. If less than three full-time years of education was not completed in a country or province exempt from English Language Proficiency (ELP), students must demonstrate proficiency in the English language before being admitted.

General English Language Proficiency

English language proficiency for programs, other than those stated below that require Advanced English Language proficiency, can be demonstrated by any one of the following:

1. Three years of full-time study in a province or country exempt from English Language Proficiency
2. Successful completion of EAPI 099 at Medicine Hat College with a grade of B+, or EAP 199 with a B+ and a C grade in a 3 or more credit College course
3. Successful completion of an Alberta Education English Language Arts course (or Canadian equivalent) that meets the academic requirements of the applicant’s intended program of study
4. A TOEFL (Test of English as a Foreign Language) iBT (internet-based test) score of 79 (or equivalent)
5. An IELTS (International English Language Testing System) with no band score less than 6.0
6. Completion of an accredited diploma or degree at a Canadian post-secondary institution where English is the primary language of instruction
7. A Canadian Language Benchmark (CLB) with a minimum of 7 in each strand (for certificate or diploma programs only)
8. Equivalent English language exams (e.g. Pearson Test of English, CAEL, etc) at an acceptable score (see www.mhc.ab.ca/elp)
9. Any English as a Second Language or English for Academic Purposes program from a public Alberta or British Columbia post-secondary institution that is accepted for admission to that institution (other Provinces considered on request)

NOTE: University transfer students should become acquainted with the English Language Proficiency requirements of the institution to which they plan to transfer. Gaining admission to Medicine Hat College does not guarantee meeting the requirements of the universities.

Advanced English Language Proficiency

Advanced English Language Proficiency is required for students completing the following programs:

- Addictions Counselling
- Addictions Counselling/Social Work
- Aviation Management
- Child and Youth Care Counsellor
- Nursing (*see note)
- Occupational Therapist Assistant/Physical Therapist Assistant
- Paramedic
- Practical Nurse
- Social Work
- Speech-Language Pathologist Assistant
Advanced English Language Proficiency can be demonstrated by one of the following:

1. Three years of full-time study in a province or country exempt from English Language Proficiency
2. Successful completion of the EAPI program (as per the general requirement) plus a C grade or higher in a 200-level ENGL or COMM course (or equivalent)
3. Successful completion of an Alberta Education English Language Arts course (or Canadian equivalent) that meets the academic requirements of the applicant’s intended program of study
4. A TOEFL (Test of English as a Foreign Language) iBT (internet-based test) score of 98 (or equivalent)
5. An IELTS (International English Language Testing System) with no band score less than 7.0
6. Equivalent English language exams (e.g. Pearson Test of English, CAEL, etc) at an acceptable score (see www.mhc.ab.ca/elp)
7. Any English as a Second Language or English for Academic Purposes program from a public Alberta or British Columbia Post-Secondary Institution that is accepted for admission to that institution and equivalent to testing scores above (other Provinces considered on request)

*Note: Nursing
Students applying to Nursing should be aware that Medicine Hat College follows the requirements of the University of Calgary Nursing degree program for English Language proficiency. Please contact us for more details.

Additional English Language Proficiency Requirements
Students presenting English Language Proficiency scores for admissions between the requirement of an IELTS 6.0 but below the equivalent to an IELTS 7.0, or students who have been identified during their studies as requiring additional English Language Support, may be required to complete additional English Language course requirements in addition to their program.

Collaborative Programs
Medicine Hat College holds agreements with post-secondary partners to provide a variety of education pathways to students. Certain programs that are offered in collaboration with partner institutions will be subject to the admission standards and rules of the agreement or the partner institution including but not limited to:

- Academic subject requirements
- Academic subject equivalencies (e.g. out of province and foreign equivalencies)
- English Language Proficiency

Students should connect with the College directly if they have questions regarding the requirements of collaborative programs and their admission requirements.

Accessibility
Medicine Hat College is committed to ensuring access to the academic environment. Students who require accommodation, should identify their required supports early in the admission process to the Accessibility Service office to allow the College to maximize the support options available. Contact the Accessibility Services office at 403.529.4865 for more information.

Admission of Home Schooled or Home Educated Students
Medicine Hat College respects the variety of pathways a student may take towards post-secondary education. If applicants have completed a Home Schooled or Home Education program they may qualify for admission by providing the relevant provincial diploma examinations; writing the Medicine Hat College Academic Assessment in the appropriate subjects or via previous work they have completed at an accredited post-secondary institution. Substitutes such as the subject SAT or ACT exams, GCSE exams, or other approved standardized exams may also be considered but should be approved in writing by emailing admissions@mhc.ab.ca.

Academic Assessment
An Academic Assessment may be used by students to determine current skill levels in English and Math. It has been designed to help students who have been out of school for two years or more, to begin at a level that will enable students to be successful in their studies. The assessment is scored to place students in an appropriate level of upgrading courses to begin their studies. To register for the Academic Assessment, students first apply to the College for admission then make an appointment to schedule a time with the Academic Resources Centre to write the essay and math assessments. An appointment time may be scheduled with an Academic Advisor two days or more after writing the exam to discuss placement recommendations and to plan an appropriate course of study.

Applications with Foreign Credentials

Academic Qualifications
Regardless of their status in Canada (citizen, permanent resident or attending on visa), applicants who present foreign credentials must meet the academic and English Language Proficiency (ELP) requirements (see ELP) for their program of choice. Prospective students may present a home country curriculum, standardized test (such as the SAT, ACT or GCE/GCE Advanced) or complete an Academic IQAS assessment with appropriate subjects to gain admission. All submitted documents must be sent directly from the ministry or official examination body to be deemed official.

Applicants must be aware of the timelines for obtaining official documents from their home country and for having their application reviewed. Prospective students should allow adequate time to receive a Canadian Visa for studies. Individuals should carefully review the criteria for admission and check their e-mail frequently to ensure they have provided all the correct documents and data required for a decision. Students requiring a permit to study in
ADMISSIONS

Canada may wish to connect directly with the Government of Canada website for information on required permits and documentation – it is the student’s responsibility to ensure they meet the requirements of the Government of Canada in addition to the Medicine Hat College admission requirements as the processes are separate. Typically, a student who has submitted all required, official documents will receive an admission decision from Medicine Hat College within 3 to 4 weeks of applying.

When to Apply
Application deadlines are as follows for Canadians, Permanent Residents and Refugee applicants:
• Fall Term - September 1
• Winter Term - December 20 (see program list)
• Spring Term - May 1 (limited non-credential programs only)

Special enrolment students (one class only) may apply any time up until the last day to add classes for the given term

International Student deadlines are as follows (Note: International applicants are suggested to apply well in advance of the deadline depending on their country of origin in anticipation of wait times with the student visa process):
• Fall Term - June 15
• Winter Term - November 1

English Language training students may apply at any time and should consult with the program.

Admissions Schedule for Winter Intakes in Programs
Some programs offer winter intakes and include the following programs:
• Health Care Aide
• Business Administration (limited seats)
• College Preparation
• General Studies
• University Transfer

Admission Routes
Applicants are considered for the most appropriate of three admission routes, according to their qualifications. Students do not need to disclose what route they wish to be considered for.

High School Route
High school applicants have secondary (high school) credentials only with little or no post-secondary study. Students must consult the program(s) of interest to determine which specific high school subjects are required for admission to specific program(s). If an applicant is missing the required subjects, they may qualify for other programs at Medicine Hat College or a transition program. Please contact Academic Advising at 403.529.3819 and/or Admissions at 403.529.3827 for additional information.

Transfer Student Route
Transfer applicants have post-secondary coursework or credentials through recognized university, college, or technical institutions. If students have previous coursework, coursework will be assessed for transfer credit after official transcripts are received. For information on gaining credit towards program requirements, consult the section on Recognition of Prior Learning in the calendar.

Mature Student Route
Mature applicants are those aged 21 years or older by the last day of the term in which they apply (e.g. December 31st for a September start). In some programs, mature student admission requirements may differ from general admission requirements. Academic assessment may be necessary.

Combined Matriculation/University Transfer
Applicants combine high school equivalent (matriculation) courses with university courses.

Alternative Admission Pathways
Conditional Admission Plan
Applying to a conditional admission plan (CAP) provides an opportunity for students to receive conditional admission to select programs while completing subject or English language proficiently requirements (see specific program admission requirements). It allows students to enroll in one or more courses in the program into which they are conditionally admitted. Students will be supported by the Academic Advisor.

In order to be considered, students must fully complete Medicine Hat College’s Application for Admission and may be required to write an academic or language assessment. Applications will be reviewed to determine suitability and eligibility for the program.

Once accepted into CAP, students must satisfy all of the following conditions in order to advance into their program of conditional admission:
• comply with the conditional letter of acceptance and fulfill any additional requirements for full acceptance
• have a plan of study outlining the conditions of the individual Conditional Admission Plan approved and signed by the coordinator of the program to which they are conditionally admitted
• continually demonstrate potential and motivation to succeed in the chosen Medicine Hat College program
• attend scheduled meetings with a CAP Advisor, once conditionally admitted into the program through CAP
• successfully complete all required academic prerequisites including the MAST 100 (Master Student) course or equivalent, and at least one program specific course

All requirements must be met within one year of the start date of study within the CAP. Students in CAP who need to meet the College’s English Language Proficiency requirement may be allowed additional time to complete this requirement, provided they are progressing satisfactorily in their language studies; however, in this case they will be required to submit an updated Application for Admission to their chosen Medicine Hat College program.
Programs that accept CAP students:
- Addictions Counselling
- Administrative Office Professional
- Bachelor of Applied Arts (Art and Design)
- Built Environment Engineering Technology (BEET)
- Business Administration
- Child and Youth Care Counselling
- Computer Aided Drafting and Design (CADD)
- Criminal Justice (considered after June 1)
- Early Learning and Child Care
- Environmental Reclamation Technician
- Information Technology

General Studies
General Studies allows students who may be undecided or not working towards a credential to obtain coursework at Medicine Hat College. Students must present a grade 12 level English Language Arts course (e.g. ELA 30-1, ELA 30-2 or equivalent) and English Language Proficiency (ELP) to be eligible for this pathway.

Special Student
Special status allows students to obtain a single 3 or 4 credit course per semester at Medicine Hat College without any additional requirements. Applications and an application fee for special student status must be received for each term the student seeks entry. Students should be aware that not having the pre-requisites required or suitable English language skills may result in poor performance although presenting documentation is not required for this pathway. The courses available to special students are limited and may require the permission of the Dean. Special Student status is not available for College Preparation, English Language training and most quota program courses.

Visiting Student/Exchange Student
Applicants are formally admitted to the College, but as a student of another accredited institution, permitted to take courses for credit and to be recorded on a transcript by Medicine Hat College. Students of Medicine Hat College must be subject to all rules, regulations and fees applicable to students of Medicine Hat College. They are not permitted to take courses for credit at another accredited institution, permitted to take courses for credit and to be recorded on a transcript by Medicine Hat College. Students may be restricted in the courses that they are eligible to take due to limited enrolments or pre-requisite requirements. Students must also:
- provide written authorization from a responsible officer of their institution upon registration (letter of permission, letter of exchange)
- formally request an official or unofficial transcript from their home institution

Offers of Admission or Acceptance
Conditional Acceptance
Student are required to meet the conditions of their offer of admission or their registration and admission status may be withdrawn.

Registration Deposit
Students accepted to a new program or returning to the college after an absence of at least one year are required to pay a registration deposit or tuition installment as per the details of their admission letter. Medicine Hat College reserves the right to request that students confirm their seat in a program if the program is in high demand or competitive within four weeks of receiving an acceptance letter.

Pre-Professional Requirements
In addition to academic requirements, students may be asked to meet additional admission requirements or provide additional documentation to determine their suitability for a professional program. This may be required prior to admission or at registration. Students should carefully read the pre-professional/pre-practicum requirements of each program in this Calendar. Example of requirements may be (but are not limited to) a record of volunteer experiences, criminal record checks, a statement of interest or health documentation (e.g. immunizations).

It is the student’s responsibility to ensure they are able and willing to meet the health and fitness requirements of the programs. In many cases, these requirements are necessary to complete the program. Students who require additional accessibility support to meet the pre-professional requirements of the program should connect with accessibility services.

Change of Program
Students intending to change their program should connect directly with an Academic Advisor to determine the consequences or benefits of a change, and to determine if they should complete a new application or consider a program major change.

Re-Admission to Medicine Hat College
Students who have previously withdrawn, either voluntarily, or upon request of the Registrar’s Office from a program must submit a new application for admission. Re-admission is subject to all College regulations.

Admissions Refusal
Medicine Hat College reserves the right to reject any application for admission using reasonable grounds that may support the student, their health/well-being, their success, or the health and success of other students/persons in the Medicine Hat College community, even if other entrance requirements have been met. Refusals may be challenged by connecting directly with the Registrar’s Office.
# ADMISSIONS - UNIVERSITY TRANSFER

## University Transfer Admission Requirements

If you are accepted to a University Transfer program, please be aware that admission requirements differ from one university to another. You are responsible for making sure that you meet the high school admission requirements for the transfer university by checking the specific university calendar and contacting the Academic Advisors at the transfer university.

For an explanation of Admission Routes, see page 18 of the Admissions Section.

<table>
<thead>
<tr>
<th>Program</th>
<th>Transfer Route (Post-Secondary Credentials)</th>
</tr>
</thead>
</table>
| **Bachelor of Business Administration (BBA)**<br>Mt. Royal University | To apply to this program, applicants must meet one of two admission routes.  
**Route 1**  
- Graduates of Medicine Hat College’s Business Administration diploma program with a major in Accounting, Management, Financial Services or Marketing. Equivalent business administration diplomas from other post-secondary institutions will not be considered.  
- Completion of a minimum of twenty (20) required Business Administration courses and approved electives as specified in the MHC calendar.  
- Achievement of a minimum cumulative GPA of 2.0 in the diploma.  
**Route 2**  
- Completion of a twenty (20) approved university transfer courses. 12 specified and 8 electives.  
- Achievement of a minimum cumulative GPA of 2.0.  
  
The Bachelor of Business Administration partnership program at MHC is a competitive program so that the most academically qualified students are accepted first.  
Successful applicants register in the third year of the Bachelor of Business Administration program. |
| **Bachelor of Education**<br>Mt. Royal University | To be eligible for admissions a student must have successfully completed 60 credits of approved university course work and meet competitive GPA. |

REGISTRATION AND RECORDS
**REGISTRATION AND RECORDS**

**New or Returning Students**
A new or returning student is one who has either never attended Medicine Hat College or who is returning after an absence of one semester or more. You will need to pay a registration deposit to secure your classes and to enable you to register. If you are accepted into a quota program (for example, Nursing), you need to pay the deposit within four weeks of receiving your acceptance letter. The registration deposit, which is non-refundable, is credited towards your tuition.

**Continuing Students**
A continuing student is one who has had continuous registration in the same program from one semester to another. Continuing students do not need to pay a registration deposit before they can register for courses.

**Selecting Your Courses**
If you require academic advice to select your courses you should contact the appropriate Academic Advisor. Contact 403.529.3819.

If you need information about how to register or deadlines for add/drop or payment of tuition and fees contact Registration Services at 403.529.3844.

As a student, you are responsible for the accuracy and completeness of your own registration and you need to be aware of prerequisite courses and grades required for prerequisites. As a student, you are responsible for the fees for courses in which you are registered. Registration is incomplete until all fees have been paid in full and is subject to cancellation unless fees have been paid by the final deadlines for each semester.

**Registering For Your Courses**

**How to Register**
After you are accepted and have paid your registration deposit, you will receive an e-mail with instructions on how to register.

Registration begins in late April/early May. Registrations are not accepted after the last day to add classes.

**Registration Status**
A registered student is one who has been entered into courses, has been assessed fees, and has paid fees by the published deadline dates.

**Full-Time Student**
A full-time student is registered in a minimum of nine credits per study period. A study period is defined by the standard Medicine Hat College terms of Fall (September to December), Winter (January to April). Only three credits are required per month for Spring (May and June) and Summer (July and August) to be considered full-time. Credit loads are assigned to the semester in which they start.

**Part-Time Student**
A part-time student is registered in fewer than nine credits in Winter or Fall semesters.

**Audit**
You may register for audit up until the last day to add or drop courses for each semester. An AU is recorded on your transcript for each course that you audit. If you do not attend regularly as an audit student, you may be switched to a “W” status in the class.

Please note that an audit student is permitted to register and to attend classes on the understanding that participation in the class is at the discretion of the faculty. Not all classes are open to audit. You may not normally, for example, audit practicum or lab courses or programs where these occur, such as Drama, Dance, Criminal Justice, Early Learning and Child Care, Power Engineering, Nursing, Therapist Assistant, Visual Communications, Physical Activity Classes, Science labs, and Education courses. Where space and/or equipment is limited in a class, a credit student will have preference over an audit student and a credit course will not be offered if there are insufficient numbers of credit students.

Audit students pay half of the cost of taking the course for credit.

**Course Loads**
The usual course load for a full-time student during Fall and Winter terms is five courses per semester. Although some programs require you to take more than five courses per semester, normally you are not advised to take six or more courses in a semester unless your high school average in five Grade 12 matriculation subjects is 80% or higher, your grade point average at Medicine Hat College is 3.0 or higher, or you have been given consent by the appropriate Dean or Program Coordinator. It needs to be stressed, however, that heavy course loads are a common cause of poor academic performance.

In Spring and Summer sessions, you may register in a maximum of two courses per session, keeping in mind that two courses per session is extremely demanding.

**Changes in Registration**
If you are considering changes in registration (adding & dropping or withdrawing from a course), ask specific questions about whether the changes will affect your progress in your program or affect transferability to receiving institutions (if you are in a university transfer program). You should also note that if dropping courses or withdrawal results in a semester load of less than 60% of a course load, your eligibility for student financial aid may be affected. Please note, as well, that nonattendance at classes for which you have paid is not accepted as notice of dropping or withdrawing from a class.
Adding or Dropping a Course
To add or drop a course, submit an Add/Drop form to the Registration Desk in Student Services before or on the last day to Add or Drop, as indicated in the Academic Schedule. Failure to complete the appropriate form will affect your transcript and academic status.

If you are in a program that has on-line registration, you can add or drop courses online.

If you drop a course(s) before the drop date, you will receive a refund, less any registration deposit and the course will not appear on your transcript.

Voluntary Withdrawal from a Course
You may withdraw from classes after the Drop deadline and before or on the last day for withdrawal, as indicated in the Academic Schedule. The course will appear on your transcript with a “W” beside it. The “W” is not calculated in your grade point average.

To initiate withdrawal from a course, you will need to complete a Withdrawal form (available online or from the Registration Desk) and to bring it to the Registration Desk. Documentation of reasons for the withdrawal is not necessary. No refund is given for course withdrawals.

Complete Withdrawal from the College
If you wish to withdraw from the College, you must initiate the process by completing a Withdrawal form (available at the Registration Desk or on the web site). If your withdrawal is related to compassionate reasons such as illness or domestic affliction, you may want to speak with a Medicine Hat College Counsellor. If you initiate the process after the Drop date, a “W” will be recorded on your transcript for all courses in which you were registered.

Late Withdrawal for Medical or Compassionate Reasons
If you completely withdraw after the withdrawal date for medically documented or compassionate reasons or for severe domestic affliction, you will be assigned a “W” on your transcript. Requests for late or compassionate withdrawal must be initiated by the student and must be accompanied by appropriate documentation; if requesting a late withdrawal for medical reasons, the documentation needs to include date and time of illness, general nature of the illness, and how this has affected studies.

Required Withdrawal from Courses
If you lack the required prerequisite courses or grades for a particular course, you will be withdrawn from the course.

Required Withdrawal from the College
You may be required to withdraw from the College if you have a very unsatisfactory academic standing (as outlined under Probation and Dismissal in the Academic Regulations and Policies section of the calendar); or, if you commit repeated instances of academic dishonesty; or, if you engage in seriously disruptive or disturbing behavior inside or outside the classroom.

Change in Registration for College Preparation Courses
The College reserves the right to alter your placement in College Preparation courses within the first five weeks of the fall and winter semesters, upon the recommendation of the instructor.

Student Records
In general, your file, records, and test results are maintained for internal use. They are confidential and can only be accessed by individuals and organizations external to the College under special circumstances.

With the exception of specific public information (that is, name, confirmation of attendance at the College, confirmation of graduation), information is not released to third parties. Personal information may be released with your written permission or in the case of emergency.

Relevant information may be released to appropriate government agencies upon request.

International students must maintain valid immigration documents to live and study in Canada. Copies of registration, change of registration, or withdrawal forms of international students may be forwarded to the relevant Canadian immigration office.

It is the student’s responsibility to ensure that immigration and legal documents are current and maintained and that any documentation submitted for immigration purposes meets requirements as indicated and is accurate and complete. It is also the student’s responsibility to understand and be compliant with all immigration requirements, recognizing that this information is subject to change and that the most accurate, up-to-date information is found on the Immigration, Refugee and Citizenship Canada (IRCC) website: www.cic.gc.ca.
TRANSFER CREDIT AND PRIOR LEARNING ASSESSMENT AND RECOGNITION (PLAR)
Recognition for previous learning is awarded through transfer credit and prior learning assessment and recognition (PLAR). Transfer credit recognizes learning obtained through formal coursework and enables transfer of course credit into your current program at Medicine Hat College. PLAR recognizes learning acquired through informal and non-formal learning experiences, such as non-credit coursework, workshops, and work or other experiential learning. In order to be considered for transfer credit or PLAR, a student must be admitted to the College.

**Obtaining Transfer Credit**

Transfer credit may be granted for courses completed at accredited universities, colleges, and technical institutes. Credit may also be assessed for advanced placement or international baccalaureate courses.

Transfer Credit is automatically assessed when a student is admitted to the college and upon receipt of official transcripts from prior post-secondary institutions. Alternatively, if a student feels that transfer credit has not been assessed, this process can be initiated by the student, who can obtain a Transfer Credit Evaluation form from the Registrar’s Office or by downloading one from the Medicine Hat College website and submitting the request to the Registrar’s Office. Official transcripts must either be on file or accompany the request. A grade of C- or higher in the courses for which transfer credit is sought is required.

Assessment of transfer credit is completed on an individual basis and will depend on the accreditation of the sending institution and whether the course for which transfer is sought fits within the student’s program requirements. For courses completed in Alberta, the Alberta Transfer Guide is the basis for assessment. For courses not housed within the Alberta Transfer Guide, students may be required to provide detailed course outlines for evaluation. Course outlines must be from the year and term in which they were completed. Any transfer credits awarded are recorded on the student’s Medicine Hat College transcript.

**Transfer Alberta**

Students who are transferring to Medicine Hat College and students who wish to transfer to another institution should refer to the Alberta Transfer Guide. The Transfer Guide lists all the course and program transfer agreements in effect between post-secondary institutions in Alberta, Northwest Territories, and Nunavut. The Transfer Guide, and other transfer information, is available online at [www.transferalberta.ca](http://www.transferalberta.ca) or may be downloaded via the Transfer Alberta Mobile app for Android and Apple devices.

**Obtaining Prior Learning Assessment and Recognition (PLAR)**

Prior learning can be gained through experiences other than formal post-secondary courses such as through work, self-directed study, community work, non-credit courses, on-the-job training, corporate training programs, or other life experiences.

Prior Learning Assessment and Recognition (PLAR) is a process used to assess whether that learning equals or exceeds the knowledge, skills, and competencies defined in the learning outcomes of courses at Medicine Hat College. Prior learning assessments may take the form of, but are not limited to, any of the following, as required:

- **Evidence Files:** written summary of learning gained from informal and/or non-formal learning experiences.
- **Challenge exams:** Tests that may be used to assess theoretical or applied knowledge relevant to the Medicine Hat College curricula being reviewed for credit.
- **Performance Tests/Practical Demonstrations:** A demonstration of skills within a prescribed environment. For example, assessment done in a laboratory or practice setting for the expressed purpose of assessing an individual’s ability to meet learning outcome skills of a Medicine Hat College course or program.
- **Structured Oral Test or Interview:** Candidates respond to predetermined questions in order to directly assess specific knowledge or skills.
- **Essay or Project:** A written assignment completed according to criteria determined by the PLAR assessor. The assessment may require substantial time, energy, and effort on both the part of the student and the PLAR Assessor.
- **Portfolio:** A collection of documents and/or writing samples assembled to demonstrate that a learner has the appropriate and experiential learning to earn post-secondary credit.

**Obtaining a Letter of Permission**

If you intend to complete a course through another post-secondary institution while enrolled at Medicine Hat College that you intend to use for credit towards your program, you will need to obtain approval from your Program Coordinator or Divisional Dean and the Registrar. A Letter of Permission form is available from Student Services and on the website. After you have completed the course, it is your responsibility to ensure that your transcripts are sent to Medicine Hat College and that you initiate the process for obtaining transfer credit through the Registrar’s Office.
The Prior Learning Assessment and Recognition (PLAR) Process

- If a student is interested in pursuing PLAR, the first step in the process is to contact the Articulation and PLAR Coordinator at 403.525.2337. Together the student and Articulation and PLAR Coordinator will discuss the student’s prior informal and non-formal learning experiences in order to determine if PLAR is an option as well as discuss the timelines, requirements, and expectations involved in the PLAR process.

- If it is determined that PLAR may be a possibility for the student, the Articulation and PLAR Coordinator will contact the appropriate Program Coordinator to identify the appropriate PLAR Assessor. Once the appropriate PLAR Assessor is identified, the Articulation and PLAR Coordinator will discuss the PLAR with the Assessor in order to ensure that, at the initial meeting, adequate rationale to support and inform the PLAR was collected.

- The Articulation and PLAR Coordinator will arrange a meeting (either in-person, on the telephone, or virtually) between the PLAR Assessor and student where they will discuss the assessment process, determine the timelines for all assessments, as well as further steps required in order for the assessment to be completed. It is also at this time that the PLAR application is completed by both the student and the Assessor and then submitted to the Articulation and PLAR Coordinator.

- The Articulation and PLAR Coordinator then ensures the appropriate signatures are obtained, the registration process completed, and the appropriate fees assessed. Both the PLAR Assessor and the student will be notified once this is completed; the student will be required to pay the PLAR fees by the deadline outlined in the Academic Schedule.

- Upon completion of the PLAR, the Assessor will assign a grade.

- Students are only permitted one attempt at PLAR for a specific course.

- For further details regarding PLAR, please refer to the Policy and Procedures section of the Medicine Hat College website.
Transferring to Other Institutions

Medicine Hat College makes every effort to ensure your smooth transfer to Alberta universities. This is facilitated through the activities of the Alberta Council of Admissions and Transfer, which coordinates transfer between colleges and universities and publishes the Alberta Transfer Guide each year which is available on the web at www.transferalberta.ca. If you have questions about the transfer of courses, please consult an Academic Advisor on either the Medicine Hat or Brooks campuses. If you have questions about the suitability of courses for the program and the institution to which you are intending to transfer, you should contact an Academic Advisor at that institution to discuss your course selections. It is important to note that transfer of courses may be affected if you achieve less than the overall GPA or course grade required for transfer.

Further, if you change majors or programs or institutions to which you intend to transfer, these types of changes may affect the number of courses for which you receive transfer credit.

Grades Required for Transfer of Courses
Receiving colleges and universities may accept transfer credit for only those courses in which you have achieved an acceptable grade; at many institutions the grade required is a C- or higher. Please check with the specific institution regarding their transfer credit policy.

Admission as a Transfer Student to Other Institutions
Be sure to consult with the institution to which you are seeking transfer admission regarding transfer eligibility, required number of university transfer courses/credits, minimum GPA and other transfer requirements.

As a Medicine Hat College student, you do not have a guaranteed place in quota programs or high demand programs at Alberta universities. Selection for quota and high demand programs is based on academic performance regardless of institutional origin. The most academically qualified students are selected for limited enrolment and high demand programs and therefore, the minimum GPA required for admission may not be sufficient for admission. For further information, please consult with a Medicine Hat College Academic Advisor and an Academic Advisor at the institution to which you are seeking admission.

NOTE: It is the responsibility of each student to ensure that their courses meet any prerequisite, scheduling or other requirements for programs at Medicine Hat College. Information regarding transfer and transfer credit for enrolment at other institutions is subject to change without notification and is also the responsibility of the student. Please refer to the latest edition of the Alberta Transfer Guide for the most current information at www.transferalberta.ca.

After You Have Transferred
Medicine Hat College is available to support your transfer even after you are no longer attending classes. Course outlines, transcripts and information (in support of transfer issues) are available in Student Services. Please consult the Articulation and PLAR Coordinator at 403.525.2337 for additional information.
Tuition and fees are approved by the Medicine Hat College Board of Governors and are set in accordance with Tuition Fee guidelines established by the Alberta Government.

Base tuition and fees are determined by locating a class’s credit value on the chart below. The Students’ Association fee is designated 85% for operating costs and 15% for building fund.

Description of Fees

**Application Fee**
A $75 application fee is required if you are applying to Medicine Hat College.

**Grade Reappraisal Fee**
If an Academic Appeals Committee is established as part of a formal grade appeal to reappraise your mark, you will need to pay $25 in advance. This fee will be returned to you if the appeal is successful.

**Library Fines**
Library fines are assessed on overdue materials, multi media equipment, and items with holds.

The college restricts the accounts of students with overdue material or outstanding fines. Students with restricted accounts cannot register in classes or request transcripts.

**Athletics & Recreation Fee**
An Athletics & Recreation fee is levied for each credit taken. This fee enables access to campus athletic facilities and campus recreation programming.

**Student Support Fee**
A Student Support fee is levied for each credit taken. This fee enables access to health and wellness services such as personal counselling, accessibility services and career counselling.

**Parchment Replacement Fee**
If you have previously received a certificate, diploma, applied degree or degree parchment from Medicine Hat College and require replacement because of loss or a legal name change, you will need to submit $25 and a formal, written request for replacement.

**Prior Learning Assessment and Recognition (PLAR) Fee**
If a PLAR is approved, you will be assessed 50% of the course tuition and fees. For further details, regarding this process refer to the Transfer Credit and Prior Learning Assessment and Recognition (PLAR) section of the academic calendar.

**Registration Deposit or First tuition installment**
A non-refundable first tuition installment or deposit is due upon receiving your offer of admission. You should review your letter of offer carefully and meet the requirements and deadlines to accept your seat. Deposits and installments are directly applied to first semester tuition.

**Apprenticeship Fees**
Seats are filled on a first come first served basis. Tuition fees are $105 per week. Books and supplies vary with each trade and cost between $450-$750 per training period. A consumable materials fee of $72 per training period applicable to all apprenticeship students.

A $100 non-refundable deposit is due upon registration. The balance of tuition is due two weeks prior to the first day of classes. Unpaid tuition will result in an automatic withdrawal from class and your seat will be offered to the next person on the waitlist. No refunds will be issued after the third day of classes.

**Student ID Card Replacement Fee**
You will need a photo student ID card to access the Library, the Athletics facilities, the computer labs, and the Crave Pub. Replacement cards are $5 each. Cards are issued at the Library.

**Tuition Fees**
Tuition fees are based on the credit value of courses. Course credits are determined by the number of instructional hours in a course. For further information, consult the course descriptions and the fee schedule in this calendar.

**Additional Student Fees**
Some specific programs may have additional costs (for example, for certifications). This amount may vary depending on individual needs. When applying for a student loan, the required additional costs are calculated in the estimates for student loan expenses.

**Books**
The cost of required textbooks varies from course to course. The price of required textbooks is available at the Bookstore.

**Breakage**
There will be a fee assessed for damage to furniture, apparatus, books, etc. Such charges must be paid before you may register for a new semester.

**International Health and Dental Plan**
International students in credit courses are automatically charged for a mandatory health insurance plan upon registration of courses. Students are charged $190 per semester for each of the Fall 2020, Winter 2021 and Spring 2021 terms. Students not enrolled in full time courses during the Spring semesters are not automatically enrolled for coverage. Students wishing to maintain coverage over the Spring and Summer semesters must apply for continued coverage with the International Education Office. Students must collect their health insurance card each semester from the International Education Office. Information and claim forms regarding Guard.me health insurance can be found at the International Education and Office or at www.guard.me.

Guard.me health insurance is also arranged for students wishing to study abroad and faculty and staff working abroad.

**Students’ Association Fees**
These fees are authorized by student referendum and the Board of Governors. They are collected by the College on behalf of the Students’ Association in accordance with the Post Secondary Learning Act. Students’ Association Membership Fees are assessed on a per credit basis. The fee for the 2020-2021 academic year is $6.80 per credit.
Extended Health and Dental Plan
The Students’ Association of Medicine Hat College provides an Extended Health and Dental Plan to member students. A mandatory fee for the Plan is assessed to you during the registration process; to verify if you are enrolled in the SAMHC Health & Dental Plan, check your fee statement and look for the “Student Association Health/Dental Fee” line items. The Plan provides coverage for expenses such as most prescription drugs, paramedical services and dental care. This Plan supplements provincial health coverage, it does not replace it. One must have coverage with a provincial health insurance plan to be an eligible member of the Plan.

Students who begin their studies in September will be charged the full amount for the health and dental coverage. This amount will cover students for the period from September 1 to August 31. New students who begin their studies after September will be charged a pro-rated amount for health coverage (there is no fee pro-rata for dental coverage).

Students who already have an equivalent extended health and dental plan may opt out of the SAMHC Health and/or Dental plan by providing Proof of Coverage (POC) information and by completing a waiver form before the opt out deadline. Students can also enroll their spouse and/or dependants by completing an enrolment process and paying an additional fee, over and above the mandatory fee (deadlines apply).

The SAMHC Extended Health and Dental Plan is not available to students who are registered only in the Spring/Summer sessions. The Plan fees for 2020-2021 academic year will be $420 ($185 dental, $235 health). For further information such as Plan details, POC details or to opt out online (deadlines apply) please visit www.samhc.ca.

Payment of Fees
You are responsible for your own financial arrangements. If you need assistance with financial arrangements, you are encouraged to contact the Student Financial Aid Office in Student Services.

When to Pay
Fall/Winter
All tuition and fees are due by the end of working hours on September 22, 2020 for Fall and January 26, 2021 for Winter.

Spring/Summer
All tuition and fees are due by the end of working hours on May 7, 2021 for Spring A and A/B and June 8, 2021 for Spring B.

Fee Deferral
If you are encountering difficulty in paying tuition and fees, you are encouraged to contact Enrolment Services in Student Services, before the deadlines for payment of tuition and fees, to discuss options for payment and funding.

If you are being funded by a sponsoring agency (for example, WCB, an aboriginal funding agency, employer), Medicine Hat College requires a letter from your funding agency outlining the costs that they will be covering. This letter must be received by Medicine Hat College by the last day to drop. The letter can be faxed or dropped off at Student Financial Aid, or mailed to Student Financial Aid.

How to Pay
Payment Options
Internet or Telephone Banking
All major banks and credit unions offer internet and telephone banking where you can pay your fees 24 hours a day.
- Register with your bank to make online bill payment
- Once you have registered with your bank, your 9-digit student ID number is the account number required to make payment.

Allow two to three business days for processing.

Online (through Plastiq [www.plastiq.com])
- Acceptable forms of payment include Visa or Master Card.
- Plastiq charges a platform fee to your credit card.
Plastiq is an independent third party service provider that you can use to pay your tuition. Ensure that you understand Plastiq’s Terms of Service before using their services.
ATTENTION: Disputes regarding Plastiq’s services must be resolved between Plastiq and the student. Medicine Hat College does not guarantee Plastiq’s services. Using Plastiq may result in delays in Medicine Hat College receiving payment. Students remain responsible for any payment which Plastiq fails to make on their behalf. Due to processing time, allow two to three business days for your payment to appear on your mymhc account.

In Person
Acceptable forms of payment include cash, debit card and cheque.

By Mail
Cheque and money order (made payable to Medicine Hat College) are the only acceptable forms of payment by mail.

Payments should be mailed to:
Medicine Hat College
Student Services
299 College Dr. SE
Medicine Hat, AB  T1A 3Y6
Cancellation of Registration due to Nonpayment of Tuition and Fees

Failure to pay or to make suitable arrangements for payment by established deadlines will result in your being withdrawn from classes and from the official class lists. If you are not on the official class list, you will not be permitted to attend classes or to write examinations and the Registrar’s Office will not accept your final grades. Students wishing to return in semester’s following will need to re-apply and pay the application fee.

Loss of Privileges for Registration

If you have a history of late payments, you may lose your registration privileges or may be required to pay all tuition and fees in full at time of registration.

Refunds

If you completely withdraw after you have registered but before or on the last day to Drop classes, you will be issued a full refund of tuition. You will not, however, be refunded your registration deposit.

If you drop courses anytime after the last day to Drop classes, you will not be issued a refund.

If you have registered for a semester but are subsequently required to withdraw for unsatisfactory performance in the previous semester, you will receive a full tuition and fee refund.

Outstanding Accounts

Certificate, diploma, and degree parchments are withheld if there are outstanding fees or other accounts with Medicine Hat College. In addition, official transcripts will not be released until accounts have been paid in full. If you present student loan forms to the Student Financial Aid Office, outstanding fees will be automatically deducted from the loan.
FUNDING YOUR EDUCATION
**FUNDING YOUR EDUCATION**

For most students, attending college provides new opportunities. It also brings new expenses such as tuition, books, special supplies, additional costs related to practicum, work terms and certifications as well as accommodations, transportation, food and day to day living costs. The goal of Medicine Hat College is to assist you to plan realistically for these expenses and to make you aware of various funding options so that these expenses do not become barriers to your academic success and career goals. Our Student Financial Aid Office is committed to assist you by providing awareness of the options and alternative programs available to finance your education (finaidinfo@mhc.ab.ca) or 403.504.3594.

**Plan Ahead**

When you are considering entering a program at Medicine Hat College, it is important to plan ahead to ensure you are prepared financially and recommend you apply at least two months prior to the start of school. These processes often require that you provide detailed information about school, living expenses, sources of income support and personal resources.

**Funding Sources**

While it is not always possible, it is preferable to find ways of funding your education without accumulating debt. When starting with this as a goal, it is critical to explore all funding possibilities.

**Personal Resources**

Personal resources include working income, savings or RESP’s. It is important to note that many students work while attending classes; however, this potential source of income must be realistically balanced with the academic demands of your program and the amount of studying you need to do to be successful.

**Contributions of Friends and Family**

Friends and family may be resources to assist you. It is important to note that provinces generally consider you to be dependent on your parents and ask you to include financial information on government student loan applications unless you are (individual provinces may differ slightly):

- Out of high school for four years (or)
- Available to the full-time work force for two consecutive 12 month periods
- A parent
- Married

**Employer Plans**

Employers may have a plan that supports or subsidizes higher education for their employees or the children of employees.

**Student Loans**

If government student loans are your choice:

- Make no assumptions about eligibility. Many students are misinformed and fail to take advantage of loans when they are indeed eligible.
- Apply early to ensure funding is in place by September. Contact Student Financial Aid regarding application open date for current year.
- Funds are not actually transferred to your account until after classes have begun so ensure you have a plan in place to pay for textbooks.
- If your loan funding is likely to be late, speak to us in Student Financial Aid about options available to you. If you apply late (after August 1st for Alberta and July 15th for most other provinces) the time from application to actually receiving funds is longer because of the volume of applications being processed by governments later in their cycle.
- We strongly suggest you put interim or short term financing in place until your government loan funding arrives as we are unable to provide for expenses such as accommodation, living and book costs. A tuition payment plan may be available to you in these circumstances the week before tuition is due for the semester.

**Apprentices**

Apprentices please contact the Student Financial Aid Office for further information on funding options at 403.504.3594.

**Government Grants**

For some programs, non-repayable funding is available. This funding, typically, is available to upgrading and ESL/EAP. If you think you may be eligible for this type of funding, contact the Learner Income Support Office in Edmonton at 780.427.3722 or toll free at 1.800.282.6485.

**Chartered Banks**

A student line of credit may be available from your chartered bank. You will need to contact your bank directly for information regarding its services and options.

**Scholarship and Bursary Resources**

**Alberta Provincial Scholarships**

The Alberta Heritage Scholarship Fund has a number of scholarships they award each year. Some require a direct application from you as a student and others are done on the recommendation of the College. Those requiring our recommendation/nomination will be done directly according to the criteria and deadlines set by Alberta Heritage. We suggest you visit their website as some of the application deadlines and amounts awarded change from year to year (www.alis.gov.ab.ca/scholarships).
FUNDING YOUR EDUCATION

Internet Resources
We suggest you invest some time to search through the Internet for scholarships, awards and bursaries. There is a vast amount of potential funding available to students. It does however require that you invest some of your time and creativity.

We have listed a few sites that may offer additional information and scholarship opportunities.

Medicine Hat College Scholarships, Awards, and Bursaries

The Medicine Hat College Foundation, together with our alumni and supporters, has developed and administers a number of scholarships, awards and bursaries to assist you with funding your education at Medicine Hat College. These awards reflect the tremendous generosity and commitment to higher education of these individuals, associations, corporations, and the Medicine Hat College Board of Governors. Each year these funds are distributed according to the criteria stipulated by the donors.

How to Apply
Our scholarships, awards and bursaries applications are available through an online process on the Medicine Hat College website. To find the application, go to www.mhc.ab.ca/scholarships. The application deadlines are posted on the scholarship information page for your convenience. When you apply online, your application automatically enters you for every award you may be eligible for based on donor criteria.

Most scholarships, awards and bursary criteria require that you be registered as a full time credit student in a post-secondary program at the college for the year the funds are given.

Scholarship, awards and bursaries donors stipulate the criteria according to which the funds will be distributed. This could include a broad range of criteria such as academics, financial need, volunteerism, or any other criteria specified by the donor. When completing the application, be sure to include all the requested information, as it may increase your chances of receiving a scholarship, award of bursary.

Athletic Scholarships

Three types of athletic scholarships are available to student athletes:
1. Government of Alberta Scholarships
2. College scholarships which are funded by the college
3. Private scholarships which are funded by various donors

Regardless of the funding source, athletic scholarships are awarded on a semester basis and adhere to the rules of the Alberta Government’s scholarship program. All Rattlers scholarships are administered through the Student Financial Aid office. Information on the scholarship program can be requested through the Student Financial Aid office at 403.504.2299.
ACADEMIC REGULATIONS AND POLICIES
ACADEMIC REGULATIONS AND POLICIES

Course Outline
At the beginning of each course, you will be given a course outline that specifies course aims, objectives, course topics, the evaluation to be used, weighting and distribution of marks, penalties for late assignments (if used), and assigned readings. If substantial changes to the course outline, including the weighting and distribution of marks, are necessary, you will receive written notice.

Attendance
All Medicine Hat College students are strongly encouraged to attend all scheduled classes, labs, tutorials, seminars, and practicum placements in each academic term. Where specified in the course outlines, learners are expected to conform to the particular attendance requirements of a class or program as failure to do so may be reflected in the learner’s grade impacting acceptable progress.

Alberta Community & Social Services (ACSS) funded full-time learners are also required to meet conditions of acceptable attendance to maintain funding.

A learner may not be absent from classes for more than three consecutive weeks for any reason unless approved by an ACSS Learner Specialist. An ACSS Learner Specialist can be reached by calling 1.877.644.9992.

Examination Policy
Final exams must be scheduled by Student Services except for take-home exams, final projects, or lab exams. When the final exam schedule is issued, you are asked to report any errors, omissions, or conflicts to Student Services as soon as possible. A conflict is three exams in the same day or two exams at the same time.

You are expected to complete final exams and to be available for examinations up to the last day of examinations, as specified in the Academic Schedule.

Examination Guidelines
• Unless approved prior to an examination by the instructor concerned, you may not take any notes, books, calculators, or related material into an examination. Jackets and purses should be placed at the back or the side of an examination room.
• Laptop computers may not be used to write examinations unless approved by the instructor or Dean.
• You may not enter an exam room after half an hour has elapsed from the start of the exam and may not leave until a half an hour has elapsed from the start of the examination.
• Should you become ill or receive word of a domestic affliction during the course of an examination, immediately report this to the supervisor, hand in the unfinished paper, and request that it be cancelled. If illness is the cause, you will need to supply medical documentation within 72 hours to the instructor.
• If you write an exam, hand in the paper for grading, and later ask for the exam to be cancelled due to illness or other extenuating circumstances, the request will be denied.
• Once you leave an examination, you may not return to the examination room. Cigarette breaks or coffee breaks are not permitted unless approved in advance by the instructor. If you must use the washroom facilities, permission must be granted by an instructor. Two students may not be in the washroom at the same time during the exam. An instructor reserves the right to accompany you.
• If you are a student with accessibility considerations make any necessary arrangements well in advance of the day of an examination.
• Please respect the quiet atmosphere of an exam room, particularly when you leave the exam room (you are not permitted to talk during an examination or as you exit the room).

Deferral of Examinations
Deferral of examinations and assignments are only allowed when you cannot comply with the established dates and times, for a valid reason. Valid reasons for deferral include:
• bereavement
• personal illness or injury
• religious observances
• domestic affliction
• disability

Deferral of a final examination must go to the Dean with supporting documentation. In the event of illness or hospitalization, a medical statement must indicate the specific date and time you required medical attention and the nature of the illness, and how the illness affected your capacity to write the examination. In the event of religious observances, disability, or exam conflicts, the request must go to the Dean at least two weeks prior to the scheduled exam. The authority to grant or to deny the deferral of a final exam is vested with the Dean, who may deny the deferral if just cause is not shown.

If you are absent from an examination due to unforeseen reasons, you must notify the course instructor or the Dean within 48 hours of the missed examination.

Deferral of term work or assignments may be granted by the course instructor for reasons similar to those considered valid for final exams. The request for a deferral, accompanied by written documentation, must be submitted to the instructor prior to the date of the examination.

Examination Retakes
Students will not be permitted to retake Medicine Hat College final exams with the exception of situations deemed appropriate through the grade appeal process.

Summary of Symbols

- W: Withdrawal
- IC: Incomplete
- CR: Credit Awarded (Pass)
- NC: No Credit Awarded (Failure)
- RD: Report Delayed
- IP: In Progress (currently taking)

Withdrawal Grade
You will receive a “W” grade following the drop deadline until the withdrawal deadline.

Incomplete Grades
An incomplete “IC” grade may be assigned if in the event of extenuating circumstances such as sickness or severe domestic affliction, you are unable to complete the course requirements. All incomplete “IC” grades must be cleared with the Divisional Dean. An incomplete “IC” grade is valid for 30 days after the final exam date to enable you to complete the course requirements. All incomplete grades must be resolved within 30 days. If the Registrar’s office does not receive a letter grade within the 30 day period an “F” grade may be assigned.

Credit/No Credit Awarded Grading
If a course is graded on a CR/NC basis this is indicated in the course descriptions. A course that has no indications to grading is assumed to be a graded course.

Special Grading Conditions
The number of D and D+ grades acceptable for credit is subject to specific program policy. All conversion of course evaluations to letter grades must be clearly defined in the course outlines as percentage grades to letter grades. Various sections of the same course will have common, course-specific objectives and evaluation standards which must be defined in the course outline. When calculating grade point averages, all courses will be included except those courses to which a “W”, “IC”, “CR”, “NC”, “RD”, “IP” grades have been assigned.

Honour Roll

President’s Honour Roll
If you have earned a minimum grade point average (GPA) of 3.87 on all courses taken during each semester, you will be placed on the President’s Honour Roll. A minimum of 15 credits per semester must be completed and none can be incomplete “IC” grades. All classes taken will be included into the GPA calculations. The GPAs will be calculated to two decimal points and will not be rounded up.

College Honour Roll
If you have earned a minimum grade point average (GPA) of 3.5 on all courses taken during each semester, you will be placed on the College Honour Roll. A minimum of nine credits per semester must be completed and none can be incomplete “IC” grades. All classes taken will be included into the GPA calculations. The GPA’s will be calculated to two decimal points and will not be rounded up.

Release of Final Grades
After the examination papers have been marked at the end of each semester and the final results computed, they must be reviewed and recorded in the College’s permanent records before an official transcript can be released. Grade statements and unofficial transcripts are available on-line. Any errors should be reported to Student Records within two weeks of the grade being posted.

Repetition of Courses
You are allowed three attempts to successfully obtain a passing grade in any Medicine Hat College course. You will not be permitted to attempt the course a fourth time unless the Dean (or designate) grants permission. Normally, you will be asked to wait at least one academic year before permission will be granted for a fourth attempt to pass a course. Please note that some Medicine Hat College programs may outline program specific policy detailing how many times you may attempt a course. Additionally, some institutions to which courses may transfer may have a specific policy detailing how many times you may attempt a course. Such policies supersede this policy.
ACADEMIC REGULATIONS AND POLICIES

Probation and Dismissal

- You will be placed on academic probation if your grade point average is less than 1.7 on six or more credits at the end of a regular semester.
- If you are on probation, you will be sent a letter from the Registrar outlining the possibility of dismissal at the end of the next regular semester, or the next semester in which you attend the College. You will be encouraged to contact an Academic Advisor, Counsellor, or to seek assistance at the Open Learning Centre to improve your academic performance.
- If at the end of the next regular semester, or the following semester in which you attend, your grade point average is still less than 1.7 on six or more credits, you shall be dismissed for one academic year.
- If you wish to appeal your academic dismissal, you must meet with an Academic Advisor and the Registrar to explore possible reinstatement opportunities and conditions.

If you are dismissed and wish to return to Medicine Hat College after one year, you must re-apply for admission. Medicine Hat College reserves the right to deny readmission or to implement certain conditions of admission, which if violated, may result in immediate dismissal.

Fraudulent Transcripts and Admission Documentation
You will be dismissed if it is discovered that your admission was obtained due to a fraudulent document.

Program Policies Governing Probation and Dismissal
You may be governed by somewhat different probation and dismissal policies depending on your program. These policies are clearly stated in the program sections of this Calendar.

Academic Dishonesty
You will be dismissed for subsequent occurrence of academic dishonesty or unsatisfactory behavior in academic matters. (see section on Student Academic Integrity).

Academic Standing and Athletic Playing Eligibility

Eligibility
Eligibility to participate as a student athlete will follow the regulations of the relevant national and provincial governing bodies. For detailed rules on eligibility, student-athletes should refer to the most recent version of the relevant national and provincial governing body’s operating codes. A copy can be found on-line or in the Rattler’s Athletics office.

Athletic Probation & Dismissal
The probation and/or dismissal of student-athletes is governed by college policy administered by the Registrar. Information on probation and dismissal can be found in the college’s academic calendar and from the Registrar’s Office in Student Services.

Grade Reappraisals

General Considerations
- Faculty has the right and responsibility to provide course outlines, careful evaluation and timely assignment of appropriate grades.
- There is a presumption that grades assigned are correct. Should you choose to appeal a grade, it is your responsibility to demonstrate otherwise.
- In the absence of compelling reasons, such as instructor or clerical error, prejudice, or capriciousness, the grade assigned by the instructor is to be considered final.
- It is recognized that in many courses there are no right or wrong responses and there are often multiple points of view and interpretations among students, faculty, authors and recognized experts.
- Faculty and students must maintain respect for the dignity of the other party. In instances where this does not occur, those involved should consult the College’s Harassment Policy.
- A grade may only be changed by the instructor who issued it or by the Vice President Academic based on the outcome of a formal appeal.

Four Grounds for Academic Appeal
1) Unforeseen Exenuating Circumstances - If you believe unforeseen extenuating circumstances interfered with your academic performance, you can appeal your grade. Documentation will be needed to support your claims.
2) Merit of Work - If you think that your course/work was credited for less than it was worth; you can appeal.
3) Procedural Irregularity - If you think that your problems were due to the way that the course was administered, or if the course outline was not properly followed, you can appeal.
4) Discrimination - If you think that your grade was based on considerations other than on the merit of your work, you can appeal.

Academic Integrity and Academic Integrity Violations

As a Medicine Hat College student, you are expected to conduct yourself with honesty, honour the academic community, and demonstrate personal accountability to uphold mutually agreed-upon standards of conduct that are fundamental in the search for knowledge and learning at Medicine Hat College. Academic integrity is one of those standards of conduct.

Academic integrity is the moral code of academia and can be defined as the use, generation, and communication of information in an ethical, honest, and responsible manner. Academic integrity violations (including cheating, fabrication of information, facilitating academic misconduct, intentional and unintentional plagiarism) will result in disciplinary action. Medicine Hat College expects students to exercise responsible social conduct that reflects favorably upon themselves and the college. This requires conduct that is consistent with the laws and the generally accepted social behavior of our community and society, and academic integrity includes taking responsibility to gain the knowledge and skills necessary to avoid engaging in behaviors deemed to be academic integrity violations.
ACADEMIC REGULATIONS AND POLICIES

Grade Appeal Process

Informal Grade Appeal Process

1) You receive an assignment, examination, or final grade that you wish to dispute. You must contact your instructor for clarification within 10 working days of receiving the grade. You are responsible for monitoring posted final grades.

2) If you are not satisfied with the clarification provided by the instructor, or if you have made verifiable attempts through the division office to meet with the instructor without success, you may contact the dean.

3) Put your concerns in writing to the dean responsible for the course within 20 working days of receiving the assignment or grade. You may ask the Students’ Association to help you with the appeal process.

4) The dean will meet individually with you and the instructor (and a Students’ Association representative and a Faculty Association representative, if applicable), to review all relevant graded work, and documentation, and the pertinent calculations that have contributed to the assigned grade. The dean will respond to you within five working days of the meeting and indicate whether or not consensus has been achieved in relation to the grade assignment.

Most appeals are resolved at this level.

Formal Grade Appeal Process

1) Should you feel the matter has not been resolved, you may continue the appeal by submitting the grade appeal form (available at the Registrar’s Office) within 10 working days of the date of the dean’s response to you. A fee of $25.00 will be charged. (This fee will be refunded if the appeal is successful).

2) The Registrar will forward the appeal form and all other written documentation, to the office of the Vice-President, Academic.

3) The Vice President, Academic or designate will form an Appeal Committee composed of a student representative from another program recommended by the Students’ Association of MHC, one faculty member from another division recommended by the Faculty Association of MHC and the Vice President, Academic or designate, who will have final approval of the nominees from the respective associations and chair the committee.

4) The Appeal Committee will review the written documentation and hear from all parties concerned in the matter, including the instructor and the student. The committee shall make a decision within 20 working days from the date the student filed the appeal with the Registrar. The decision of the committee is final.
ACADEMIC REGULATIONS AND POLICIES

Student Academic Integrity

Responsibility of the Student
The student is obligated to refrain from all forms of behavior that constitute violations of academic integrity. The following actions are examples of actions and behaviors that constitute academic integrity violations, but the list does not exhaust the forms of academic integrity violations.

Plagiarism
Plagiarism is the submitting or presenting of work in a course as if it were the student’s own work done expressly for that particular course. Plagiarism is an extremely serious academic integrity violation. Most commonly plagiarism exists when:

1. The work submitted or presented was done, in whole or in part, by an individual other than the one submitting or presenting the work.
2. Parts of the work were taken from another source without reference to that source.
3. The whole work (e.g. an essay) was copied from another source.
4. The work submitted or presented in one course was also submitted, in whole or in part, in another course without properly referencing the original submission and without the prior agreement of the instructors involved.

Cheating
Cheating is also an extremely serious violation of academic integrity. In an academic context, cheating most commonly occurs in tests or examinations when a student:

1. Uses unauthorized materials (e.g., textbooks, notes) or communicates unauthorized information by whatever means (e.g., cell phones, calculators and other electronic devices).
2. Copies the work of another person.
3. Leaves answer papers exposed or otherwise enables other students to inappropriately access learning materials.
4. Consults any person or materials outside the confines of the examination room without permission to do so.

Inappropriate Collaboration
Inappropriate collaboration occurs when an instructor requires students to work alone on an assignment or limits the amount of collaboration students engage in for a specific purpose and as part of the learning process. Serious problems can occur when students do not follow the instructions regarding collaboration. Inappropriate collaboration occurs when a student:

1. Collaborates on an assignment which they were expected to complete independently.
2. Copies part of the work of another student exactly on an assignment on which collaboration is allowed but copying is not.
3. Completes a part or the whole of any assignment for another student.
4. Paraphrases or copies the work of another student without providing proper citation.
5. Poses as, or facilitates another posing as, someone else during an exam.

Other Academic Misconduct
Other academic misconduct includes, but is not limited to:

1. Falsifying or fabricating the results of investigations or laboratory experiments.
2. Tampering with, destroying, stealing or making inaccessible library or other academic resource materials, including computer programs and files.
3. Altering marks on an assignment, tests, examination, or list.
4. Acquiring, attempting acquisition, possessing or distributing examination materials or information not authorized by the instructor.
5. Impersonating another student in an examination or class assignment.
6. Recording lectures or classes without authorization.

As outlined in the examples above, violations of academic integrity also includes the helping of another person to commit an act of academic dishonesty.

Moreover, as a responsible member of the academic community of Medicine Hat College, all students are expected to take an active role in encouraging other members to respect the basic standards of intellectual integrity. If a student suspects a violation of intellectual integrity by another student, the suspicion should be made known to the instructor. If a student suspects a violation of academic integrity by the instructor, the suspicion should be made known to the Dean.

Responsibility of the Instructor

- The instructor is obligated to exercise care in the planning and supervision of academic work so that honest effort will be positively encouraged.
- The instructor is obligated to clearly communicate the requirements for assignments, tests, and examinations, including but not limited to such requirements as source citation format in written assignments and materials authorized for use in tests and examinations.
- The instructor is obligated to clearly define the appropriate levels of collaboration on all assignments.
- The instructor is responsible for the proctoring of all tests and examinations. The use of substitute proctors is allowable only with the approval of the dean.
- The instructor is responsible for supporting the institution’s efforts to create a culture of academic integrity.
Consequences of Intellectual Dishonesty
The penalty for an act of intellectual dishonesty shall ordinarily be determined at the reasonable discretion of the instructor, and may be
the reduction of the grade on the assignment, test, or examination. The penalty shall normally be a zero grade on the assignment, test or
examination. Ordinarily the matter will be concluded at this stage. The student may appeal the instructor’s decision in writing to the dean
within 10 working days of receiving the grade.

Should the instructor deem the offense to warrant a stronger penalty, the matter shall be referred to the dean whereupon the penalty may
result in an F grade for the course or courses, expulsion from the course or courses, expulsion from the program, or expulsion from the
college.

In cases referred to the dean by an instructor or appealed by the student, the process shall be as follows:

1. The instructor shall formally notify the student and the appropriate dean in writing outlining the details and context of the academic dishonesty. The student appealing an instructor’s decision must do so in writing within 10 working days of receiving the grade.

2. The Dean will meet separately with the instructor and the student (and a Students’ Association representative and a Faculty Association representative, if applicable) to review all work and documents related to the matter;

3. The Dean shall review the matter and recommend an outcome to the Registrar and the Vice President, Academic. The Registrar shall inform the student of the outcome.

Appeal of Disciplinary Action for Academic Integrity Violations
The student can appeal the decision by notifying in writing the office of the Vice President, Academic within 20 working days from the
date of the dean’s decision.

1. The Vice President, Academic or designate will form an Appeal Committee composed of a student representative from another program recommended by the Students’ Association of MHC, one faculty member from another division recommended by the Faculty Association of MHC and the Vice-President, Academic or designate, who will have final approval of the nominees from the respective associations and chair the committee.

2. The Appeal Committee will review the written documentation and hear from all parties concerned in the matter, including the instructor and the student. The committee shall make a decision within 20 working days from the date the student filed the appeal with the office of the Vice President Academic. The decision of the committee is final.

Student Non-Academic Misconduct
Medicine Hat College’s Student Non-Academic Misconduct Policy and Procedure address behavior on Medicine Hat College premises
that violate explicitly stated rules, regulations and policies. This includes, but is not limited to, acts of violence, theft, discrimination, ha-
rassment, sexual harassment/violence, and possession of illegal substances or weapons. Acts that are criminal in nature will be turned
over to the appropriate authorities. Violations of the Student Non-Academic Misconduct Policy may lead to penalties and sanctions, up
to and including dismissal or expulsion from Medicine Hat College.

The full policy and procedure can be found on Medicine Hat College’s website at www.mhc.ab.ca/aboutmhc/collegeprofile/policiesand-
publications/policiesandprocedures.

**CONVOCATION**

Medicine Hat College offers Convocation Ceremonies annually in June.

**Application to Receive Your Parchment**

Congratulations on nearing the end of your program. You must apply to receive your academic credentials by completing a Graduation application form.

The graduation application form is online through the Dashboard (accessed through Logins on the Medicine Hat College website).

**Plan to Attend the Convocation Ceremony**

If you plan to attend the convocation ceremony, you must also complete the gown order portion of the graduation application form. A gown will not be reserved for you unless you complete this step. There is a $25 fee payable at the time of submitting the graduation application.

**Graduation Dates**

For more information about Convocation, check the website at www.mhc.ab.ca.

**General Graduation Requirements**

**Residency Requirements For Certificates, Diplomas and Applied Degrees**

In order to receive a Medicine Hat College certificate or diploma, you must complete 40 percent of the course content at Medicine Hat College.

**Parchments**

Medicine Hat College offers certificates, diplomas and applied degrees. In order to earn a particular parchment from Medicine Hat College, you must have successfully completed the specific courses and program requirements outlined in this calendar. You must satisfy all the program requirements to receive a parchment.

**Participation in Convocation**

Students must have completed or be registered in all program requirements and have settled all outstanding accounts with the College prior to the convocation ceremony to be able to participate in the ceremony. Students who are in progress with final coursework at the time of the ceremony may be considered for participation providing they are recommended for participation by the Divisional Dean, have achieved a minimum GPA of 2.0 in previous semesters, and will generally complete all program requirements within four weeks of the convocation ceremony.

**High School Equivalency Diploma**

Medicine Hat College offers a High School Equivalency Diploma based on the successful completion of five courses as outlined.

Students may use a combination of Alberta Education credit courses and Medicine Hat College high school equivalency courses to obtain the High School Equivalency Diploma.

Possession of a High School Equivalency Diploma does not grant nor guarantee admission to a post-secondary institution. Students who intend to enter any post-secondary institution must check the calendar of that institution for the applicable admission requirements.

**High School Equivalency Diploma Requirements**

1) English 030 or 033 (English 30-1 or 30-2)
2) One 30-level course from Group A
3) Three additional courses from Group B that have not already been used in Group A

**Note:** If the 030 level course is chosen from Group A, the 020 level course cannot be chosen from Group B. Only two 010 level courses can be used from the list below. Science 010 cannot be used if any other science course is chosen. Some of the courses in Group B are not offered at Medicine Hat College but may be used for the courses allowed from outside institutions.

**Group A**

- Math 30 or Math 030FN (Math 30-1 or Math 30-2)
- Math 031
- Social Studies 030 or Social Studies 033 (Social Studies 30-1 or Social Studies 30-2)
- Biology 030
- Chemistry 030
- Physics 030
- Science 030

**Group B**

- Social Studies 020 or Social Studies 030 or Social Studies 033 (Social Studies 20-1 or Social Studies 30-1 or Social Studies 30-2)
- World Geography 30
- Biology 020 or 030
- Chemistry 020 or 030
- Physics 020 or 030
- One of the following Math courses: Math 010 or 010FN (Math 10C) or Math 020 or Math 020FN (Math 20-1 or 20-2) or Math 030 or Math 030FN (Math 30-1 or Math 30-2)
- Math 031
- Computers 010 or MICO 191
- Science 010
- Any 30-level language other than English
- Any 20 or 30 level Psychology course or Psychology 205
- Sociology 201
- One course or a combination of courses to total three credits in PEAC (Physical Activity) and/or ETOL (Ecotourism and Outdoor Leadership)
Matriculation Equivalency Diploma Requirements
1) English 030
2) Any four subjects from Biology 030, Chemistry 030, Math 030, Math 031, Physics 030, Social Studies 030, a language at the 030 level or higher. (e.g. French 030, French 202)

Qualifying Conditions for Diplomas
In order to earn either of the High School Equivalency Diplomas from Medicine Hat College, the following are required:
   a) A minimum of five one semester credit courses must be completed with at least a grade of C- in each with an overall cumulative GPA of 2.0 in the five courses
   b) At least two of the five courses (40%) must be completed at Medicine Hat College
STUDENT RIGHTS AND RESPONSIBILITIES
The purpose of the statement is to identify a set of rights and responsibilities of the students enrolled in the credit programs of Medicine Hat College. In the event of a perceived or alleged breach of the statement, a student, students, or the Students’ Association may seek resolution through established College procedures.

As a student enrolled in a credit program at Medicine Hat College, you should have rights and assume responsibility in accordance with applicable college policies and procedures, as set out in this section of the Calendar. All of the rights and responsibilities apply to full-time students and all, except items 8, 9, and 10 apply to part-time students.

1. Right
   To have your rights respected by fellow students, faculty, staff, administrators and other persons associated with the College.

   Responsibility
   To respect the rights of fellow students, faculty, staff, administrators, and other persons associated with the College.

2. Right
   To a College environment that complies with institutional and relevant government regulations, policies, and procedures.

   Responsibility
   To observe College and relevant government regulations, policies, and procedures intended to protect the environment of the College.

3. Right
   To participate and to be represented in the affairs of the College through the Medicine Hat College Students’ Association, an organization dedicated to being responsible and responsive to the student body at large.

   Responsibility
   To be an active member in good standing of the Students’ Association, and to participate, when feasible, in the democratic processes of the Association.

4. Right
   To have access to current information published in the College Calendar or, when such publication is not timely, posted in Student Services regarding academic regulations, policies, and procedures, including admission and registration requirements and procedures, program and graduation requirements, final examination policy and regulations, and transfer arrangements as outlined in the Alberta Transfer Guide. This information may also be accessed on our website.

   Responsibility
   To familiarize yourself with current information regarding academic regulations, policies, and procedures, and to follow those regulations, policies, and procedures to the extent that such regulations, policies, and procedures are printed in the College Calendar or posted in Student Services.

5. Right
   To have appeal and grievance procedures established by the College and printed in the College Calendar or, when such publication is not timely, posted in Student Services.

   Responsibility
   To make yourself aware of appeal and grievance procedures.

6. Right
   To the confidentiality of transcripts and of the grade assigned for each course, except by express written permission. (The College reserves the right to confirm or deny questions concerning students’ registration and/or completion of a program. The College reserves the right to make transcripts available for authorized purposes within the College without student permission for such purposes a scholarship and financial aid eligibility, program advising).

   Responsibility
   To respect the confidentiality of the academic records of fellow students.
7. Right
To view, in the Office of the Registrar, the College’s official student record as contained in your permanent file.

Responsibility
To respect College regulations regarding the viewing of the official student record.

8. Right
To have access to a place in each required course of the program in which you are registered at least once during the normal length of the program for full-time students.

Responsibility
To take each required course of the program in which you are registered as soon as a place becomes available after the prerequisites for those courses have been met.

9. Right
To have the graduation requirements of the program in which you are registered remain unchanged from those in effect when you first registered in that program, if you do not interrupt your program. If the requirements are changed, students registered in that program will be given the choice of which curriculum to follow, if possible, except where the change is dictated by external agencies or where specific courses required for graduation are no longer available, in which case, the Dean (or designate) may specify alternatives.

Responsibility
To endeavor to complete the program under the curriculum best suited to your personal circumstances in view of the reasons for the change.

10. Right
To have the length of the program in which you are registered remain unchanged from the length of the program when you first registered in that program. If the length of a program is changed, students registered in that program and who have not interrupted their program, will be, if possible, given the choice of which curriculum to follow except in cases where the length of the program is dictated by external agencies.

Responsibility
To endeavor to complete the program under the curriculum best suited to your personal circumstances in view of the reasons for the change.

11. Right
To have the opportunity to complete, within its normal duration, the program in which you are registered as a full-time student if and when that program is discontinued by the College.

Responsibility
To select alternative solutions if enrollment or funding factors limit completion opportunities.

12. Right
To be given a written outline at the beginning of the courses in which you are registered, stating the objectives of the course, the evaluation system to be used, the requirements regarding class attendance and punctuality, the format and due dates of major assignments, as well as penalties if they are to be employed. In the event that circumstances beyond the control of the instructor compel substantial changes to course content and/or classroom procedures, rules, and regulations, you will be given written notice of such changes.

Responsibility
To make yourself aware of and follow the requirements of the written course outline even when you are absent from a particular class.

13. Right
To the availability of course instructors for assistance and consultation outside of scheduled class periods, at mutually agreeable times.

Responsibility
To monitor your own academic progress and to seek help to resolve academic or career choice difficulties. In the case of academic difficulties, you shall first discuss such matters with your course instructor before enlisting other advice and assistance. In the case of program concerns, you should consult first with the Coordinator and/or Dean.
STUDENT RIGHTS AND RESPONSIBILITIES

14. Right
To have course times, as scheduled in the College timetable at the time of registration, remain unchanged except in exceptional circumstances as determined by the College and to have classes start and end at the scheduled times.

Responsibility
To arrive on time for your classes and to remain for the duration of those classes, except in exceptional circumstances. To attend classes regularly and to obtain handouts and notes when absence is necessary.

15. Right
To be notified, whenever possible of class cancellations in advance of the class meeting.

Responsibility
To accept exceptional circumstances and to be prepared to spend the time on other useful endeavors.

16. Right
To the assurance that various sections of the same course have common course-specific objectives and comparable requirements and evaluation standards, and to have these described in the course outline.

Responsibility
To respect the faculty member’s rights to determine the course content, instructional methodology, and evaluation procedures within the guidelines set for the course.

17. Right
To have access to a review with the instructor of in-course tests, examinations, and course assignments within 10 working days of return of the grade and to have supervised access to final examinations, in the divisional office and without benefit of a review with the instructor or other College employee, within 15 working days of the release of final grades by Student Services.

Responsibility
To request a review or access to test, examinations, or course assignments, if you wish such review or access, within the time period appropriate to the grade (i.e., in-course or final).

18. Right
To have your views taken into consideration in College-sponsored evaluations of instruction and student-oriented services, and to be assured that your individual contributions will be kept confidential.

Responsibility
To participate in such evaluations when requested.

19. Right
To have graded work returned in a timely manner throughout the semester and specifically, to have an indication of your level of performance in a course prior to the last day to voluntarily withdraw from courses.

Responsibility
To submit work in a timely fashion, in accordance with deadlines in the course outline; to know the add, drop and withdrawal dates posted in the calendar; to seek feedback from the instructor and from various academic resources as strategies to improve performance; to make informed choices about your course registrations in response to feedback about your performance.
Addictions Counselling

The program provides you with the competencies required for interventions appropriate to individuals, families, and communities experiencing a variety of compulsive behaviors such as substance abuse, gambling, and eating or sexual disorders.

This rigorous and unique program prepares you with knowledge of a range of dependencies and with multilevel intervention skills. After graduation you will be able to promote healthy lifestyles in urban and rural settings and with diverse populations. This program, equipped with counseling-based skills and the potential to enhance the protective factors related to the resilience of individuals, families, and communities. You will find the field appealing as a healthy, high functioning individual, or if you have experienced addictions in your own life and have achieved a level of stability and functioning that enables you to counsel others successfully. Due to the nature and demands of the addictions counselling profession, the program invites emotional involvement and an ongoing commitment to self-awareness as an integral component of the process of becoming educated as a professional addictions counsellor.

The Medicine Hat College Addictions Counselling Program meets the knowledge, skill and application competencies of The Canadian Addiction Counsellors Certification Federation (CACCF). The Medicine Hat College Addictions Counselling program is also approved by the CACCF and, as a result, graduates of the program are eligible for certification with CACCF and are also eligible for membership with The Addiction Professionals Association of Alberta (APAA). In regard to the CACCF all the courses meet the education requirements for the ICADC and the CCAC. The HLSC 350 internship course qualifies for the 360 supervised clinical hours required for CCAC and IDACD certification should graduates of this program decide to pursue their certification through CACCF.

Career Opportunities
Graduates of the Addictions Counselling Program will be prepared to find work in private and public addictions agencies, educational and health institutions, the criminal justice system, women’s shelters, and youth group homes. Upon graduation, students are eligible to apply within the profession of addictions counselling through the Alberta College of Counselling Therapy. To work in the addictions counselling profession in Alberta, an addictions counsellor must be registered. Graduates of the Addictions Counselling Program have found employment as:

- Prevention Workers
- Early Intervention Counsellors
- Treatment Counsellors
- Addictions Educators
- Women’s Shelter Counsellors
- Criminal Justice Workers
- Community Program Educators

Admission Requirements

High School Route
- ELA 30-1
- Biology 30 or Chemistry 30
- Two 30-level academic subjects
- One Grade 12 5-credit subject (excluding Special Projects)

Mature Student Route
Limited number of seats are available for mature students who do not meet high school subject requirements but have personal or professional experience with Addictions. A letter should be submitted to admissions@mhc.ab.ca. It is recommended mature students meet with an Academic Advisor or the program coordinator prior to submitting an application via this route.

Transfer Route
Eight or more transferable courses or a completed two-year College diploma.

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Other admission considerations
- An interview and/or letter of intent may be required.
- If you have significant experience(s) with addictions you should be apprised of the need to have reached a level of stability and functionality that will allow you to undertake this program of studies and to counsel others.

### Internship/Practicum

While every effort is made to accommodate your needs and preferences, you will likely travel out of Medicine Hat during the fieldwork semesters. Costs may be associated with travel and relocation and you are reminded to keep these in mind when calculating program costs. Placement decisions are based on your needs, placement/agency needs, and the outcome of placement interviews with agencies.

In order to ensure the protection of clients, students are required to provide proof of up-to-date child welfare and criminal record checks, at their expense, prior to entry into practicum placements. These documents need to be submitted to the Division of Science & Health, Health & Human Services administrative assistant. Students may be responsible for providing copies of the Alberta Children’s Services Intervention Record Check and Police Information Check to practicum supervisors prior to starting placements. Students are obligated to inform the Program Coordinator immediately of any change in the status of your criminal record. Prior involvement with Alberta Children’s Services or a criminal record may limit the practicum options available to you.

ALL students going to internships in Alberta Health Services (AHS) need to have your organizational requirements in place before proceeding into practicum.

These requirements include:
- proof of immunizations: Rubella is required as it is legislated by the Public Health Act. Students who are not immunized against Rubella may not complete a placement with AHS. Other immunizations are highly recommended and AHS strongly advises students are fully immunized in accordance with the "Standard for Immunization of Post-Secondary Health Care Students and Students in Other High-Risk Occupational Programs".
- signed AHS Oath of Confidentiality; this is generated upon completion of the mandatory Information and Privacy training.
- signed AHS Oath of Confidentiality; this is generated upon completion of the mandatory Information and Privacy training.
- proof of immunizations: Rubella is required as it is legislated by the Public Health Act. Students who are not immunized against Rubella may not complete a placement with AHS. Other immunizations are highly recommended and AHS strongly advises students are fully immunized in accordance with the "Standard for Immunization of Post-Secondary Health Care Students and Students in Other High-Risk Occupational Programs".
- signed AHS Oath of Confidentiality; this is generated upon completion of the mandatory Information and Privacy training.

### Continuation Requirements

#### Continuation in the Program
To be in good standing, you must:
- maintain a Grade Point Average (GPA) of 2.0
- achieve a grade of C or better in all HLSC courses
- achieve a C or better in all first and second year courses, including electives, prior to HLSC 350 (all are prerequisite courses)
- pass both theoretical and clinical components of HLSC courses in order to receive credit in these courses. Should you fail the practical component of an Addictions Counselling course you will not be allowed to register in further Addictions Counselling courses which include practical components. You are only permitted to repeat an HLSC course once.

As a student in the Addictions Counselling Program you are expected to exercise responsible conduct that reflects favorably on you as a developing professional, the program, and Medicine Hat College.

Questionable performance in relation to harming yourself or others and/or to the maintenance of the professional standards of the program may result in you being asked to leave the course/lab setting/internship placement at any time and you may receive a failing grade in the course. Should you be found to be in academic difficulty or should your professional suitability be of concern, you may be referred for remedial assistance or, in extreme cases, asked to withdraw from the program.

If you have been absent from the program for one calendar year and are returning to complete a course, you will be required to successfully complete a comprehensive evaluation. Depending on the outcomes of the evaluation you may be required to successfully complete remediation in preparation to enter the practicum.

#### Required Withdrawal
If you are dismissed from the program for academic or practice reasons (see Academic Probation) you may reaply for readmission after a lapse of a full year. If you are dismissed for a second time, you will not be readmitted.

### Electives

In addition to the specified core courses, students must also complete 5 additional university transfer courses prior to taking HLSC 350. Electives may be drawn from courses, which transfer to the University of Lethbridge as per the Alberta Transfer Guide (available at www.transferalberta.ca) and meet their Liberal Education Requirement. Contact your Academic Advisor for a list of appropriate selection.
Addictions Counselling
Diploma

Graduation Requirements

Diploma
You must complete all program requirements for first and second years with an overall GPA of 2.0 and no grade less than C in the HLSC courses.

Time Limits for Program Completion
You are allowed four years to complete the Diploma, following the completion of the first addictions course.

Transfer
Excellent transfer opportunities have been developed with:

Athabasca University
The Addictions Counselling diploma transfers to Athabasca University’s Bachelor of Professional Arts (Human Services) degree.

Lethbridge College
Graduates with a cumulative GPA of 2.0 or higher along with the completion of additional bridge coursework are eligible for block transfer credit into the third year of the Bachelor of Applied Arts in Justice Studies program. Students should contact an Academic Advisor for more information.

Thompson Rivers University
Graduates are eligible to receive advanced credit toward the Bachelor of Health Science or the Bachelor of General Studies. Students should contact an Academic Advisor at TRU for further information.

University of Calgary
Graduates of the Addictions Counselling Diploma are eligible to apply to the two-year post-diploma Bachelor of Community Rehabilitation (BCR) program. Students should contact an Academic Advisor for more information.

University of Lethbridge
Students with a minimum GPA of 3.0 are eligible to transfer into the University of Lethbridge’s Post-Diploma Bachelor of Health Sciences-Addictions Counselling program.
Addictions Counselling/Social Work
Dual Diplomas

The Addictions Counselling/Social Work combined diplomas program facilitates the completion of two diplomas in three years. The combined program is distinct and students must follow a prescribed program over three years to successfully complete the two diplomas.

The three year program combines knowledge of the humanities and behavioral sciences, addictions and compulsive behaviours, social work theory and philosophy, and the development of practical skills through academic classroom study and fieldwork settings.

The dual program meets the theory, research, and skill competencies of The Canadian Addictions Counsellors Certification Federation (CACCF) and therefore graduates of the program are eligible for certification with CACCF. In regard to the CACCF all the courses meet the education requirements for the ICADC and the CCAC should graduates of this program decide to pursue their certification through CACCF. Upon graduation, students are eligible to apply within the profession of addictions counselling through the Alberta College of Counselling Therapy. To work in the addictions counselling profession in Alberta, an addictions counsellor must be registered.

Graduates of the program are also eligible for membership with The Addiction Professionals Association of Alberta (APAA) and the Alberta College of Social Workers (ACSW).

Career Opportunities

Graduates of the Addictions Counselling/Social Work Dual Diplomas Program will be prepared to work in a broad range of public and private health, social, addictions, and welfare agencies, educational institutions, and the criminal justice system. Students will be prepared to work with individuals, families, groups and communities.

Admission Requirements

High School
- ELA 30-1 (minimum 60%)
- Biology 30 or Chemistry 30
- Two 30-level academic subjects
- One grade 12 5-credit subject (excluding Special Projects)

Mature Student
Limited number of seats are available for mature students who do not meet high school subject requirements but have personal or professional experience with Addictions. A letter should be submitted to admissions@mhc.ab.ca. It is recommended mature students meet with an Academic Advisor or the program coordinator prior to submitting an application via this route.

Transfer Route
Eight or more transferable courses or a completed two-year College diploma.

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Other Admission considerations
- A current resume
- A personal profile questionnaire providing information related to your background and suitability for the program
- One reference from a volunteer or workplace supervisor (You must have a minimum of 100 hours volunteer or work experience in a social service environment)

Program Requirements

First Year

Fall
- HLSC 200 Introduction to Addictions Studies
- IDST 100 Introductory Communications for Helping Professions
- PSYC 205 Principles of Psychology
- SLWK 100 Introduction to Social Work
- SLWK 102 Social Problems & Policies

Winter
- HLSC 220 Introduction to Counselling
- HLSC 230 Physiology and Processes of Addictions
- PSYC 351 Developmental Psychology
- SLWK 101 Social Work Theories and Practice
- SOCI 201 Introductory Sociology

Spring
- ENGL 2xx Junior English

Second Year

Fall
- ANTH 213 Contemporary Aboriginal Issues
- HLSC 320 Counselling II (Individuals and Groups)
- HLSC 340 Assessment of Addictions
- HLSC 365 Health Education and Promotion

Winter
- PSYC 357 Human Development
- SLWK 211 Social Work with Mental Illness, Trauma and Addictions
- One of: SOCI 203 Current Social Issues
- SOCI 325 Deviant Group Behaviours
Addictions Counselling/Social Work
Dual Diplomas

Third Year
Fall
SLWK 206  Social Work Research and Leadership in Human Services
SLWK 208  Social Work with Families
SLWK 212  Practicum I

Winter
SLWK 209  Social Work with Communities
SLWK 213  Practicum II

Practicum/Internship

You are selected for practicum on the basis of academic performance, professional suitability, fitness and conduct, and availability of practicum sites.

Individuals with a history of addictions or dependency should note that placement agencies may require you to have a minimum two year alcohol and other drug free lifestyle prior to acceptance in an internship placement.

In order to ensure the protection of clients, you are required to provide up-to-date Alberta Children’s Services Intervention Record Check and Police Information Check, at your expense, to your practicum supervisor prior to entry into practicum placements. You are obligated to inform the Program Coordinators immediately of any change in the status of either of these reports.

Should the program coordinator judge, in consultation with the program faculty, that there is evidence that you are professionally unsuitable or at risk to clients, the coordinator may prohibit you from attending or completing a practicum.

Continuation Requirements

You must achieve a minimum of a “C” grade in all required courses.

As a student in the Addictions Counselling/Social Work Dual Diplomas program you are expected to exercise responsible conduct that reflects favorably on you as a developing professional, the program, and Medicine Hat College. Failure to do so could result in your dismissal from the program.

Questionable performance in relation to harming yourself or others and/or to the maintenance of the professional standards of the program may result in you being asked to leave the program at any time and you may receive a failing grade in any course you are registered in at that time.

If you have been absent from the program for one calendar year and are returning to complete a course, you will be required to successfully complete a comprehensive evaluation. Depending on the outcomes of the evaluation you may be required to successfully complete remediation in preparation to enter the practicum.

Repetition of Courses
You may only repeat SLWK and HLSC courses once.

Time Limits for Program Completion
You are allowed up to six years to complete the combined diplomas route.

Graduation Requirements

In addition to the courses required for graduation your progress in the program will be reviewed each semester by the program faculty. Should you be found to be in academic difficulty or should your professional suitability be of concern, you may be referred for remedial assistance or, in extreme cases, asked to withdraw from the program.

You must achieve a minimum of a C grade in all courses in order to be eligible to graduate.

The Code of Ethics of the ACSW and the professional competencies of the CACCF will be used as a measure of professional behaviour and suitability.

Transfer

The Addictions Counselling diploma and Social Work diploma transfer separately to universities in Alberta and British Columbia. Please consult with a MHC Academic Advisor regarding the transfer structures for these programs.

Lethbridge College
Graduates with a cumulative GPA of 2.0 or higher along with the completion of additional bridge coursework are eligible for block transfer credit into the third year of the Bachelor of Applied Arts in Justice Studies program.

University of Regina
Graduates are eligible to receive up to 60 credits towards the Bachelor of Social Work program. Students should contact an Academic Advisor at the University of Regina for further information.
The Administrative Office Management Diploma is designed to provide you with the potential for obtaining a managerial, supervisory or leadership role in an office environment. In addition to technical office skills, you will learn management theory, supervision, human resource management, leadership, and group dynamics.

Admission Requirements

High School Route
- ELA 30-1 or ELA 30-2
- Math 10C
- Keyboarding speed of a minimum of 20 wpm with 90% accuracy is recommended

Mature Student Route
- ELA 30-1 or ELA 30-2
- Math 10C.
- Keyboarding speed of a minimum of 20 wpm with 90% accuracy is recommended

Transfer Route
Completion of a one-year Administrative Office Professional certificate program.

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Continuation Requirements

Generally, prerequisite grades must be “C-” or higher; however, some classes require a higher grade. Check course descriptions for individual courses. In Administrative Office Professional courses and Administrative Office Management courses, you must have a minimum of a “C” grade as a prerequisite for the next level.
Administrative Office Management Diploma

Graduation Requirements

To successfully complete the Administrative Office Management Diploma, you must:

• Successfully complete the Administrative Office Professional certificate plus the 10 second year courses as outlined
• Attain a minimum cumulative GPA of 2.0
• Obtain no more than one D or D+ grade in the second year of the diploma
• Obtain a minimum of "C" in OMGT 235 and OMGT 237

Transfer

Athabasca University
Student may be eligible to receive 30 credits from the Administrative Office Management Diploma into Athabasca University’s Bachelor of Professional Arts (Communication Studies) Degree program. Students should consult with an AU Advisor for further information.
Administrative Office Professional Certificate

Academic Advising Office

The Administrative Office Professional program will provide you with the necessary computer skills, office skills and practical on-the-job work experience required for employment in today’s office.

After completing the Administrative Office Professional certificate program, you may enter the workforce, or, if you wish to increase your advancement opportunities and work responsibilities, you may consider taking the second year of either the Administrative Office Management Diploma or the Business Administration Diploma (Business Administration/Administrative Office Professional Major). If you wish to pursue one of these diploma programs, please ensure you have the admission requirements.

The Administrative Office Professional program develops employees for today’s challenging and ever-changing business office. At graduation, you will have the knowledge and skills required for entry-level office jobs. You will be prepared to manage information in an office; organize and maintain paper and electronic files; manage projects; provide information by using the telephone, postal service, or e-mail; and perform bookkeeping and computer tasks. You will exhibit strong listening, written, oral and interpersonal skills and will be adept at working with others to achieve goals and objectives.

Besides gaining the most current office education, you will gain on-the-job work experience in a business environment. While enrolled in the program, you will complete an office work experience during your first semester and during your final semester.

This program provides practical skills that can be immediately applied to numerous job situations. We encourage you to combine your background in other fields with an Administrative Office Professional Certificate to enhance job prospects.

Career Opportunities
Graduation from the Administrative Office Professional program will prepare you for office employment in numerous fields.

Accounting
Agriculture
Automobile Dealerships
Banking
Bookkeeping
Business
Computer Consultants
Dental
Education - School
Education - College/University

Government
Insurance Agencies

Admission Requirements

High School Route
• ELA 30-1 or ELA 30-2
• Math 10C
• Keyboarding speed of 20 wpm with 90% accuracy is recommended

Or approval of the Coordinator

Mature Student Route
• ELA 30-1 or ELA 30-2
• Math 10C
• Keyboarding speed of 20 wpm with 90% accuracy is recommended

Or approval of the Coordinator

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Program Requirements

Fall
APRO 108 Keyboarding/Desktop Publishing I
APRO 120 Effective Speaking for the Office
APRO 125 Office Communications I
APRO 131 Office Applications I
APRO 140 Bookkeeping I
APRO 180 Work Experience I*

Winter
APRO 109 Keyboarding/Desktop Publishing II
APRO 133 Office Applications II
APRO 145 Bookkeeping II
APRO 155 Office Communications II
APRO 167 Office Relations

Spring
APRO 190 Work Experience II

* Includes customer service training during the semester, followed by work experience at the end of the semester.

Continuation Requirements
Must have a minimum of a “C” grade in all courses.
Graduation Requirements

To successfully complete this program you must:

- Complete 12 specific Administrative Office Professional courses (10 academic courses plus two work experience courses)
- Achieve keyboarding skill at a minimum of 45 wpm with 97% accuracy
- Attain a minimum cumulative GPA of 2.0
Agroecology Technician Diploma

** This program will be offered Fall 2021 **

The program provides you with the competencies required for producing food, forage, fiber, and fuel using sustainable methods. Courses within the program will prepare you with a range of knowledge in the three E’s: environment, economics, and energy using systems theory. You will gain real-world experience in designing, monitoring and assessing sustainable agroecological systems. In addition to developing technical skills of the trade, you will learn effective communication and research skills. This program meets the knowledge, technical skills, and performance competencies required for certification with the Alberta Institute of Agrologists as a registered Technologist in Agrology (RTAg). This program also maximizes transfer opportunities to universities offering sustainable agriculture programs.

** Career Opportunities **

There are many possible career opportunities with completion of the Agroecology diploma. You could start a business in sustainable agriculture or greenhouse horticulture. You can take over your family agriculture business as a crop or livestock producer. You can become an agricultural research technician, an urban agriculture designer or landscaper. You can also become a range management consultant or professional. You can also become an environmental consultant. The program would provide the background to become a registered Technologist in Agrology (RTAg).

** Admission Requirements **

High School Route
- ELA 30-1
- Biology 30
- Chem 30
- Math 30-1 or Math 30-2 (min 65%)

Mature Student Route
- ELA 30-1
- Biology 30
- Chem 30
- Math 30-1 or Math 30-2 (min 65%)

** Program Requirements **

First Year
Fall
AGEC 120 Agroecology I
BIOL 254 Plant Taxonomy
BIOL 255 Ecology
CADD 172 Sustainability and Systems Thinking
SOSC 213 Soil Resources

Winter
AGEC 130 Introduction to Geographic Information Science
AGEC 140 Integrated Vegetation Management
ECON 201 Microeconomics
EREC 230 Water Fundamentals
TCOM 110 Technical Communications

Year Two
Fall
AGEC 200 Research Methods
AGEC 210 Range and Holistic Management
AGEC 220 Advanced GIS and Remote Sensing for Landscape Ecology
AGEC 230 Forage and Cropping Systems
AGEC 240 Climate and Ecosystems

Winter
AGEC 250 Soil Ecology
AGEC 260 Horticulture Methods
AGEC 270 Wetland Ecology and Management
AGEC 280 Agroecology II
MGMT 161 Business Management Theory

Additional Prerequisites for Program Graduation
Students must also complete a Permaculture Design Course (PDC) and Rainwater Harvesting course prior to taking AGEC 280 (Agroecology II: Capstone). Both courses will be offered through Medicine Hats College Continuing Studies. However, students have a range of options to complete both courses: PDC are offered for free online, and Rainwater Harvesting courses are also available online.

In order to complete the prerequisites, students must complete a 72 hour PDC from instructors recognized by the Permaculture Institute of North America. Students must also complete a rainwater harvesting course (Designer Certification) recognized by the Canadian Association for Rainwater Management (CANARM).

** Continuation Requirements **

Students must receive a minimum of grade of “C-” in each course to continue in the program.

** Graduation Requirements **

Students must complete all 20 courses with a minimum overall GPA of 2.0.
The following information is drawn from www.tradesecrets.alberta.ca. For additional information about the apprenticeship systems contact:

Apprenticeship Training Centre, Medicine Hat
3021 Dunmore Rd SE
MEDICINE HAT, AB T1B 2H2
Phone: 403.525.3100
www.tradesecrets.alberta.ca

Apprenticeship is an education and training system that teaches trade knowledge and skills through on-the-job training and formal instruction. About 80% of the instruction is done on-the-job training, provided by an employer, where the apprentice is supervised by a journeyman. The remaining 20% of the training involves formal instruction, provided by various post-secondary institutions.

Specific trade Information can be found at:
- Automotive Service Technician page 87
- Carpenter page 97
- Electrician page 115
- Heavy Equipment Technician page 128
- Plumber page 145
- Steamfitter/Pipefitter page 163
- Welder page 165

* Please note the 1st year of technical training for Plumber, Gasfitter, Steamfitter/Pipefitter and Sprinkler Systems Installer is a common curriculum. Please contact AIT (Apprenticeship & Industry Training) for more information.

### Admission Requirements
To become an apprentice, you must be a Canadian citizen, at least 16 years old, and have the education required for the trade you want to enter.

You must present a transcript of your school marks to the local apprentice office when you apply for apprenticeship. If you cannot get a school transcript, you will have to write an entrance examination. If you do not pass this exam, you must take the necessary upgrading courses.

You must find suitable employment with an employer who is a journeyman or employs a journeyman in the trade of your choice. Once employed, apprenticeship application forms must be signed by you and your employer. These forms are available from the AIT regional offices.

If you think you have related work experience and/or training which could be credited toward your apprenticeship, discuss it with your employer and request credit on the application form.

Once your application for apprenticeship is approved and your school transcripts or entrance exam marks are recorded, final approval is given and contracts are drawn up.

Out of province students must contact a provincial Apprenticeship Office.

### What is RAP?
The Registered Apprenticeship Program is a modified apprenticeship program that permits a high school student to become an apprentice. A RAP apprentice accumulates hours of on-the-job training as credit towards his/her apprenticeship program and credit toward a high school diploma.

How long is an apprenticeship training program?
Apprenticeship programs vary with each trade. The longest program runs for four periods of training (about four years). A period of training for each trade usually consists of two components—a specific number of hours of on-the-job training and a set amount of formal instruction. The formal instruction ranges from three to 12 weeks per period.

How much does an apprentice earn?
Apprentices earn a percentage of the journeyman wage in their trade at the company with which they are employed. The wage varies from 40% to 90% of the journeyman’s wage, depending on the trade and on how much training the apprentice has completed, and increases as the apprentice progresses from one level of training to the next. An employer must pay a RAP apprentice at least the basic minimum wage.

Advancing through the Apprenticeship process.
To progress from one period of training to the next, an apprentice must:
• Successfully complete the formal instruction
• Have the required hours of on-the-job training and a satisfactory report from the supervisor
• Pass the apprenticeship examination for the period of training (70%)
• Have the record book stamped by the nearest Career Development Centre, Alberta Advanced Education – Apprenticeship and Industry Training (AIT)

The employer will:
• Update the apprentice’s record book, recording the on-the-job training provided, hours worked, type of work performed and evaluating the apprentice
• Forward the record book to the nearest Career Development Centre, AIT for stamping

After completing these steps, an apprentice’s wages should increase to the next level for that trade. The level may differ with each employer, but are based on the journeyman wage rate at that company.

An Alberta Journeyman Certificate is granted to an apprentice who:
• Completes the required hours of on-the-job training and receives a satisfactory report from the supervisor
• Successfully completes the formal instruction
• Passes all required examinations
• Has forwarded his/her record book to the Career Development Centre, AIT for completion

When an apprentice receives an Alberta Journeyman Certificate, he/she can use the term “certified” with the name of the trade, and journeyman wages should now be paid.

Where can the Journeyman work?
The Alberta Journeyman Certificate is valid in Alberta and may be recognized in other provinces. If the journeyman holds a certificate in one of the Interprovincial Standards (Red Seal) trades and is interested in working in another province, they can write an Interprovincial Standards Program (Red Seal) exam. Journeymen who carry an Interprovincial Standards Red Seal on their provincial certificate do not have to write any further examinations to qualify for certification in any other province.

Funding
Human Resources Development Centre may provide some financial support when you attend technical training courses. Contact your local Canada/Alberta Service Centre for more information. Other funding is available through Student Finance in the form of grants based on financial requirements.

Apprenticeship Fees
Seats are filled on a first come first served basis. Tuition fees are $105 per week. Books and supplies vary with each trade and cost between $450-$750 per training period. A consumable materials fee of $72 per training period applicable to all apprenticeship students.

A $100 non-refundable deposit is due upon registration. The balance of tuition is due two weeks prior to the first day of classes. Unpaid tuition will result in an automatic withdrawal from class and your seat will be offered to the next person on the waitlist. No refunds will be issued after the third day of classes.

Continuation/Graduation Requirements
Advancement and graduation requirements for the following apprenticeship programs:

- Automotive Service Technician
- Carpenter
- Electrician
- Welder
- Plumber
- Steamfitter/Pipefitter
- Heavy Equipment Technician

For each period (4-12 wks) of technical training completed at Medicine Hat College (MHC), Alberta Apprenticeship and Industry Training (AIT) specifies that “apprentices are required to achieve a minimum of 50% in each section of a course of studies and a minimum of 65% average in the course as a whole” (Apprenticeship General Operations Guide).

Following this standard and using MHC’s Academic Standard Grading System (see Academic Regulations section of the MHC calendar), a student will be deemed to have passed their 4-12 weeks of training at MHC if they achieve a grade of C+ or greater, and if they achieve 65% or greater on each section within their 4-12 week training period.

Students’ eligibility to proceed to the next period of technical training will be documented in each apprentice’s record with Apprenticeship and Industry Training (AIT). Apprentices may access this information using their AIT login information at www.tradesecrets.alberta.ca/mytradesecrets.
Medicine Hat College offers a Bachelor of Applied Arts (Art and Design - BAA (AD) degree program, which can be completed in three years. If you have already completed a two-year diploma in art, design, or a related field, Medicine Hat College offers a broad range of university transfer art, art education, and design courses.

**Program Philosophy**

At Medicine Hat College, the fine arts and design are integral parts of the program. Our instructors strive to integrate the fine arts and design throughout their courses. Moreover, our instructors attempt, wherever appropriate and possible, to integrate the most recent advances in technology, especially computer technology. This combination of fine art, design and technology help prepare students for the contemporary workplace. Today's art and design professionals are often required to be involved in the entire creative and technical process, from concept through production, in media and forms that are no longer just two-dimensional, static, and print-based, but which now include virtual space, digital media, and interactivity.

**VASS (Visual Arts Student Society)**

VASS is an organization dedicated to the promotion and support of all visual arts students at the College. Any student taking at least one course offered by the Art and Design program is automatically a member. VASS has an executive council, class representatives, and a faculty advisor, all elected by the VASS student membership at the beginning of each new school year. Beyond providing a strong voice in ensuring the quality of their education, VASS works to provide support, including fund-raising support, for everything from student activities (student art shows, for example) to the supply of resources (special lab equipment, for example). All visual arts students are encouraged to become involved.

**Career Opportunities**

Our art and design graduates have had excellent success in securing employment, both freelance self-employment and employment within existing firms and industries. Employment opportunities are available in a variety of workplace locations, including print shops, design studios, publishing houses, film studios, television stations, theatres, museums and art galleries, and other places involved in visual and digital production.

**Admission Requirements**

**High School Route**

ELA 30-1 or ELA 30-2 or C or better in MHC English 30 or placement in post-secondary (diploma or university transfer) English as determined by the MHC Academic Assessment Test.

**Conditional Admission Plan (CAP)**

If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 17 for further details.

NOTES: When selecting courses, be sure to choose your required courses
first. In the event that a required course is in timetable conflict with an elec-
tive course that you desire, the required course is your first priority and you
must therefore choose it. Because of scheduling complexities, high demand,
and classroom or studio space constraints, we cannot guarantee the
availability of all electives. If your first choice is full or unavailable for other
reasons, you must be prepared to select an alternative. If there are special
circumstances that require you to have a course that is full, you may appeal
to the Art and Design Coordinator to override your exclusion. You may
consult the Art and Design Coordinator to assist you with course selection
at any time.

This program may also be completed on a part-time basis. You must devise
a recommended plan of study with the assistance of an Academic Advisor.

Work Terms
The BAA (AD) program requires the completion of two, 3 to 4
month Work Terms (ARDE 395 and ARDE 495). These Work
Terms can only be completed after Academic Term IV and at least
one of the two Work Terms must be completed prior to the last
academic semester (Academic Term VI). These requirements may
be adjusted in exceptional circumstances, with the permission of the
Dean.

The two applied degree Work Term courses are paid work sem-
esters designed to extend the learning process into the work
environment. Medicine Hat College will make every effort to
place students; however, work opportunities may fluctuate with a
changing labour market. Moreover, you should be aware that work
placement opportunities in Medicine Hat are limited and that you
may have to relocate to complete your work term semesters (work
terms can be completed anywhere in Canada or even abroad).
You should be prepared to cover your expenses for placement and
should also be prepared to receive trainee or entry-level compen-
sation at your place of employment.

You register for two Work Term semesters in addition to your aca-
demic requirements. Each Work Term is equivalent to 15 credits.

Graduation Requirements
To successfully complete the Bachelor of Applied Arts (Art and
Design) degree you must:
• Attain a minimum cumulative GPA of 2.0 throughout the program
• Achieve passing grades in both Work Terms
• Obtain no more than one D or D+ grade in the program
• Obtain no D or D+ grades in any core and Art and Design
courses (ARDE 331, ARDE 333, ARDE 396, ARDE 496, ARDE
498 and ARDE 499). Should you receive a D or D+ grade in any
such core design or Visual Communications course, you will only
have one opportunity (excluding "W" grade attempts) to repeat that
course and raise its grade
• Please note that only one “W” grade is allowed for each of the re-
quired core art and design courses (ARDE 331, ARDE 333, ARDE
396, ARDE 496, ARDE 498 and ARDE 499)
Art and Design - Bachelor of Applied Arts
Applied Degree

Transfer and Pathways

University of Lethbridge
Graduates may be admitted to the 15 course Post-Diploma BFA (Art), 20 course Post-Diploma BFA (multidisciplinary), or 35 course Pre-Post Diploma BFA (Art) BEd.

University of Lethbridge - Dual Admission
Students may apply for dual admission to both Medicine Hat College and the University of Lethbridge for the Bachelor of Fine Arts - New Media or Pre-Bachelor of Fine Arts - New Media/ Bachelor of Education. Students must satisfy current admission standards at both institutions to be eligible. For more information, contact a Medicine Hat College Academic Advisor.

International Transfer Opportunities

Griffith University
Graduates with a diploma in Visual Communications are eligible to receive advance standing toward a Bachelor of Design or a Bachelor of Digital Media degree at Griffith University in Australia.
For more information, contact a Medicine Hat College Academic Advisor.
If you are interested in learning about people, society, cultures and the arts then a degree in one of the many areas of arts might be the right path for you. Our program is designed to prepare you to transfer to another institution after you have completed a maximum of 20 courses at Medicine Hat College. The remaining years of your Bachelor of Arts may be in a range of disciplines such as psychology, sociology, economics, history or English.

A Bachelor of Arts can be used as a pathway into professional, graduate, or after degree programs such as Law, Rehabilitation Medicine or Education. Students intending to pursue professional programs can complete pre-professional requirements within the University Transfer Arts program. Students wishing to pursue a professional program are encouraged to seek the advice of an Academic Advisor prior to selecting their courses, as program requirements change yearly and vary by institution.

**Career Opportunities**

**Admission Requirements**

Refer to Admissions Chart on page 20

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Program requirements change yearly and vary by institution. Students pursuing an undergraduate degree as a learning pathway to a professional program should consult with a Medicine Hat College Academic Advisor and a representative from the institution they wish to attend. University Transfer students need to ensure they meet both the minimum requirements and competitive requirements for admission.

**Course Selection**

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to pursue. With this information, students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

Bachelor of Arts degrees offered in the areas of:

- Anthropology
- English
- French
- History
- Humanities
- Labour Studies
- Political Economy
- Political Science
- Psychology
- Sociology
- Women’s and Gender Studies

Bachelor of Arts Students through Athabasca University are required to complete a major subject of concentration in addition to the Arts and Science requirements.

University Transfer

Students are encouraged to consult the Athabasca University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or an Athabasca University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Athabasca University, Bachelor of General Studies (Arts & Science)

Website: www.fhss.athabascau.ca/

The Bachelor of General Studies degree is a multidisciplinary program, which allows students to explore a variety of different subjects and interests to meet career and educational goals. Unlike other degrees offered by Athabasca University, the Bachelor of General Studies does not have a residency requirement, which means students may take the entire program through Medicine Hat College or through other educational institutions.

The Bachelor of General Studies degree requires the completion of 90 credits and is comparable to a three-year program. This degree allows students the freedom to develop their own intellectual and academic interests. This does not mean that course selection should be casual. Students are expected to ensure their vocational or personal needs are well defined. All courses transferred to this degree must be university-level credit as determined by Athabasca University faculty. Students are strongly encouraged to register in ENGL 255 early in their program. The English writing skills requirement is waived for students enrolling in the second undergraduate degree. Students complete the program regulations in effect at the time of their enrolment.

University Transfer

Students are encouraged to consult the Athabasca University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or an Athabasca University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

MacEwan University, Faculty of Arts and Science

Phone: 780.497.4505 (Faculty of Arts and Science Program Services)
E-mail: artsandscience@macewan.ca
Website: www.macewan.ca/wcm/SchoolsFaculties/ArtsScience/index

Degrees offered in areas including:
- Anthropology
- Economics
- English
- History
- Philosophy
- Political Science
- Psychology
- Sociology

Bachelor of Arts Students at MacEwan University are required to complete a major, and a second major or one or two minors, in addition to the breadth requirements. Some majors at MacEwan University are competitive and require specific courses to be completed prior to admission to the major.

Students interested in graduate studies (Master’s Degree/PhD) also have the opportunity to work towards a Bachelor of Arts - Honours degree. Please consult the MacEwan University Academic Calendar for program options and requirements.

Mount Royal University, Faculty of Arts

Phone: 403.440.2525 (Arts Academic Advising)
E-mail: artsadvising@mtroyal.ca
Website: www.mtroyal.ca/programscourses/facultieschoolscentres/arts/index

Degrees offered in areas including:
- Anthropology
- Communication
  * Broadcast Media Studies
  * Information Design
  * Journalism
  * Public Relations
- Criminal Justice
- English
- History
- Policy Studies
- Psychology
- Sociology

Bachelor of Arts students at Mount Royal University must complete a major field of study in addition to the General Education Requirement (GNED). The GNED requirement consists of 12 GNED courses, chosen from four different thematic clusters - Numeracy & Scientific Literacy, Values, Beliefs & Identity, Community & Society, and Communication.

Students interested in graduate studies (Master’s Degree/PhD) also have the opportunity to work towards a Bachelor of Arts - Honors stream. Please consult the Mount Royal University Academic Calendar for program options and requirements.

University Transfer
Students are encouraged to consult the Mount Royal University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a Mount Royal University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
University of Regina, Faculty of Arts

Phone: 306.585.4137 (Arts Student Services)
E-mail: arts.studentservices@uregina.ca

Automotive Service Technician Apprenticeship

Lee Eiserman, Coordinator
Phone: 403.504.3577
E-mail: leiserman@mhc.ab.ca

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

The term of apprenticeship for an automotive service technician is 4 years (four 12-month periods) including a minimum of 1500 hours of on-the-job training and 8 weeks of technical training each year.

Automotive Service Technicians perform preventative maintenance, diagnose faulty operations, and repairs to automotive vehicles and light trucks.

Automotive service technicians adjust, test and repair engines, transmissions, steering systems, brake systems, drive trains, vehicle suspensions, electrical systems and air conditioning systems, and do wheel alignments. In large shops, they sometimes specialize in repairing, rebuilding and servicing specific parts (e.g., transmissions, engines, electrical components). In smaller shops, automotive service technicians may work on a wider variety of repair jobs.

Automotive service technicians begin by reading the work order and examining the vehicle. To locate the cause of faulty operation and repair it, they:

- use testing equipment, take the vehicle for a test drive, and/or refer to manufacturers' specifications and manuals
- dismantle faulty assemblies, repair or replace worn or damaged parts and
- reassemble, adjust and test the repaired mechanism

Automotive service technicians also may perform scheduled maintenance services such as oil changes, lubrications and tune ups; and advise customers on work performed, general vehicle conditions and future repair requirements.

Working Conditions
Most automotive service technicians generally work a 40-hour, five-day week. The work is sometimes noisy and dirty.

There is some risk of injury involved in working with power tools and near exhaust gases.

Skills and Abilities
The work is most rewarding for those who enjoy doing precise work that is varied and challenging. Also, they usually like on-the-job security and a feeling of independence.

To be successful in the trade, automotive service technicians need:
- good hearing, eyesight, and manual dexterity
- mechanical aptitude and interest
- the ability to use proper lifting techniques for items up to 25 kilograms
- the ability to keep up to date with changing technology;
- a working knowledge of electricity, electronics, and computers

The above information was copied from the tradesecrets website. For complete information on being an Automotive Service Technician check the website at tradesecrets.alberta.ca.
Aviation Management Certificate

Academic Advising Office
Phone: 403.529.3819

Dennis Beaudoin, Dean, Trades & Technology
Phone: 403.504.3579
Email: dbbeaudoin@mhc.ab.ca

Medicine Hat College, in partnership with Super T Aviation, offers an Aviation Management Certificate that complements the Super T flight training program and prepares students for an exciting career in the aviation industry.

Students in the Aviation Management Certificate program will take courses that can help them be successful in the aviation industry, including communication in the workplace, management, and geography. Other skills development include how to think critically, lead small teams, maintain professional ethics, and manage health and wellness. In addition, students who choose to complete Super T's Integrated Flight Training program will establish a thorough understanding of the aviation industry in Canada and around the world, as well as aviation safety, regulations and procedures.

Students should be aware that flight training costs through Super T Aviation are not included in the costs of the Aviation Management Certificate. Students should contact Super T Aviation for additional information on costs and structure of the flight training offered.

Career Opportunities
Career opportunities in the aviation industry are vast and growing in demand. A graduate of MHC's Aviation Management Certificate who also completes flight training through Super T Aviation can expect to find employment as a flight instructor, Medevac pilot, charter pilot, or commuter pilot for smaller airlines. After gaining industry experience and fulfilling required flight time, graduates will be able to apply to work as a pilot for the major airlines. This program would also be an asset for obtaining employment with Nav Canada (the corporation that owns and operates Canada's civil air navigation service).

Admission Requirements

High school route
High school diploma with:
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Science 30 or Physics 20

Mature Route
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Science 30 or Physics 20

Program Requirements
Fall
COMM 140 Communication in the Workplace
GEOG 201 The Physical Environment
KNES 247 Intro to Wellness, Fitness and Nutrition
MATH 150 Technical Math
MGMT 161 Management Theory

Winter
AMET 200 Advanced Meteorology
COMM 252 Advanced Business Communications
GEOG 332 Map and Air Photo Interpretation
MICO 191 Introduction to Microcomputers

Spring
ADAE 200 Advanced Aeronautics

Graduation Requirements
To successfully complete this program students must:
• Attain a minimum cumulative GPA of 2.0
• Achieve no grade lower than C-
Bachelor of Business Administration
Mount Royal University

Program Requirements
The Bachelor of Business Administration program at Medicine Hat College has specific course requirements based on the courses and major completed during a student’s previous study and on the specific degree requirements. The total BBA – General Management Major requirements (over four years) include 40 courses made up of sixteen (16) required core business courses, ten (10) major courses, ten (10) general education courses, and four (4) electives.

All degree courses must be completed at MHC and recognition will not be given to equivalent courses taken at other post-secondary institutions.

Bachelor of Business Administration – General Management Major
The Bachelor of Business Administration program requirements vary for each student. Students must see an Academic Advisor to create their individualized program plan for Year 3 and Year 4. Failure to follow the individual student program outlined will result in not meeting graduation requirements.

Core Business Course Requirements
Over the total program of study of diploma courses and degree courses, students are required to complete sixteen (16) core business courses to achieve the BBA – General Management Major. The core courses are as follows:

- ACCT 111 or ACCT 321: Introductory Accounting I
- ACCT 215 or ACCT 323 or ACCT 322: Managerial Accounting or Managerial Accounting I
- COMM 252: Advanced Business Communications
- ECON 201: Principles of Microeconomics
- ECON 203: Principles of Macroeconomics
- ENTR 443: Business Plan Development
- FINA 255: Finance
- INBU 3301: Global Business Environment
- LSCM 3403: Operations Management
- MGMT 161: Management Theory
- MGMT 243: Human Resources Management
- MGMT 263: Organizational Behaviour
- MGMT 284: Business Statistics I
- MGMT 395: Business Law
- MGMT 5333: Strategic Management
- MKTG 171: Marketing

General Education Requirements
Students in the BBA at MHC will meet the general education requirements as defined by Mount Royal University. General Education provides students with the opportunity to build their ability to think critically, develop their communication and mathematical skills, stimulate their capacities for creative, innovative thinking, and enrich their knowledge of the wider social, cultural, and natural worlds in which they live and work. The General Education program is organized around four thematic clusters which constitute groups or streams of courses:
Numeracy and Scientific Literacy
These courses aim to develop an understanding of the nature and methods of subjects in the natural sciences, health sciences and computer science, as well as providing essential mathematical skills needed for study at the post-secondary level.

Values, Beliefs and Identity
These courses provide the opportunity to critically explore the values, beliefs and ideas that shape human experience, including understandings and meaning expressed through art, music, literature, philosophy and critical thought. You will also have opportunity to study the various media through which cultural expression takes place.

Community and Society
Through these courses you will explore the complex intersection of interests and relations that constitute social life - from local community to the globalized network of societies. By studying the interlocking of material, moral, and political factors affecting society at all levels, you will acquire knowledge and skills that help you understand and act in the world in which you are a citizen.

Communication
These courses focus on the development of an undergraduate level of proficiency in written and oral communication across a range of media. They will help you develop a capacity for critical reflection on various media and their uses. Opportunity for study in languages other than English will be available in this thematic cluster.

Students will complete ten (10) General Education courses from four clusters. Each cluster has three tiers.

MHC has identified a number of courses that meet the requirements for each cluster and each level. Students may have completed some requirements within their diploma.

Students are reminded to seek advising from MHC’s student advisor for the MRU BBA for program direction and cluster selection. Failure to follow the individual student program outlined will result in not meeting graduation requirements.

Management Options
The degree has ten (10) available general management electives. Please see an Academic Advisor for course selection.

Electives
Students may choose their electives from the lists of management options and general education courses. This list is subject to change at any time. Courses may have prerequisites. All students are responsible to ensure that they have the appropriate prerequisites before enrolling in their course. MHC’s student advisor for the MRU BBA maintains current lists of courses in these categories suitable for the BBA.

Continuation Requirements
MRU policies for academic progression and residency will apply to students in the Collaborative Program. MHC policies will apply for all other academic and non-academic issues and appeals.

Graduation Requirements
To successfully complete the partnership Bachelor of Business Administration – General Management Major degree requirements, students must:

- complete a minimum of twenty (20) required courses
- have a cumulative GPA of at least 2.0 based on all the courses required for graduation

Upon completion of the program, students will submit an application to graduate to Mount Royal University. Upon confirmation of graduation, students may attend convocation ceremonies at MRU and receive their parchment, or attend graduation ceremonies at MHC. If students wish to attend the MHC convocation ceremony, they must submit an MHC graduation application in addition to an MRU application. Students attending either institutions convocation ceremony will pay the respective institutions fees.
The Diploma in Built Environment Engineering Technology program at Medicine Hat College is a multi-disciplinary program focusing on the core disciplines of the built environment; mechanical engineering technology, civil engineering technology and building design technology. This program focuses on the fundamental theories and concepts in these core disciplines while learning and applying current technology so that graduates are prepared to enter a professional career as an engineering technician.

Our approach to understanding and modelling the built environment makes the Built Environment Engineering Technology program unique in Canada. Sustainability concepts are introduced early and are then embedded into the Built Environment Engineering Technology program curriculum, recognizing that our built environment, as with its counterpart the natural environment, is a complex ecosystem. The program has been designed to develop critical thinking and problem solving skills to effectively apply technical and theoretical knowledge for a successful career as an engineering technician. The Built Environment Engineering Technology program takes a sustainable approach to product design and manufacturing; civil planning and infrastructure; and building design and construction and provides understanding of current industry practices.

In addition to developing standard engineering and architectural technical drawings, graduates will be able to use a variety of digital design applications; create three-dimensional objects; use 3D data capture technologies; create presentation graphics and animations; and use multimedia and immersive presentations to help industry promote their ideas and products.

Career Opportunities

Meaningful and relevant employment prospects exist with consulting engineers; architects; land surveyors; oil and gas industry; mining and manufacturing companies; product & equipment design/manufacturers; process facilities; federal, provincial, and municipal governments. The multi-disciplinary engineering background developed in the program enables students to be employed in research, design, manufacturing and sales promotions. Students may become an important member of any team engaged in supplying the goods and services required by modern technology employers. Graduates of this program have been very successful in finding employment. Completion of the two-year program provides you with a Diploma in Built Environment Engineering Technology. Graduates can apply for membership in the Association of Science and Engineering Technology Professionals of Alberta (ASET). Guidelines for membership are found on their website at www.aset.ab.ca.

Admission Requirements

High School Route
High school diploma with:
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Physics 20

Mature Route
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Physics 20

Conditional Admission Plan
For students who do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is an individualized program to meet these needs. See page 18 for further details.

Program Requirements

First Year
Fall
CADD 101 Drafting I
CADD 121 CADD Applications I
CADD 172 Sustainability & Systems Thinking I
CADD 173 Construction Methods
CADD 174 CADD Labs
MATH 150 Technical Math

Winter
CADD 102 Drafting II
CADD 122 CADD Applications II
CADD 132 Mechanical Design I - Applied Physics
CADD 151 Technical Communications
CADD 161 Civil Design I - Civil Design Fundamentals
CADD 182 Building Design I – Building Systems

Second Year
Fall
BEET 201 Digital Design/Presentation
BEET 231 Mechanical Design II
BEET 261 Civil Design II
BEET 271 Design Strategies
BEET 281 Building Design II

Winter

BEET 242 Piping & Control Systems
BEET 262 Civil Design III
BEET 272 Technical Design – Capstone
BEET 282 Building Design III
Built Environment Engineering Technology (BEET) Diploma

Graduation Requirements

To successfully complete this program students must:
• Attain a minimum cumulative GPA of 2.0
• Complete the program with no failures or incompletes in the required courses

Transfer

Degree & Post Diploma Programs

Athabasca University
Graduates of the Built Environment Engineering Technology (BEET) Diploma at Medicine Hat College are eligible for admission into the Bachelor of Professional Arts - Communications Major and are eligible to transfer 60 credits into this program. Students should consult with an AU Advisor for further information.

NAIT
Graduates with a 2.7 GPA may be admitted and receive 60 credits into NAIT's Bachelor of Technology in Technology Management (BTech Mgmt) program. Students should contact NAIT for further information.
Business Administration Diploma

Academic Advising
Phone: 403.529.3819

Rick Robinson, Coordinator
Phone: 403.529.3950
E-Mail: rrobinson@mhc.ab.ca

The Business Administration Diploma program offers students the comprehensive training and education required to build interesting and rewarding careers in business and industry.

Many of the courses completed in the Business Administration program may be used for credit towards a variety of professional designations and university programs. Students interested in these possibilities, please consult with the Business Administration Academic Advisor.

The Business Administration program offers the following majors:
• Accounting
• Financial Services
• Hospitality & Tourism *Pending Government Approval**
• Marketing
• Management
• Administrative Office Professional

All students will be admitted into a common first year. Students who enter the program in January can expect to take a minimum of 2.5 years to complete the program, depending on their major selection.

Career Opportunities

Graduates with an Accounting Major are prepared to find work as a(n):
• Accounting Technician
• Accounts Payable or Accounts Receivable Clerk
• CPA Trainee
• Bookkeeper

Graduates with a Financial Services Major are prepared to find work as a(n):
• Financial Advisor
• Credit Officer
• Customer Service Representative
• Loans Officer
• Accounts Manager Trainee
• Personal Financial Services Officer

Graduates with a Hospitality & Tourism Major are prepared to find work as a(n):
• Hotel and Resort Manager
• Food and Beverage Manager
• Destination Marketer
• Event Planner
• Small Business Entrepreneur

Graduates with a Management Major are prepared to find work as a(n):
• Management Trainee in Financial Institutions, Retail, Wholesale or the Hospitality Industries
• Project Coordinator
• Shipping and Logistics Clerk

Graduates with a Marketing Major are prepared to find work as a(n):
• Promotions Coordinator
• Public Relations Assistant
• Event Marketing Representative
• Events Coordinator
• Merchandiser/Buyer
• Fundraiser for Not-For-Profit Agencies
• Researcher for Marketing Organizations
• Marketing Research Analyst

Admission Requirements

High School Route
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Two Grade 12 5-credit subjects with 50% or better

Mature Student Route
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2

Conditional Admission Plan (CAP)
Students that do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

*with permission of the Program Coordinator, students may take an elective course from outside this list.

Continuation Requirements
Prerequisite grades must be “C-” or higher. For the Administrative Office Professional courses, students must have a minimum of a “C” grade (2.0) as a prerequisite for the next level.

Graduation Requirements
To successfully complete the Business Administration diploma in Accounting, Financial Services, Hospitality & Tourism, Management or Marketing, students must:
• Complete a minimum of 20 required Business Administration courses and approved electives
• Complete a minimum cumulative GPA of 2.0 (C grade)

To successfully complete a second diploma within the Business Administration diploma in Accounting, Financial Services, Hospitality & Tourism, Management or Marketing, students must meet the MHC residency requirement and:
• Complete 4 major specific courses
• Complete 4 additional courses approved by the department

To successfully complete the Business Administration Administrative Office Professional major, students must:
• Complete a minimum of 22 required Administrative Office Professional and Business Administration courses
• Complete a minimum cumulative GPA of 2.0
• Obtain at least a C grade (2.0) in Administrative Office Professional, and Administrative Office Management courses

Transfer
Degree & Post Diploma Programs
Athabasca University
Graduates are eligible for transfer credit into AU’s Bachelor of Commerce, Bachelor of Management and Bachelor of Professional Arts (Communication Studies) degree programs. Students should consult Transfer Alberta or further information regarding transfer credit; for program information please consult with an AU Academic Advisor.

College of the Rockies
Graduates of the Business Administration diploma majoring in Accounting, Financial Services, Management, or Marketing are eligible for block transfer of course work into the third year of the Bachelor of Business in Sustainable Business Practices degree. Students must have successfully completed all coursework with a cumulative GPA of 2.3 (C+) with a minimum grade of C on transferred courses. For further information, contact an MHC Academic Advisor or an Academic Advisor at the College of the Rockies.
Business Administration Diploma

Mount Royal University
Mount Royal University and Medicine Hat College offer a degree completion program for Mount Royal’s Bachelor of Business Administration (BBA) on-site at Medicine Hat College. This program will be of interest to Medicine Hat College’s Business Administration diploma graduates with majors in Accounting, Financial Services, Management and Marketing. For more information consult with a MHC Business Academic Advisor.

Okanagan College
Graduates of the Business Administration diploma majoring in Accounting, Financial Services, Management, or Marketing are eligible to apply for admission to the third year of the Bachelor of Business Administration program at Okanagan College. Students must present a minimum average of 67%; please contact Okanagan College for further information regarding this agreement.

Royal Roads
Graduates of the Business Administration diploma majoring in Accounting, Financial Services, Management, or Marketing are eligible to enter into the third year of the Bachelor of Business Administration in Business and Sustainability program or the Bachelor of Commerce in Entrepreneurial Management program. Students must present a minimum cumulative GPA of 3.0 and meet all other admission criteria. Students should contact an Academic Advisor for further information.

University of Lethbridge
Graduates of the Business Administration Diploma are eligible to apply into the post-diploma Bachelor of Management program at the U of L, subject to qualifying restrictions. Please contact an MHC Academic Advisor or contact the U of L for further information.

International Transfer Opportunities

Griffith University, Australia
Graduates of the Business Administration diploma are eligible to receive advanced standing toward the Bachelor of Business program or Bachelor of Commerce program. Students should contact an Academic Advisor for further information.

Montana State University, Northern, Havre, MT, USA
Montana State University-Northern offers degree completion opportunities to graduates of the Business Administration diploma majoring in Management or Marketing into the Bachelor of Science in Business Administration. Student should consult the MSU-Northern Academic Advisor for further information.
Carpenter Apprenticeship

Paul Schaan, Coordinator  
Phone: 403.529.3978  
E-mail: pschaan@mhc.ab.ca

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

The term of apprenticeship for a carpenter is 4 years (four 12-month periods) including a minimum of 1560 hours of on-the-job training and 8 weeks of technical training each year.

Carpenters construct, erect and repair buildings and other structures made of wood, wood substitutes, steel, and other materials.

Duties vary according to the type of job.

In residential jobs, carpenters crib the basement; build the house framework, walls, roof, exterior and interior finishes; and install doors, windows, flooring, cabinets, stairs, handrails, panelling, moulding, and ceiling tiles.

In commercial or industrial jobs, they build concrete forms, scaffolding, bridges, trestles, tunnels, shelters, towers, and other structures.

In maintenance jobs, they repair and remodel existing structures of all kinds.

Some carpenters specialize in one type of work such as framing, bench work or finishing work.

Most carpentry tasks involve:
- reading blueprints and/or getting instructions from a supervisor
- performing the layout, including selecting materials, planning sequences and methods of work, and measuring / marking materials to avoid costly mistakes or omissions
- cutting and shaping materials and joining them with nails, screws, bolts or glue
- checking completed units to be sure they are level, square, plumb and the right size, shape and location

Carpenters must work accurately and economically, and follow national and local building codes.

Working Conditions

Carpenters may work alone, in teams or with helpers. Working conditions vary from one job to another. On some jobs carpenters work primarily indoors, are permanently employed and work a regular 40-hour week. On other jobs, they work primarily outdoors, are subject to seasonal unemployment, and routinely work overtime in peak periods.

There is some risk of injury from slips and falls, falling objects, and sharp hand and power tools.

Skills and Abilities

The work is most rewarding for those who take pride in creating a variety of things with their hands and honing their expertise in woodcraft.

To be successful in the trade, carpenters need:
- the ability to stand, crouch and kneel for long periods of time
- manual dexterity
- balance for working on scaffolding
- the ability to use proper lifting techniques
- the ability to solve arithmetic problems quickly and accurately
- the ability to get along well with others on a work team

The above information was copied from the tradesecrets website. For complete information on being a Carpenter check the website at www.tradesecrets.alberta.ca.
Child & Youth Care Counsellor
Diploma

Academic Advising Office
Phone: 403.529.3819

Dean Milne, Coordinator
Phone: 403.504.3610
E-Mail: dmlinemhc.ab.ca

The mission statement of Medicine Hat College’s Child & Youth Care Counsellor program is to provide students with transformational learning opportunities, professional development, and foundational theoretical practice in preparing them to support the lives of vulnerable children, youth, and families.

The Child and Youth Care Counsellor diploma is a comprehensive two-year program that prepares students to work with vulnerable children, youth, and families. These children and youth may have suffered physical, sexual, or emotional abuse, neglect, failure, family breakdown, and may have behavioral and/or learning difficulties.

Preparation for a career in Child and Youth Care Counselling demands a commitment to learning the essential components of developing healthy, caring relationships. The dynamics of abuse and neglect and the treatment of those issues are explored through courses in professionalism, children and the law, psychology, treatment methods, counselling skills and caring for at-risk youth. Education in group process, family dynamics, and ethics is also offered to enhance personal development and growth.

Students will spend considerable time in lab and field placement settings as well as in the classroom.

The Child and Youth Care Counsellor Program (CYCC) has identified five (5) program wide learning outcomes to prepare students for personal and professional success: Professional Practice, Communication, Self, Theoretical Knowledge, and Assessment and Intervention. In the CYCC curriculum, students will gain knowledge, skills, and competency related to these outcomes.

Career Opportunities

Child and Youth Care Counsellor graduates are in demand across Canada. The scope of potential employment opportunities open includes group homes; residential treatment centres; institutional settings; young offender settings; school liaison work; child development assistant (school setting); outreach/street programs; mental health centres; family and community based programs; therapeutic foster care; and, day treatment programs.

Admission Requirements

High School Route
60% or greater in each of:
• ELA 30-1 or a minimum of 70% in ELA 30-2
• One 30-level academic subject
• Three grade 12 5-credit subjects (maximum of 5 credits of CTS courses)

Mature Student Route
• ELA 30-1 or ELA 30-2 (minimum 60%)
• One 30-level academic subject

Transfer Route
• ELA 30-1 or ELA 30-2
• Eight courses from an accredited post-secondary institution with a minimum of a “C” grade

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Pre Program Requirements
Along with the academic requirements, students must also meet ALL of the following non-academic requirements:

• CPR and First Aid Certificates
• Police Information Check (You are obligated to inform the Program Coordinator immediately of any change in the status of your criminal record.)
• Intervention Record Check

Program Requirements

First Year
Fall
CYCC 111* The Profession of Child and Youth Care
Junior ENGL
IDST 100 Introductory Communications for Helping Professionals
KNES 281 Introduction to Movement Activities of Children and Youth
PSYC 205 Principles of Psychology

Winter
CYCC 120 Practicum I
CYCC 122 Working with Vulnerable Children, Youth and Families
CYCC 125 Fundamental Skills in Counselling
Junior ENGL
MICO 191 Introduction to Microcomputers
PSYC 351 Developmental Psychology
Child & Youth Care Counsellor
Diploma

Second Year

Fall
CYCC 230* Practicum II
CYCC 233 Legal and Cultural Issues Regarding Children and Youth
CYCC 235 Group Facilitation
CYCC 237 Youth Care Practice with Families
PSYC 357 Human Development

Winter
CYCC 232 Mental Health & Substance Abuse Issues
CYCC 240 Practicum III
CYCC 245 Assessment and Intervention
PSYC 385 Introduction to Abnormal Psychology

*All Child and Youth Care Counsellor students are expected to participate in a 1 1/2 day retreat.

Practicum

The program has a major practicum component. During the first year, students will observe different agencies while gaining information about many others. This experience assists in determining a successful placement in the second year. As part of an integration of practice and theory, students are in practicum placements two days (15 hours) per week for the entire second year of the program. Students will apply for practicum placements and through an interview process must show a high level of commitment and professional suitability to the agency. Students may be placed outside of Medicine Hat for the second year practicum.

As stated in the Child & Youth Care Association of Alberta’s Code of Ethics, it is the professional responsibility of members to maintain their personal, physical and emotional well-being. Students are expected to meet the physical demands of meeting clients in their own life space, and to always maintain healthy, professional boundaries. Should the program coordinator judge, in consultation with faculty, that there is evidence that students are professionally unsuitable or a risk to clients, the coordinator may prohibit you from attending or completing a practicum.

Continuation Requirements

In order to be considered a continuing student of record in the Child and Youth Care Counsellor Program, students must:

- maintain a minimum of a C grade in all Child and Youth Care Counsellor (CYCC) courses
- maintain a minimum cumulative GPA of 2.0 or better in all courses required to complete the program
- complete all prerequisite courses before moving on to the next core CYCC courses

Students that have been absent from the program for one calendar year and are returning to complete a course, students will be required to successfully complete a comprehensive evaluation. Depending on the outcomes of the evaluation students may be required to successfully complete remediation in preparation to enter the practicum.

Graduation Requirements

All courses outlined in the calendar must be completed with an overall GPA of 2.0 or higher.

Transfer

Athabasca University
Graduates of the Child and Youth Care Counsellor Diploma are eligible to transfer into Athabasca University’s Bachelor of Professional Arts (Human Services) degree. Students should consult with an AU Advisor for further information.

MacEwan University
Graduates may be eligible to apply to the third year of the Bachelor of Child and Youth Care program. Students must present a minimum cumulative GPA of 2.0 on the 4.0 scale.

Thompson Rivers University
Graduates are eligible to receive advanced credit toward the Bachelor of Health Science or the Bachelor of General Studies program. Students should contact an Academic Advisor at TRU for further information.

University of Calgary
Graduates are eligible to apply to the School of Child and Youth Care for completion of the Bachelor in Child and Youth Care program. Students should contact an Academic Advisor for further information.

University of Victoria
Graduates are eligible to apply to the School of Child and Youth Care for completion of the Bachelor in Child and Youth Care program. Students should contact an Academic Advisor for further information.

Vancouver Island University
Graduates of the Child and Youth Care Counsellor program are eligible to apply to the Bachelor of Arts in Child and Youth Care program. Students should contact an Academic Advisor for further information.

International Transfer Opportunities

Griffith University, Australia
Graduates of the Child and Youth Care Counsellor program are eligible to receive advanced standing toward the Bachelor of Human Services degree. Students should contact an Academic Advisor for further information.
Success in business rests on a strong foundation of basic business concepts in areas such as accounting, financial services, marketing, human resources, and more. If you are planning to pursue a degree in Commerce, Business Administration, or Management, MHC offers degree completion in collaboration with Mount Royal University, as well as several university transfer options.

A Bachelor of Commerce, Management or Business Administration can be used as a pathway into professional, master’s, or after degree programs such as Law, Chartered Professional Accountant (CPA) or Certified Human Resources Professional (CHRP).

### Admission Requirements

Refer to Admissions Chart on page 20

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Program requirements change yearly and vary by institution. Students pursuing an undergraduate degree as a learning pathway to a professional program should consult with a Medicine Hat College Academic Advisor and a representative from the institution they wish to attend. University Transfer students need to ensure they meet both the minimum requirements and competitive requirements for admission.

### Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program they wish to pursue. With this information, students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

### University of Alberta, Alberta School of Business

**Phone:** 780.492.5773 (Bachelor of Commerce Program Office)

**E-mail:** bcominfo@ualberta.ca

**Website:** www.ualberta.ca/business

Bachelor of Commerce, with majors in:

- Accounting
- Business Economics & Law
- Business Studies
- Decision and Information Systems
- Distribution Management
- East Asian Business Studies
- Entrepreneurship and Innovation
- European Business Studies
- Finance
- International Business
- Latin American Business Studies
- Management Information Systems
- Marketing
- Natural Resources, Energy & the Environment
- Operations Management
- Retailing and Services
- Strategic Management and Organization

Admission to the Alberta School of Business Bachelor of Commerce program at the University of Alberta occurs after completion of a pre-professional year, which must include a minimum of 24 transferable credit units (8 courses) and designated pre-requisite courses. Admission is competitive.

### University Transfer

Students are encouraged to consult the University of Alberta Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
Athabasca University, Faculty of Business

Phone: Toll free - 1.800.468.6531  
E-mail: business-support@athabascau.ca  
Website: business.athabascau.ca

Bachelor of Commerce, with majors in:
- Accounting
- Business Technology Management

Bachelor of Management, with majors in:
- General
- Human Resource Management

Post-diploma admission to these degrees are available. For further information, please refer to the Business Administration Diploma information in the Medicine Hat College calendar on page 93.

University Transfer

Students are encouraged to consult the Athabasca University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or an Athabasca University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Calgary, Haskayne School of Business

Phone: 403.220.6593 (Haskayne School of Business Program Advisors)  
E-mail: undergraduate@haskayne.ucalgary.ca  
Website: haskayne.ucalgary.ca

Bachelor of Commerce, with concentrations in:
- Accounting
- Business Analytics
- Business Technology Management
- Energy & Professional Land Management
- Entrepreneurship & Innovation
- Finance

Bachelor of Business Administration, with concentrations in:
- General
- International Business Strategy
- Marketing
- Operations Management
- Organizational Behavior & Human Resources
- Personal Financial Planning
- Real Estate Studies
- Risk Management and Insurance
- Risk Management, Insurance and Finance
- Supply Chain Management

Admission to the Haskayne School of Business Bachelor of Commerce program at the University of Calgary occurs after completion of six prescribed pre-commerce courses, and four optional electives. Admission is competitive.

University Transfer

Students are encouraged to consult the Athabasca University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or an Athabasca University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge (Lethbridge and Calgary Campus), Dhillon School of Business

Phone: 403.329.2153 (Faculty of Management Academic Advising - Lethbridge Campus)  
E-mail: dhillon.advising@uleth.ca  
Website: www.uleth.ca/dhillon

Bachelor of Management, with majors in:
- Accounting
- Agriculture Enterprise Management*
- Computer Science (Management)*
- Economics (Management)

Bachelor of Business Administration, with concentrations in:
- Finance
- General Management
- Human Resources Management and Labor Relations
- Indigenous Governance and Business Management*
- International Management*
- Political Science (Management)*

*Lethbridge Campus only
Admission to the Faculty of Management at the University of Lethbridge is competitive. The admission average for Transfer applicants presenting six or more transferable courses is calculated on all completed, transferable, post-secondary courses. Applicants presenting fewer than six transferable courses must also meet the High School Admission Route requirements. Post-diploma admission to this degree is available (for all major other than Agriculture Enterprise Management, Computer Science, Economics and Political Science).

For further information, please refer to the Business Administration diploma in the Medicine Hat College calendar on page 93.

University Transfer

Students are encouraged to consult the University of Lethbridge Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Lethbridge Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Mount Royal University, Bachelor of Business Administration (Collaborative program at Medicine Hat College)

Phone: 403-529-3819 (Academic Advising)
E-mail: info@mhc.ab.ca
Website: mhc.ab.ca

Mount Royal University and Medicine Hat College offer a degree completion program for Mount Royal's Bachelor of Business Administration - General Management Major (BBA) on-site at Medicine Hat College. The Bachelor of Business Administration partnership program at MHC is a competitive program. Further details on admission to this degree via the University Transfer route please see page 89. Successful applicants register in the third year of the Bachelor of Business Administration program.

University Transfer

Students are encouraged to consult the Medicine Hat College Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Mount Royal University, Bissett School of Business

E-mail: businessadvising@mtroyal.ca
Website: www.mtroyal.ca

Bachelor of Business Administration degree with majors in:
Accounting 
Finance
General Management
Human Resources
International Business
Marketing
Supply Chain Management

Students who have completed four or more post-secondary courses by December 31 and will have completed at least eight postsecondary courses by June 30 for the Fall Semester will be considered as a post-secondary applicant. Admission is competitive.

University Transfer

Students are encouraged to consult the Mount Royal University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a Mount Royal University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
The Computer Aided Drafting and Design (CADD) certificate program is a multi-disciplinary program focusing on the core disciplines of the built environment; mechanical engineering technology, civil engineering technology and building design technology. This program concentrates on the foundational theories and concepts in these core disciplines while learning and applying current technology so that graduates may begin their career as an entry level technician. Our approach to understanding and modelling the built environment makes the CADD Certificate program unique. Upon successful completion of all the courses students will be granted a one-year certificate. Students may enter the work force or continue their studies in the Diploma in Built Environment Engineering Technology program at Medicine Hat College. The CADD certificate program is designed to prepare you for both traditional and technical CADD skills to meet the demand of this dynamic industry. Good opportunities for pay and advancement are available to graduates. As a successful graduate, students will have a basic understanding of CADD technologies; mechanical, civil and building design technologies; sustainability; and technical drawings. In the second year of the diploma in Built Environment Engineering Technology program, students will learn more advanced skills in engineering, 3D design, modeling and presentation; data capture; mechanical engineering technology, process piping, civil engineering technology, and building design technology. Upon successful completion of two years at Medicine Hat College students will be awarded a diploma in Built Environment Engineering Technology.

Career Opportunities
Employment opportunities exist with consulting engineers, land surveyors, oil and gas industry, mining and manufacturing companies, federal, provincial, and municipal governments. The broad engineering background provides students the opportunity to be employed in research, design, manufacturing and sales. Students also have the opportunity to become an important member of any team engaged in supplying the goods and services required by modern technology. Completing the one-year program provides students with eligibility for membership in the Association of Science and Engineering Technology Professionals of Alberta (ASET) after two years of suitable industry experience.

Admission Requirements

High School Route
High school diploma with:
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Physics 20

Mature Student Route
• ELA 30-1 or ELA 30-2
• Math 30-1 or Math 30-2
• Physics 20

Conditional Admission Plan (CAP)
For students that do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is an individualized program to meet these needs. See page 18 for further details.

Program Requirements

Fall
CADD 101 Drafting I
CADD 121 CADD Applications I
CADD 172 Sustainability & Systems Thinking I
CADD 173 Construction Methods
CADD 161 Civil Design I – Civil Design Fundamentals
CADD 182 Building Design I – Building Systems

Winter
CADD 102 Drafting II
CADD 122 CADD Applications II
CADD 132 Mechanical Design I - Applied Physics
CADD 151 Technical Communications
CADD 161 Civil Design I - Civil Design Fundamentals
CADD 182 Building Design I – Building Systems

Continuation Requirements
Students may enroll in the Diploma in Built Environment Engineering Technology program after successful completion of year one. See the Built Environment Engineering Technology program for further program information.

Graduation Requirements
To successfully complete this program students must:
• Attain a minimum cumulative GPA of 2.0
• Complete the program with no failures or incompletes in the required courses

Transfer
Athabasca University
Graduates may be awarded 30 credits toward the Bachelor of Professional Arts Communications Studies. For more information contact a Medicine Hat College Academic Advisor.
Criminal Justice Diploma

Academic Advising Office
Phone: 403.529.3819

Jim Groom, Coordinator
Phone: 403.529.3987
E-Mail: jgroom@mhc.ab.ca

The Criminal Justice diploma program prepares students for a multitude of careers in criminal justice, including numerous governmental and non-governmental areas. These careers include opportunities in law enforcement, policing, private security, border enforcement, intelligence, criminal profiling, legal services, private investigations, and community peace officers.

The program provides a liberal arts education for adaptable career-minded individuals who are self-motivated and effective decision makers. The focus includes the development of responsible leaders for criminal justice careers. Possessing good communication and problem solving skills, as well as a positive attitude and values, makes students well suited for this program.

Aims of the Criminal Justice Program
The program is designed to prepare students to enter any one of many areas of public, contract, or private criminal justice occupations. Studies include exposure to an array of investigative techniques and practices including forensics, crime scene investigations, threat and risk assessments, and methods for gaining employment in the field of your choice.

Direction of the Criminal Justice Program
Rapid change, new technology, and increasing criminal sophistication demand that a criminal justice employee be well informed for a diverse and exacting profession. Police services, law enforcement industry trainers and educators have identified the key components and competencies required in the criminal justice community. In addition to leadership skills, these key competencies include ethics, analytical thinking, self-confidence, communication skills, flexibility, diligence, patience, self-control, problem solving, and physical skills. During the program students are encouraged to attain the necessary skills and fitness level to pass the testing requirements demanded by law enforcement organizations. Criminal Justice organizations expect applicants to be involved in their community and students are encouraged to volunteer for various groups and agencies.

The challenging and rewarding two-year program gives students the skills that future leaders in criminal justice will need to succeed. Students will also gain an understanding of the criminal justice systems through studies in human relations, psychology, sociology, investigations, policing, security, criminology and law.

Career Opportunities

The enforcement community encompasses a broad range of occupations in both government and private sectors. From government regulatory bodies to national security investigations, and specialized federal investigators to private security and consultants, the industry is extensive and growing.

There are a large number of career opportunities with police agencies and studies have indicated that many agencies are in the process of replacing a large percentage of their staff in the immediate future. As a result of terrorist threats, there have been a substantial number of new opportunities created in private and government security.

Our graduates have obtained employment with a wide range of private, municipal, provincial and federal agencies, including the RCMP, Municipal Police, Customs, Immigration, Military Police, Corrections, Solicitor General, Motor Transport, and private security providers.

Graduates of our program may apply to local, provincial, or federal police forces, other law enforcement agencies, and to federal agencies and corrections. However, you must apply to these agencies directly as Medicine Hat College does not supply graduates directly to any agency. It is imperative in this regard that you assess the hiring standards, especially the minimum physical qualifications such as eyesight, before expending extensive time concentrating on a law enforcement career.

Potential Career Positions
- Police Officers
- Corrections Officers
- Private Investigators
- Customs Officers
- Emergency Measures Planners
- VIP Security
- Risk Management Consultants
- Security Consultants
- Immigration Officers
- Military Police Officers
- Loss Prevention Investigators
- Bylaw Enforcement Officers
- Motor Transport Officers

Admission Requirements

High School Route
60% in ELA 30-1 OR 65% in ELA 30-2

Mature Student Route
60% in ELA 30-1 or 65% in ELA 30-2

Conditional Admission Plan (CAP)
If a student does not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP for this program is considered after June 1st. See page 18 for further details.

Students must contact the Program Coordinator to verify their schedule if completing the program outside of the normal cycle.

## Continuation Requirements

The prerequisite for SOCI 225 and SOCI 321 is SOCI 201. Students who do not obtain a grade of C- or higher in SOCI 201 are not allowed to take SOCI 225 or SOCI 321.

# Graduation Requirements

To successfully complete this program students must:

- Attain a minimum cumulative GPA of 2.0
- Attain a minimum pass mark of C- in all CJLS designated courses

# Transfer

## Athabasca University

Graduates of the Criminal Justice Diploma program are eligible to receive up to 60 credits towards the Bachelor of Professional Arts (Criminal Justice), Bachelor of Professional Arts (Governance, Law and Management), or the Bachelor of Professional Arts (Human Services) programs. Students should contact an AU Academic Advisor for further information.

## Lethbridge College

Graduates with a minimum cumulative GPA of 2.0 are eligible for admission and for block transfer into the third year of the Bachelor of Applied Arts in Justice Studies. Students should contact an Academic Advisor for further information.

## Royal Roads University

Graduates are eligible to transfer into the third year of the Bachelor of Arts in Justice Studies program. Students must present a minimum cumulative GPA of 3.0 and meet all other admission criteria.

## Seneca College of Applied Arts and Technology

Graduates of the Criminal Justice Diploma program are eligible to receive a block transfer of 15 specific courses within the Honours Bachelor of Crime and Intelligence Analysis Degree program. Students should contact an Academic Advisor for further information.

## International Transfer Opportunities

## Griffith University

Graduates are eligible to receive advanced standing toward the Bachelor of Criminology and Criminal Justice program. Students should contact an Academic Advisor for further information.
Early Learning and Child Care Certificate and Diploma

Academic Advising Office
Phone: 403.529.3819
Pamela MacDougall, Coordinator
Phone: 403.504.3506
E-Mail: pmacdougall@mhc.ab.ca

The certificate and diploma programs in Early Learning and Child Care prepare early childhood professionals to work with young children and families. The program combines theory classes in development, interpersonal communications, and appropriate practice with a strong practical base. Knowledge and skills learned in the program enable you to provide good quality care to young children in various settings, as well as enhancing their personal development.

Career Opportunities
Students will be prepared to work as primary staff in settings that include:
- Pre-schools
- Child Care Centres
- Family Day Homes
- Assistants in Kindergarten programs
- Out of school care programs

The one-year certificate program provides an Alberta Level II child care certification. The two-year diploma provides an Alberta Level III child care certification, which is required by all program directors in Alberta child care centres. The Early Learning and Child Care diploma is recognized throughout Alberta and across Canada as the qualification to work with young children.

Admission Requirements
High School Route
High school diploma with:
- 50% in ELA 30-1 or 65% in ELA 30-2

Mature Student Route
- 50% in ELA 30-1 or 65% in ELA 30-2

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Practicum
Students are selected for practicum on the basis of academic performance, professional suitability, fitness and conduct, volunteer community service, and availability of practicum sites.

Students should be aware that under the Protection for Persons in Care Act (January, 1998) they may be required to provide a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check to the practicum placement supervisors prior to starting placements. A current First Aid Certificate and Heath Immunization Record will be required in practicum placements. Should the program coordinator judge, in consultation with faculty, that there is evidence that you are professionally unsuitable or a risk to clients, the coordinator may prohibit you from attending or completing a practicum.

NOTE: Students may take up to two courses “for interest” without meeting admission requirements. At this point, however, you must meet all admission requirements to continue.

Program Requirements
First Year (Certificate)
Fall
CHPC 120*  Child Development I
CHPC 122  Interpersonal Relations I
CHPC 123  Health, Safety and Nutrition

Winter
CHPC 121*  Child Development II: An Introduction to Children with Special Needs
CHPC 124  Language and Literacy
ELCC 101*  Introduction to Early Learning and Child Care
ELCC 112  Development through Play II
ELCC 113  Music and Movement
ELCC 115  Practicum II

Second Year (Diploma)
Fall
ELCC 201  Fine Arts
ELCC 202  Math and Science
ELCC 203  Interpersonal Relations II
ELCC 204  Ecology of the Family
ELCC 205  Practicum III

Winter
ELCC 211  Infant and Toddler Care
ELCC 212  Professional Practice
ELCC 213  Inclusive Care and Education
ELCC 214  Children in Society
ELCC 215  Practicum IV

* Also offered through Distributed Learning

Continuation Requirements
Admission to the second year of the Early Learning and Child Care diploma normally requires students to have successfully completed the Early Learning and Child Care certificate program from Medicine Hat College or from another accredited Alberta college with a GPA of not less than 2.3, and with no final course grade of less than C. Students must successfully pass all fall semester courses to proceed with the winter semester.

The successful completion of courses at an accredited institution outside Alberta that are equivalent to the one year certificate in Early Learning and Child Care from Medicine Hat College, may also be considered. Students must have attained a GPA of not less than 2.3 with no final course grade of less than C.
Graduation Requirements

To successfully complete the **certificate** program you must:
- Earn C grades (2.0) in ELCC 105 and ELCC 115
- Attain an overall GPA of at least C (2.0)
- Complete all courses with no grades below C-

To successfully complete the **diploma** program you must:
- Earn C grades (2.0) in ELCC 205 and ELCC 215
- Attain an overall GPA of at least C (2.0)
- Complete all courses with no grades below C-

Transfer

**Athabasca University**
Graduates are eligible to transfer into the Bachelor of Professional Arts (Human Services) program. Students are required to present an additional 15 university level credits prior to admittance into the Bachelor of Professional Arts program. Students should consult with an AU Academic Advisor for further information.

**Grande Prairie Regional College**
Students who have successfully completed year one of the Early Learning and Child Care program are eligible for admission directly in year two of GPRC’s Early Childhood Development diploma program.

**Keyano College**
Students who have successfully completed year one of the Early Learning and Child Care program are eligible for admission directly in year two of Keyano’s Early Childhood Development diploma program.

**Lakeland College**
Students who have successfully completed year one of the Early Learning and Child Care program are eligible for admission directly in year two of Lakeland College’s Early Learning and Childcare diploma program.

**Lethbridge College**
Students who have successfully completed year one of the Early Learning and Child Care program are eligible for admission directly in year two of Lethbridge College’s Early Childhood Education diploma program.

**MacEwan University**
Students who have successfully completed the Early Learning and Child Care certificate are eligible for admission into year two of MacEwan University’s Early Learning and Child Care diploma program.

**Red Deer College**
Students who have successfully completed year one of the Early Learning and Child Care program are eligible for admission directly in year two of Red Deer Colleges Early Childhood Education diploma program.

**University of Calgary**
Graduates are eligible to apply to the two-year post-diploma Bachelor of Community Rehabilitation (BCR) program.

*The ELCC certificates from these institutions will transfer into Medicine Hat College’s ELCC diploma.

**University of Victoria**
Students who have completed a human services professional academic program at an accredited institution with an overall GPA of B or higher may be eligible to receive block credit upon admission to the School of Child and Youth Care (15 units for a one-year certificate and 30 units for a two-year diploma). This does not include vocational or continuing studies certificates or diploma. The School of Child and Youth Care is a member of the BC Child and Youth Care Education Consortium. Students should contact the University of Victoria for further information.

International Transfer Opportunities

**Griffith University, Australia**
Graduates are eligible to receive advanced standing toward the Bachelor of Child and Family Studies program. Students should contact an Academic Advisor for further information.
Bachelor of Education (B.Ed.)
Mount Royal University

Academic Advising Office
Phone: 403.529.3819

Lorelei Boschman, Program Coordinator
Phone: 403.529.3962
E-mail: lboschman@mhc.ab.ca

Mount Royal University and Medicine Hat College offer a degree completion program that graduates students as an elementary specialist with a humanities minor, and prepares its graduates for certification under the Professional Standards Branch of Alberta Education. Although the focus of this program is Kindergarten through Grade Six, the Bachelor of Education credential in Alberta qualifies graduates to teach Kindergarten through Grade Twelve. The program is both course and experience based, with courses deliberately arranged to generate synergy among them. The curriculum is designed to create a holistic experience for education students in their understanding of teaching, learning and assessment. Students in this program will graduate with an evolving teaching philosophy based on opportunities to research, discuss and critically analyze aspects of education and schooling throughout the program. Several courses, both core and elective, require students to participate in relevant classroom experiences in the community.

Admission Requirements
To apply to this program, applicants must meet the following admission requirements:
• Successful completion of 60 credits of approved university transfer course work
• Achieve a minimum grade of "B" in EDTS 232 and EDTS 234
• Achievement of a minimum GPA of 2.0, calculated based on the most recent 8 transferrable courses

The Bachelor of Education partnership program at MHC is a competitive program so that the most academically qualified students are accepted first. Please note that there is not an after-degree admission route for this program.

Program Requirements
The Bachelor of Education – Elementary is a four (4) year baccalaureate degree program offered by Mount Royal University in partnership with Medicine Hat College. The total requirements for this program include 40 courses made up of twenty (20) core education courses (including 2 practicums), eight (8) minor courses in the humanities, six (6) general education courses, and four (4) electives.

In Year 3 and Year 4, students will take seven Program of Studies and Curriculum Instruction in Teaching courses, four additional courses, and two practicums:
• EDUC 2375 – Effective Assessment – Measurement and Evaluation
• EDUC 3010 – Practicum I – 5 weeks
• EDUC 3101 – Program of Studies and Curriculum Instruction in Teaching Art
• EDUC 3103 – Program of Studies and Curriculum Instruction in Teaching English Language Arts
• EDUC 3105 – Program of Studies and Curriculum Instruction in Teaching Physical Education
• EDUC 3106 – Program of Studies and Curriculum Instruction in Teaching Science
• EDUC 3108 – Program of Studies and Curriculum Instruction in Teaching Mathematics
• EDUC 4030 – Practicum II – Full-term
• EDUC 4104 – Program of Studies and Curriculum Instruction in Teaching Music
• EDUC 4107 – Program of Studies and Curriculum Instruction in Teaching Social Studies
• EDUC 4325 – The Impact of Social Issues in Education & Schooling
• EDUC 4351 – Indigenous Perspectives in Education
• EDUC 4361 – Exceptional Students, Special Needs, & Inclusive Schooling

In addition to the two major practicum experiences in the third and fourth year, there are practicums embedded within certain coursework throughout the program. Placements for practicums will be in Medicine Hat and South Eastern Alberta area schools, in classes ranging from kindergarten through grade six.
Practicum Requirements
Students should be aware that under the Protection for Persons in Care Act (January 1998) they will be required to provide a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check to the school jurisdiction in which students are placed for each teaching practicum or experience. Student teachers are responsible for the cost of obtaining this documentation and ensuring it is provided to school jurisdictions requiring it, and providing a copy to the Student Placement Officer prior to the start of the first field experience. It is also recommended that students possess a current Emergency or Standard First Aid Certificate and that Health Immunization Records are up to date.

Continuation Requirements
Students enrolled in the Bachelor of Education – Elementary program are bound by, and shall comply with, the Alberta Teacher’s Association Professional Code of Conduct and the Department of Education Field Experience and Practicum Handbooks. Refer to the Field Experience and Practicum Handbooks for details. Issues of non-compliance will warrant the student being required to withdraw from the program. Because of the professional nature of the Education program, there is an attendance policy that Education students will need to abide by.

MRU policies for academic progression and residency will apply to students in the Collaborative Program. MHC policies will apply for all other academic and non-academic issues and appeals.

Graduation Requirements
To successfully complete the partnership Bachelor of Education – Elementary degree requirements, students must:

- Complete the minimum 60 credits of required third and fourth year courses, including major practicums
- Have a cumulative GPA of at least 2.0 based on all the courses required for graduation

Upon completion of the program, students will submit an application to graduate to Mount Royal University. Upon confirmation of graduation, students may attend convocation ceremonies at MRU and receive their parchment, or attend graduation ceremonies at MHC. If students wish to attend the MHC convocation ceremony, they must submit an MHC graduation application in addition to an MRU application. Students attending either institutions convocation ceremony will pay the respective institutions fees.
Education (B.Ed.)
University Transfer

Career Opportunities
Classroom Teacher K-12
Counsellor

Admission Requirements
Refer to Admissions Chart on page 20

Practicum
Students should be aware that under the Protection for Persons in Care Act (January 1998) they will be required to provide a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check to the school jurisdiction in which you are placed for each teaching practicum or experience. Student teachers are responsible for the cost of obtaining this documentation and ensuring it is provided to school jurisdictions requiring it, and providing a copy to the Education Advisor prior to the start of the first field experience. It is also recommended that you possess a current Emergency or Standard First Aid Certificate and that Health Immunization Records are up to date.

First Year Course Selection
To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to work towards. With this information students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Alberta, Faculty of Education
Phone: 780.492.4530 (Prospective Undergraduate Advising)
E-mail: education.recruitment@ualberta.ca
Website: www.education.ualberta.ca

Types of degrees offered:
• 4 year B.Ed. (40-course degree) direct entry or post secondary transfer
• 2 year after degree (for holders of an approved degree)
• 5 year combined degrees in which students receive two undergraduate degrees (Native Studies, Music, Drama, Kinesiology, Science, Math, Human Ecology)

Level of teaching that can be pursued:
• Elementary education (Kindergarten to Grade 6)
• Middle School Education (Grades 4 – 9) - Red Deer College collaboration
• Teacher Education North Program (Elementary route) – Grande Prairie College collaboration
• Teacher Education Rural North Program (Elementary route) – Keyano College collaboration
• Secondary education (Grades 7 – 12)

Major/Minor choices:
• Elementary – generalist major
• Secondary – major and minor are chosen from a list of teachable areas

Admission to the Faculty of Education:
Competitive Admission: GPA will be calculated on most recent two terms if they contain a minimum of 24 credits. If the most recent two terms contain less than 24 credits, all work in the next most recent term(s) is included in the calculation until the minimum total of 24 credits is reached. Fall/Winter courses are considered Winter courses in these calculations. For applicants who have attempted less than 24 credits of transferable postsecondary work, the GPA is based on all university transfer credits attempted. Note: Where the applicant has more than one passing grade for the same course at any institution, only the first passing grade is used in calculating the grade point average for admission purposes.

Students are encouraged to consult the University of Alberta Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a University of Alberta Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
University of Calgary, Faculty of Education

Phone: 403.220.6794 (Werklund School of Education)
E-mail: upe@ucalgary.ca
Website: www.werklund.ucalgary.ca

Types of degrees offered:
• 4 year Bachelor of Education (40-course degree) direct entry
• 4 year community based B.Ed.
• 2 year after degree, on campus or community-based (for holders of an approved degree)
• 5 year concurrent degree in which students will receive two undergraduate degrees (BA/BEd, BFA/BEd, BMus/BEd, BSc/BEd, BKin/BEd) (direct entry)

Level of teaching that can be pursued:
• Kindergarten/Elementary Route (Kindergarten to Grade 6)
• Secondary Route (Grades 7 – 12)
• K-12 Route; Specialization in English Language Learners, or Second Languages

Major/minor choices:
• Elementary - major chosen from list of teachable subjects
• Secondary - major and chosen from list of teachable areas

Students are encouraged to consult the University of Calgary Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a University of Calgary Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge, Faculty of Education

Phone: 403.329.2254 (Student Program Services)
E-mail: edu.sps@uleth.ca
Website: www.uleth.ca/education

Types of degrees offered:
• 5 year combined degrees in which students receive two undergraduate degrees
  BFA/B.Ed
  BA/B.Ed
  BMus/B.Ed
  BSc/B.Ed
  BMgmt/B.Ed
• Post-diploma degrees
  Pre-Post-Diploma B.Mgt./B.Ed.
  Pre-Post-Diploma B.F.A-Art/B.Ed.
  Pre-Post-Diploma B.F.A-Dramatic Arts/B.Ed.
  Pre-Post-Diploma B.Mus./B.Ed.
• 2 year after degree (for holders of an approved degree)

Level of teaching that can be pursued:
• Kindergarten to Grade 12

Major choices:
• Single discipline major
• General major

Minor choices:
• Optional from a list of teachable subjects
• Specialization: Optional from a list of Specializations
Admission to the Faculty of Education:
- Admission cumulative GPA of at least 2.50 calculated on courses taken within the semesters containing the last 20 university-level courses (60 credit hours); quota program.
- If 20 specific courses (60 credits) are not completed, you can enter the pre-combined degrees program for year three.
- Appropriate number of courses in the major required with a minimum cumulative GPA of 2.50 on all courses comprising the major.
- Students must have completed a minimum of 42 credits (14 graded 3-credit courses) that includes a minimum number of courses towards the student's chosen major
- Specific admission requirements for some majors (i.e. Music and Native Education Studies)
- EDUC 2500 – Practicum I - Orientation to teaching (MHC’s EDTS 232 – Professional Dimensions of Teaching I and EDTS 234 – Professional Dimensions of Teaching II) including a favourable recommendation from the instructor.

The Liberal Education Requirement (Lib Ed) is a requirement of all University of Lethbridge degree programs. The Lib Ed involves satisfactory completion of Arts and Science courses from three distinct lists: List 1 – Fine Arts & Humanities; List 2 – Social Sciences; List 3 – Science. Consult the University of Lethbridge academic calendar and the Transfer Alberta for details, or speak with a Medicine Hat College Academic Advisor.

Students are encouraged to consult the University of Lethbridge Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a University of Lethbridge Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Mount Royal University, Faculty of Education  
(Degree completion program at Medicine Hat College)

Mount Royal University and Medicine Hat College offer a degree completion program for Mount Royal University’s Bachelor of Education on-site at Medicine Hat College. Further information is available on page 108 and on the MHC website at www.mhc.ab.ca.

Mount Royal University, Faculty of Education

Phone: 403.440.7729 (Department of Education)  
E-mail: ldenney@mtroyal.ca  
Website: www.mtroyal.ca/bed/

Types of degrees offered:  
- 4 year Direct Entry B.Ed (40 courses offered)

Level of teaching that can be pursued:  
- Elementary (Kindergarten to Grade 6)

Major/minor choices:  

Admission to the Faculty of Education:  
- Direct entry, competitive admission, from high school: grades are calculated based on the required Grade 12 courses for admission into the Faculty of Education.

The General Education (GNED) is a requirement of all Mount Royal University degree programs. The GNED involves satisfactory completion of GNED courses chosen from four different clusters - Numeracy & Scientific Literacy; Values, Beliefs & Identity; Community & Society; and Communication.

Students are encouraged to consult the Mount Royal University Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a Mount Royal University Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
University of Regina, Faculty of Education

Phone: 306.585.4537 (Student Program Centre)
E-mail: education.counselling@uregina.ca
Website: www.uregina.ca/education/

Types of degrees offered:
- 4 year degree (BEd) Direct Entry, on-campus and community-based
- 2 year after degree (for holders of an approved degree)
- 5 year joint degree BEd/BKin and BEd/BSc with a Math Major

Programs offered:
- Early Elementary (pre-K-5) / Middle Years (6-9)
- Secondary (9-12)
- Baccalauréat in Éducation Francaise
- Arts Education
- Music Education

Major/minor choices:
- Variety of areas available

Admission to the Faculty of Education:
- Admission GPA calculated on all transferable courses
- Relevant Experience/References and a Personal Statement/Diversity
- Typically, a total of one year of pre-Education courses can be completed at MHC before transferring

Students are encouraged to consult the University of Regina Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a University of Regina Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Saskatchewan, Faculty of Education

Phone: 306.966.7654 (College of Education Programs Office)
E-mail: advising.education@usask.ca
Website: www.usask.ca/education/

Types of degrees offered:
- 4 year degree (B.Ed.)
- 5 year combined degrees (Music or Kinesiology)
- Secondary Technical Vocational Education
- Practical and Applied Arts
- Aboriginal Teacher Education

Level of teaching that can be pursued:
- Elementary/Middle Years sequential B.Ed
- Secondary sequential B.Ed

Major/minor choices:
- Teaching Area I/Teaching Area II (chosen from a list of teachable areas)

Admission to the Faculty of Education:
- Admission GPA calculated on most recent 20 Arts/Science (pre-Education) courses
- Typically, a total of one year of pre-Education courses can be completed at MHC before transferring
- On-line interview
- 35-40 hours of experience working with children (paid or unpaid)

Students are encouraged to consult the University of Saskatchewan Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor, or a University of Saskatchewan Academic Advisor can assist students to interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
Education Assistant Certificate

Academic Advising Office
Phone: 403.529.3819

This program is offered through Distributed Learning

The Medicine Hat College Education Assistant program is part of a collaborative program with Red Deer College which allows students to complete all of the required courses of the certificate through an online or distributed learning format. Students will be required to take courses through each of the three post-secondary institutions to complete this program. Completion of this program earns you an Education Assistant certificate from Medicine Hat College.

The Education Assistant program prepares students to work with children who required assistance in development and/or learning tasks. Graduates will be prepared to work both in school and in out of school settings.

Career Opportunities

Graduates will be prepared to work as Teacher Assistants and other roles with children who have learning and developmental needs.

Admission Requirements

High School Route
High school diploma with:
• ELA 30-1 or 65% in ELA 30-2

Mature Student Route
• ELA 30-1 (50%) or ELA 30-2 (65%)

Practicum

Students are selected for practicum on the basis of academic performance, professional suitability, fitness and conduct and availability of practicum sites. At this time, all practicum coordination will be through the Red Deer College, but placement is not limited to Red Deer.

Students should be aware that under the Protection for Persons in Care Act (January, 1998) they may be required to provide a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check to the practicum placement supervisors prior to starting placements. A current First Aid Certificate and Health Immunization Record will be required in practicum placements.

Distributed Learning

Tuition and other fees are charged on a course by course basis; textbooks and supplies are additional.

Program Requirements

Students enrolled in this program are expected to develop a program plan of study with the Academic Advisor prior to course registration.

Continuation Requirements

In order to be considered a continuing student of record in the Education Assistant program, students must:
• have completed all prerequisite courses before moving on to the next course
• have active yearly registration in a course either through MHC or one of its partners in the collaborative program

Time Limits for Program Completion

Students are allowed four years to complete the Education Assistant program. Following the completion of the first program course.

Graduation Requirements

To successfully complete this program you must:
• Attain an overall GPA of at least 2.0
• Complete all courses with no grades below C-
Electrician Apprenticeship

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

Electricians install, alter, repair, and maintain electrical systems in buildings. These systems may supply heat, light, power, controls and signals, or fire alarms for all types of buildings, structures, and premises.

The term of apprenticeship for an electrician is 4 years (four 12-month periods) including a minimum of 1500 hours of on-the-job training, 8 weeks of technical training in each of the first three years, and a minimum of 1350 hours of on-the-job training and 12 weeks of technical training in the fourth year.

Electricians:
• read and interpret electrical, mechanical, and architectural drawings and electrical code specifications to determine wiring layouts
• cut, thread, bend, assemble and install conduits and other types of electrical conductor enclosures and fittings
• pull wire through conduits and holes in walls and floors
• position, maintain and install distribution and control equipment such as switches, relays, circuit breaker panels and fuse enclosures
• install, replace, maintain and repair electrical systems and related electrical equipment
• install data cabling
• splice, join, and connect wire to form circuits
• test circuits to ensure integrity and safety
• install and maintain fibre optic systems
• install, replace, maintain, and repair renewable power sources and related equipment

Some electricians specialize in:
• residential (housing developments)
• commercial (office buildings)
• institutional (hospitals)
• industrial (plants, factories)

Skills and Abilities
To be successful in their trade, electricians need:
• good communication and reading skills
• an aptitude for math
• mechanical ability
• strength and manual dexterity
• the ability to distinguish colours to work with colour-coded wiring
• the ability to work at heights
• the ability to use proper lifting techniques for weights up to 25 kilograms
• the ability to get along well with co-workers
• the willingness to keep up with new developments in the field
• the ability to create new ways of doing things
• the ability to do very precise work expertly

Those who install or maintain equipment in existing homes or businesses also must be neat, friendly and able to deal with customers courteously.

The above information was copied from the tradesecrets website. For complete information on being an Electrician check the website at www.tradesecrets.alberta.ca.

Working Conditions
Electricians may be involved in construction or maintenance, or do a variety of electrical work. Electricians usually work a 40-hour, five-day week. Especially in construction, there may be no guarantee of permanent work. Working conditions can change dramatically from one job to another, varying from indoors in clean conditions to outdoors on scaffolding, to indoors in cramped conditions. There is some risk of injury from accidental electric shock.
Engineering (B.Sc.)
University Transfer

A degree in engineering provides promising employment opportunity. A degree in engineering provides promising employment opportunities in design, development, exploration, and problem solving. There are several engineering specializations including civil, chemical, computing, electrical, and mechanical. Depending on the specialization, you can work in analysis, construction, and development in a variety of industries.

You can begin your studies in engineering at Medicine Hat College and then apply to transfer to the University of Alberta to complete your degree.

Career Opportunities

Civil engineers: Design bridges, roads, airports, pipelines, dams, ships, buildings, transportation systems, and urban systems
Mechanical engineers: Involved in energy production and use, combustion processes, vehicle design, and propulsion systems design
Chemical engineers: Deal with chemical processes, design and analyze systems involving organic materials, nuclear fuels, and food processing
Electrical engineers: Work with communication, navigation, controls, electronics, power, and instrumentation systems
Computer engineers: Design computer systems and applications

Admission Requirements

Refer to Admissions Chart on page 20

Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to pursue. With this information, students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Alberta, Faculty of Engineering

Phone: 780.492.1715 (Faculty of Engineering Prospective and Incoming Undergraduate)
E-mail: engginfo@ualberta.ca
Website: www.ualberta.ca/engineering

In cooperation with the Faculty of Engineering, University of Alberta, Medicine Hat College offers one year of engineering. After successful completion of year one, you can transfer into second year at the University of Alberta and complete a degree in four years, or in five years if completing a Cooperative program. All Engineering students follow a common curriculum in their first year.

The Faculty of Engineering at the University of Alberta offers undergraduate programs leading to BSc degrees in:
Chemical Engineering
Chemical Engineering - Biomedical
Chemical Engineering – Computer Process Control (CPC)
Chemical Engineering - Oil Sands Engineering
Civil Engineering
Civil Engineering – Environmental
Computer Engineering
Computer Engineering – Software
Computer Engineering - Nanoscale System Design
Electrical Engineering
Electrical Engineering – Biomedical
Electrical Engineering – Nanoengineering
Engineering Physics
Engineering Physics - Nanoengineering
Materials Engineering
Mechanical Engineering
Mechanical Engineering – Biomedical
Mining Engineering
Petroleum Engineering
Enrollment in all Engineering programs at the University of Alberta is limited. However, provided the students meet the minimum GPA and course requirements, engineering students at Medicine Hat College will be considered for admission to second year at the University of Alberta on an equal basis with those who complete first year engineering at the University of Alberta.

Qualifying for Transfer Agreement with University of Alberta
Students who previously received credit for courses within the engineering transfer program, or courses within the first year of the engineering program for University of Alberta, are not eligible for the transfer agreement. Credit is defined as a course with a final grade of C- or higher.

University Transfer
Students are encouraged to consult the University of Alberta academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
English as a Second Language for New Canadians

Academic Advising Office
Phone: 403.529.3819

Shalla Shaharyar, Administrator
Phone: 403.504.3622
E-Mail: sshaharyar@mhc.ab.ca

This program is offered at both Medicine Hat and Brooks Campus

Medicine Hat College offers a progressive, communication based English as a Second Language program for immigrant Canadians. It is intended to build on previous basic English language instruction and to prepare for further studies or for better understanding and communication in the workplace.

Our ESLC program focuses on:
- Reading Skills
- Writing Skills
- Oral Communication Skills
- Listening Skills

What does our ESLC program offer?
- Full-time or Part-time studies
- Access to computer labs and computer managed learning software
- Small class sizes
- Individual attention
- Classes start September, January, and May
- College environment
- Exploration of other academic upgrading and Medicine Hat College courses
- Dedicated, experienced and highly qualified instructors
- Individual assessment and placements at the appropriate levels

Admission Requirements
- Priority will be given to those applicants who complete all registration requirements early
- Meet with the ESL Administrator to complete an assessment to ensure placement in classes, before meeting with an Academic Advisor
Medicine Hat College offers students a progressive, communication-based English as a Second Language program for international students (EAP-I). The EAP-I program has a proven history of providing the language training necessary to earn many university and college degrees and diplomas. Additionally, many of our short-term students have improved their English to a level high enough to enable them to function successfully in the global marketplace.

What does our EAP-I program offer?

- Several levels of instruction to meet your needs and abilities
- 3.13 week semesters per year
- 24 hours of classroom instruction per week
- Regular excursions and activities outside the classroom
- Small class sizes, maximum of 15 students per class
- Dedicated, experienced, and highly qualified instructors
- Personalized service and support
- Assistance with admissions and registration
- Opportunities to experience Canadian culture

Course Structure

Our English for Academic Purposes students will receive 24 hours of classroom instruction per week comprised of the following classes:

- Reading/Literature
- Writing/Essay
- Vocabulary
- Listening
- Conversation
- Grammar
- Film Studies

The EAP-I program is designed to develop students’ English language skills to meet Medicine Hat College English Language Proficiency admission requirements. Please see the Admissions English Language Proficiency section for details.

EAP-I Course Offerings

EAPI 079 Intermediate
EAPI 089 Low Advanced
EAPI 099 Advanced
EAPI 199 Bridging

Notes

Tuition fees and schedules are found on our website at www.mhc.ab.ca. Health insurance is compulsory and must be purchased through Medicine Hat College.
Environmental Reclamation Technician
Diploma

Consider a career where your passion for the environment and making the world a better place can be combined with excellent job and earning potential. Would you like the chance to work out of doors, travel and be able to apply your knowledge and skills to solve problems? Do you have above average communication, people and computer skills? Do you enjoy collecting information, meeting deadlines and have strong organization and planning skills? The environmental field is rapidly expanding and there is very strong demand for individuals with the required attitude, knowledge, skills and practical experience.

Environmental Reclamation is the returning of lands disturbed from oil and gas activities, logging, mining, infrastructure or industrial development back into either economically productive or natural habitats. Government regulations now require that only individuals with extensive training, knowledge and professional designation can certify reclamation of disturbed lands or decommissioning of wells and pipelines.

The MHC Environmental Reclamation Technician program is a two-year diploma designed with potential employers to include specific training essential for this career while focusing on the unique environmental conditions of southern Alberta and Saskatchewan. Graduates may find office or field orientated employment with private or government agencies involved with oil and gas activities, logging, mining, infrastructure or industrial development. In Alberta, competencies include know how to comply with Alberta regulations involving decommissioning of wells, and pipeline safety. In Saskatchewan, competencies include knowledge of how to comply with Saskatchewan regulations involving decommissioning of wells, and pipeline safety.

The program provides the knowledge, skills and practical experience necessary to participate in field based activities, and install and monitor mitigation efforts in reclamation activities. The program offers an experiential approach of many courses in this program. Students will be expected to participate in field trips and field-based activities.

Career Opportunities
A partial listing of some of the jobs found by graduates of the MHC Reclamation program include: environmental technician and technologist; junior soils and vegetation reclamation specialist; junior environmental consultant or assistant project manager; compliance inspector for government or industry; junior conservation or land manager; Assistant Ag Field person; drilling waste consultant; and Junior monitoring specialist for soils, air or water. Note that employment may require extensive travel; long days including evenings and weekends; work in remote locations; and working out of doors in all weather conditions. Employees must demonstrate a level of physical fitness due to uneven ground and irregular terrain where reclamation activities are taking place. Safety protocols with most employers also requires drug screening. Because of the applied, experiential approach of many courses in this program students will be expected to participate in field trips and field-based activities.

Admission Requirements

High School Route
High school diploma with:
- ELA 30-1 or ELA 30-2 (minimum 60%)
A minimum of 55% in:
- Biology 20
- Chemistry 30 or Science 30
- Math 30-1 or Math 30-2

Mature Student Route
- ELA 30-1 or ELA 30-2 (minimum 60%)
A minimum of 55% in:
- Biology 20
- Chemistry 30 or Science 30
- Math 30-1 or Math 30-2

Conditional Admission Plan (CAP)
If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

Computer competency requirement
Many of the courses in this program require a level of familiarity and competency with Microsoft Office suite of computer software. You are advised to enrol in MICO 191 before beginning this program if your computer skills are limited.

Corequisite Certification and Safety Training
H2S, Standard First Aid Level A.
Additional Safety certification/training is highly recommended: ATV Safety, Authorized Assistant Pesticide Applicator.

NOTE: Students must have current certification for each of these safety certificates prior to completion of the program. For students to participate in field trips/activities to active oil & gas leases they must have completed both H2S and PST certifications within the first six weeks of the program. Costs of certifications ranges from $50 to $350; you are responsible for these costs.

Professional Certification
Graduates of the Environmental Reclamation Technician program are eligible to apply to the Canadian Environmental Certification Board (CECAB) for designation as EPIT (Environmental Practitioner in Training). Graduates are also eligible to apply to the Alberta Institute of Agrologists (AIA) under the designation of Registered Technician Agrologists (RTAg). Students should note provincial legislation in Alberta and Saskatchewan requires that to work as a professional and be able to sign off reclamation certificates individuals must be registered either as RTAg, PAg, PBIOL, RPF or FIT, or PEng.
Environmental Reclamation Technician Diploma after Degree option
Bachelor of Science students, or transfer students with advance standing through completion of a related diploma are accepted into the program in September of each year. Students will potentially be able to receive credit for up to 50% of the Environmental Reclamation program course requirements as a result of transfer credits from their degree. A minimum GPA of 2.0 is required for admission.

Program Requirements

First Year
Fall
- BOTA 205 Introduction to Botany
- EREC 100 Introduction to Environmental Science Concepts
- EREC 120 Petroleum Industry Fundamentals
- EREC 140 Environmental Chemistry
- SOSC 213 Soil Resources
Winter
- ENGL 155 Scientific and Technical Writing
- EREC 115 Introduction to CAD and Surveying for Environmental Reclamation Technicians
- EREC 140 Environmental Chemistry
- EREC 160 Integrated Vegetation Management
- EREC 230 Water Fundamentals
- STAT 251 Introduction to Applied Statistics

Second Year
Fall
- BIOL 254 Plant Taxonomy
- BIOL 255 Ecology
- EREC 210 Agrology and Agro-Ecology for Environmental Technologists
- EREC 220 Environmental Sampling and Monitoring
- GEOG 201 The Physical Environment
Winter
- EREC 240 Environmental Assessment
- EREC 260 Land Reclamation and Revegetation
- EREC 263 Land Reclamation Legislation
- EREC 285 Capstone Project
- GEOG 332 Map and Air Photo Interpretation

Field Trips
Course related field trips and fieldwork may take place on weekends or may require overnight travel. Participation in all activities related to field trips and fieldwork is mandatory.

Continuation Requirements
In order to be able to continue into the second year of the program, a cumulative grade point average of at least 2.0 is required at the end of year one.

Graduation Requirements
To complete this program:
- Successfully complete all the program courses as outlined along with corequisite safety and training certificates
- Attain a minimum cumulative GPA of 2.0
- Obtain no more than one D or D+ grade in the second year
- Successfully complete EREC 280

Transfer
Lakeland College
Graduates are eligible for admission into the third year of the Bachelor of Applied Science: Environmental Management (BAppSc) program. Students are required to complete additional bridging coursework for full admission into the third year; students should contact an Academic Advisor for further information.

University of Lethbridge
Graduates may apply to the post-diploma Bachelor of Science (Environmental Science) program. Students must present a cumulative diploma GPA of 2.75 (on a 4.0 scale); students should contact an Academic Advisor for further information.

University of Saskatchewan
Graduates may transfer into the Bachelor of Science in Agriculture with a major in Environmental Science or Soil Science, or the Bachelor of Science in Renewable Resource Management with a major in Resource Science and receive up to 57 credits. Students should contact an Academic Advisor for further information.

International Transfer Opportunities
Griffith University
Graduates are eligible to receive advanced standing toward the Bachelor of Environmental Science degree. Students should contact an Academic Advisor for further information.
Environmental Science (B.Sc.)
University Transfer

If you are interested in how the world works and what makes up the earth, a degree in environmental science might be the right path for you. Our program will prepare you to transfer to another institution after you complete a maximum of two years at Medicine Hat College.

Admission Requirements

Refer to Admissions Chart on page 21

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Lethbridge, Faculty of Arts & Science

Phone: 403.329.5106 (Academic Advising)  
E-mail: artsci.advising@uleth.ca  
Website: www.uleth.ca/artsci  

All University of Lethbridge degree programs have a Liberal Education Requirement. Liberal Education involves satisfactory completion of 12 Arts and Science courses, chosen from three distinct lists (List 1 – Fine Arts & Humanities; List 2 – Social Sciences; List 3 – Science).

University of Alberta, Faculty of Science

Phone: 780.492.4758 (Faculty of Science)  
E-mail: advisor.science@ualberta.ca  
Website: www.ualberta.ca/science  

University Transfer
Students are encouraged to consult the University of Alberta academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Admission Requirements

Refer to Admissions Chart on page 20

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Program requirements change yearly and vary by institution. Students pursuing an undergraduate degree as a learning pathway to a professional program should consult with a Medicine Hat College Academic Advisor and a representative from the institution they wish to attend. University Transfer students need to ensure they meet both the minimum requirements and competitive requirements for admission.

Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to pursue. With this information, students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Alberta, Faculty of Arts

Phone: 780.492.4295 (Undergraduate Student Services)
E-mail: arts.undergrad@ualberta.ca
Website: www.ualberta.ca/arts

Bachelor of Fine Arts degrees offered in the areas of:

Art and Design  Design  Drama

University Transfer

Students are encouraged to consult the University of Alberta Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge, Faculty of Fine Arts

Phone: 403.330.1864 (Admissions & Portfolio Advisor)
E-mail: finearts.admissions@uleth.ca
Website: www.uleth.ca/finearts/

Degrees offered in the areas of:

- Art Studio
- Art History/Museum Studies
- Digital Audio Arts
- Dramatic Arts - Performance
- Dramatic Arts - Technical/Design
- Music
- Native American Art Studio
- Native American Art History/Museum Studies
- New Media
- Multidisciplinary

Bachelor of Fine Arts students at the University of Lethbridge are required to complete a major program in addition to the Liberal Education List Requirements. The Liberal Education List Requirements consists of four courses from each of the following lists: List I (Fine Arts & Humanities), list II (Social Sciences), and list III (Sciences).

Students interested in graduate studies (Masters Degree/PhD) also have the opportunity to complete an undergraduate thesis course in some majors. Please consult the University of Lethbridge Academic Calendar for program options and requirements.

University Transfer

Students are encouraged to consult the University of Lethbridge Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Lethbridge Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge, Faculty of Fine Arts: Dual Admission

Phone: 403.330.1864 (Admissions & Portfolio Advisor)
E-mail: finearts.admissions@uleth.ca
Website: www.uleth.ca/finearts/

Degrees offered in the area of:

- New Media

Dual admission is a collaborative initiative between Medicine Hat College and the University of Lethbridge. Students are admitted to University Transfer Fine Arts at Medicine Hat College and Bachelor of Fine Arts New Media at the University of Lethbridge at the same time. Students enroll in classes at Medicine Hat College for the first two years of their degree program and complete the last two years of their degree program at the University of Lethbridge.

In this program students will benefit from a guaranteed spot in their degree program at the University of Lethbridge, early course registration and access to campus housing with the University of Lethbridge, as well as scholarship opportunities through both institutions.

Bachelor of Fine Arts students at the University of Lethbridge are required to complete a major program in addition to the General Liberal Education Requirement. The General Liberal Education Requirement (GLER) consists of four courses from each of the following lists: List I (Fine Arts & Humanities), list II (Social Sciences), and list III (Sciences).

University Transfer

Students are encouraged to consult the University of Lethbridge Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Lethbridge Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
University of Regina, Faculty of Fine Arts

Phone: 306.585.5570 (Student Program Centre)
E-mail: media.art.performance@uregina.ca
Website: www.uregina.ca/mediaartperformance/

Degrees offered in the areas of:

- Art History
- Creative Technologies
- Cultures of Display
- Film Studies
- Film Production
- Indigenous Art
- Indigenous Art History
- Music
- Pop Culture
- Theatre and Performance - Design/Stage Management
- Theatre and Performance - General Studio
- Visual Arts
- Theatre and Performance - Acting

Students within the Faculty of Media, Art and Performance at the University of Regina are required to complete a concentration in addition to the General Arts Requirement.

Students interested in graduate studies (Masters Degree/PhD) also have the opportunity to work towards an Honours program in some majors. Please consult the University of Regina Academic Calendar for program options and requirements.

University Transfer

Students are encouraged to consult the University of Regina Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Regina Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Saskatchewan, College of Arts and Science

Phone: 306.966.4231 (Academic Advising)
E-mail: student-advice@artsandscience.usask.ca
Website: www.arts.usask.ca/

Degrees offered in the areas of:

- Art History
- Drama - Design
- Drama - Acting
- Studio Art
- Music

Bachelor of Arts/Fine Arts students at the University of Saskatchewan are required to complete a single major or interdisciplinary program as well as distribution requirements.

University Transfer

Students are encouraged to consult the University of Saskatchewan Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Saskatchewan Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the University of Saskatchewan Transfer Database online to determine Medicine Hat College course equivalents.
Global and Intercultural Studies Certificate

International Education Office
Phone: 403.529.3812

Division of Arts, Education and Business
Phone: 403.529.3885

The Global and Intercultural Studies certificate program recognizes the global and intercultural awareness, knowledge, and understanding acquired through targeted coursework and educational experiences at MHC. This embedded certificate is intended to be completed in conjunction with other coursework at MHC.

Global and intercultural studies includes:
- developing awareness of international and intercultural issues, and the ability to analyze these issues from different perspectives
- developing appreciation and respect for varying cultural perspectives and behavioral norms
- gaining experience in multicultural environments and the ability to adapt to unfamiliar environments
- improve one’s ability to communicate effectively across cultures

Admission Requirements

Students must be enrolled in a program of study at MHC. Students interested in completing the certificate should consult with their academic advisor and International Education Office.

Program and Graduation Requirements

1. Complete fifteen credits in coursework towards the certificate with a minimum GPA of 2.0 and no grade lower than C-, including:
   One of:
   - GNED 230/GNED 1301 Citizenship without Borders
   - GNED 234/GNED 1304 Communities and Societies

   Twelve credits from courses with a global or intercultural focus or language from course lists below, with a maximum of six credits from any one subject area.*

2. Complete intercultural development training and a documented intercultural or study abroad experience, facilitated by MHC International Education, to include:
   - Intercultural Development Inventory® assessment and individual debrief
   - Intercultural development training of three hours or more (offered by International Education)
   - Intercultural experience with reflection exercises and interviews
   - Study abroad experience of two weeks or more
   - Documented intercultural experience, facilitated by International Education of 25 hours or more

* A course cannot normally count towards both coursework and the study abroad or intercultural experience.
If you enjoy “hands-on” work and working with people, you will be interested in the Health Care Aide program. Medicine Hat College offers the Provincial Health Care Aide curriculum. This 8-month program offers students instruction in the classroom, laboratory, and clinical placements in Continuing Care, Assisted Living, and Community Agencies. The program is offered according to demand and is delivered in a full-time format.

Prior Learning Assessment
Individuals with related prior learning obtained during employment as a Health Care Aide may be eligible for Prior Learning Assessment and Recognition. Please refer to the Prior Learning Assessment and Recognition portion of the calendar for further information regarding this process. Please contact the Articulation and PLAR Coordinator at Medicine Hat College for further information.

Application Deadline
Applications are accepted for September (both campuses) and January start dates (Distributed Learning).

Distributed Learning (DL)
Our distributed learning program will be on-line, but in a synchronous format. Theory portions of the courses will occur on line and students should have access to a computer with a reliable internet for the courses. Lab portions of these courses will occur on weekends or times that are set ahead and only occur at the Brooks Campus or Main Campus of Medicine Hat College.

Career Opportunities
Upon graduation, students may find employment in home care and institutional settings where personal care is delivered. This career is very satisfying if you enjoy working with people. The work demands a high level of physical and emotional well-being.

Admission Requirements
Health Care Aide Program admission requirements are determined by the Government of Alberta and can be found in the admissions portion of the Calendar.

Pre-Professional Requirements
The following documentation must be submitted one month prior to the first day of classes:
- Standard First Aid Certificate
- CPR - Level C Certificate
- N95 Mask Fit Testing
- Health Form indicating that you are physically able to perform the duties of a Health Care Aide
- Police Information Check (including vulnerable sectors check). An adverse Police Information Check may delay or inhibit clinical and practicum placements
- Intervention Record Check
- Immunization records (deficiencies must be addressed or in the process of being addressed prior to clinical/practicum placement)

Program Requirements
The MHC program consists of nine courses in three clusters:

Cluster 1 (3 months)
- HCAP 140 Health Care Aide Role & Responsibility
- HCAP 141 The Human Body, Health & Chronic Illness
- HCAP 142 Communication & Documentation in the Health Care Environment
- HCAP 143 Providing Person-Centered Care & Comfort

Cluster 2 (2 months)
- HCAP 144 Clinical Placement I
- HCAP 145 Meeting Complex Care Needs
- HCAP 146 Special Activities for Clients with Various Health Conditions

Cluster 3 (3 months)
- HCAP 147 Clinical Experience II (Instructor-Led)
- HCAP 148 Consolidated Clinical Placement

Continuation/Graduation Requirements
To complete this program:
- Attain passing grades in all theory/lab/practicum assessments
- Meet attendance requirements as stated in the Health Care Aide program handbook
- Should you fail to achieve these outcomes you will be required to withdraw from the program

All HCA students must successfully complete all course work and pass the provincial comprehensive final exam in order to graduate from the program and receive a certificate. Students will be required to pass the comprehensive final exam in order to receive their program certificate.

Notes
Students are expected to observe program policies regarding punctuality, attendance, dress, response to supervision and feedback, and to provide safe, competent nursing care. If your performance is questionable in relation to the delivery of safe patient care and/or to the maintenance of the program standards you may be asked to leave the laboratory or clinical site at any time. Continued failure to uphold standards related to safe, professional performance will result in dismissal from the program. Students may be required to travel to neighboring communities for clinical and/or practicum placements. For international students: A coop work permit is required for practicum as well as your student visa, please contact our International Education Office for information (phone 403-504-3615 or www.mhc.ab.ca/InternationalStudents).
Heavy Equipment Technician
Apprenticeship

Keon Clift, Coordinator
Phone: 403.529.4852
E-mail: kclift@mhc.ab.ca

To be successful in the trade, heavy equipment technicians need:
• good vision, hearing, and sense of smell to diagnose problems
• the strength and stamina required to work with heavy equipment and work in cramped or awkward positions
• the ability to work alone or as part of a team
• mechanical ability and an interest in all types of machinery and engines, electronics, and precision equipment
• the ability to think logically and keep up with changes in technology

The above information was copied from the tradesecrets website. For complete information on Heavy Equipment Technician check out the website at www.tradesecrets.alberta.ca.

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

The term of apprenticeship for a heavy equipment technician is 4 years (4 12-month periods) including a minimum of 1500 hours of on-the-job training and 8 weeks of technical training each year.

Heavy Equipment Technicians maintain, repair, and overhaul heavy vehicles and industrial equipment.

Maintenance and repair of vehicles and equipment may include:
• internal combustion engines and components, both stationary and mobile
• tracked equipment, commonly called crawler tractors
• ground engaging equipment and components
• earth moving equipment
• rubber tired equipment, commonly called tractors
• on and off-highway motor vehicles, commonly called trucks
• towed on and off-highway vehicles, commonly called trailers

In general, heavy equipment technicians:
• interpret work orders and technical manuals
• keep equipment cleaned, lubricated and maintained
• diagnose faults or malfunctions
• adjust equipment and repair or replace defective parts, components or systems
• test repaired equipment for proper performance and ensure that the work done meets manufactures’ specifications and legislated regulations
• write service reports

Working Conditions
The working environment for heavy equipment technicians varies considerably from one job to another. Some heavy equipment technicians work in modern laboratories, while others work at construction or industrial sites. Travel requirements and hours of work also vary.

There is some risk of injury involved in working with heavy equipment and power tools. However, proper safety standards are maintained at all times.

Skills and Abilities
The work is most regarding for those who enjoy achieving expertise with precise work, problem solving, and working with their hands.
Recognizing the large and growing demand for skilled computer professionals and the diversity of skills needed in the computer field, Medicine Hat College offers a two year Information Technology Diploma with the two majors:

**Software and Internet Development (two years)**

**Technology Support (two years)**

The program is designed to be flexible. Students will be asked to select a major when they apply to the program. However, the first semester of the program is common to all students and you may have the opportunity to change your major based on your aptitudes and career goals as well as availability of seats in the major. Movement between majors will require re-applying to the major of your choice by December 1.

**Co-op Program Option**

Co-op Education is an integrated approach to higher education that enables bright, highly motivated students to integrate their academic program with paid, relevant work experience in their chosen field. The special Co-op designation on your diploma testifies to your accomplishments and helps you gain solid work opportunities.

**Industry Certification**

The IT programs incorporate all or part of the curriculum requirements for a number of industry certifications including A+, i-Net+, Network+, and various Microsoft Certifications. The examinations for the respective certifications must still be written independently.

**Career Opportunities**

**Information Technology - Software and Internet Development Major**

Graduation with a two year Software and Internet Development diploma prepares students for employment in a variety of entry-level positions in programming and software development, web design and development, database development, and software sales and support.

**Information Technology - Technology Support Major**

Graduation with a two year Technology Support diploma prepares students for employment in the following areas: User support, network and hardware installation and support, network administration, and computer sales and support.

**Information Technology Certificate**

You are eligible to receive a certificate if you choose to exit the diploma program after one year. This route is appropriate for students that are looking for a strong background in computer fundamentals, are looking for retraining, or have graduated from other areas and wish to update their computer skills. Graduates with a one-year certificate could expect to find employment in retail sales or computer support or as a microcomputer operator in business, government, or industry.

**Admission Requirements**

**High School Route**

- 50% or higher in ELA 30-1 or 60% or higher in ELA 30-2
- 50% or higher in Math 30-1 or 65% in one of Math 20-1 or Math 30-2

**Mature Student Route**

Mature students may meet the entrance requirements as a result of having achieved placement in Math 30 and college-level English, as determined by the Medicine Hat College Academic Assessment Test.

**Conditional Admission Plan (CAP)**

If you do not possess all of the admission requirements, the Conditional Admission Plan (CAP) may provide conditional acceptance to this program, provided space is available. CAP is individualized to meet your needs. See page 18 for further details.

**Prior Learning Assessment and Transfer Credit**

Prior Learning Assessment may be granted for extensive work experience. This must be completed well in advance of the beginning of the program. (See the calendar section on Prior Learning Assessment for more details.) Transfer Credit for previous post-secondary training may be possible. Application for Transfer Credit must be made through the Office of the Registrar for the courses for which exemption is sought, preferably before the term in which such courses are offered.

**Co-op Program Admission**

Admission to the co-op program will occur at the end of the first semester and will be based on:

- academic standing
- evaluation of the two written communications assignments in ITEC 100
- work term availability
- approval of the IT faculty

**Program Requirements**

**Software and Internet Development Major**

**First Year**

**Fall**

- ITEC 100 Professional Communications I
- ITEC 110 A+ Computer Technology I
- ITEC 120 Applied Mathematics
- ITEC 140 Programming Fundamentals I
- ITEC 150 Application Software

**Winter**

- ITEC 130 A+ Computer Technology II
- ITEC 145 Programming Fundamentals II
- ITEC 170 Networking Fundamentals
- ITEC 180 Business and Accounting Principles
- ITEC 190 Web Development I

**Second Year**

**Fall**

- ITEC 230 Emerging Technologies I
- ITEC 270 Database Management I
- NETW 290 Network Administration
Information Technology Diploma

PROG 210  Systems Analysis & Design
PROG 225  Intermediate Programming

Winter
ITEC 235  Emerging Technologies II
ITEC 240  Web Server Administration
ITEC 275  Database Management II
PROG 245  Dynamic Web Application Development
PROG 280  Advanced Programming

Technology Support Major
First Year
Fall
ITEC 100  Professional Communications I
ITEC 110  A+ Computer Technology I
ITEC 120  Applied Mathematics
ITEC 140  Programming Fundamentals I
ITEC 150  Application Software

Winter
ITEC 130  A+ Computer Technology II
ITEC 155  IT Systems Support
ITEC 170  Networking Fundamentals
ITEC 180  Business and Accounting Principles
ITEC 190  Web Development I

Second Year
Fall
ITEC 230  Emerging Technologies I
ITEC 260  Applied Technical Support I
NETW 200  Cisco Networking
NETW 220  Microsoft Server Technologies
NETW 290  Network Administration

Winter
ITEC 235  Emerging Technologies II
ITEC 240  Web Server Administration
ITEC 265  Applied Technical Support II
ITEC 285  Security
NETW 222  Advanced Microsoft Server Technologies

NOTE: Students enrolled in the Co-op Program must complete ITEC 205 and ITEC 291. Typically, ITEC 205 will be taken in the Winter semester of the first year and ITEC 291 will be completed over the spring and summer months between first and second year.

Notes
1. Students that have a strong high school Math background, an approved university transfer Math course such as MATH 203, STAT 213 may be taken in place of ITEC 120. Advanced permission is required.
2. Students in the Software and Internet Development major, university transfer courses CPSC 231 and/or CPSC 233 may be taken in place of one or two courses (on a one for one basis) designated by the program. Advanced permission is required.

Graduation Requirements
To successfully complete the ITEC Diploma in either major students must:
• Complete a minimum of 10, 200-level or higher approved courses
• Obtain no D (D or D+) grade in 200-level or higher courses.
• Attain a minimum GPA of 2.0

To successfully complete the ITEC Diploma Co-op in either major students must:
• Complete a minimum of ten 100-level approved courses
• Obtain no more than one D (D or D+) grade in 100-level courses
• Complete a minimum of twelve, 200-level or higher approved courses
• Obtain no D (D or D+) grade in 200-level or higher courses
• Attain a minimum GPA of 2.0

To successfully complete the IT Certificate students must:
• Complete a minimum of 10 approved courses
• Obtain no more than one D (D or D+) grade
• Attain a minimum GPA of 2.0

Transfer
Graduation from the diploma program provides eligibility to:

Athabasca University
Graduates of the Information Technology Diploma (both majors) are eligible to receive block transfer of 30 credits toward the post-diploma Bachelor of Science in Computing and Information Systems (BSc (PD)) program. Students may receive up to 30 additional credits on a course-by-course basis, provided courses in the diploma fulfill requirements of AU’s BSc (PD) programs. Students should contact an Academic Advisor for further information.

University of Lethbridge
Graduates of the Information Technology Diploma (Software and Internet Development major) are eligible to receive 60 credits toward the post-diploma Bachelor of Science-Computer Science. This transfer option is open to graduates who have achieved a cumulative diploma GPA of 2.50 or higher (on a 4.0 scale). Students should contact an Academic Advisor for further information.

NAIT
Graduates of the Information Technology Diploma Software and Internet Development major with a cumulative 2.3 GPA are eligible to enter into the Bachelor of Information Systems Technology Information Systems major. Students should contact an Academic Advisor for further information.

Graduates of the Information Technology Diploma Technology Support major with a cumulative 2.3 GPA are eligible to enter into the Bachelor of Information Systems Program Network Management major. Students should contact an Academic Advisor for further information.

International Transfer Opportunities

Griffith University, Australia
Graduates of the Information Technology Diploma (both majors) are eligible to receive advanced standing toward the Bachelor of Information Technology degree program. Students should contact an Academic Advisor for further information.
If you are interested in learning about how to capture and produce news and stories in all forms of media then a degree in journalism might be the right path for you. Our program is designed to prepare you to transfer to the University of Regina after you have completed a maximum of 20 pre-journalism courses at Medicine Hat College.

**Career Opportunities**

- Documentary maker
- Producer
- Editor
- Reporter (Newspaper, magazine or broadcast)

**Admission Requirements**

Refer to Admissions Chart on page 20

**University of Regina, Faculty of Arts**

Phone: 306.585.4420 (School of Journalism)
E-mail: journalism@uregina.ca
Website: www.uregina.ca/arts/journalism

Degrees offered in areas including:
- Bachelor of Arts in Journalism

The University of Regina, Faculty of Arts admits students into the third year of a four-year Bachelor of Arts in Journalism degree.

**Pre-journalism Requirements**

Completion of 60 credit hours of specified pre-journalism courses, with a minimum program grade point average (PGPA) of 70%. For a listing of required classes, please consult the University of Regina Official Undergraduate Calendar available here: https://www.uregina.ca/student/registrar/resources-for-students/academic-calendars-and-schedule/undergraduate-calendar/index

Additional requirements for admission:
- Completed application form
- Cover Letter
- Resume
- Supporting Documents (articles that have been written for publication, unpublished writing samples or relevant supporting material)

**University Transfer**

Students are encouraged to consult the University of Regina Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Regina Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
Kinesiology (B.A., B. Kin., B.P.E., B.Sc.)
University Transfer

Kinesiology is the study of human movement. Its goal is to use evidence-based research to improve human health, wellness, and performance. With a degree in kinesiology, you may become employed in areas related to coaching; recreation; general and workplace health and fitness; sports performance; research; illness and injury prevention; and rehabilitation. A degree in kinesiology can also help you to meet the admission requirements for a graduate program or another professional degree such as physical therapy or medicine.

Our program will prepare you to transfer to another institution after you complete a maximum of two years at Medicine Hat College.

Admission Requirements

Refer to Admissions Chart on page 20

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Program requirements change yearly and vary by institution. Students pursuing an undergraduate degree as a learning pathway to a professional program should consult with a Medicine Hat College Academic Advisor and a representative from the institution they wish to attend. University Transfer students need to ensure they meet both the minimum requirements and competitive requirements for admission.

Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to pursue. With this information students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Alberta, Faculty of Physical Education and Recreation

Phone: 780.492.5604 (Faculty of Kinesiology, Sport, and Recreation Student Services Office)
E-mail: ksra.info@ualberta.ca
Website: www.ualberta.ca/kinesiology-sport-recreation/

Degrees offered in the areas of:
• Bachelor of Kinesiology with majors in:
  o Adapted Physical Activity
  o Physical Activity and Health
  o Sport Performance
  o Sport Coaching
  o Individualized Major
• Bachelor of Science in Kinesiology
• Bachelor of Kinesiology/Bachelor or Education (combined degree)

University Transfer

Students are encouraged to consult the University of Alberta academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
University of Calgary, Faculty of Kinesiology

Phone: 403.220.7018 or 403.220.3407 (Faculty of Kinesiology Undergraduate Academic Advising)
E-mail: knesinfo@ucalgary.ca
Website: www.ucalgary.ca/knes

Bachelor of Kinesiology (B.Kin) or Bachelor of Science (B.Sc.) in Kinesiology degrees offered in the areas of:

- Biomechanics (BSc)
- Exercise & Health Physiology (BSc)
- General (BKin or BSc)
- Leadership in Pedagogy and Coaching (BKin)
- Mind Sciences in Kinesiology (BKin or BSc)

University Transfer

Students are encouraged to consult the University of Calgary academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Calgary Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge, Faculty of Arts and Science

Phone: 403.329.5106 (Academic Advising) or 403.329.2680 (Kinesiology & Physical Education Department)
E-mail: artsci.advising@uleth.ca or kinesiology@uleth.ca
Website: www.uleth.ca/artsci/kinesiology

Degrees offered in the areas of:
- Bachelor of Arts in Kinesiology
- Bachelor of Science in Kinesiology
- Combined Degrees with Education and Management:
  - Bachelor of Arts/Bachelor of Education in Kinesiology (BA/BEd Kin)
  - Bachelor of Science/Bachelor of Education in Kinesiology (BSc/BEd Kin)
  - Bachelor of Arts/Bachelor of Management in Kinesiology (BA/BMgt Kin)
  - Bachelor of Science/Bachelor of Management in Kinesiology (BSc/BMgt Kin)

The Liberal Education Requirement applies to all University of Lethbridge degree programs. The Liberal Education Requirement involves satisfactory completion of Arts and Science courses from three distinct lists: List 1 – Fine Arts & Humanities; List 2 – Social Sciences; List 3 – Science.

University Transfer

Students are encouraged to consult the University of Lethbridge academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Lethbridge Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Introduction
The University of Calgary (UofC) Bachelor of Nursing program at the Medicine Hat College site is an 8 semester program offered entirely on the Medicine Hat College (MHC) campus. This innovative Bachelor of Nursing degree program and integrated curriculum prepares students for the opportunities and challenges of a nursing career in a changing health care system. Throughout the program, students are provided with an extensive theoretical foundation and supervised practice experience in a variety of nursing settings. One BN entrance route is available: a full time four-year route with an annual September intake.

Undergraduates of the UofC nursing program strive for excellence in meeting entry-level competencies as outlined by the College and Association of Registered Nurses of Alberta (CARNAs) (2013) in five domains: professional responsibility/accountability; knowledge-based practice; ethical practice; service to the public; and self-regulation. They demonstrate professional and ethical decision-making behaviours as outlined by the Canadian Nurses Association Code of Ethics for Registered Nurses (2017).

Students in the nursing program participate in the generation of disciplinary knowledge and are prepared to interpret, integrate and apply relevant knowledge from other fields to their practice on a continuum of active learning. Graduates are prepared to provide a strong voice in inter-professional, collaborative undertakings; use evidence-informed approaches and diverse ways of knowing to provide compassionate care. Graduates take on leadership roles to promote health for individuals, families, public groups, communities and/or populations who are experiencing health transitions and, as such, work in a variety of practice settings across health/illness trajectories.

The University of Calgary (UofC) Bachelor of Nursing program at the Medicine Hat College site is an approved program by CARNAs Nursing Program Approval Education Board.

Career Opportunities
Employment opportunities for registered nurses are many and varied. Nursing positions are found in acute care (hospital) settings, extended care, home care, community, and rural settings. Nurses are also employed in occupational health nursing, and various government services such as outpost nursing, penitentiaries, international nursing or with the Canadian Armed Forces. Additionally, baccalaureate prepared nurses can also pursue graduate studies so they can have more advanced roles in practice and in nursing research.

Professional Conduct
The study of nursing practice places students in a position of special trust with Registered Nurses, other health care professionals, and their patients or clients. The Faculty of Nursing recognizes that nursing education occurs both inside and outside the classroom and has the responsibility to ensure that its graduates are competent and ethical. Students are expected to comply with all University of Calgary policies and regulations. Although nursing students in program are not regulated members of the College and Association of Registered Nurses of Alberta (CARNAs), as part of their formation as professional nurses, they are also expected to meet professional and ethical standards for Registered Nurses as outlined by:

Students are expected to ensure they are both familiar with, and comply with these standards.

Resources
The Faculty is located in the E-Wing of Medicine Hat College main campus. The nursing program has simulated learning throughout the program, which is designed as an interactive environment to enhance excellence in nursing.

Nursing is a practice-based profession. Nursing practice begins in Term 3. Nursing practice courses take place in a variety of institutional and community settings including rural and urban centres, with a variety of client populations. Students are expected to travel, at their own expense, to any nursing practice agency within commuting distance to Medicine Hat. Examples of facilities and agencies utilized by the Faculty of Nursing include: Medicine Hat Hospital, Bow Island Hospital, Brooks Hospital, and various community agencies such as but not limited to Medicine Hat Home Care, Medicine Hat Public Health Unit, and long term care facilities within Medicine Hat. Term 7 has out-of-region placements for the rural foci and international placements are available and arranged on an individual basis in Term 8.

Program Structure
Semesters 1 & 2: Combination of required, option courses or program prerequisites needed to proceed to year two.
Semesters 3, 4, 5, and 6 have identical course designs and consist of four courses per semester: The Profession & Discipline, The Science of Health, Supporting Health, and Nursing Practice. Each Term has the following focus:

Semester 3: Community and Population Health
Semester 4: Transitions Across the Lifespan
Semester 5: Acute Health Challenges
Semester 6: Chronic Health Challenges
Semester 7: Complex Health Challenges in Focused Populations
Semester 8: Preceptor Practicum

University of Calgary at Medicine Hat College Admission Requirement
Students apply to Medicine Hat College and are a Medicine Hat College student for the first and second years. Upon successful completion of the first two years of the program, students apply to the University of Calgary as a third year student and are guaranteed acceptance if they have met all the UofC entrance requirements (minimum 2.0 GPA on last 30 units or 5 full-course equivalents). Students take years three and four as a University of Calgary student at Medicine Hat College campus.
Nursing (B.N.)
University of Calgary Bachelor of Nursing at Medicine Hat College

Enrolment in the BN program is limited. Applicants will be accepted on the basis of academic standing in high school and/or previous post-secondary education completed. Applications will be accepted until all seats are filled.

Program documentation is due June 30.

International Student Admission
International applicants should be aware of the following “English Language Proficiency” requirements. For entry to the Bachelor of Nursing program, they must present a minimum score of 237 on the computer-based Test of English as a Foreign Language (TOEFL) and a score of 50 on the Test of Spoken English; or a minimum score of 580 on the paper-based TOEFL examination and a score of 50 on the TSE.

Pre-Program Requirements

Immunization Requirements
All BN students are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Form. Documented proof of completion must be provided to the Faculty of Nursing prior to commencement of the program. Throughout the BN program, students are required to ensure that immunizations are current and must provide proof of updates to the Faculty of Nursing. Failure to do so may result in students being removed from practice courses until adequate proof has been provided. Please note that requirements may change during the program as determined by Alberta Health Services.

N-95 Fit Testing
All BN student must be fit tested for a N-95 mask prior to commencement of Term 1 (high school students) or Term 3 (UT transfer students). Documented proof of a fit test must be provided to the Faculty of Nursing prior to commencement of the program. Failure to do so may result in students being removed from practice courses until adequate proof has been provided. Fit testing is valid for two years; therefore, students must present proof of a second fit testing at the time of expiration.

Police Information Check
All applicants to the Nursing program are required to provide a current Police Information Check (PIC), which includes a Criminal Record Check and Vulnerable Sector Search. In order to be considered ‘current’, the PIC must be completed during the three months prior to admission (i.e. June 1 – August 31 for Fall admission). Without this documentation, admission to the Faculty will be rescinded.

Students who are concerned about the presence of a criminal record should contact the police department to discuss the process for eliminating or erasing such a record. Students need to keep the original PIC for future employment purposes. Failure to present a clear Police Information Check may result in admission being denied/rescinded. Subsequent to admission and at any time during the program, a student may be required to produce a current PIC, the results of which could require their withdrawal from the program. Students are required to inform the Faculty immediately of any change in status of their criminal record.

Cardio Pulmonary Resuscitation Certification
All BN students will be required to submit proof of current CPR Certification (valid for a 12 month period from date of course completion) which includes a Health Care Provider component prior to the commencement of clinical practice courses to the Faculty of Nursing annually and to the practice instructor on the first day of nursing practice each in terms 3-8. Without this documentation, may result in students being removed from practice courses until adequate proof has been provided.

Skills and Abilities for Becoming a Registered Nurse in Alberta
Nursing students require certain basic skills and abilities to progress through a nursing education program and for initial entry to practice as a Registered Nurse in Alberta. Students are encouraged to review the document “Requisite Skills and Abilities for Becoming a Registered Nurse in Alberta (May 2011)” to identify their fit with the requirements of becoming a registered nurse and/or identify their potential need for accommodation in becoming a member of the nursing profession. Examples following each requisite skill and ability are included in the document to provide the nature and kind of activities involved in typical entry-level registered nurse practice. Accommodation is the process of making alterations (to the point of undue hardship) to the delivery of services so that those services become accessible to more people, including those with disabilities (Alberta Human Rights Commission).

Program Requirements
The education provided is based on the entry-to-practice competencies as specified by the Nursing Educational Approval Board in Alberta. Students must meet these competencies to successfully complete the nursing program.

Senior Nursing Option I
Senior Nursing Option II

Semester 8 - Transition to Practice: Senior Clinical Practicum
NURS 599 Integrating Nursing Roles and Practices VI: Transition to Nursing Practice

Continuation Requirements
Students must demonstrate successful completion and satisfactory standing of all courses in Semesters 1 and 2 before advancing to subsequent semesters.

Satisfactory Standing
To maintain satisfactory standing students must meet all of the following conditions:

• All non-nursing courses (Semester 1 and Semester 2) require a minimum grade of C-.
• Students must attain a minimum grade of C+ in all nursing theory courses. Students who do not achieve a minimum grade of C+ in a nursing theory course will be required to repeat it, along with all co-requisite nursing theory and practice courses and must meet with the Department Chair or designate to determine a progression plan.
• Obtain a grade of CREDIT (CR) in the nursing practice courses to be successful/pass. If students do not receive a passing grade, students will receive one of the following grades: NO CREDIT (NC), WITHDRAWAL (W), or a FAIL (F) for that course. A NC, W, or a F must be cleared (i.e. must successfully repeat the course) to advance to the next clinical course and/or term. Students are permitted to repeat any required course only once while in the nursing program.
• Students who receive a grade of “F” in a nursing practice course will be required to repeat it and the corequisite nursing theory courses in that same term. Students will be required to withdraw from the corequisite theory courses at the time of failure of the nursing practice course and meet with the Department Chair or designate to determine a progression plan.
• Maintain a GPA of 2.0 as a MHC student in each semester in years 1 and 2 and an annual GPA of 2.0. If a student’s GPA is below 1.7, a letter of academic probation from the College will be given in addition to a letter of warning from the nursing program. A student may only be on academic probation once during the nursing program [while as a MHC student or as a University of Calgary student].
• All nursing practice experiences are mandatory. Students that miss two or more labs/practice days may be at risk of not successfully completing the course. Students may be asked to withdraw from the course and complete the course requirements at a later date or they may be granted a deferral of term work pending availability of resources. Students will be required to meet with the Department Chair or designate to determine a progression plan.
• Promotion from year to year is by recommendation of the Faculty of Nursing. Terms 1 and 2 are taken in Year 1; Terms 3 and 4 are taken in Year 2; Terms 5 and 6 are taken in Year 3 and Terms 7 and 8 in Year 4.
• Students must maintain an annual GPA of 2.5 as a U of C student.
Nursing (B.N.)
University of Calgary Bachelor of Nursing at Medicine Hat College

Students that do not meet one or any of the satisfactory standing requirements [as mentioned above] will be given an academic warning within the Nursing Program. If students do not meet the requirements a second time, students will be required to withdraw (RTW) from the nursing program and not be able to reapply to the Nursing Program. (An “academic warning” within the nursing program is different than being put on “academic probation” by the College or by the University. Consult the Medicine Hat College calendar and the University of Calgary calendar for circumstances indicating academic probation).

Students required to withdraw from the nursing program are not necessarily required to withdraw from the college and could possibly continue in other college programs.

Students that are dismissed from the nursing program once, can return to the nursing program but must wait until the next offering of the term from which the student was dismissed. Students must complete the nursing program in their second admission within seven years of initial registration in the program. Students can re-apply to the program only once.

While the College and Program will endeavour to inform students of their academic status in a timely manner, students are responsible for monitoring their own academic program and informing the Department Chair if they have been unsuccessful in a course.

Program Policies Related to Practice Experiences
Students' clinical experiences may be at sites outside of Medicine Hat and may be scheduled at various hours, including evenings, nights, statutory holidays, and weekends.

Students are expected to make accommodation for commitments outside the program to fit this scheduling. Participation in all activities related to clinical is mandatory. Failure to fully participate in clinical experiences may jeopardize their standing in the program. Should student performance compromise patient safety and/or fall below acceptable professional standards of the program, the student will be asked to leave the clinical site and will receive Fail (F) for that course immediately.

Other Relevant Information
- Information related to the students academic conduct and clinical performance at MHC may be shared with the Faculty of Nursing at the University of Calgary.
- Students may be required to produce a medical clearance to continue after an injury, illness, or surgery.
- Students are only allowed to be on academic probation one time during the Nursing Program in years 1, 2, 3, & 4.
- Students will need to purchase the following items throughout the program: uniforms, lab jacket, duty shoes, lab supplies (nursing and non-nursing courses), a watch with a sweep hand, a stethoscope, textbooks and related supplies as outlined in course outlines, and any updates for required program certifications.
- Access to a personal vehicle is required for experiences in the community and possibly for other clinical experiences.
- The Nursing Program at MHC follows the University of Calgary academic calendar start and end dates for each semester. This is only applicable for the years 2, 3 & 4.

Duration of Program
Except with special permission of the Associate Dean (Undergraduate Programs) at the University of Calgary, the BN degree must be completed within seven calendar years from the date of initial registration in the program.

All students in years 3 and 4 of the MHC nursing program follow the University of Calgary Faculty of Nursing program policies and protocols.
Occupational Therapist Assistant/Physical Therapist Assistant Diploma

Academic Advising Office
Phone: 403.529.3819

Grace Torrance, Program Coordinator (Distance Learning Cohort - DL)
Phone: 403.529.3949
E-mail: gtorrance@mhc.ab.ca

Leeanne Sadowsky, Program Coordinator (Onsite Cohort - OS)
Phone: 403.504.3698
E-mail: lsadowsky@mhc.ab.ca

The Occupational Therapist Assistant/Physical Therapist Assistant (OTA/PTA) career is aimed at improving patient/clients' health, movement, and quality of life. OTA/PTA's work under the direction and supervision of Occupational Therapists (OT) to help clients successfully perform daily activities related to self-care, leisure, and work, school or play. They also work under the direction and supervision of Physiotherapists (PT) to help provide treatment to help patients recover from illness or injury to improve patient mobility, relieve pain, and prevent and/or lessen physical limitations.

A successful OTA/PTA is a compassionate and creative individual who enjoys working with people and being part of the health care and rehabilitation team. Working with clients of all ages ranging from infants to seniors with a variety of health conditions, students learn how to use a variety of interventions to help clients. The activities may include games or crafts; group activities; exercise for strength, flexibility, balance and coordination; use of assistive devices, and various electrotherapy and physical modalities. An OTA/PTA may work with clients who have conditions such as back pain, arthritis, heart disease, stroke, cerebral palsy, autism, mental health disorders or dementia among others. An OTA/PTA's responsibilities also include monitoring and recording client progress, and reporting the information back to the OT or PT.

The OTA/PTA program has limited enrollment for both onsite and distance delivery. The OS program has one start date (September); the DL program has two start dates (September and January).

This program is flexible in that the majority of the first 10 courses are common to both the OTA/PTA and Speech Language Pathologist Assistant (SLPA) diplomas. This unique approach provides students with an excellent core upon which to build more specific skills depending on their interests. Along with extensive classroom training, students participate in experiential learning and practicum training with potential employers in hospitals, private clinics, home care settings, schools, and community programs.

The diploma is offered both OS at Medicine Hat College or via Distance Learning (DL). OS is a two-year (five semester) diploma program, whereas DL is completed over a longer period of three to five years. Students may wish to continue on and complete the SLPA diploma after completion of the OTA/PTA diploma. This diploma also transfers to degree programs.

Program Accreditation
The Occupational/Physical Therapy Assistant program at Medicine Hat College has been accredited by the Occupational Therapist Assistant and Physiotherapist Assistant Education Accreditation Program (OTA & PTA EAP) in collaboration with Physiotherapy Education Accreditation Canada (PEAC) and the Canadian Association of Occupational Therapists (CAOT). The status of Accreditation was granted to the program on April 30, 2015 for the period until April 30, 2021. Occupational Therapist Assistant and Physiotherapist Assistant Education Accreditation Program, Suite 26, 509 Commissioners Road W, London, Ontario N6J 1Y5. Phone: 226.636.0632 Website: www.otapta.ca

Distributed Learning (DL)
• Students enrolled in DL must develop a program plan of study with the Academic Advisor prior to taking any courses.
• Students enrolled in DL are expected to participate in experiential learning opportunities that are group or individually based. Students must travel to Medicine Hat College or pre-arranged sites for one weekend lab in each of OPTA 212, OCTA 215, OCTA 216, PHTA 215, and PHTA 216. For further information, please contact the program coordinator (DL cohort).
• Students normally complete all courses as per the sequence in the program. Courses completed out of sequence will require submission of Prerequisite Waiver forms and approval from the program coordinator.
• Tuition and other fees are charged on a course by course basis; textbooks and supplies are additional.
• Courses offered by DL may have additional start dates (e.g. September, November, January and March)

Prior Learning and Recognition (PLAR)
Individuals with related prior learning obtained during employment in the Occupational Therapy/Physical Therapy field prior to entering the Occupational Therapy Assistant/Physical Therapy Assistant Diploma may be eligible for Prior Learning Assessment and Recognition. Please refer to the Prior Learning Assessment and Recognition portion of the calendar for further information regarding this process. Please contact the Articulation and PLAR Coordinator at Medicine Hat College for further information.

OTA or PTA Graduates
Individuals who have obtained an OTA or PTA certificate or diploma from Medicine Hat College or another Canadian public college may apply to complete the OTA/PTA program at Medicine Hat College. Specific information about this opportunity include the following:
• Applicants will be assessed as transfer students for entrance requirements.
• Once accepted, educational transcripts are evaluated for transfer credit and/or substitution credit into the MHC OTA/PTA program.
• Students currently working as an OTA or PTA may be eligible for PLAR for some courses.
• Students will be required to take all courses in the MHC OTA/PTA program where transfer or substitution credit has not been granted.
• Students will be required to take all the discipline specific courses, including fieldwork, in the focus area that the original certificate/diploma was not received (i.e. if it is a PTA diploma, all OTA courses must be completed and vice versa.) requirements.
• Students may be required to take an additional course (TAPC 209) to bridge between the original certificate/diploma and the MHC program.
Occupational Therapist Assistant/Physical Therapist Assistant Diploma

- In order to receive the MHC OTA/PTA diploma, students meet the residency requirements of Medicine Hat College.

This opportunity is available to a limited number of students per intake and is primarily delivered through DL. Please contact the program coordinator of the DL cohort for further information.

Part-Time Program
Students wishing to take an extended or part-time program must receive approval from the program coordinator(s).

Career Opportunities
Graduates from this program have very high employment rates. They find employment in both rural and urban locations in most provinces across Canada similar to those experienced in practicum training such as:
- Health regions
- Schools and School Boards
- Private Agencies
- Long term care facilities

Admission Requirements

High School Route
High school diploma with a minimum mark of 60% in each of:
- ELA 30-1
- Biology 30
- Two 30-level subjects, one of which must be a 30-level Science, Math 30-1 or Math 30-2

Mature Student Route
A minimum mark of 60% in:
- ELA 30-1
- Biology 30

Transfer Student Route
A minimum mark of 60% or a minimum C grade in:
- ELA 30-1 or a post-secondary level equivalent
- Biology 30, a post-secondary level equivalent or a university level lab science course

English Language Proficiency
Students also need to meet English Language Proficiency at a higher level than the general college. For the International English Language Proficiency System (IELTS) students must have an overall band score of 7.0 with no band score less than 7.0.

Pre-Program Requirements
Once successful in gaining admission and have received the program orientation package, students must:
- Complete a standardized health form, program of immunization (and chest x-ray as required)
- Provide a current resume if requested
- Provide proof of current CPR/AED Certification from one of the following:
  - Heart & Stroke Foundation: Basic Life Support (BLS)
  - Canadian Red Cross: Level Health Care Provider (HCP)
  - St. John Ambulance: Health Care Providers (HCP)
- Provide proof of current Standard First Aid Certification
- Provide a current Police Information Check with Vulnerable Sector Check. (Students are obligated to inform the Program Coordinator immediately of any change in the status of their criminal record)
- Provide proof of current N-95 Mask Fit test

Program Requirements

First Year
Fall OS or Group 1 DL
IDST 100  Introductory Communications for Helping Professionals
ENGL 1XX or ENGL 2XX (ENGL 252 recommended)*
KNES 261  Human Anatomy
PSYC 205**  Principles of Psychology
TAPC 110+  Introduction to Health Care and Rehabilitation

Winter OS or Group 2 DL
KNES 265  Functional Anatomy
Junior SOCI**  (SOCI 203 recommended)
TAPC 111  Rehabilitation Process
TAPC 112  Health Disorders & Conditions in Rehabilitation
TAPC 113  Growth and Development for Rehabilitation Service Providers

Spring OS or Group 3 DL
OPTA 212  Principles and Techniques of Client Contact

Second Year
Fall OS or Group 4 DL
OCTA 215  OTA Therapeutic Processes I
OCTA 216  OTA Therapeutic Processes II
PHTA 215  PTA Therapeutic Processes I
PHTA 216  PTA Therapeutic Processes II
TAPC 210  Professional Integration for the Therapist Assistant

Winter OS or Group 5 DL
OCTA 217+  OTA Therapeutic Processes III
OPTA 217+  OTA/PTA Therapeutic Processes IV
OPTA 218  Career Preparation for the OTA/PTA
PHTA 217+  PTA Therapeutic Processes III

Note:
* ENGL 125 is offered by DL at MHC. Other English courses are not offered by DL at MHC but are available in a DL format through other post-secondary institutions. Contact Academic Advising for more information.
** These courses are not offered by DL at MHC. They are available in a DL format through other post-secondary institutions. Contact the Academic Advisor for more information.
+ These courses are fieldwork courses.

Fieldwork

Fieldwork Requirements
- All program requirements must be completed appropriately and satisfactorily prior to commencing fieldwork.
- Students who have not successfully met their course and program requirements will not be permitted into the fieldwork courses.
Continuation Requirements

- Students must adhere to the professional commitment as outlined in the Therapist Assistant Programs Student Handbook.
- Failure to do so may result in dismissal from the program.
- Students must complete the program within five years of registration in TAPC 110.
- All OCTA, OPTA, PHTA, TAPC, KNES, and IDST 100 courses must be completed with minimal final grades of C.
- Students must earn a final grade of at least C- in all other courses.
- In order to continue in the program, a current and cumulative grade point average of at least 2.0 is required at the end of each semester.
- Attendance in all courses is considered essential.
- Students will usually be permitted to repeat a particular OTA/PTA course (OCTA, OPTA, PHTA, TAPC) only once.

- Students are normally expected to complete courses in the sequence outlined in the calendar. Courses taken in a sequence other than what is outlined (including deferring courses into other terms) may compromise your standing in the program as lab. This also facilitates proper planning for labs and fieldwork.

Graduation Requirements

Students must successfully complete 20 specific courses and meet attendance, fieldwork and grade requirements as set out in the program policies.

Transfer

Individual courses transfer to other post-secondary institutions as outlined in the Alberta Transfer Guide.

Athabasca University

Graduates are eligible to receive up to 60 credits into the Bachelor of Professional Arts (Human Services major). Students should consult with an AU Academic Advisor for further information.

Thompson Rivers University

Graduates are eligible to receive advanced credit toward the Bachelor of Health Science or the Bachelor of General Studies. Students should contact an Academic Advisor at TRU for further information.

University of Calgary

Graduates are eligible to apply to the two-year post-diploma Bachelor of Community Rehabilitation (BCR) program. Students should be sure to consult Transfer Alberta when choosing option/elective courses when considering transfer to the U of C. Access to higher level courses may be restricted if proper planning is not employed. Students should contact an Academic Advisor for further information.

Humber College Institute of Technology and Advanced Learning

Graduates with an overall GPA of 65% may be eligible to receive advanced standing into the second year of the Bachelor of Health Sciences, Workplace Health and Wellness. Applicants must possess the equivalent to Grade 12 English (ENG4U) with a minimum 65% and the equivalent to Grade 12 Biology (SB/4U). Students should contact an Academic Advisor for further information.

International Transfer

The University of Northampton, United Kingdom

Graduates are eligible to apply to the Bachelor of Science (Hons)-Occupational Therapy. Students should contact an Academic Advisor for further information.

Continuation Specific to Fieldwork

- Immunizations required must be up to date prior to program start date, shadowing and fieldwork placement(s).
- Participation in all activities related to fieldwork is mandatory.
- Immunizations must be maintained throughout the program. Additional immunizations may be required for fieldwork.
- Students must successfully complete lab examinations in OCTA 215, OCTA 216, OPTA 212, PHTA 215, and PHTA 216 prior to entering fieldwork.
- All fieldwork experience must meet attendance and participation requirements as specified.
- Should a student receive an unsatisfactory evaluation on a fieldwork placement, they will be required to discuss this situation with Medicine Hat College faculty. This evaluation may result in having to repeat the placement.
- Students that receive an unsatisfactory evaluation in more than one placement, will be required to withdraw from the program.
- Students may be required to obtain a recent police information check and/or similar checks, at their expense, prior to entry into some fieldwork sites.
- Should the students performance and/or health be questionable in relation to the delivery of safe client care and/or the maintenance of the professional standards of the program, they may be asked to leave the fieldwork site and may not receive credit in the fieldwork course.

Immunizations required must be up to date prior to program start date, shadowing and fieldwork placement(s).
- Participation in all activities related to fieldwork is mandatory.
- Immunizations must be maintained throughout the program. Additional immunizations may be required for fieldwork.
- Students must successfully complete lab examinations in OCTA 215, OCTA 216, OPTA 212, PHTA 215, and PHTA 216 prior to entering fieldwork.
- All fieldwork experience must meet attendance and participation requirements as specified.
- Should a student receive an unsatisfactory evaluation on a fieldwork placement, they will be required to discuss this situation with Medicine Hat College faculty. This evaluation may result in having to repeat the placement.
- Students that receive an unsatisfactory evaluation in more than one placement, will be required to withdraw from the program.
- Students may be required to obtain a recent police information check and/or similar checks, at their expense, prior to entry into some fieldwork sites.
- Should the students performance and/or health be questionable in relation to the delivery of safe client care and/or the maintenance of the professional standards of the program, they may be asked to leave the fieldwork site and may not receive credit in the fieldwork course.
The Bachelor of Applied Health Science (Paramedic) Degree has been created to meet the emerging needs of patients, practitioners and employers. The Bachelor of Applied Health Science (Paramedic) Degree is a national accredited program for Advanced Care Paramedic. The program prepares practitioners in accordance with the Paramedic Association of Canada’s National Occupational Competency Profile and the Alberta Occupational Competency Profile for Paramedics and equips the student to write the Alberta College of Paramedic registration examinations. The Medicine Hat College curriculum extends beyond the learning of discipline specific skills to encompass broader learning goals that will prepare the graduate to excel in the present as well as the future health care environment. Transferability of some courses, which are taught from a multidisciplinary perspective, enhances the educational opportunities for graduates.

Paramedics think critically and clearly, act quickly, and respond calmly, while reassuring patients and families in a variety of stressful situations. Paramedics possess general skills in patient management and communication as well as skill sets specific to their discipline. Paramedics are confident and assertive in their professional role. They seek to understand the roles of other professionals however, and strive to work in a collaborative manner with a variety of health care disciplines. Paramedics accept responsibility and demonstrate personal integrity and the ability to work with people from diverse backgrounds. A paramedic responds to both emergent and non-emergent health care and transport needs with individuals, groups and, if necessary, in a mass casualty multi-disciplinary environment.

Prior Learning/Transfer Credit

Previous education and qualifications may be applied to the program. Students that currently hold an EMR certificate or a PCP/EMT certificate, from an Accreditation Canada accredited, may receive credit for experience and education through Medicine Hat College’s Prior Learning/Transfer Credit assessments. Previous post-secondary coursework may be considered for admission. Students that currently hold an EMR certificate or a PCP/EMT certificate, from an Accreditation Canada accredited, may receive credit for experience and education through Medicine Hat College’s Prior Learning/Transfer Credit assessments.

Admission Requirements

High School Route
Overall average of at least 60% and a minimum mark of 50% in
• ELA 30-1
• Biology 30
• Math 30-1 or Math 30-2
• Grade 12 five credit subject (Chemistry 30 is recommended)

Mature Student Route
• ELA 30-1
• Biology 30
• Math 30-1 or Math 30-2

Transfer Route
Previous post-secondary coursework may be considered for admission. Students that currently hold an EMR certificate or a PCP/EMT certificate, from an Accreditation Canada accredited, may receive credit for experience and education through Medicine Hat College’s Prior Learning/Transfer Credit assessments.

English Language Proficiency Requirement

Individuals applying for the program who do not have English as their first language must present a minimum score of 237 on the computer-based Test of English as a Foreign Language (TOEFL) and a score of 50 on the Test of Spoken English (TSE), or a minimum score of 580 on the paper-based TOEFL examination and a score of 50 on the TSE.

For the International English Language Testing System (IELTS) students must have an overall band score of 7.0 with no band score less than 7.0.

Pre-Professional Requirements

After being admitted into the program, but before the first day of classes, the following must be provided:
• proof of current CPR with the Heart & Stroke Heartsaver AED (C) CPR or BLS Provider
• students will receive a health questionnaire and immunizations checklist that must be completed. In some cases, a chest x-ray may be required
• a recent Police Information Check (within two months) prior to the first day of classes. Periodic Police Information Checks may be required prior to practicum and work experience to maintain current status throughout the program and to comply with provincial laws. Students are obligated to inform the Program Coordinator immediately of any change in the status of their criminal record
• class 5 Drivers license with GDL removed

Additional Selection Criteria

As part of the selection process, applicants may have to complete the Health Occupation Aptitude Exam (HOAE) within three weeks of being identified as meeting the basic entrance requirements. Not completing this step within the three week timeline will result in being declined admission to the program.

Applicants can write this exam at the MHC Exam Centre and are responsible for the fees charged to write this exam at MHC (information on the process and how to make an appointment will be provided when a student has met the basic entrance requirements).
Paramedic - Bachelor of Applied Health Studies
Diploma and Applied Degree

Applicants can also arrange to write the HOAE at another educational testing centre approved by the college. Testing arrangements and any additional costs will be the responsibility of the prospective student.

Applicants will be ranked based on their HOAE score as follows:
- Applicants that meet and exceed the threshold HOAE score set by the program will be offered a seat in the program until the program has met capacity
- Once the program is full, applicants will be waitlisted based on their HOAE score

Post Diploma Degree Completion

The Bachelor of Applied Health Science Paramedic degree entry is open to Practicing Paramedics (ACP) with pre-existing credentials and exists to meet the emerging needs of patients, practitioners, and employers. As a result of practitioner and industry demand, the Bachelor of Applied Health Science (Paramedic) degree option is open to all graduate Advanced Care Paramedics via a distance learning format.

The Bachelor of Applied Health Science - Paramedic (BHSc-Paramedic) is designed to build on the previous knowledge and experience of practicing paramedics. Qualified candidates are able to obtain the BHSc-Paramedic by completing the nine courses offered in the program.

Entry Requirements:
- ELA 30-1
- Advanced Care Paramedic Credential from an accredited and recognized college/university
- Current Advanced Care Paramedic license in the province the student is located preferred
- Continued employment as an Advanced Care Paramedic is also preferred

Program Requirements

**First Year**

**Fall**
- BIOL 231 Introduction to Biology I
- BIOL 275 Basic Human Anatomy and Physiology I
- IDST 100 Introductory Communications for Helping Professionals.
- KNES 247 Introduction to Wellness, Fitness and Nutrition
- PARA 100 Foundations of Paramedic Practice I

**Winter**
- BIOL 277 Basic Human Anatomy and Physiology II
- PARA 115 Professional Communications for Paramedics
- PARA 120 Foundations of Paramedic Practice II
- PARA 125 Assessment and Diagnostics
- PARA 130 Introduction to Paramedic Management of Emergency Situations

**Spring**
- PARA 145** Introduction to Primary Care Practice
- PARA 150** Primary Care Practice

**Second Year**

**Fall**
- PARA 200 Introduction to Advanced Care
- PARA 215 Pharmacology for the Prehospital Professional
- PARA 220 Paramedic Management of Trauma and Environmental Conditions
- PHSL 200 Pathophysiology
- PSYC 205 Principles of Psychology

**Winter**
- IDST 485 Death and Dying
- PARA 205 Mental Health for First Responders
- PARA 230 Skills and Practice in Patient Modalities
- PARA 240 Management of Special Population Groups
- PHIL 313 Bioethics

**Spring**
- PARA 210 Advanced Critical Care Practice

**Third Year**

**Fall**
- PARA 300 Advanced Care Paramedic Practice I
- PARA 305 Advanced Paramedic Care

**Winter (Diploma Exit Only)**
- PARA 310 Advanced Care Paramedic Practice II**

**Fourth Year (Applied Degree Completion/Post Diploma Entry Point)**
- MGMT 243 Human Resources Management
- PHIL 313 Bioethics**
- STAT 333 Statistics for the Life Sciences
- PARA 452 EMS and the Canadian Health System
- PARA 453 Community Focused Theory
- PARA 454 Leadership in Health Care
- PARA 455 Research
- PARA 470 Paramedic Work Term I
- PARA 480 Paramedic Work Term II

**NOTES:**
- EMR completed within the previous three calendar years may apply for transfer credit for Para 100.
- **EMT/PCP from an Accreditation Canada accredited program and completed within the previous three calendar years may apply for transfer credit for Para 100, PARA 115, PARA 120, PARA 125, PARA 130, PARA 145 and PARA 150. Awarding of credit is also dependent on work experience since the time of EMT/PCP program completion. Program specific guidelines for awarding of transfer credit are available from the Program Coordinator.
- **for students that did not complete the Medicine Hat College diploma Practicum**

Students may be required to complete clinical and field experiences at sites throughout Alberta and Saskatchewan. Clinical and field experiences may be scheduled days, evenings, nights, and weekends. Depending on our site capacity, students may have a delayed start or an extended rotation falling outside of the regular program schedule in order to complete the placement requirements. Participation in all activities related to practical experiences is mandatory. Students are expected to make

MHC CALENDAR 2020/2021 143
Continuation Requirements

Student Standing
To maintain satisfactory standing, you must attain:
• a minimum of a B grade in all PARA courses throughout the program (Diploma Only). If unsuccessful in a PARA course, you will be required to repeat the unsuccessful and all concurrent PARA course within that semester to ensure a safe and competent continuation in the program.
• a minimum of a pass in the practicum component of all courses. (A fail in a practicum course will require you to repeat the course before progressing to further PARA courses)
• a minimum of a C- in all support courses
• students will be permitted to repeat a course only once (PARA and support courses)

Satisfactory Standing
• Students must maintain a cumulative minimum GPA of 2.0 throughout the program.
• Students that defer clinical or practicum and/or have been deemed unsuccessful must complete a remediation process which may contain an assessment or course work deemed necessary by the assigned instructor to returning to the program.
• Depending on the results of the assessment further remediation may be required prior to commencing practicum.
• Students may only be absent from the program for one calendar year. A longer absence will require reapplication and readmission to the entire program.
• The diploma program must be completed within 6 years of initial entry.
• Fourth year degree courses must be completed within five (5) years of starting the degree component (fourth year).

ACP Registration Exams
For employment purposes, students may elect to challenge the Alberta College of Paramedics (ACP) registration examinations for both the Primary Care Paramedic (second year) or Advanced Care Paramedic (post-graduation at the diploma). This is not a requirement of the program nor the Alberta College of Paramedics to remain in good standing within the program. All costs related to registration, travel, accommodation, and meals are the students responsibility. Further information is available on the ACP website.

Fitness Requirements
A career as a Paramedic requires a high level of physical and emotional well-being. Students must be able to demonstrate the physical capabilities to safely maneuver stretchers and equipment and be emotionally capable to deal with trauma and high stress situations.

In the event of illness students must present a medical clearance certificate prior to returning to the program.
Plumber Apprenticeship

Scott Stickel, Coordinator
Phone: 403.504.3587
E-mail: sstickel@mhc.ab.ca

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

The term of apprenticeship for a plumber is 4 years (four 12-month periods) including a minimum of 1500 hours of on-the-job training and 8 weeks of technical training each year.

An applicant who is not already certified in Alberta as a Gasfitter (A) or (B) will complete an apprenticeship program that includes both the plumber and gasfitter (B) trades.

Plumbing is one of the “pipe trades.” Plumbers plan, install, and service plumbing systems, fixtures, piping equipment and controls. The piping systems may be used to transport water, waste, gases or hot liquids.

On a typical construction job, plumbers do the roughing in after the frame and roof of a new building are in place. In other words, they:

- study the building plans and specifications to determine the layout for the plumbing and other materials
- locate and mark the positions for connections and fixtures
- cut holes through walls and floors to accommodate pipes
- select the type and size of pipe required, and measure, cut, thread, bend, clamp, solvent cement, or solder pipe
- assemble and install valves and fittings
- join pipe sections and secure them in position
- test pipe systems for leaks
- install underground storm sanitary and water piping systems

Plumbers return to the construction site after the plasterers or drywallers, tile setters and floor covering installers have completed their work to do the finishing work such as installing sinks, tubs, and toilets.

Plumbers may specialize in:

- installing water conditioners
- installing plumbing in houses under construction
- installing plumbing in commercial, institutional, industrial or public buildings
- renovating, maintaining, and repairing existing plumbing
- installing hydronic heating and chilled water systems
- installing Sustainable Technologies

Working Conditions

The working conditions for plumbers vary from one job to another. There is little protection from the weather when a plumber is roughing-in, more protection for finishing, and often comfortable conditions for maintenance and repair work. In smaller communities, plumbers generally do a wider variety of plumbing and plumbing-related jobs such as installing private sewage disposal systems and potable water distribution systems.

There may be some risk of injury involved in working with rough metals, power tools, and pipe-joining equipment.

Skills and Abilities

The work is most rewarding to people who enjoy using their specialized skills in a variety of working conditions and working with little supervision.

To be successful in the trade, plumbers need:
- physical stamina required to
  o use proper lifting techniques for heavy pipes weighing in excess of 25 kilograms
  o be on your feet for long periods
  o sometimes work in cramped positions
- mechanical ability
- the ability to work alone or with others

The above information was copied from the tradesecrets website. For complete information on being a Plumber check out the website at www.tradesecrets.alberta.ca.
Power Engineering Diploma

Academic Advising Office
Phone: 403.529.3819

Rakesh Kaushish, Coordinator
Phone: 403.504.3567
E-mail: rkaushish@mhc.ab.ca

Power Engineering is a challenging field of study with good employment opportunities and advancement potential. This two-year technology program is structured to provide the necessary knowledge, support, and hands-on experience to gain an edge in launching a career. Many job postings will ask for experience or involvement in a two-year Power Engineering diploma program.

Government regulations in Canada require that certified Power Engineers operate large energy systems. Alberta Power Engineers advance through a series of “classes” which are obtained through a combination of work experience, education, and passing ABSA (Alberta Boiler Safety Association) certified exams. ABSA, industry, and the educational institutes are working together to promote the safety and reliability of students entering the Power Engineering workforce.

Industry-experienced instructors guide students through the 4th, 3rd, and 2nd class part A theory. The modern Power Engineering Lab reinforces the theory with practical experience. Students gain knowledge and confidence under the watchful eye of experienced operators. Safety protocols, teamwork, and communication are highly stressed. ABSA rewards the skills students gain through a two-year technical program by reducing the amount of work experience required in the field.

NOTE: By current ABSA regulations: Students may acquire a 4th class certificate after passing the 4th class theory, completing college arranged field placement, and passing the ABSA 4th class exams.

Even though a high school diploma is not required for program admission, some employers may require it.

Program Requirements

First Year
Block 1 (September - November)
PLAC 111* Field Placement
PLAB 116 First Lab
POWE 161 Introductory Mechanics & Thermodynamics, Legislation and Safety
POWE 162 Introductory Electricity and Instrumentation, Materials, Welding and Safety
POWE 163 Introduction to Boilers, Environment, Communication

Block 2 (December - February)
PLAB 117 Second Lab
POWE 166 Lubrication, Pumps, Compressor, Boiler Safety and Operation
POWE 167 Maintenance, Water Treatment, Prime Movers/Engines and Auxiliary Building Systems
POWE 168 Refrigeration & Air Conditioning and Types of Plants

Block 3 (February - May)
PLAB 118 Third Lab
POWE 151 Intermediate Mechanics & Thermodynamics
POWE 152 Metallurgy
POWE 153 Codes & Drawings
POWE 154 Intermediate Electricity & Instrumentation

Second Year
Block 4 (September - December)
PLAB 219 Fourth Lab
POWE 260 Intermediate Boilers
POWE 261 Intermediate Prime Movers
POWE 262 Water Treatment & Special Equipment
Block 5 (January - April)
POWE 265   Advanced Boilers
POWE 266   Advanced Pumps & Water Treatment
POWE 270   Advanced Codes
POWE 271   Plant Installation & Management
POWE 272   Advanced Mechanics
POWE 280   Advanced Thermodynamics
POWE 281   Advanced Metallurgy

* You are responsible for the cost of obtaining safety certification in Standard First Aid with CPR, H2S Alive, and Confined Space Entry before being eligible for PLAC 111 (Field Placement). Copies of these safety certificates must be on file with the PLAC 111 instructor by the date stated in the course outline.

Graduation Requirements
To successfully complete this program you must:
• Obtain a minimum grade of C- in all POWE and PLAB courses
• Achieve mandatory 100% attendance in all lab courses (PLAB)

Transfer
Athabasca University
Graduates are eligible to receive block transfer of 30 credits toward the post-diploma Bachelor of Science (General Science), post-diploma Bachelor of Science (Human Science major), post-diploma Bachelor of Science (Applied Mathematics major), or the Bachelor of Science (Computer and Information Systems major) (BSc (PD)) programs. Students may receive up to 30 additional credits on a course-by-course basis, provided courses in the diploma fulfill requirements of AU’s BSc (PD) programs. Students should contact an AU Academic Advisor for further information.
Practical Nurse Diploma

Academic Advising Office
Phone: 403.362.1682 (Brooks Campus)
or 403.529.3819 (Medicine Hat Campus)

Stephanie Nowaczyk, Program Coordinator
Phone: 403.362.1472 (Brooks Campus)
E-mail: snowaczyk@mhc.ab.ca

This program is at Brooks Campus

The Practical Nurse program is a two-year (5 semester) diploma program that prepares you to become a Professional Licensed Practical Nurse (LPN). Students will gain knowledge, skills and learn the practical competencies required by the College of Licensed Practical Nurses of Alberta (CLPNA) to become a certified LPN. This program prepares graduates to work as valued members of the health care team within a multidisciplinary environment. The LPN graduate will encompass a wide range of skills that are applicable in various health care settings. The LPN scope of practice has broadened significantly within the decade which has increased the demand for more nurses.

The Practical Nurse program of Medicine Hat College utilizes a conceptual framework called the “Concept of Caring”, this conceptual framework provides an opportunity for reflection on nursing education and practice. “Caring” is the central concept in which the curriculum is based. Practical Nurses apply the nursing process using health assessments that consider physical, social, emotional, cultural and spiritual needs of clients. Practical Nurses work with clients, families and other members of the health care team to develop a plan of care that will best meet the client’s needs. Practical nurses assist the client with activities of daily living, carry out prescribed procedures and treatments while maintaining a safe and comfortable environment.

Learning involves a variety of teaching methods, as well as instructor and preceptor supervised clinical experiences. Classes and laboratory experiences are provided at the Brooks Campus. However, students will be required to travel to other locations in the region for clinical and practical learning experiences.

Graduates of the program are eligible for licensure through the College of Licensed Practical Nurses of Alberta upon payment of a fee of $675 (subject to change) and successfully passing the national practical nurse examination (Canadian Practical Nurse Registration Exam or CPNRE).

Career Opportunities

Practical nurses work as:
• Staff nurses
• Team leaders or charge nurses

Current statistics suggest a shortage of approximately 110,000 nurses (registered and licensed practical nurses) by the end of this decade.

Practical nurses work as:
• Team leaders or charge nurses

Admission Requirements

High School Route
• 60% in ELA 30-1 or 70% in ELA 30-2
• 60% in Math 20-1 or 70% in Math 20-2
• 60% in Biology 30 or Bow Valley College ANAT 1101

Mature Student Route
• 60% in ELA 30-1 or 70% in ELA 30-2
• 60% in Math 20-1 or 70% in Math 20-2
• 60% in Biology 30 or Bow Valley College ANAT 1101

Pre-Program Requirements

Immunization Requirements
All PN students are required to complete a series of immunizations and diagnostic tests as outlined on the Student Immunization Form. Documented proof of completion must be provided to the Administrative Assistant, Division of Science and Health, prior to commencement of the program.

N-95 Fit Testing
All PN students must be fit tested for a N-95 mask prior to commencement of Clinical. Documented proof of a fit test must be provided to the Administration Assistant, Division of Science and Health prior to commencement of the program. Failure to do so may result in students being removed from practice courses until adequate proof has been provided. Please note requirements may change during the program as determined by Alberta Health Services.

Police Information Check
All applicants to the Practical Nurse Program are required to provide a current Police Information Check (PIC), which includes a Criminal Record Check, Vulnerable Sector Search and a Intervention Record Check. In order to be considered ‘current’, these documents must be completed during the three months prior to admission (i.e. June 1 – August 31 for Fall admission). Without this documentation, admission to the Faculty will be rescinded. Students who are concerned about the presence of a criminal record should contact the PN Coordinator. Students need to keep the original documents for future employment purposes. Failure to present clear documentation may result in admission being denied/rescinded. Subsequent to admission and at any
time during the program, a student may be required to produce a current documentation, the results of which could require their withdrawal from the program. Students are required to inform the Faculty immediately of any change in status of their criminal record.

**Cardio Pulmonary Resuscitation Certification**

All PN students will be required to submit proof of current CPR Certification (valid for a 12 month period from date of course completion) which includes a Health Care Provider component prior to the commencement of clinical practice courses. Students will be responsible for obtaining course training and certification. Without this documentation, may result in students being removed from practice courses until adequate proof has been provided.

**International Students**

A coop work permit is required for practicum as well as your student visa, please contact our International Education and Diversity Office for information (phone 403.504.3615 or mhc.ab.ca/InternationalStudents).

**Program Requirements**

**First Year**

**Fall**

BIOL 152  Anatomy and Physiology for Practical Nurses
COMM154  Interpersonal Communications for Practical Nurses
HLSC 151  Personal Health and Wellness
PRNU 156  Nursing Theory I & Nursing Science Lab I
PSYC 153  Growth and Development for Practical Nurses

**Junior ENGL**

**Winter**

PHSL 200  Pathophysiology
PRNU 158  Clinical Experience I - Continuing Care
PRNU 160  Adult Health Assessment Theory and Lab
PRNU 162  Applied Pharmacology & Medication Admin Lab
PRNU 166  Nursing Theory II & Nursing Science Lab II

**Second Year**

**Fall**

PRNU 200  Nursing Theory III & Nursing Science Lab III
PRNU 201  Maternal & Newborn and Lab
PRNU 203  Mental Health and Addiction
PRNU 204  Clinical Experience III - Acute Care
PRNU 205  Pediatric Nursing

**Winter**

PRNU 208  Transition to Practical Nursing Graduate
PRNU 209  Community Health Theory and Lab
PRNU 215  Final Practicum
SOCl 201  Introductory Sociology

**Clinical and Practica**

The Practical Nurse program is an intensive program involving full classroom/laboratory days and clinical days. Clinical experiences, in particular, may be scheduled at various hours, including evenings, nights, and weekends and it is expected that students will make accommodation for commitments outside the program to accommodate this scheduling. Students must be prepared to travel for clinical experiences and/or practica outside of Brooks.

**Performance in Clinical and Practica**

Students are expected to observe program policies regarding punctuality, attendance, dress, response to supervision and feedback, and to provide safe, competent nursing care. If your performance is questionable in relation to the delivery of safe patient care and/or to the maintenance of the program standards you may be asked to leave the laboratory or clinical site at any time. Continued failure to uphold standards related to safe, professional performance will result in dismissal from the program.

**Program Costs**

In addition to tuition and textbook costs, students must plan for the inclusion of costs such as CPR, uniforms, white duty shoes, lab kits, name tag, stethoscope, a watch with a sweep hand, and travel/accommodation for clinical and practicum placements.

**Continuation Requirements**

- Maintain a C+ in all PRNU courses, BIOL 152 and PHSL 200
- Maintain a C- in all other required courses
- A CR (Pass) is required in clinical and practicum courses for successful course completion

Students who are transferring from another nursing program or have been away for more than one year, and will be entering into a clinical course, will be required to demonstrate competence in the knowledge and skills required for that clinical experience prior to the beginning of the clinical course.

Note: Students can only re-enter the PN Program and must complete the program within five (5) years of initial admission.

**Final Grades**

The final grade in the PRNU theory courses is derived from assignments, unit exams, quizzes, and final exam; and the grade average for each course must be no less than a letter grade of C+. The final grade in lab case scenarios must be 75% or higher or you will receive an F grade for the course. The final grade in the nursing practice clinical courses will be derived from clinical performance and assignments. Clinical objectives must be met in order to achieve a passing grade in Nursing Practice clinical courses.
Practical Nurse Diploma

Failure to meet performance objectives or learning outcomes
Throughout the program, instructors will give verbal and written feedback on your performance and progress. If your performance is inconsistent and is not meeting learning course objectives or learning outcomes, you may be placed on a learning agreement. If the terms of the agreement are not met, or if the original behavior occurs after the expiry date of the agreement, you will be unsuccessful in the course and unable to progress in the program.

Re-entry to the Program
A student must indicate their intent to re-enter in consultation with the Academic Advisor, and the Program Coordinator. Students that have failed to meet the performance requirements of the program are required to indicate re-entry into the program at predetermined dates. For re-entry into the fall semester, students must confirm with the Academic Advisor by March 1. For re-entry into the winter semester, students must confirm with the Academic Advisor by July 1. For re-entry into the spring semester, students must confirm with the Academic Advisor by December 1.

Graduation
You must successfully complete all required courses and meet program requirements. The Medicine Hat College Practical Nursing program is approved by the Educational Standards Advisory Committee, a committee of the College of Licensed Practical Nurses of Alberta (CLPNA). New MHC graduates are eligible to apply for a CLPNA Temporary Practice Permit allowing the graduate to work under supervision while waiting to successfully complete the Jurisprudence Examination and the Canadian Practical Nurse Registration Exam (CPNRE).

Transfer
Thompson Rivers University
Graduates are eligible to receive advanced credit towards the Bachelor of Health Science or the Bachelor of General Studies. Students should contact an Academic Advisor for further information.
Pre-Employment Apprenticeship

Continuing Studies
Program Administrator, Medicine Hat Campus
Phone: 403.502.8975

Program Administrator, Brooks Campus
Phone: 403.362.1675

Pre-employment trades programs are designed to help you become more marketable when seeking employment in the trades. The pre-employment program covers the same material as our traditional apprenticeship program, but students do not have to be employed/indentured to be accepted to this training. Students who successfully complete and pass the program will have skills equivalent to a first year trades apprentice and will be eligible to write the Alberta Apprenticeship & Industry Training First Period Theory Exam for the trade. In addition to the course content offered in the first year apprenticeship program, our pre-employment program includes many additional hours of hands-on practice and safety training. Our pre-employment programs may be offered on a full-time, or part-time basis.

Pre-employment programs are student loan eligible. Please contact the Financial Aid Office for more information at 403.504.3594.

For more information on pre-employment programs and when they are offered contact Continuing Studies or visit their website at www.mhc.ab.ca/continuingstudies.
Science (B.Sc.)
University Transfer

If you are interested in how the world works and what makes up the earth, a degree in one of the many areas of science might be the right path for you. Our program will prepare you to transfer to another institution after you complete a maximum of two years at Medicine Hat College. Your Bachelor of Science may be in a range of disciplines such as cell biology, immunology and infection, physiology, pharmacology, physics, or zoology.

A Bachelor of Science can be used as a pathway into professional, master’s, or after degree programs. Students intending to pursue professional programs can complete pre-professional requirements within the University Transfer Science program. Students can take pre-professional program requirements within our science program towards chiropractic, dental hygiene, dentistry, medical laboratory science, medicine, nutrition, optometry, pharmacy, and veterinary medicine. Students wishing to pursue a professional program are encouraged to seek the advice of an Academic Advisor prior to selecting their courses, as program requirements change yearly and vary by institution.

Admission Requirements

Refer to Admissions Chart on page 21

The University Transfer program at Medicine Hat College provides students with a foundation to be successful in university degrees. The program is possible with the College’s participation in Campus Alberta. Admission to all university programs in Alberta is competitive and students are responsible for understanding admission and program requirements.

Program requirements change yearly and vary by institution. Students pursuing an undergraduate degree as a learning pathway to a professional program should consult with a Medicine Hat College Academic Advisor and a representative from the institution they wish to attend. University Transfer students need to ensure they meet both the minimum requirements and competitive requirements for admission.

Course Selection

To facilitate the transfer of courses from Medicine Hat College, University Transfer students are encouraged to choose a university and program of study they wish to work towards. With this information, students can consult with their Medicine Hat College Academic Advisor for appropriate program planning.

University of Alberta, Faculty of Science

Phone: 780.492.4758 (Faculty of Science, Student Services)

Professional programs offered at the University of Alberta include Dental Hygiene, Dentistry, Medical Laboratory Science, Medicine, Pharmacy, and Radiation Therapy.
University Transfer

Students are encouraged to consult the University of Alberta academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Alberta Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Calgary, Faculty of Science

Phone: 403.220.8600 (Undergraduate Science Centre)
E-mail: usc@ucalgary.ca
Website: www.science.ucalgary.ca

The Faculty of Science offers degrees in the following areas:

- Actuarial Science
- Astrophysics
- Biochemistry
- Biological Science
- Cellular, Molecular & Microbial Biology
- Chemistry
- Ecology
- Geology
- Geophysics
- Geometry
- Plant Biology
- Zoology

Professional Programs offered at the University of Calgary include Medicine and Veterinary Medicine.

University Transfer

Students are encouraged to consult the University of Calgary academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Calgary Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

University of Lethbridge, Faculty of Arts and Science

Phone: 403.329.5106 (Academic Advising)
E-mail: artsci.advising@uleth.ca
Website: www.uleth.ca/artsci

The Faculty of Arts & Science offers degrees in the following areas:

- Agricultural Biotechnology
- Agricultural Studies
- Anthropology
- Applied Statistics
- Archaeology & Geography
- Biochemistry
- Biological Sciences
- Chemistry
- Environmental Science
- General Major in Science
- Geography
- Mathematics
- Neuroscience
- Physics
- Psychology

All University of Lethbridge degree programs have a Liberal Education Requirement. Liberal Education involves satisfactory completion of 12 Arts and Science courses, chosen from three distinct lists (List 1 – Fine Arts & Humanities; List 2 – Social Sciences; List 3 – Science).

University Transfer

Students are encouraged to consult the University of Lethbridge academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Lethbridge Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
Science (B.Sc.)
University Transfer

MacEwan University, Faculty of Arts & Science
Phone: 780.497.4505 (Faculty of Arts & Science Program Services)
E-mail: artsandscience@macewan.ca
Website: www.macewan.ca/science

The Faculty of Arts & Sciences offers degrees in the following areas:
- Biological Sciences
- Mathematical Sciences
- Psychology
- Mathematics
- Physical Sciences

In mathematical sciences students focus on two of the following areas of concentration: mathematics, statistics, or computer science. Similarly, in physical sciences students focus on two of the following areas of concentration: chemistry, physics, or earth and planetary sciences.

University Transfer
Students are encouraged to consult the MacEwan University academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a MacEwan University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

Mount Royal University, Faculty of Science & Technology
Phone: 403.440.7220 (Bachelor of Science Academic Advisors)
E-mail: scitechadvising@mtroyal.ca
Website: www.mtroyal.ca/science

The Faculty of Science & Technology offers degrees in the following areas:
- Biology
- Environmental Science
- Geology
- Chemistry
- General Science

The General Education (GNED) is a requirement of all Mount Royal University degree programs. The GNED involves satisfactory completion of GNED courses chosen from four different clusters – Numeracy & Scientific Literacy; Values, Beliefs & Identity; Community & Society; and Communication.

University Transfer
Students are encouraged to consult the Mount Royal University academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a Mount Royal University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.

St. Mary’s University
Phone: 403.531.9130 (Main Number)
E-mail: advising@stmu.ca or admissions@stmu.ca
Website: www.stmu.ca/biology/

Medicine Hat College students can transfer directly into the third year of St. Mary’s University’s (StMU) Bachelor of Science degree with a major in biology. Students interested in this transfer agreement must meet with a Medicine Hat College Academic Advisor to ensure they understand all admission and transfer requirements.

University Transfer
Students are encouraged to consult the St. Mary’s University academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a St. Mary’s University Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
This two year program combines knowledge of the humanities and behavioral sciences, an understanding of social work theory and philosophy, and the development of practical skills through academic classroom study and fieldwork settings. This program is designed to meet the knowledge, skills and practice competencies as defined by the Alberta College of Social Work.

**Career Opportunities**

At graduation students are prepared for employment in a broad range of private health, social, and welfare agencies as well as in provincial and municipal social service, health, and welfare agencies. The program prepares students to do social work with individuals, families, groups, and communities. Upon graduation students are eligible to be registered with the Alberta College of Social Workers. In Alberta, students educated in Social Work and work within the scope of Social Work Practice must be registered.

**Admission Requirements**

For all routes, applicants must first apply to Medicine Hat College indicating your interest in the Social Work Diploma program. Applicants will then receive an application package specific to the Social Work program that outlines details of the pre-program requirements. Please note that the information provided on the personal profile, and that provided by references, will be considered during admission screening to ensure you meet basic standards and have reasonable chance for success in the program and in the profession. The social work program is a competitive program with high numbers of applicants. It may be in the applicant's best interest to apply early.

**High School Route**

- ELA 30-1 (minimum 60%)
- Three grade 12 5-credit courses

**Mature Student Route**

- 60% or greater in ELA 30-1 (or equivalent) or a university level English

This route is applicable if applicants do not meet the minimum requirements for admission but possess other post-secondary and/or work experiences that create potential for success in the program.

**Transfer Route**

Having previously attended a recognized college or university, applicants will be accepted on the basis of your college or university level coursework. Applicants must have 60% or greater in ELA 30-1 (or equivalent) or a university level English course.

**Pre-Program Requirements**

- A current resume
- A personal profile questionnaire providing information related to your background and suitability for the program
- One reference from a volunteer or workplace supervisor. (You must have a minimum of 100 hours of volunteer or work experience in a social service environment)

**Program Requirements**

**Spring**

- Junior ENGL
- Elective

**Winter**

- Developmental Psychology
- Social Work Theories & Practice
- Social Work with Individuals
- Social Work with Groups
- Elective

**Spring (Optional)**

- International Social Work (optional)

*You may choose to take classes in a different configuration or at a slower pace. Any changes to the above configuration, however, should be discussed with the Program Coordinator or Academic Advisor.*

*Not offered every year. Check with the Program Coordinator.*
**Social Work Diploma**

**Electives**
In addition to the specified core courses, students must also complete three additional university transfer courses during the two years of study. Some of these may be taken during Spring semester. Electives may be drawn from any courses which transfer to the University of Calgary as per the Alberta Transfer Guide (available at www.transferalberta.ca)

**Please note in order to take these courses you will require permission from that departments program coordinator.**

**Practicum**
Students are selected for practicum on the basis of academic performance, professional suitability, fitness and conduct, volunteer community service, and availability of practicum sites.

In order to ensure the protection of clients, students are required to provide up-to-date child welfare and criminal record checks, at their expense, prior to entry into practicum placements. Students are responsible for providing copies of the Alberta Children’s Services Intervention Record Check and Police Information Check (PIC), which includes a Criminal Record Check and Vulnerable Sector Search. This is at the student’s expense, and must be submitted prior to entry into practicum placements. Students are responsible for providing copies of the checks to practicum supervisors prior to starting placements. Students are obligated to inform the Program Coordinator immediately of any change in the status of your criminal record. Prior involvement with Alberta Children’s Services or a criminal record may limit the practicum options available to you.

Students will be responsible for purchasing a name tag prior to commencing practicum placement. The name tags will be ordered through the bookstore and must be paid for in advance. The name tags are to be worn while the student is in their practicum placement.

Should the program coordinator judge, in consultation with faculty, that there is evidence that the student is professionally unsuitable or a risk to clients, the coordinator may prohibit them from attending or completing a practicum.

**International Practicum**
Different opportunities may arise for students to participate in an international practicum. Social Work students from Medicine Hat College may be invited to participate in international practicum placements with other institutions or Medicine Hat College Social Work program may offer this opportunity by itself. In both situations students must go through an application process and suitability for participation will be evaluated on a case by case basis. Students will be expected to complete all prerequisite requirements before departure.

**Continuation Requirements**
- Achieve a minimum of a “C” grade in all required courses
- SLWK courses can only be repeated once
- In order to continue in the program, a current and cumulative grade point average of at least 2.0 is required at the end of each semester

Students that have been absent from the program for one calendar year and are returning to complete a course, will be required to successfully complete a comprehensive evaluation. Depending on the outcomes of the evaluation students may be required to successfully complete remediation in preparation to enter the practicum.

**Graduation Requirements**
In addition to the courses required for graduation the students progress in the program will be reviewed each semester by the program faculty. Should the student be found to be in academic difficulty or should their professional suitability be of concern, they may be referred for remedial assistance or, in extreme cases, asked to withdraw from the program.

- Minimum of a “C” grade in all required courses in order to be eligible to graduate.
- One D grade allowed in non Social Work courses.

The Code of Ethics of the Alberta College of Social Workers will be used as a measure of professional behaviour and suitability.

**Transfer**

**Athabasca University**
Graduates are eligible to transfer 60 credits toward the Bachelor of Professional Arts (Human Services) program.

**MacEwan University**
Graduates with a minimum cumulative GPA of 2.5 may be eligible for entry into the Bachelor of Social Work program. Students should contact a MacEwan University Academic Advisor for further information.

**Thompson Rivers University**
Graduates are eligible to receive advanced credit toward the Bachelor of Health Science or the Bachelor of General Studies. Students should contact an Academic Advisor for further information.

**University of Calgary**
Graduates are eligible to apply to the two-year post-diploma Bachelor of Community Rehabilitation (BCR) program, the Learning Circles Social Work degree program or the post-diploma Bachelor of Social Work program. Students should contact an Academic Advisor at TRU for further information.

**University of Regina**
Graduates are eligible to receive up to 60 credits towards the Bachelor of Social Work program. Students should contact an Academic Advisor at the University of Regina for further information.

**International Transfer Opportunities**

**Griffith University, Australia**
Graduates are eligible to receive advanced standing toward the Bachelor of Child and Family Studies. Students should contact an Academic Advisor for further information.
Social Work (Learning Circles) (BSW)
University Transfer

University of Calgary, Faculty of Social Work (BSW Learning Circles)

Phone: 403.329.2794  Toll free: 1.866.329.2794 (Faculty of Social Work)
E-mail: pjaiken@ucalgary.ca
Website: www.ucalgary.ca/fswsouth

In partnership with the Faculty of Social Work at the University of Calgary Medicine Hat College hosts the University of Calgary’s Bachelor of Social Work Learning Circles Program. Combining virtual education formats with on site block and weekend programming, the Learning Circles program is accessible to students living in and near host communities and to those maintaining employment while pursuing undergraduate education. The Learning Circles Program offers an innovative and fully accredited variation of the University of Calgary BSW Program. It offers the same quality as the university’s on-campus BSW programs, with several unique features, including:

- A redesigned curriculum to ensure cultural and geographic relevance to communities outside urban areas
- Convenient scheduling of courses with local practicum placements
- Alternative, flexible and widely accessible program delivery that combines the best distance education technology with face-to-face educational opportunities

Program Overview

Core social work content for the Learning Circles program is themed into four areas:

- Generalist Practice in context
- Communications & Information
- Diversity & Oppression
- Social Work Methods

Through portfolio courses, students apply their learning to their developing professional identity. Option courses allow students to study specialized topics such as mental health, intergenerational trauma, or child welfare. The social work practicum is an integral part of the BSW program. Learning Circle students complete field placements during the Spring term following completion of the core social work curriculum and option courses. Post diploma students complete 400 hours in practicum and university transfer students complete 720 hours in practicum. Field education offers you opportunities to integrate theory and practice under the supervision of qualified social workers. Through seminars that accompany practicum courses, students will discuss learning experiences and challenges.

The University of Calgary, Faculty of Social Work admits students into the third year of a four year Bachelor of Social Work degree. Applicants can gain admission to the Bachelor of Social Work Degree through a University Transfer or Alberta Social Work Diploma route; additional admission criteria and specific courses required.

University Transfer

Students are encouraged to consult the University of Calgary Academic calendar regarding admission requirements and course selection. A Medicine Hat College Academic Advisor or a University of Calgary Academic Advisor can help students interpret and apply these requirements. Students are responsible for making informed course choices as part of their academic degree planning. Students may access the Transfer Alberta Search Database online to determine Medicine Hat College course equivalents.
Social Work (BSW)  
University Transfer

If you are interested helping people gain capacity, identify societal challenges and make a difference in the lives of others then a Social Work degree might be the right path for you. Our program is designed to prepare you to transfer to another institution after you have completed a maximum of 20 courses at Medicine Hat College.

A Bachelor of Social Work can be used as a pathway into professional, master’s, or after degree programs such as Law, or Rehabilitation Medicine. Students wishing to pursue a professional program are encouraged to seek the advice of an academic advisor prior to selecting their courses, as program requirements change yearly and vary by institution.

Speech Language Pathologist Assistant Diploma

Academic Advising Office
Phone: 403.529.3819

Grace Torrance, Program Coordinator (Distance Learning Cohort - DL)
Phone: 403.529.3949
E-mail: gtorrance@mhc.ab.ca

Leeanne Sadowsky, Program Coordinator (Onsite Cohort - OS)
Phone: 403.504.3698
E-mail: lsadowsky@mhc.ab.ca

As a Speech-Language Pathologist Assistant (SLPA), students will find a rewarding career supporting Speech-Language Pathologists (SLPs) in their assessment and treatment of people with communication difficulties. Graduates will have the opportunity to help people of all ages to improve their ability to communicate and interact with others.

For students that want a challenging and fulfilling career with a focus on helping people, the field of speech-language pathology may be ideal. A communication disorder may be evident in a person’s ability to pronounce sounds, to understand what is spoken, to use vocabulary and grammar skills, to speak without stuttering, or to use his voice. Illnesses, accidents, strokes, and delayed development may be causes of communication difficulties, which can affect every aspect of a person’s life.

Working one-on-one and in groups to improve communication skills, SLPA’s will have the opportunity to make a positive difference every day in the lives of children and adults in schools, clinics and hospitals. Under the supervision of a Speech-Language Pathologist, they may provide treatment based on the SLP’s goals, make and develop materials and activities, document and report results, carry out screenings, maintain equipment, and assist with administrative duties.

This program is flexible in that the majority of the first 10 courses are common to the Occupational Therapist Assistant/Physical Therapist Assistant (OTA/PTA) and SLPA diplomas. This unique approach provides students with an excellent core upon which to build more specific skills depending on their interests. Along with extensive classroom training, students will participate in experiential learning and practicum training with potential employers in hospitals, private clinics, homecare settings, schools and community programs.

This diploma is offered both OS at Medicine Hat College or via DL. OS is a two-year (five-semester) diploma program, whereas DL is completed over a longer period of three to five (5) years. Students may wish to continue on and complete the OTA/PTA diploma after completion of the SLPA diploma. This diploma also transfers to degree programs.

Distributed Learning (DL)
- Students enrolled in the DL must develop a program plan of study with the Academic Advisor prior to taking any courses.
- Students enrolled in the DL, are expected to participate in experiential learning opportunities that are group or individually based. Students must travel to Medicine Hat College or pre-arranged sites for one weekend lab in each of SLPA 212, SLPA 215, and SLPA 216. For further information, please contact the program coordinator (DL cohort).
- Students normally complete all courses as per the sequence in the program. Courses completed out of sequence will require completion of prerequisite waiver forms and approval from the program coordinator.
- Tuition and other fees are charged on a course by course basis; textbooks and supplies are additional.
- Courses offered by DL may have additional start dates (e.g. September, November, January and March).

Prior Learning Assessment
Individuals with related prior learning obtained during employment in the Speech Language Pathology field prior to entering the Speech Language Pathologist Assistant Diploma may be eligible for Prior Learning Assessment and Recognition. Please refer to the Prior Learning Assessment and Recognition portion of the calendar for further information regarding this process. Please contact the Articulation and PLAR Coordinator at Medicine Hat College for further information.

Part-Time Program
Students wishing to take an extended or part-time program must receive approval from the program coordinator(s).

Career Opportunities
Graduates from this program have very high employment rates. They find employment in both rural and urban locations in most provinces across Canada similar to those experienced in practicum training:
- Health regions
- Schools and School Boards
- Private Agencies

Admission Requirements

High School Route
High School diploma with a minimum mark of 60% in each of:
- Biology 30
- ELA 30-1
Two 30-level subjects, one of which must be a 30-level science, Math 30-1 or Math 30-2

Mature Student Route
A minimum mark of 60% in:
- Biology 30
- English 30-1

Transfer Student Route
A minimum mark of 60% or a minimum C grade in:
- ELA 30-1 or a post-secondary level equivalent
- Biology 30, a post-secondary level equivalent or a university level lab science course

English Language Proficiency
Students also need to meet English Language Proficiency at a higher level than the general college. For the International English Language Proficiency System (IELTS) students must have an overall band score of 7.0 with no band score less than 7.0.
Pre-Program Requirements
Once successful in gaining admission and have received the program package, students must:

- Complete a standardized health form, program of immunization (and chest x-ray as required)
- Provide a current resume if requested
- Provide proof of current CPR Certification from one of the following:
  - Heart & Stroke Foundation: Basic Life Support (BLS)
  - Canadian Red Cross: Health Care Provider (HCP)
  - St. John Ambulance: Level Health Care Provider (HCP)
- Provide proof of current Standard First Aid Certification
- Provide proof of current N-95 Mask Fit test
- Provide a current Police Information Check with Vulnerable Sector check. Students are obligated to inform the Program Coordinator immediately of any change in the status of their criminal record.

Program Requirements
First Year
Fall OS or Group 1 DL
ENGL 1XX or ENGL 2XX* (ENGL 252 recommended)
IDST 100 Introductory Communications for Helping Professionals
KNES 261 Human Anatomy
PSYC 205** Principles of Psychology
TAPC 110+ Introduction to Health Care and Rehabilitation

Winter OS or Group 2 DL
LING 2XX Introductory Linguistics
Junior SOCI** (SOCI 203 recommended)
TAPC 111 Rehabilitation Process
TAPC 112 Health Disorders & Conditions in Rehabilitation
TAPC 113 Growth and Development for Rehabilitation Service Providers

Spring OS or Group 3 DL
SLPA 212 Basics for the Speech-Language Pathologist Assistant

Second Year
Fall OS or Group 4 DL
DBSS 160 Introduction to American Sign Language
SLPA 215 SLPA Therapeutic Processes I
SLPA 216 SLPA Therapeutic Processes II
TAPC 210 Professional Integration for the Therapist Assistant
AUDA 212 Introduction to Audiology

Winter OS or Group 5 DL
SLPA 206+ SLPA Therapeutic Processes III
SLPA 207+ SLPA Therapeutic Processes IV
SLPA 218 Career Preparation for the SLP Assistant

Note:
- * ENGL 125 is offered by DL at MHC. Other English courses are not offered by DL at MHC but are available in a DL format through other post-secondary institutions. Contact Academic Advising for more information.
- ** These courses are not offered by DL at MHC. They are available in a DL format through other post-secondary institutions. Contact the Academic Advisor for more information.
- + These courses are fieldwork courses.

Fieldwork
Fieldwork Requirements
- All program requirements must be completed appropriately and satisfactorily prior to commencing fieldwork.
- Students who have not successfully met their course and program requirements will not be permitted into the fieldwork courses.
- Fieldwork arrangements are made by Medicine Hat College with consideration of student preferences; however, students may be required to complete fieldwork at sites other than those requested by students. Once arrangements are confirmed, they are usually not modified.
- Students should expect to complete at least one fieldwork course/placement outside of Medicine Hat.
- DL students may also be required to travel outside of their home area in order to complete their fieldwork requirements.
- Students may anticipate additional costs associated with these placements, e.g., travel, accommodations, etc.
- At this time, fieldwork placements occur only in Canada.
- Fieldwork placements are usually full-time unless otherwise approved by the coordinator and fieldwork sites.

Continuation Specific to Fieldwork
- Immunizations required must be up to date prior to program start date, shadowing and fieldwork placement.
- Participation in all activities related to fieldwork is mandatory.
- Immunizations must be maintained throughout the program. Additional immunizations may be required for fieldwork.
- Students must successfully complete lab examinations in SLPA 212, SLPA 215 and SLPA 216 prior to entering fieldwork.
- All fieldwork experience must meet attendance and participation requirements as specified.
- Should students receive an unsatisfactory evaluation on a fieldwork placement, they will be required to discuss this situation with Medicine Hat College faculty. This evaluation may result in having to repeat the placement. Students that receive an unsatisfactory evaluation on more than one placement, will be required to withdraw from the program.
- Students may be required to obtain a recent police information check and/or similar checks, at their expense, prior to entry into some fieldwork sites.
- Should the students performance and/or health be questionable in relation to the delivery of safe client care and/or the maintenance of the professional standards of the program, they may be asked to leave the fieldwork site and may not receive a credit in the fieldwork course.
Speech Language Pathologist Assistant Diploma

Continuation Requirements

• Students must adhere to the professional commitment as outlined in the Therapist Assistant Programs Student Handbook. Failure to do so may result in dismissal from the program.
• Students must complete the program within five years of registration in TAPC 110.
• All TAPC, SLPA, KNES and IDST 100 courses must be completed with grades of C or better.
• Students must earn a grade of at least C- in all other courses.
• In order to continue in the program, a current and cumulative grade point average of at least 2.0 is required at the end of each semester.
• Attendance in all courses is considered essential.
• Students will usually be permitted to repeat a particular SLPA course (TAPC, SLPA) only once.
• Students are normally expected to complete courses in the sequence outlined in the calendar. Courses taken in a sequence other than what is outlined in the calendar [including deferring courses into other terms] may compromise your standing in the program. This also facilitates proper planning for labs and fieldwork.

Graduation Requirements

Students must successfully complete 19 specific courses and meet attendance, fieldwork and grade requirements as set out in the program policies.

Transfer

Individual courses transfer to other post-secondary institutions as outlined in the Alberta Transfer Guide.

Athabasca University
Graduates are eligible to receive up to 60 credits into the Bachelor of Professional Arts (Human Services). Students should consult with an AU Advisor for further information.

Humber College Institute of Technology and Advanced Learning
Graduates with an overall GPA of 65% may be eligible to receive advanced standing into the second year of the Bachelor of Health Sciences, Workplace Health and Wellness. Applicants must possess the equivalent to Grade 12 English (ENG4U) with a minimum 65% and the equivalent to Grade 12 Biology (SBI4U). Students should contact an Academic Advisor for further information.

Thompson Rivers University
Graduates are eligible to receive advanced credit toward the Bachelor of Health Science or the Bachelor of General Studies. Students should contact an Academic Advisor at TRU for further information.

University of Calgary
Graduates of the Addictions Counselling Diploma are eligible to apply to the two-year post-diploma Bachelor of Community Rehabilitation (BCR) program. Students should contact an Academic Advisor for further information.
Steamfitter/Pipefitter Apprenticeship

Chad Baron, Coordinator
Phone: 403.525.2662
E-mail: cbaron@mhc.ab.ca

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For information about the apprenticeship program see page 76.

The term of apprenticeship for a steamfitter/pipefitter is 4 years (four 12-month periods) including a minimum of 1560 hours of on-the-job training and 8 weeks (240 hours) of technical training each year.

Steamfitters/pipefitters lay out, assemble, fabricate, maintain, and repair piping systems that carry water, steam, chemicals or fuel used in heating, cooling, lubricating, and other processes.

The graduate of the Steamfitter/Pipefitter apprenticeship program is a certified journeyperson who will be able to:

• install and maintain high pressure and low pressure steam and hot liquid systems, including various process and industrial
• fabricate, join and install any pipe system used for various purposes in buildings, using any type of pipe including steel, alloy, cast iron, copper or plastic, etc
• provide safe and efficient systems which function in conjunction with other systems
• comply with rules and codes governing installations
• read and interpret plans, specifications and working drawings and prepare layouts
• be proficient with the safe use of hand and power tools and equipment
• calculate material quantities and compile material lists
• install components according to specifications and assume responsibility for the end product
• relate to job situations and other trades that precede or follow
• understand the fundamental of operating a small business
• perform assigned tasks in accordance with quality and production standards required by industry
• rig and perform complex critical lifts with crane operators

Steamfitter/pipefitters also remove and replace worn components, do general maintenance work, and may work on plant shut-downs.

Working Conditions
Steamfitter/pipefitters work both indoors and outdoors at physically demanding tasks that often require climbing. They work approximately 40+ hours a week, with overtime sometimes required to meet construction deadlines. Construction contractors may require employees to travel and live in rented accommodation or at a company on-site camp.

There is some risk of injury involved in working with power tools, and heavy equipment.

Skills and Abilities
The work is most rewarding for those who enjoy working with little direction or supervision.

To be successful in their trade, steamfitter/pipefitters need:

• physical strength, stamina, and the use of proper lifting techniques required to manage heavy materials and stand for long periods
• manual dexterity
• mechanical aptitude
• the ability to read and understand complex instructions and blue prints
• the ability to do careful and exacting work

The above information was copied from the tradesecrets website. For complete information on being a Steamfitter/Pipefitter check out the website at tradesecrets.alberta.ca.
Upgrading

Academic Advising Office
Phone: 403.529.3819

Betty Koch, Coordinator
Phone: 403.504.3627
E-Mail: bkoch@mhc.ab.ca

This program is offered at both Medicine Hat and Brooks Campus

Adult Basic Education

What is it?
Classes in basic reading, writing and math, up to and including a Grade 9 level.

Who is it for?
- Adults who don’t read and write as well as they want to or need to
- Adults who need to upgrade their math skills
- Students wanting to go on to College Preparation classes

College Preparation

College Preparation refers to all programs from Grade 10 to Grade 12. It is designed to meet your needs should you wish to upgrade your academic education, to complete your high school equivalency, or to meet the entrance requirements of other programs. Most College Preparation classes are offered in the following formats: traditional classroom, Open Learning, Distributed (Distance) Learning, and/or On-line Learning.

High School Equivalency
As an adult, this program consists of a series of high school equivalent courses should you wish to upgrade your academic education to a level that will allow you to enter apprenticeship, technical, business, college or university programs.

Combined Upgrading/University Transfer
If you are lacking specific subjects or the required average for the university program you wish to pursue, this program is for you. You can complete your admission requirements and start university courses at the same time. You will be permitted to register in as many matriculation courses as needed to complete requirements for admission to university transfer. You may apply for a matriculation diploma when you successfully complete your matriculation requirements by taking courses at the college. Should you be admitted to a combined program, you may not take 300 level university transfer courses until your matriculation deficiency is cleared. When you are in a Combined Upgrading - University Transfer program and you withdraw from prerequisite College Preparation courses, you will also be required to withdraw from all of the University Transfer courses.

Admission Requirements
1. You must be 18 years or older.
2. An interview with an Academic Advisor is recommended.
3. If you have been away from school for four years or more, you may be asked to take the Medicine Hat College Math, Science and/or English Locator (Assessment). Contact a Medicine Hat College Academic Advisor at 403.529.3819.

Further Information Related to College Preparation Studies
Plan your program taking into account outside activities and demands at home.

Instructors may move you up or down a level in a subject during the first month of classes if it is found that you are incorrectly placed.

If you are in University Transfer/Combined Upgrading, you are expected to complete necessary prerequisite courses during your first year at Medicine Hat College for the university program selected.

Program Requirements
There are a number of levels of courses in this program. Those numbered 010 or 013 are beginning courses at the high school level in a particular discipline.

The 020 or 023 courses are designed for people who have some previous knowledge in a particular discipline. In some cases, they are beginning courses where only one course is required prior to the Grade 12 equivalent course.

The 030 and 033 courses are Grade 12 or equivalent courses.

Equivalency Courses
Biology 020, 030
Chemistry 020, 030
Computers 010
English 010, 013, 020, 023, 030*, 033
Master Student 100
Physics 020, 030
Science 009, 010
Social Studies 010, 020, 030, 033
Math 010R, 010FN, 010, 020FN, 020, 030FN, 030*, 031

*English 030 is accepted in place of Alberta Education’s ELA 30-1 and MATH 030 is accepted in place of Alberta Education’s Math 30-1 by Alberta’s colleges, universities, and technical institutes as per the Alberta Transfer Guide.

NOTE: These are equivalent to high school courses but cannot be used for the completion of a Department of Education high school diploma. However, they may be used towards a high school equivalency diploma awarded by Medicine Hat College.

Open Learning Centre
The Open Learning Centre provides you with an alternative to traditional in-class delivery. Open Learning is a combination of instruction, self-study and tutorial support. Open Learning courses are designed to meet your needs as the upgrading student who is unable to attend regular classes, requires flexible start dates, or requires courses that are not being offered in the traditional classroom format. You are expected to spend a minimum of five hours per week per course working in the Open Learning Centre. Students in Open Learning courses need to set goals, work independently and seek help from staff in order to do well. Instructors and tutors are available to work with you to ensure success.
Jason Bonogofsky, Coordinator  
Phone: 403.504.3649  
E-mail: jbonogofsky@mhc.ab.ca

Medicine Hat College offers eight apprenticeship programs leading to journeyman status and solid careers in the skilled trades. The following trade information is drawn from www.tradesecrets.alberta.ca. For more information about the apprenticeship program see page 76.

The term of apprenticeship for a welder is 3 years (three 12-month periods) including a minimum of 1560 hours of on-the-job training and 8 weeks of technical training each year.

If carpenters are "builders", then welders are "joiners." They join and sever metals in beams, girders, vessels, piping, and other metal components. They also make metal parts used in construction and manufacturing plants, and/or weld parts, tools, machines, and equipment.

Welding usually involves applying heat to metal pieces to melt and fuse them together.

Welders use different welding processes and fillers, depending upon the type of metal, its size and shape, and requirements for finished product strength. For a typical welding project, they:
- develop patterns for projects or follow directions given in layouts, blueprints, and work orders
- clean, check for defects, and shape component parts, sometimes using a cutting torch
- weld parts together

Welders may also build up worn parts by welding layers of high-strength hard-metal alloys onto them.

**Working Conditions**

Welders work in a wide variety of work environments. They may work outdoors on construction sites or indoors in production and repair shops. Travel may be required on jobs such as oilfield-related welding. A 40-hour work week is normal, but overtime is sometimes required.

There is some risk of injury involved working with torches and hot metals and the resulting sparks and toxic gases.

Skills and Abilities

The work is most rewarding for those who enjoy building things and working with little direction or supervision.

To be successful in this trade you require:
- manual dexterity
- good vision (glasses are acceptable)
- eye-hand coordination
- the ability to concentrate on detailed work
- patience

The above information was copied from the tradesecrets website. For complete information on being a Welder check out the website at tradesecrets.alberta.ca.
COURSE DESCRIPTIONS
Classification of Instruction

Lecture

Lecture (LC)
A scheduled period of instruction for the presentation of information, theory or ideas by means of a relatively formal discourse given by the instructor.

Tutorial (TU)
A scheduled period of instruction in which a sub-group of a lecture class meets to discuss material prepared and presented by the instructor.

Directed Study (DS)
A period of instruction not scheduled in the timetable in which the instructor tutors you or a small number of students, usually in connection with a program of individualized or independent study such as directed readings.

Laboratory (LB)

Experimental Laboratory
A scheduled period of instruction involving experimentation and observation in practical application of theory. Emphasis is on your investigative under supervision, you may receive individual or group instruction. Fieldwork (i.e. work you do in the field to gain practical experience through firsthand observation) may be a component of this kind of laboratory.

Skills Development Laboratory
A scheduled period of instruction involving the presentation of information, and demonstration and practice, usually in an environment with special facilities. It is often used to build skills requiring manual or physical dexterity. Emphasis is on your practice under supervision; you may receive individual or group instruction.

Problem-Solving Laboratory
A scheduled period of instruction in which you work on problems or assignments under the supervision of an instructor. It often occurs in an environment with special facilities. It may involve demonstration and practice and may culminate in a public presentation or display. Individual and group instruction may be used.

Recreational Activity Courses (RA)
Course consists primarily of activity. You develop basic skills and development activities. Theory may also be combined with the activity giving you an information base.

Clinical (CL)
A scheduled period of learning within environment where services are delivered to clients/patients, under direct or indirect supervision of an instructor. The instruction occurs in small groups and the instructor assumes full responsibility for your evaluation and experientially based learning experience.

Practicum/Work Placement (PR)
Provides a learning experience in the workplace that combines theoretical and practical experiences. This on-the-job experience normally occurs off-campus and is structured and planned by the College. Direct supervision is usually primarily provided by host agency with direct and indirect supervision provided by the College. Evaluation involves both the host agency and the College, with the College maintaining final responsibility for the grade.

Field Placement (FP)
Provides an educational experience during which you perform practical work in a work setting. A wide variety of on-the-job learning experiences may be included. The workplace supervisor exercises considerable freedom in determining learning experiences. Supervision and evaluation is usually done by the host agency. Site visits from the College faculty are less frequent and for a shorter term than for practicum. Evaluation is usually credit/ non-credit.

Open Learning (OL)
Uses a combination of instructor led small-group sessions, tutorial support, and self-study.

Distributed Learning (DL)
A variety of learning methods are used that utilize alternative sites, scheduling, or learning opportunities. Learning methods include print, computer based learning, video-or audio-conferencing, seminar sessions, learning circles, tutor access, and home study.
General Information about Courses in the Calendar

Finding Courses
Courses are listed alphabetically in the course description section of the calendar. To determine which courses are required for your program, consult the program sections of the calendar.

Changes to Courses
The College reserves the right to modify or withdraw courses without notice. Not all courses are offered every semester.

Course Descriptions
A course calendar description provides you with general information about the content and structure of the course, as well course prerequisites or corequisites, hours/week, credit value of the course, transferability, and additional charges (certifications costs).

GUIDE TO COURSE DESCRIPTION SYMBOLS

ARDR 233 • 3D Fundamentals I
Prerequisite: ARDR 231
Corequisite: ARHI 201
This course is a study of the formal elements of three-dimensional media.
Hours: 84 hrs (3-3)
Credits: 4

Prerequisites are courses that must be completed prior to other courses.
Weekly scheduled contacts hours (3 hrs lecture – 3 hrs lab)

Corequisites are courses that must be taken at the same time or prior to another course.
Weighting assigned to course

Total Course hours
ACCT (Accounting)

ACCT 111 • Introductory Accounting I
Introduction to the nature and purpose of financial accounting. The course focuses on the study of the bookkeeping cycle for service and merchandising businesses. Additional topics include dealing with cash transactions, schedules of receivables and payables, subsidiary ledgers, and other monthly adjustments. In the one-hour computer lab you will use spreadsheet application tools in performing accounting functions.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 113 • Introductory Accounting II
Prerequisite: ACCT 111
This course is a continuation of ACCT 111. Topics include accounting principles, inventories, property, plant and equipment, payroll, partnership and corporation accounting, analysis and interpretation of financial statements, and accounting for manufacturing operations. The one-hour computer lab uses a spreadsheet application and a computerized accounting package.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 211 • Intermediate Accounting I
Prerequisite: ACCT 113 or ACCT 321
Course focuses on providing financial information for external decision making, examining both accounting theory and procedures. Topics include theoretical foundations of the financial accounting process and various forms of financial statements. The course expands on previously discussed topics as well as covering inventory valuation and investments. NOTE: Students cannot receive credit for both ACCT 211 and ACCT 321.
Hours: 56 hrs (3-1)
Credits: 3

ACCT 213 • Intermediate Accounting II
Prerequisite: ACCT 211
Continuation of ACCT 211. Course studies the more complex areas of corporation accounting, long-term investments, long-term liabilities, accounting changes and estimates, analysis of financial statements, and current developments in accounting. NOTE: Students cannot receive credit for both ACCT 213 and ACCT 4222.
Hours: 56 hrs (3-1)
Credits: 3

ACCT 215 • Managerial Accounting
Prerequisite: ACCT 113 or ACCT 321
Introduction to the production and use of accounting data for operational planning and control; special decision making and product costing; examination of cost behaviour patterns; methods of cost accumulation, cost estimation, and other topics. NOTE: Students cannot receive credit for both ACCT 215 and ACCT 3224.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 219 • Taxation
Prerequisite: ACCT 113 or ACCT 321
Introduction to Canadian income taxation. This course is designed to provide you with mainly an introduction to the basic concepts and procedures associated with the federal income tax system as it applies to individuals. Theoretical and practical aspects of tax will be examined and you will learn how to prepare a basic individual tax return. Some attention will be given to corporate taxation and the federal goods and services tax. Some tax planning is discussed.
Hours: 42 hrs (3-0)
Credits: 3

ACCT 276 • Advanced Computerized Accounting
Prerequisite: (ACCT 111 & MGMT 193) or (ACCT 111 & CPSC 203) or APRO 145 or ACCT 321
With advanced microcomputer accounting applications, the following modules are examined in detail: General Ledger, Accounts Receivable, and Accounts Payable. Course includes practice in setting up and using these three modules for adapting financial statements and in integrating accounting software with other applications. Use of the software’s budgeting applications may also be considered.
Hours: 56 hrs (1-3)
Credits: 3

ACCT 320 • Financial Accounting Practices
Prerequisite: ACCT 113 or ACCT 321
This course builds on the concepts and skills learned in introductory accounting and prepares the student for the more conceptual approach required for Intermediate Accounting. Accounting students learn to apply the accounting conceptual framework, and further develop skills for recording transactions and events by covering revenue recognition, long-term liabilities, partnership accounting, shareholders’ equity and the cash flow statement. NOTE: Students cannot receive credit for both ACCT 320 and ACCT 3220.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 321 • Introduction to Financial Accounting
Introduction to accounting for business organizations. You learn how to report financial results of operations and financial position to investors, managers, and others. Emphasis is placed on using accounting information for decision making.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 323 • Introduction to Managerial Accounting
Prerequisite: ACCT 113 or ACCT 321
This course provides an introduction to the use of managerial accounting. Emphasis is placed on the role of accounting in managerial decision making. Case studies are an integral part of this course.
Hours: 56 hrs (4-0)
Credits: 3

ACCT 328 • Management Accounting II
Prerequisite: ACCT 215 or ACCT 323
This course examines various costing methods and analytical tools used by management accountants to provide information and recommendations relevant to short-term and long term decision
making. Topics covered include capital budgeting, cost and revenue allocation, profitability variances, process costing, and inventory management. NOTE: Students cannot receive credit for both ACCT 328 and ACCT 3228.

Hours: 42 hrs (3-0)
Credits: 3

ACCT 422 • Principles of Auditing
Prerequisite: ACCT 211
This course examines the role of the internal and external auditor in business and explores the legal and ethical environment of auditing. Emphasis is placed on methods and procedures used in auditing and reporting as they relate to specific financial statement areas such as assets, liabilities, equities, revenues, and expenses. Other topics include internal control, risk and materiality, the audit of fraud, and auditing in a computer environment. NOTE: Students cannot receive credit for both ACCT 422 and ACCT 4225.

Hours: 42 hrs (3-0)
Credits: 3

ACCT 428 • Introduction to Personal and Corporate Income Tax
Prerequisite: ACCT 211
This course covers Canadian income tax laws affecting individuals and corporations. Topics include the computation of individual and corporate income tax, taxable income, taxes payable, corporate distributions, taxation of capital gains, and the preparation of corporate and personal tax returns. NOTE: Students cannot receive credit for both ACCT 428 and ACCT 4280.

Hours: 56 hrs (3-1)
Credits: 3

ACCT 431 • Advanced Financial Accounting
Prerequisite: ACCT 213
This is an advanced course in financial accounting that covers the following areas: intercompany investments, business combinations and related issues, joint ventures, foreign currency transactions, and financial reporting. ACCT 431 builds on concepts learned in introductory and intermediate accounting courses. Students can expect to develop an understanding of the concepts underlying these topics and to demonstrate an ability to complete numerical problems. Student should also be able to evaluate alternative accounting treatments and use judgement in analyzing. NOTE: Students cannot receive credit for both ACCT 431 and ACCT 4381.

Hours: 56 hrs (4-0)
Credits: 3

ACCT 432 • Advanced Managerial Accounting
Prerequisite: ACCT 328 or consent of the department
This course uses cases extensively and introduces advanced management accounting practices focused on helping managers achieve operational excellence, formulate and implement new strategies, and motivate organizational performance. The course covers current and topical management accounting practices being adopted by companies within a variety of business environments and the changing contexts therein. Management accounting is a discipline that requires analysis and interpretation of relevant information for use by management in planning and controlling the organization’s activities, problem solving, decision-making, and in assuring the proper use of organizational resources. As both a provider and a user of such information, management accounts require skills grounded in cost accounting. The new role of management accounting calls for the ability to be a value-adding member of the management team combined with the ability to recognize the importance of, and use of non-financial performance measures. NOTE: Students cannot receive credit for both ACCT 432 and ACCT 4382.

Hours: 56 hrs (4-0)
Credits: 3

ACCT 420 • Financial Accounting Practices
Prerequisite: ACCT 113 or ACCT 321
This course examines issues and problems related to GAAP for income determination and revenue recognition. International Financial Reporting Standards (IFRS) and Accounting standards for Private Enterprises (ASPE) relating to recognition, measurement, and financial statement presentation of assets are addressed. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 320 and ACCT 3220.

Hours: 56 hrs (4-0)
Credits: 3

ACCT 3221 • Intermediate Accounting I
Prerequisite: ACCT 111 or ACCT 321
This course examines issues and problems related to GAAP for income determination and revenue recognition. International Financial Reporting Standards (IFRS) and Accounting standards for Private Enterprises (ASPE) relating to recognition, measurement, and financial statement presentation of assets are addressed. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 211 and ACCT 3221.

Hours: 56 hrs (3-1)
Credits: 3

ACCT 3224 • Managerial Accounting I
Prerequisite: ACCT 111 or ACCT 321
Introduction to the production and use of accounting data for operational planning and control; special decision making and product costing; examination of cost behaviour patterns; methods of cost accumulation, cost estimation, and other topics. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 215 and ACCT 3224.

Hours: 56 hrs (4-0)
Credits: 3

ACCT 3228 • Management Accounting II
Prerequisite: ACCT 215 or ACCT 323 or ACCT 3224
This course examines various costing methods and analytical tools used by management accountants to provide information and recommendations relevant to short-term and long-term decision making. Topics covered include capital budgeting, cost and revenue allocation, profitability variances, process costing, and inventory management. Third and Fourth years of the BBA
program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 328 and ACCT 3228.

Hours: 42 hrs (3-0)
Credits: 3

ACCT 4222 • Intermediate Accounting II
Prerequisite: ACCT 211 or ACCT 3221
This course provides an in-depth analysis of accounting theory and principles related to the reporting of short-term and long-term liabilities, leases, pensions, corporate income taxes, shareholders’ equity, complex financial instruments, earnings per share, the cash flow statement, and accounting changes and error analysis. International Financial Reporting Standards (IFRS) and Accounting Standards for Private Enterprises (ASPE) relating to recognition, measurement, and financial statement presentation of liabilities and equity are addressed. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 213 and ACCT 4222.

Hours: 56 hrs (3-1)
Credits: 3

ACCT 4225 • Principles of Auditing
Prerequisite: ACCT 211 or ACCT 3221
This course examines the role of the internal and external auditor in business and explores the legal and ethical environment of auditing. Emphasis is placed on methods and procedures used in auditing and reporting as they relate to specific financial statement areas such as assets, liabilities, equities, revenues, and expenses. Other topics include internal control, risk and materiality, the audit of fraud, and auditing in a computer environment. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 422 and ACCT 4225.

Hours: 42 hrs (3-0)
Credits: 3

ACCT 4280 • Introduction to Personal & Corporate Income Tax
Prerequisite: ACCT 211 or ACCT 3221 or consent of the department
This course covers Canadian income tax laws affecting individuals and corporations. Topics include the computation of individual and corporate income tax, taxable income, taxes payable, corporate distributions, taxation of capital gains, and the preparation of corporate and personal tax returns. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 428 and ACCT 4280.

Hours: 56 hrs (3-1)
Credits: 3

ACCT 4381 • Advanced Financial Accounting
Prerequisite: ACCT 213 or ACCT 4222
This is an advanced course in financial accounting that covers the following areas: intercompany investments, business combinations and related issues, joint ventures, foreign currency transactions, and financial reporting. ACCT 4381 builds on concepts learned in introductory and intermediate accounting courses. Students can expect to develop an understanding of the concepts underlying these topics and to demonstrate an ability to complete numerical problems. Student should also be able to evaluate alternative accounting treatments and use judgement in analyzing. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 431 and ACCT 4381.

Hours: 56 hrs (4-0)
Credits: 3

ACCT 4382 • Advanced Managerial Accounting
Prerequisite: (ACCT 213 or ACCT 4222) and ACCT 3228
This course uses cases extensively and introduces advanced management accounting practices focused on helping managers achieve operational excellence, formulate and implement new strategies, and motivate organizational performance. The course covers current and topical management accounting practices being adopted by companies within a variety of business environments and the changing contexts therein. Management accounting is a discipline that requires analysis and interpretation of relevant information for use by management in planning and controlling the organization’s activities, problem solving, decision-making, and in assuring the proper use of organizational resources. As both a provider and a user of such information, management accounts require skills grounded in cost accounting. The new role of management accounting calls for the ability to be a value-adding member of the management team combined with the ability to recognize the importance of, and use of non-financial performance measures. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ACCT 432 and ACCT 4382.

Hours: 56 hrs (4-0)
Credits: 3

ADAE (Advanced Aeronautics)

ADAE 200 • Advanced Aeronautics
This course will allow the student to understand the Theory of Flight from basic to advanced flight. In this course, the student will learn Principles of Flight, Airfoils, Forces Acting on Airfoils, Propellers, Wing Design, Load Factor, Stability, Flight Controls, Supersonic Aerodynamics, High Speed Aerodynamics, and The Effect of In-Flight Icing. This course will allow the student to understand the How and Why of Flight.

Hours: 42 hrs (3-0)
Credits: 3
AGEC (Agroecology)

AGEC 120 • Agroecology I
Corequisite: BIOL 255
Examination of how ecological principles and processes apply to agroecosystems, including abiotic factors, biotic factors, genetic conservation and diversity, succession, and energy flows. The course combines theory with lab and field-based exercises to explore and understand the sustainability of agricultural production.
Hours: 70 hrs (3-2)
Credits: 4

AGEC 130 • Introduction to Geographic Information Science
Introduction to Geographic Information Science (GIS). This course introduces the creation, management, and analysis of digital spatial data. Topics include data models and representation, relational databases, analytical models, error, accuracy and precision, map standards, and data translation (Google Earth, CADD, and other data standards). QGIS—a free and open-source GIS—will be used for the course. NOTE: Students cannot receive credit for both EVSC 238 and AGEC 130.
Hours: 84 hrs (3-3)
Credits: 4

AGEC 140 • Integrated Vegetation Management
Prerequisite: BIOL 254
Integrated vegetation management uses an understanding of plant ecology to manage vegetation in a variety of effective, economical and environmentally responsible ways to manage weeds in agricultural and horticultural settings. You are introduced to the classification, importance, growth and dispersal of weeds and invasive plant species. Identification of common Western Canadian weeds are emphasized. Strategies and techniques are discussed for the cultural, biological, chemical, and mechanical management of weeds and invasive species.
Hours: 84 hrs (3-3)
Credits: 4

AGEC 200 • Research Methods
Prerequisite: BIOL 254
This course covers sampling methods and procedures for collecting and analyzing environmental parameters, including soil, water, vegetation, and general agroecosystem functions. Basic QA/QC procedures are discussed, and basic statistical analysis (descriptive statistics, t tests, ANOVAs) is introduced. MS Excel and R are used in labs.
Hours: 70 hrs (2-3)
Credits: 4

AGEC 210 • Range & Holistic Management
Prerequisite: BIOL 254, BIOL 255, ECON 201
This course is an introduction to the principles and practices of rangeland conservation and ecosystem-based management. This course examines the effects of grazing and browsing on the biophysical components of rangeland ecosystems, including soils, plants, plant communities, and wildlife interactions. Range inventory and range health methods are also covered.
Hours: 84 hrs (3-3)
Credits: 4

AGEC 220 • Advanced GIS and Remote Sensing for Landscape Ecology
Prerequisite: AGEC 130, BIOL 255,
This course introduces students to methods for remote sensing of the Earth, and how spatial analysis can applied to landscape ecology and agriculture. Major course topics include electromagnetic radiation, spectral and spatial properties, sensor characteristics, accuracy assessment, image processing, and spatial analysis methods. NOTE: Students cannot receive credit in both AGEC 220 and EVSC 336.
Hours: 84 hrs (3-3)
Credits: 4

AGEC 230 • Forage and Cropping Systems
Prerequisite: AGEC 130, BIOL 254
This course integrates biological, economic, sociological, and technical aspects of cropping systems around the world. Topics include: designing resource-efficient cropping systems, soil quality and fertility, tillage, water quality concerns, nitrogen use efficiency, legumes and cover crops, and the implications of climate change and elevated carbon dioxide on agroecosystems.
Hours: 42 hrs (3-0)
Credits: 3

AGEC 240 • Climate and Ecosystems
Prerequisite: AGEC 130, BIOL 255
An introduction to the physical and biological processes that form long-term meteorological patterns. Topics include energy and radiation, wind, temperature, precipitation, evapotranspiration, climate classification, soil-plant-water interactions, and climate change.
Hours: 70 hrs (3-2)
Credits: 4

AGEC 250 • Soil Ecology
Prerequisite: SOSC 213
The course describes the role of soil organisms and the decomposition of organic matter for plant nutrition. Topics include soil energy flows, structure and diversity of soil fauna, composting, vermiculture, mycoculture, and biogeochemical cycling.
Hours: 70 hrs (3-2)
Credits: 4

AGEC 260 • Horticulture Methods
Prerequisite: AGEC 140, BIOL 254
Horticulture theory and methods including: identification of economically important horticulture crops in Alberta and Medicine Hat/Redcliff, propagation methods, cultivation media (soil, soilless), horticultural cropping systems, and appropriate integrated pest management techniques.
Hours: 84 hrs (3-3)
Credits: 4

AGEC 270 • Wetland Ecology & Management
Prerequisite: AGEC 220, BIOL 254, EREC 230
Wetlands are ecologically and agriculturally important ecosystems within Alberta. They are subject to protection, conservation, and compensation policies, which require in depth knowledge of their structure, function, and classification. Topics include wetland classification and remote sensing, biogeochemical processes, ecological succession, and the Alberta wetland policy. Human constructed wetlands and their design will also be discussed.
Hours: 56 hrs (2-2)
Credits: 3
AGEC 280 • Agroecology II
Prerequisite: AGEC 120
Under the direction of the instructor, students work in teams to design an agroecological production system. Using the skills and knowledge developed throughout the program, student teams will integrate project management, business management, ecological principles, economic principles, geospatial data, and systems-thinking to research a topic, define the problems, and develop solutions in an integrated plant-animal production system.

Hours: 84 hrs (0-6)
Credits: 4

AMAT (Applied Mathematics)

AMAT 217 • Math for Engineers I
Prerequisite: MATH 30 & MATH 31
Topics covered include the Cartesian plane, elementary functions, limits and their properties, differentiation, related rates, optimization problems, and other applications of differentiation. Integration, logarithmic functions, exponential functions, transcendental functions, inverse functions, and applications of integration.

Hours: 70 hrs (5-0)
Credits: 4

AMAT 219 • Math for Engineers II
Prerequisite: AMAT 217
Topics covered include integration techniques and improper integrals; infinite series, power series, Taylor’s polynomials and approximations; plane curves; parametric equations and polar coordinates; functions of several variables; multiple integration; and an introduction to differential equations.

Hours: 70 hrs (5-0)
Credits: 4

AMAT 311 • Differential Equations I
Prerequisite: MATH 349
Classification of ordinary differential equations, first order equations with applications, second order equations with applications, series solutions about regular points and singular points, special functions, Laplace transformation, and systems of equations are featured in this course.

Hours: 56 hrs (3-1T)
Credits: 3

AMET (Advanced Meteorology)

AMET 201 • Advanced Meteorology
This course will examine the Fundamentals of Weather and Physics of the Atmosphere. Upon successful completion of this course, students will be able to identify the factors that affect aviation flight regarding potential weather hazards such as: icing, turbulence, fronts, air masses, jet streams and Surface Based Weather. Students will also be able to better understand the very complex structure and movement of the air masses within our atmosphere and their influence on climate and weather conditions including violent weather such as lightning, thunderstorms, tornadoes and hurricanes.

Hours: 42 hrs (3-0)
Credits: 3

ANTH (Anthropology)

ANTH 201 • Introduction to Primatology and Human Evolution
Introduction to evolutionary theory and processes with particular reference to the primates. Topics include primate taxonomy, distribution, reproduction, locomotion, diet, social organization and evolution, with special emphasis on the path of human evolution. NOTE: Students cannot receive credit for both ANTH 201 and ANTH 1101.

Hours: 42 hrs (3-0)
Credits: 3

ANTH 203 • Introduction to Social and Cultural Anthropology
This course deals with the nature of human society: its elements, its variability and its perpetuation. Conclusions will be drawn from comparisons of institutions (political, economic, religious, educational, and sexual) in both small-scale and large-scale societies.

Hours: 42 hrs (3-0)
Credits: 3

ANTH 213 • Contemporary Aboriginal Issues in Canada
An exploration of the history of Aboriginal/state relations, the development of Indian policy, and current efforts of Aboriginal peoples to address historical matters through the critique of the residential school system and the pursuit of self government, land claims, modern treaties and Aboriginal rights. Includes a critical examination of Canadian historical writing, popular culture, and stereotypes of Indians and will survey contemporary Aboriginal expressions of identity in the arts, literature, cultural performances, and other public contexts.

Hours: 42 hrs (3-0)
Credits: 3

ANTH 215 • Ecological and Cultural Issues in Indigenous Communities: Canadian and International Perspectives
Ethnological, archaeological and ecological perspectives are applied to the study of indigenous communities in Canada. Topics included are: Archaeological evidence of prehistoric and early historic native communities; sociocultural/environmental relationships of the past and present; indigenous interest in, legal rights to, and management of the land and its resources; and international perspectives on ecological and cultural issues involving indigenous peoples.

Hours: 42 hrs (3-0)
Credits: 3

ANTH 255 • An Ethnographic Survey of Native North Americans
Prerequisite: ANTH 203
Selected North American Indian cultures are studied in terms of the relationship between basic subsistence adaptations, social, ceremonial, and ideological structures. NOTE: Not open to students with credit in ARKY 381.

Hours: 42 hrs (3-0)
Credits: 3
ANTH 379 • Urban Anthropology
Prerequisite: ANTH 203 or permission of the Dean
An extensive overview of urban settlements, from their first appearance, to contemporary cities in the developing and developed world. This course explores theoretical and methodological approaches of the social sciences in understanding the development and physical structures of cities and the diversity of urban lifeways and social issues.
Hours: 42 hrs (3-0)
Credits: 3

ANTH 1101 • Introduction to Primatology and Human Evolution
This course will consider human evolution, the role of biosocial phenomena in the evolution of physical structure and social behaviour, and the origins and development of culture. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ANTH 201 and ANTH 1101.
Hours: 42 hrs (3-0)
Credits: 3

APAT (Apprenticeship - Automotive Service Technician)

APAT 100 • Automotive Service Technician
First Year
Hours: 240 hrs 8 wks

APAT 200 • Automotive Service Technician
Second Year
Hours: 240 hrs 8 wks

APAT 300 • Automotive Service Technician
Third Year
Hours: 240 hrs 8 wks

APAT 400 • Automotive Service Technician
Fourth Year
Hours: 240 hrs 8 wks

APCC (Apprenticeship – Common)

APCC 100 • Apprentice Plumber/Sprinkler/Gas/Steamfitter
First Year
Hours: 240 hrs 8 wks

APCC 200 • Apprentice Plumber/Sprinkler/Gas/Steamfitter
Second Year
Hours: 240 hrs 8 wks

APCC 300 • Apprentice Plumber/Sprinkler/Gas/Steamfitter
Third Year
Hours: 240 hrs 8 weeks

APCC 400 • Apprentice Plumber/Sprinkler/Gas/Steamfitter
Fourth Year
Hours: 360 hrs 12 wks

APEL (Apprenticeship - Electrician)

APEL 100 • Apprentice Electrician
First Year
Hours: 240 hrs 8 wks

APEL 200 • Apprentice Electrician
Second Year
Hours: 240 hrs 8 wks

APEL 300 • Apprentice Electrician
Third Year
Hours: 240 hrs 8 weeks

APEL 400 • Apprentice Electrician
Fourth Year
Hours: 360 hrs 12 wks

APHE (Apprenticeship - Heavy Equipment Technician)

APHE 100 • Apprentice Heavy Equipment Technician
First Year
Hours: 240 hrs 8 wks

APHE 200 • Apprentice Heavy Equipment Technician
Second Year
Hours: 240 hrs 8 wks

APHE 300 • Apprentice Heavy Equipment Technician
Third Year
Hours: 240 hrs 8 wks

APHE 400 • Apprentice Heavy Equipment Technician
Fourth Year
Hours: 240 hrs 8 wks

APPL (Apprenticeship - Plumbing)

APPL 200 • Apprentice Plumbing
Second Year
Hours: 240 hrs 8 wks

APPL 300 • Apprentice Plumbing
Third Year
Hours: 240 hrs 8 wks

APPL 400 • Apprentice Plumbing
Fourth Year
Hours: 240 hrs 8 wks
APRO (Administration Office Professional)

APRO 108 • Keyboarding/Desktop Publishing I
You master the touch typing technique and practice to improve speed and accuracy in keyboarding. You need 30 wpm with 97% accuracy to pass this course. You will also learn basic concepts of page layout and graphic design.
Hours: 56 hrs (0-4)
Credits: 3

APRO 109 • Keyboarding/Desktop Publishing II
Prerequisite: A minimum of a C grade in APRO 108
In this course, you will continue to develop speed and accuracy in timed writings. You need 45 wpm with 97% accuracy to pass this course. You will also learn the design process and skills to create dynamic layouts with the integration of texts and images.
Hours: 42 hrs (0-3)
Credits: 3

APRO 120 • Effective Speaking for the Office
You learn to speak effectively while talking on the telephone to customers and clients. You learn to speak with confidence in small groups and to larger groups.
Hours: 42 hrs (3-0)
Credits: 3

APRO 125 • Office Communications I
You learn communications skills needed in today’s office. There is an emphasis on enhancing your grammar, formatting and proof-reading skills when writing business correspondence.
Hours: 70 hrs (5-0)
Credits: 4

APRO 131 • Office Applications I
Through this course, you acquire practical skills for today’s office. You learn office skills such as file management, mail procedures, booking travel arrangements, arranging meetings, preparing minutes and how to use the photocopier and fax machine. Using Microsoft Office, you will use skills necessary for production of professional business documents. You will learn to create, print and edit documents in Word, Excel, PowerPoint and Access.
Hours: 70 hrs (2-3)
Credits: 4

APRO 133 • Office Applications II
Prerequisite: A minimum of a C grade in APRO 131
You will continue to use MS Office to complete projects related to the career area. In this course, you will become proficient with Excel, Access and advanced Word applications related to document creation and maintenance in the office.
Hours: 70 hrs (0-5)
Credits: 4

APRO 140 • Bookkeeping I
The focus of this course is on the study of the bookkeeping cycle for journalizing transactions, preparing trial balances, worksheets and financial statements.
Hours: 42 hrs (3-0)
Credits: 3

APRO 145 • Bookkeeping II
Prerequisite: A minimum of a C grade in APRO 140 OR a minimum grade of C- in ACCT 111
As a continuation of APRO 140, you learn the procedures for cash control specialized journals and ledgers, payroll and GST. In addition you use Simply Accounting to do computerized bookkeeping.
Hours: 70 hrs (3-2)
Credits: 4

APRO 155 • Office Communications II
Prerequisite: A minimum of a C grade in APRO 120 & APRO 125
You further advance your grammar, punctuation, business writing, and composition skills and deliver an oral presentation using a computerized presentation package. In addition, you will learn how to prepare for job interviews. In conjunction with the APRO 190 instructor, you are required to arrange a work experience contract.
Hours: 70 hrs (5-0)
Credits: 4

APRO 167 • Office Relations
In addition to learning the importance of making a positive contribution to your organization, you develop team working, problem-solving and conflict resolution skills.
Hours: 42 hrs (3-0)
Credits: 3

APRO 180 • Work Experience I
Corequisite: Minimum of C grade in each of APRO 108 & APRO 120 & APRO 125 & APRO 131 & APRO 140
During the 35 hours of work experience at the end of the semester, you apply concepts you have learned from the first semester of the Administrative Office Professional program. In order to do the work experience portion of the course, you require a minimum of a 90% attendance rate in all the first semester courses. During the work experience, you gain a better understanding of the workplace with job shadowing, observing and assisting office staff. Customer service training is included in this course.
Hours: 49 hrs (1-0) 14 wks (0-35P) 1 wk
Credits: 2

APRO 190 • Work Experience II
Prerequisite: A minimum of a C grade in APRO 109 & APRO 133 & APRO 145 & APRO 155 & APRO 167 & APRO 180
You work in an office setting obtaining practical on-the-job experience that applies the concepts you have learned from your studies in the Administrative Office Professional Program at Medicine Hat College. The work experience gives you an understanding of the importance of developing acceptable work habits, good grooming, and the need for self-discipline. You learn how to deal with others in a professional, business-like manner. You recognize the need for having a positive attitude when working with others. NOTE: Course is offered in April at the conclusion of the Winter classes.
Hours: 90 hrs (0-30P) 3 wks
Credits: 3
APRT (Apprenticeship - Rig Technician)

**APRT 100** • Apprentice Rig Technician
First Year
Hours: 120 hrs 4 wks

**APRT 200** • Apprentice Rig Technician
Second Year
Hours: 120 hrs 4 wks

**APRT 300** • Apprentice Rig Technician
Third Year
Hours: 120 hrs 4 wks

APSP (Apprenticeship - Steamfitter/ Pipefitter)

**APSP 200** • Apprentice Steamfitter/Pipefitter
Second Year
Hours: 240 hrs 8 wks

**APSP 300** • Apprentice Steamfitter/Pipefitter
Third Year
Hours: 240 hrs 8 wks

**APSP 400** • Apprentice Steamfitter/Pipefitter
Fourth Year
Hours: 240 hrs 8 wks

APWE (Apprenticeship – Welding)

**APWE 100** • Apprentice Welding
First Year
Hours: 240 hrs 8 wks

**APWE 200** • Apprentice Welding
Second Year
Hours: 240 hrs 8 wks

**APWE 300** • Apprentice Welding
Third Year
Hours: 240 hrs 8 wks

ARDE (Art & Design)

**ARDE 213** • Typography I
The course will provide a detailed understanding of letter, text, and grids. It will enable the student to develop a typographic problem solving process.
Hours: 84 hrs (3-3)
Credits: 4

**ARDE 315** • Typography II
Prerequisite: ARDE 213 or ARVC 213
The course will provide a detailed understanding of letter, text, and grids. It will enable the student to develop a typographic problem solving process. The course will focus on determining hierarchies and the differentiation of information. Emphasis will be placed upon typographic grids to organize information and develop clarity of communication. Students will be encouraged to consider a fluency of typographic mark making. Adobe InDesign will be the primary software application used within this course.
Hours: 84 hrs (3-3)
Credits: 4

**ARDE 331** • Graphic Design I
Prerequisite: ARDE 213 or ARVC 213 & ARFN 234 & ARDR 241
This is an introductory course in graphic design, exploring visual communications and its creative process. The course mainly focuses on utilizing basic visual elements for communication purposes. It also applies skills and knowledge acquired in its prerequisite courses (ARDE 213, ARFN 234, and ARDR 241) toward seeking graphic solutions for art and design problems. The course is the first and most basic of four sequential courses in graphic design.
Hours: 84 hrs (3-3)
Credits: 4

**ARDE 333** • Graphic Design II
Prerequisite: ARDE 331 or ARVC 331
Continuing studies in graphic design. Equipped with the basic skills and knowledge gained in the previous course, you will learn to apply them for the purpose of visual communication. The course is designed to foster a personal approach to conceptual problem solving while investigating the principles of design and developing a visual vocabulary through experimentation.
Hours: 84 hrs (3-3)
Credits: 4

**ARDE 394** • Portfolio and Work Term Preparation
Prerequisite: ARDE 213 or ARVC 213 & ARFN 234 & ARDR 241
In this course the student develops a professional print and web portfolio. The course provides instruction in resume and cover letter preparation, interview strategies, and job search techniques.
Hours: 30 hrs (2.25-0)
Credits: 1.5

**ARDE 395** • Applied Visual Communications - Work Term I
Prerequisite: ARDE 394 or ARVC 394 and ARDE 331 or ARVC 331 and ARDE 333 or ARVC 333
The field study provides the student with an opportunity to apply visual communication concepts and art and design skills within industry. The work term is designed to allow the student to develop proficiency in a work environment. *Restricted to students in the Applied Degree program. Total tuition for this course is $814.16.
Hours: 4 mths (0-35P)
Credits: 15
ARDE 396 • Applied Art and Design I
Prerequisite: ARDE 333 or ARVC 333
With studies in the theory and practice of art and design for the professional, this course emphasizes exploration and experimentation in visual production. *Restricted to students in the Applied Degree program.
Hours: 84 hrs (3-3)
Credits: 4

ARDE 495 • Applied Art and Design - Work Term II
Prerequisite: ARDE 394 or ARVC 394 & ARDE 395 or ARVC 395
This field study provides the student further opportunity to apply art and design concepts within industry. The work term is designed to allow the student to continue to develop proficiency in a work environment. *Restricted to students in the Applied Degree program.
Total tuition for this course is $814.16.
Hours: 4 mths (0-35P)
Credits: 15

ARDE 496 • Applied Art and Design II
Prerequisite: ARDE 396 or ARVC 396
The course offers the student further studies in the theory and practice of applied art and design.
Hours: 84 hrs (3-3)
Credits: 4

ARDE 498 • Special Projects and Exhibition I
Prerequisite: ARDE 395 or ARVC 395 and ARDE 396 or ARVC 396
This course offers an in-depth study of the art and design field culminating in a body of work intended for display in the graduation exhibition. The work made for exhibition is to be accompanied by an essay.
Hours: 84 hrs (3-3)
Credits: 4

ARDE 499 • Special Projects and Exhibition II
Prerequisite: ARDE 395 or ARVC 395 and ARDE 396 or ARVC 396
In this course the student will focus on the planning, marketing and curatorial elements of a major exhibition, as well as the preparation of other elements related to the final graduation exhibition, such as the portfolio book and web portfolio.
Hours: 84 hrs (3-3)
Credits: 4

ARDR (Art Drawing)
ARDR 241 • Drawing I
Focus of the course is basic theory and practice of drawing, involving both perceptual and conceptual projects in a wide variety of monochromatic media.
Hours: 84 hrs (3-3)
Credits: 4

ARDR 243 • Drawing II
Prerequisite: ARDR 241
Course focuses on basic theory and practice of drawing, involving both perceptual and conceptual projects in monochromatic and colour media.
Hours: 84 hrs (3-3)
Credits: 4

ARDR 341 • Drawing III
Prerequisite: ARDR 243
This course offers theory and practice of drawing at an intermediate level involving an extended range of drawing media, with a focus primarily on the human figure.
Hours: 84 hrs (3-3)
Credits: 4

ARDR 343 • Drawing IV
Prerequisite: ARDR 341
Course focuses on the theory and practice of advanced drawing, emphasizing the development of personal style through mixed media drawing approaches.
Hours: 84 hrs (3-3)
Credits: 4

ARED (Art Education)
ARED 310 • Introductory Art Experience for Teachers I
This course focuses on both individual and group inquiry into the educational potential of visual art for young children's development. Particular attention is given to exploring media and teaching strategies with 18 hours of classroom experience. In order to ensure the safety of children in the classrooms, local school jurisdictions require that student teachers submit a current Police Information Check with Vulnerable Sector Search and an Alberta Children's Services Intervention Record Check. It is also recommended that student teachers possess a current Emergency or Standard First Aid Certificate and that Health Immunization Records are up to date. NOTE: Registration priority is given to Education students.
Hours: 84 hrs (3-3)
Credits: 4

ARED 311 • Introductory Art Experiences for Teachers II
Prerequisite: ARED 310
Continuation of ARED 310. In order to ensure the safety of children in the classrooms, local school jurisdictions may require that student teachers submit a current Police Information Check with Vulnerable Sector Search and an Alberta Children's Services Intervention Record Check. It is also recommended that student teachers possess a current Emergency or Standard First Aid Certificate and that Health Immunization Records are up to date.
Hours: 84 hrs (3-3)
Credits: 4

AREL (Art Electronics)
AREL 329 • Design for Web I
Prerequisite: ARFN 231 & ARFN 234
This course explores the fundamentals of design for web. Plan, design, and produce simple web pages that function efficiently, and communicate effectively. You will be introduced to creating an online presence looking at the history of the internet and how the worldwide web works, before diving into the design process. HTML will be used to structure the web pages, while CSS will be used to present the pages. User interface and user experience (UI/UX) design will be important to the process. Web Design I provides a foundation for emerging graphic designers.
Hours: 84 hrs (3-3)
Credits: 4
AREL 338 • Interactive Media I
Prerequisite: ARFN 231 & ARFN 234
This course introduces students to the basic concepts of interactive media, with a focus on motion design. Hands on projects will guide students through essential tools of time-based media. Adobe Photoshop and After Effects will be learned through a series of projects that examine how we can use these tools to communicate. Emerging media and technologies will be explored, then evaluated for their effectiveness to communicate messages. Interactive Media I opens up new avenues for graphic designers and artists to explore digital technologies.
Hours: 84 hrs (3-3)
Credits: 4

AREL 365 • Video I
Prerequisite: ARFN 231 & ARDR 241
This course offers the student an introduction to time-based narrative and video production. The topics of study include: script, storyboard, sound recording, camera technique, lighting, and post-production in a digital environment.
Hours: 84 hrs (3-3)
Credits: 4

AREL 370 • Sound Design I
Prerequisite: ARFN 231 & ARFN 234
This course explores sound design with an emphasis on experimental practice. The course serves as an introduction to the history of sound design, experimental music, and sound technologies. Topics will include composition, arrangement, use and integration of both concrete and synthetic sound, and aspects of noise and aleatoric sound and specialization. The course consists of two interrelated components: a lecture/theoretical component and studio practice.
Hours: 84 hrs (3-3)
Credits: 4

AREL 429 • Design for Web II
Prerequisite: AREL 329
Web II reinforces the process learned in Web Design I, then extends into deeper topics using advanced web tools. Students will have the opportunity to design, develop, and maintain their own online space with iterative updates. This course provides students with practical experience in the day-to-day maintenance of a website in conjunction with exploring current design trends. Students will be introduced to new tools and design methodologies that make their workflow easier and allow them to produce interactive web pages. Pre-production, production, and post-production will be experienced by the student for an encompassing web design experience. Web Design II is the beginning of exciting online projects.
Hours: 84 hrs (3-3)
Credits: 4

AREL 438 • Interactive Media II
Prerequisite: AREL 338
Interactive Media II advances students' knowledge of media design. This course focuses on interactive experiences that are functional and engaging for the user, as well as looking forward to emerging technologies and the future of interactive projects. Students will revisit the fundamentals of interaction design, and visual design as part of the user experience. Industry recognized applications will be used as tools to produce student-led digital solutions for real-world scenarios.
Hours: 84 hrs (3-3)
Credits: 4

AREL 467 • Video II
Prerequisite: AREL 365
This course offers further studies in the theory and practice of time-based narrative and video production.
Hours: 84 hrs (3-3)
Credits: 4

AREL 475 • The Studio Portrait
Prerequisite: AREL 365 or ARPH 335
This course examines the photographic portrait through the means of both still images and time-based imagery. Students will benefit from an examination of both commercial studio practice and portraiture in a contemporary art context. There is an emphasis on the staged or constructed image. Students will be expected to produce a portfolio and participate in an end of semester public exhibition.
Hours: 84 hrs (3-3)
Credits: 4

ARFA (Art Fine Arts)

ARFA 304 • Sculpture I
Prerequisite: ARFN 233 & ARDR 241
This course explores notions of sculpture and considers a range of material. Students are introduced to the usage and application of power tools and the safety requirements of the wood shop. The practical aspects of mould construction and casting are presented in a variety of materials. Light, sound and kinetic aspects of sculpture may arise.
Hours: 84 hrs (3-3)
Credits: 4

ARFA 305 • 3D Design I
Prerequisite: ARFN 233 & ARDR 241
This course serves as an introduction to the materials, concepts and techniques of three-dimensional design. Students learn a variety of presentation techniques while solving functional design problems. Spatial awareness, conceptual development, craft skills, innovative use of materials and basic functionality are considered in the areas of furniture, fashion and architectural design.
Hours: 84 hrs (3-3)
Credits: 4

ARFA 351 • Painting I
Prerequisite: ARFN 231 & ARDR 241
This course is an introduction to a variety of stylistic and conceptual approaches to painting. Students are encouraged to investigate colour theory and to explore ways in which paint can be manipulated physically in relation to a surface.
Hours: 84 hrs (3-3)
Credits: 4
ARFA 353 • Painting II  
Prerequisite: ARFA 351  
This course offers the student further studies in the formal practice of painting in relation to colour theory, observation/interpretation skills, manipulation of material, and compositional structure. It also introduces the student to the relationships between form, subject, and content, and how these components function in context to painting’s history and contemporary visual culture.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 357 • Illustration I  
Prerequisite: ARFN 231 & ARDR 241  
This course offers an introduction to the concepts and processes of illustration. In this course students will develop their ability to visualize and translate three dimensional forms onto a two dimensional surface using a variety of mediums. Students will explore a variety of illustrative approaches as a means to visually convey an idea.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 372 • Relief Printmaking I  
Prerequisite: ARFN 231 & ARDR 241  
This course offers an introduction to the concepts, processes and techniques in relief printing. Topics include the linocut, woodcut, and wood engraving. Students will become familiar with the tools and safe practices used in conjunction with relief printmaking. In addition, students will explore composition, value, and the graphic characteristics of relief printing. Classes will consist of lecture, critiques, and studio based work. Students will also acquire an understanding of the history of relief printmaking.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 373 • Lithography I  
Prerequisite: ARFN 231 & ARDR 241  
This course offers an introduction to the concepts, processes and techniques in lithographic printmaking leading to an understanding and employment of stone and plate lithography.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 375 • Lithography II  
Prerequisite: ARFA 373  
The course offers further study of the concept and application of stone and plate lithography.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 377 • Serigraphy I  
Prerequisite: ARFN 231 & ARDR 241  
This course offers an introduction to the concepts, processes and techniques of screen-printing. Students will become familiar with various stencil-making techniques: such as cut out stencils, liquid block-out stencils, and photographic film stencils. Students will also be provided with the opportunity to learn systematic and creative uses of colour.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 378 • Serigraphy II  
Prerequisite: ARFA 377  
A further study of the serigraph (silkscreen) method of printmaking. Both traditional and contemporary approaches will be taught. In addition to common established techniques, various experimental methods will also be introduced. The course work will include improvisational methods of image development, as well as exploration of nontraditional printing surfaces in order to maximize the employment of this unique medium.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 379 • Intaglio I  
Prerequisite: ARFN 231 & ARDR 241  
This course offers an introduction to concepts, processes and techniques in intaglio printmaking. Students will become familiar with techniques such as dry point, etching, and aquatint, as a means to explore composition and the drawing and painterly characteristics of intaglio printmaking. Classes will consist of lectures, critiques, and studio based work. Students will also acquire an understanding of the history of intaglio printmaking.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 380 • Intaglio II  
Prerequisite: ARFA 379  
This course offers further studies of concepts, processes and techniques in intaglio printing. In this course students will be introduced to more advanced techniques in intaglio printmaking such as the chine colle, sugar lift, and collograph. Students will be encouraged to explore areas of creative self-expression. Classes will consist of lectures, critiques, and studio based work.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 407 • 3D Design II  
Prerequisite: ARFN 233 or ARFA 304  
This course offers a further study of the materials, concepts and techniques of three-dimensional design. Students develop model-making skills. Design principles are applied in the areas of store display, and furniture design. An emphasis is placed on the refinement of the problem solving process and possibilities for individual expression.  
Hours: 84 hrs (3-3)  
Credits: 4

ARFA 408 • Sculpture II  
Prerequisite: ARFA 304  
This course offers a further investigation of sculptural materials, concepts and techniques. Interdisciplinary projects are encouraged as students extend their sculptural explorations to develop an individual body of work.  
Hours: 84 hrs (3-3)  
Credits: 4
ARFA - ARKY

ARFA 490 • Directed Study
This course allows you an opportunity to propose and develop a body of work in a medium of your own choice. You are expected to have completed your basic studies in the area in question, and obtain the consent of the program coordinator. In order to secure that consent, you will be expected to submit a written project proposal for the semester to the coordinator for approval by the Art and Design department as a whole. The proposal must be submitted no later than 14 days prior to the first day of classes. That proposal, if approved, will then form the basis of your work in this course and will ultimately lead, by the conclusion of the course, to a final work or works exhibited in a public context. Upon approval this proposal forms the basis of a body of work to be completed during the semester and to be accompanied by an essay describing the process, development and the results of the Directed Study.

Hours: 84 hrs (3-3)
Credits: 4

ARFI (Art Fundamentals)

ARFN 231 • 2D Fundamentals
This course introduces students to the fundamental building blocks of visual art and design. Students focus on the formal elements of art including line, shape, value, and texture. A variety of techniques, concepts and materials are employed in both wet and dry media. Students gain a firm understanding of the principles of design.

Hours: 84 hrs (3-3)
Credits: 4

ARFN 232 • Visual Studies
The course introduces key concepts in photographic language, time-based art, sequence and the web. Concurrently the course provides an introduction to working in a digital environment.

Hours: 84 hrs (3-3)
Credits: 4

ARFN 233 • 3D Fundamentals I
An introduction to the basic tools, processes and safety practices of the sculpture studio. Students learn both traditional subtractive techniques through plaster carving as well as additive processes through clay modelling and assemblage. Other topics may include installation and performance art.

Hours: 84 hrs (3-3)
Credits: 4

ARFN 234 • 2D Fundamentals II
Prerequisite: ARFN 231
Further studies in the fundamental building blocks of visual art and design with an emphasis on the formal elements of art and colour theory. This course provides an in-depth study of the visual language and focuses on problem solving skills and productive work habits.

Hours: 84 hrs (3-3)
Credits: 4

ARHI (Art History)

ARHI 200 • Introduction to Social and Historical Art
This introductory survey course considers how art has evolved both socially and historically. The course focuses on a number of subject areas that explore the aesthetic issues of art making, media, social motivators and historical precedents.

Hours: 42 hrs (3-0)
Credits: 3

ARHI 201 • Survey of Western Art I
The focus of this course is a chronological survey of art and architecture from prehistory to 1300 AD, with consideration given to significant historical and cultural events. NOTE: Students cannot receive credit for both ARHI 201 and ARTH 1101.

Hours: 42 hrs (3-0)
Credits: 3

ARHI 203 • Survey of Western Art II
This course focuses on a chronological survey of art and architecture from 1300 AD to the 21st century, with consideration given to significant historical and cultural events. NOTE: Students cannot receive credit for both ARHI 203 and ARTH 1103.

Hours: 42 hrs (3-0)
Credits: 3

ARHI 300 • Critical Theory
Prerequisite: ARHI 200 or ARHI 201 or ARHI 203
This course critically analyzes visual media, such as video, current print, web and television advertising, from social, political, and philosophical points of view.

Hours: 42 hrs (3-0)
Credits: 3

ARHI 309 • Design History
Prerequisite: ARHI 200 or ARHI 201 or ARHI 203
Focus of course is the history of design in the 20th century.

Hours: 42 hrs (3-0)
Credits: 3

ARHI 317 • Modern Art
Prerequisite: ARHI 200 or ARHI 201 or ARHI 203.
Survey of painting, sculpture and architecture from the late 19th century to the mid-20th century, with consideration given to significant historical and cultural events.

Hours: 42 hrs (3-0)
Credits: 3

ARKY (Archaeology)

ARKY 201 • Introduction to Archaeology
The basic principles of archaeology - how archaeology remains are located, recovered and interpreted.

Hours: 84 hrs (3-3)
Credits: 4

ARKY 205 • Ancient Peoples and Places
An overview of Old and New World archaeology; the emergence of humans; and the development of humans and culture from hunting/gathering to agricultural and ancient urban societies.

Hours: 42 hrs (3-0)
Credits: 3
ARKY 303 • Archaeology of North America
Prehistoric cultural developments in North America.
Hours: 42 hrs (3-0)
Credits: 3

ARKY 306 • Field Course in Archaeological Techniques
Focus of the course is the practical application of modern field techniques in archaeology, including excavation, recording, and analysis of sites, artifacts and related materials. *Only offered in a Spring or Summer session.
Hours: 98 hrs (0-7)
Credits: 4

ARKY 307 • Field Course in Archaeological Techniques
Prerequisite: ARKY 306.
Continuation of ARKY 306. *Only offered in a Spring or Summer session.
Hours: 98 hrs (0-7)
Credits: 4

ARKY 319 • Alberta Archaeology
This course focuses on the archaeology of the native peoples of Alberta from the first occupation over 12,000 years ago to the mid-1800s.
Hours: 42 hrs (3-0)
Credits: 3

ARKY 337 • Archaeology in Canada
This course focuses on prehistoric cultural developments in all regions of Canada.
Hours: 42 hrs (3-0)
Credits: 3

ARKY 381 • Indians of North America
Course features a survey of cultural and linguistic areas of aboriginal North America, including a comparative and historical study of technology, social organization, economic systems, religions, arts and languages.
Hours: 42 hrs (3-0)
Credits: 3

ARKY 391 • Ethnography of the Great Plains
This course is a comparative study of the peoples and culture of the Great Plains, past and present.
Hours: 42 hrs (3-0)
Credits: 3

ARPH (Art Photography)

ARPH 235 • Introduction to Photography
Course focuses on black & white and colour photographic processes with emphasis on the potential for accuracy and realism in the photographic image. NOTE: This course is for non-Visual Communication students.
Hours: 42 hrs (3-0)
Credits: 3

ARPH 335 • Photography I
Prerequisite: ARFN 233 & ARFN 234
The course offers an introduction to the concepts and techniques of digital still photography.
Hours: 84 hrs (3-3)
Credits: 4

ARPH 337 • Photography II
Prerequisite: ARPH 335
A continuation of the mechanics of digital photography and studio lighting. This course offers studies exploring the means and possibilities to create, process, and print digital photographic imagery with an added emphasis on experimentation and conceptual thinking.
Hours: 84 hrs (3-3)
Credits: 4

ARPH 435 • Photography III
Prerequisite: ARPH 337
This is a course in studio photography. Subjects include the still life, and the portrait both formal and staged. Through lecture, web video, and print media, students will be introduced to the work of contemporary Canadian artists who employ a photographic means.
Hours: 84 hrs (3-3)
Credits: 4

ARTH (Art History)

ARTH 1101 • The History of Art: Prehistory to Renaissance
This course provides a critical overview of the visual arts from the Old Stone Age to the Renaissance. Students are offered a systematic study of aesthetics and the development of art styles which will enable them to develop a basic appreciation and understanding of art and its origins. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ARHI 201 and ARTH 1101.
Hours: 42 hrs (3-0)
Credits: 3

ARTH 1103 • The History of Art: Renaissance to the Present
This course provides a critical overview of the visual arts in Western Europe from the Renaissance to contemporary times. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ARHI 203 and ARTH 1103.
Hours: 42 hrs (3-0)
Credits: 3

ASTR (Astronomy)

ASTR 201 • The Solar System
This is primarily a descriptive course aimed at non-science students where conceptual understanding will be stressed over strict mathematical derivation. The topics covered in this course include the historical development of the heliocentric model; the exploration of the solar system by spacecraft; the structure, atmosphere, and evolution of the planet Earth, the terrestrial and jovian planets, and their moons; asteroids and Kuiper belt objects; the
structure of the Sun; and the formation of the solar system. Extrasolar planets and/or life in the universe may also be discussed.

NOTE: Students cannot receive credit for both ASTR 201 and ASTR 1101.

Hours: 42 hrs (3-0)

Credits: 3

Available On-Site and in a Distributed Learning Format

**ASTR 1101 • The Solar System**

This is primarily a descriptive course aimed at non-science students. Conceptual understanding will be stressed over strict mathematical derivation. The topics covered in this course emphasize astronomy in our own solar neighborhood. Topics include the Sun, the terrestrial and Jovian planets and their moons, comets, asteroids, as well as the formation of the solar system.

*This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.*

NOTE: Students cannot receive credit for both ASTR 201 and ASTR 1101.

Hours: 42 hrs (3-0)

Credits: 3

**AUDA (Audiology)**

**AUDA 212 • Introduction to Audiology**

Prerequisite: A minimum of a C grade in KNES 265 or any 200 level LING & TAPC 111 & TAPC 112 & TAPC 113

The course provides the basic knowledge required by an Audiology Assistant in understanding sound acoustics and hearing disorders. Practical opportunities will be provided for introductory audiology assistant learning.

Hours: 60 hrs (3-1.25)

Credits: 3

**BCEM (Biochemistry)**

**BCEM 200 • Introduction to Biochemistry**

Prerequisite: CHEM 201 & CHEM 250

This course provides a comprehensive introduction to the principles of biochemistry and a foundation of the major biomolecules and biopolymers while integrating their function to the maintenance of the living world. Topics include nucleic acids, protein structure and function, enzymes, biological membranes, and carbohydrate, lipid, and nitrogen metabolism. The theory of protein-based experimental techniques such as SDS-PAGE and chromatography will also be covered.

Hours: 42 hrs (3-0)

Credits: 3

**BCEM 393 • Introduction to Biochemical Molecules**

Prerequisite: BIOL 311 & CHEM 250 or permission of the Dean

The course focuses on the structure and function of the various biomolecules observed in life on Earth; nucleic acids, amino acids, carbohydrates, lipids, proteins and enzymes, with an emphasis on protein structure and enzyme catalysis. Carbohydrate, lipid and nitrogen metabolism are also covered. The laboratory instructs modern biochemical techniques for analysis of biochemical molecules including carbohydrates, amino acids, proteins, and enzymes.

Hours: 70 hrs (3-4/2)

Credits: 4

**BEET (Built Environment Engineering Technology)**

**BEET 201 • Digital Design & Presentation**

Prerequisite: CADD 122

This course is an introduction to the preparation of design presentation graphics using modeling and design applications. Methods and concepts of design presentation graphics at various phases of a project such as new construction and as-built drawings as part of the construction process are discussed. This course will reinforce understanding of the fundamentals of mechanical design, building design and civil design technology and detailing while providing opportunities to explore presentation skills and technical drawings.

Hours: 84 hrs (0-6)

Credits: 4

**BEET 231 • Mechanical Design II**

Prerequisite: CADD 102 & CADD 122 & CADD 132

This course will examine the design of mechanical systems, analysis of components and systems operation, and manufacturing materials. We will prepare drawings and models in accordance with recognized standards and regulations. Using the latest software and technology, we will simulate real world scenarios that reinforce mechanical design principles. Advanced manufacturing and emerging technologies such as 3D printing, scanning, laser cutting, CNC machining, coding and robotics are applied.

Hours: 84 hrs (2-4)

Credits: 4

**BEET 232 • Mechanical Design III**

Prerequisite: BEET 231

Students will be exposed to the design and selection of various machine components and machine drive systems such as shafts, keys, gears, bearings, fasteners, bolted and welded connections. A design project is completed utilizing calculations for the selection of machine elements, sizing of components including a set of working drawings and specifications. Advanced manufacturing and emerging technologies such as 3D printing, scanning, laser cutting, CNC machining, coding, and robotics are applied.

Hours: 98 hrs (2-5)

Credits: 4

**BEET 242 • Piping and Control Systems**

Prerequisite: CADD 102 & CADD 122

This course examines process plant design and drafting practices relating to piping materials, valves, equipment, vessels, and locations according to governing regulations and specifications. Topics will include fluid mechanics and the components and integration of control systems for mechanical and electrical applications. Using current software and technology we will explore topics including:
through case studies, hands-on projects and theoretical knowledge. This course introduces students to essential skills in the engineering design and development process. Concepts and processes such as project management, teamwork, and communication are addressed as students learn about critical phases of the design and development process such as understanding the design requirements, identifying stakeholder constraints, generating alternatives, and communicating the design. Students will apply engineering theory and technology to explore, model, prototype, and present product designs for the built environment.

**Hours:** 84 hrs (2-4)  
**Credits:** 4

**BEET 272 • Technical Design - Capstone**  
**Prerequisite:** BEET 271  
**Corequisite:** BEET 232 & BEET 262 & BEET 282  
Students will research, prepare, and present a major technical report that will apply to one of the related disciplines of engineering technology for the built environment; building construction, mechanical engineering, or civil engineering. The technical report is based on research, presentation techniques, technical content, and written style with a specific emphasis on communication.

**Hours:** 84 hrs (2-4)  
**Credits:** 4

**BEET 281 • Building Design II**  
**Prerequisite:** CADD 102 & CADD 122 & CADD 182  
Technology, terminology, standard building practices and technical drafting standards for residential building design and construction are addressed as students learn and practice fundamental aspects of design, planning, and construction. Current 3D modeling and drafting software is utilized. Students are introduced to pertinent building codes, municipal standards, and design practices as they progress through course work. Topics include floor plan design, elevation drawings, foundation plan, building sections, schedules, structural design and construction details.

**Hours:** 84 hrs (2-4)  
**Credits:** 4

**BEET 282 • Building Design III**  
**Prerequisite:** BEET 281  
An advanced course introducing topics and theories related to commercial building design and construction. Students will build on knowledge in areas of technology, terminology and standards while advancing their knowledge of design, planning, detailing and construction processes. Advanced topics include Barrier Free design, occupant safety, communications (oral, written, and graphic), reporting and coordination as students work both individually and in team environments. Current 3D modeling and drafting software; and pertinent building codes, municipal standards, and design practices are addressed.

**Hours:** 98 hrs (2-5)  
**Credits:** 4

**BIOL (Biology)**

**BIOL 020 • General Biology Topics**  
**Prerequisite:** SCIE 010 & (ENGL 010 or ENGL 013)  
BIOL 020 builds on the introductory concepts of cell structure and function, transport of matter and cell specialization from SCIE 010. The exchange of matter and energy with the environment is investigated at the cellular level in several human systems and at the population and ecosystem level. Lab work is required.

**Hours:** 84 hrs (4-2)  
**Credits:** 4  
Available On-Site and in a Distributed Learning Format

**BIOL 030 • Matriculation Biology**  
**Prerequisite:** BIOL 020  
BIOL 030 continues the investigation of human systems begun in BIOL 020 by focusing on the continuity of life, regulation and coordination of human systems, cell division, genetics and molecular biology. Dynamics of growth and change in populations and communities will be introduced. Lab work is required.

**Hours:** 84 hrs (4-2)  
**Credits:** 4  
Available On-Site and in a Distributed Learning Format

**BIOL 152 • Anatomy and Physiology for Practical Nurses**  
This course offers an introduction to normal structure and function of the human body, using a body systems approach.

**Hours:** 90 hrs (6-0) 15 wks  
**Credits:** 4
BIOL 205 • The Organization and Diversity of Life
Introduction to fundamental concepts that are the basis for life on earth. These concepts include the central dogma, metabolism, inheritance, microbial threats and the immune system, bioinformatics, and cellular function. They will be addressed from the perspective of current issues and questions pertinent to our global existence. NOTE: Not open for credit to majors or minors in Biological Sciences. Credit for only one of BIOL 205 and BIOL 231 will be allowed.
Hours: 42 hrs (3-0)
Credits: 3

BIOL 221 • Evolution
Prerequisite: BIOL 231 & BIOL 233
This course discusses the principles underlying evolutionary change and resulting outcomes in biological systems. Topics include population genetics, variation, natural selection, sexual selection, adaptation, speciation, extinction, human evolution and fossil evidence.
Hours: 84 hrs (3-3)
Credits: 4

BIOL 231 • Introduction to Biology I
Prerequisite: BIOL 30 & CHEM 30 or permission of the Dean
This course examines the cellular basis of life of eukaryotic and prokaryotic cells, including biomolecules, cell structure and function, cellular energies, cell reproduction, genetics, and related molecular biology. NOTE: Credit for only one of BIOL 205 or BIOL 231 will be allowed.
Hours: 84 hrs (3-3)
Credits: 4

BIOL 233 • Introduction to Biology II
Prerequisite: BIOL 30 & CHEM 30
This course examines the evolutionary biology, phylogeny, and organismic biology of plants and animals. In the laboratory, various taxa are introduced with a focus on the diversity, form, and function of plants and major Metazoan phyla.
Hours: 84 hrs (3-3)
Credits: 4

BIOL 254 • Plant Taxonomy
This course examines the major plant divisions with an emphasis on the morphology, taxonomy, ecology and reproductive biology of angiosperms and gymnosperms. Identification keys to flora of Western Canada are used during the course. You are required to submit a plant collection. Labs emphasize morphological and anatomical characteristics of major plant families. A portion of laboratory hours will be assigned to field trips.
Hours: 70 hrs (3-2)
Credits: 4

BIOL 255 • Ecology
This course is a study of the interactions between organisms and their environment at the individual, population, community and ecosystem levels. Labs concentrate on basic ecological principles and the collection and analysis of field data for determining the distribution and abundance of organisms in their environment. A field trip is a component of the lab.
Hours: 70 hrs (3-2)
Credits: 4

BIOL 258 • Zoology
Prerequisite: BIOL 30 is recommended
This course is a comparative survey of the animal kingdom, with emphasis on the classification, adaptation, morphology, and physiology of vertebrates. Laboratory studies involve the structural and functional adaptations of vertebrates, and recognition and identification of vertebrate taxa.
Hours: 70 hrs (3-2)
Credits: 4

BIOL 259 • Aquatic Ecology
Prerequisite: BIOL 30 is recommended
This course is a study of abiotic and biotic interactions in the freshwater aquatic environment. This includes the physical and chemical characteristics of streams and lakes and the classification, morphology, identification, and ecology of aquatic invertebrates and vertebrates. Laboratory studies emphasize the study of aquatic organisms and their interaction. This course includes an applied field component.
Hours: 70 hrs (3-2)
Credits: 4

BIOL 275 • Basic Human Anatomy and Physiology I
Prerequisite: BIOL 30 is recommended
BIOL 275 and BIOL 277 are designed to give a thorough basic knowledge of the structure and function of the human body. BIOL 275 begins by examining the levels of organization (atom through organ systems) of the human body, then explores four organ systems in detail. These systems include: the skeletal and muscular systems that support and protect the body, and make movement possible; and the endocrine and nervous systems which integrate and coordinates body function. Some disorders of each system are explored.
Hours: 84 hrs (3-3)
Credits: 4

BIOL 277 • Basic Human Anatomy and Physiology II
Prerequisite: BIOL 275
This course examines the organ systems not studied in BIOL 275, including the special senses, integumentary, digestive, respiratory, circulatory, lymphatic, urinary systems, and the male and female reproductive systems. Some disorders of each system will be explored.
Hours: 84 hrs (3-3)
Credits: 4

BIOL 305 • The Human Organism
Prerequisite: BIOL 30 or BIOL 205
Introduction to the function of the human body. The interaction of body systems with diet, pathogens and environmental agents is discussed as it relates to health and disease. New advances in biotechnology, as they relate to the study of humans at the molecular levels, are also discussed. Topics covered include an introduction to the technology and the social aspects of organ transplants, embryo manipulation, and genetic engineering.
NOTE: Not open for credit to majors and minors of Biological Sciences.
Hours: 56 hrs (3-1T)
Credits: 3
BIOL 311 • Principles of Genetics  
Prerequisite: BIOL 231 & BIOL 233 or permission of the Dean.  
The course addresses the chromosomal and molecular basis for the transmission and function of genes through various topics: Patterns of inheritance, including Mendelian genetics, segregation and recombination, sex linkage and human genetics; the structure and function of the genetic material including complementation and regulation of gene expression; the construction of genetic and physical maps of genes; gene and chromosome mutation; molecular genetics and modern DNA technologies including genome sequencing and genetic engineering. Many selected organisms are used in the laboratory to illustrate relevant genetic principles.  
Hours: 84 hrs (3-3)  
Credits: 4

BIOL 313 • Introduction to Ecology and Evolution  
Prerequisite: BIOL 231 & BIOL 233 or permission of the Dean  
An examination of evolutionary and ecological concepts that explain the interactions of organisms at the individual, population, community and ecosystem levels with their biotic and abiotic environment. Labs and field trips explore ecological principles and the collection and interpretation of data.  
Hours: 84 hrs (3-3)  
Credits: 4

BIOL 321 • Mechanisms of Evolution  
Prerequisite: BIOL 231 & BIOL 233  
This course discusses the mechanisms underlying micro and macroevolutionary outcomes in biological systems. Topics include population genetics, variation, natural selection, sexual selection, adaptation, speciation, extinction and fossil evidence.  
Hours: 84 hrs (3-3)  
Credits: 4

BIOL 331 • Introduction to Cellular & Molecular Biology  
Prerequisite: BIOL 311 and CHEM 250 or permission of the Dean  
The course addresses the principles of cellular structure and function through various topics: membrane structure and transport; intracellular compartments and communication; cytoskeleton; interaction of cells with their neighbors and their environment; pattern formation during embryogenesis; the regulation and dysregulation of cell proliferation; and stem cells and tissue renewal. The tutorial will introduce students to modern microscopic techniques such as confocal and electron microscopy.  
Hours: 56 hrs (3-1T)  
Credits: 3

BMAT (Business Math)  
BMAT 182 • Mathematics for Business I  
This course teaches the application of mathematical principles and concepts used in business. Key subject areas covered include break-even analysis, mark-up pricing, simple and compound interest applications, future and present value of money, and amortization scheduling principles.  
Hours: 56 hrs (4-0)  
Credits: 3

BMAT 183 • Business Math and Statistics  
BMAT 183 will focus on the uses of data in realistic business applications and problems. Topics include using data for decision making, using numbers, graphs and tables to describe data, probabilities, sampling distributions, and other statistical techniques applied to data and business situations.  
Hours: 56 hrs (4-0)  
Credits: 3

BOTA (Botany)  
BOTA 205 • Introduction to Botany  
An overview of the structure, function, biology and diversity of organisms included in the Plant Kingdom including algae, fungi and lichens. Emphasis is on reproduction, development, structural and functional innovations of vascular plants in their environment.  
Hours: 84 hrs (3-3)  
Credits: 4

CADD (Computer Aided Drafting and Design)  
CADD 101 • Drafting I  
In this foundational course, students are introduced to the tools and techniques of drafting and technical illustration. Sketching, freehand lettering, line work, drafting nomenclature and document layout, applying proper techniques to create and dimension single view and multi-view drawings. Using Autodesk AutoCAD®, and/or other current drafting applications students are introduced to the drawing environment in metric and imperial units based on common drafting standards. The use of scales, line weight, dimensioning techniques and standards will be applied to all drawings, manual or digital. Other common computer applications and productivity software such as word-processing, spreadsheet and presentation applications will be introduced. File management, basic commands, editing, styles, layer creation, entity verification and printing will be used to develop drawings, documents and presentations.  
Hours: 70 hrs (2-3)  
Credits: 4

CADD 102 • Drafting II  
Prerequisite: CADD 101  
Building on the foundational skills developed in CADD 101, students will advance their manual and digital drafting, communication, and presentation skills as they continue to reinforce and expand their theoretical knowledge. Topics include isometric projections, cross-sections, multi-view drawings, drawing layout, annotation, document sharing – both hard copy and electronic.  
Hours: 70 hrs (2-3)  
Credits: 4
CADD 121 • CADD Applications I
Students will be introduced to various drafting, design and technical illustration software such as Autodesk Revit, Autodesk Inventor, and Adobe Photoshop. The user interface, tools, model development, workflows, file management and presentation layout will be addressed to produce basic design, working, and presentation drawings in the engineering drafting and design disciplines. Advanced manufacturing and emerging technologies such as 3D printing, scanning, laser cutting, CNC machining, coding, and robotics may be introduced.
Hours: 84 hrs (2-4)
Credits: 4

CADD 122 • CADD Applications II
Prerequisite: CADD 121
With a focus on advanced design and drafting theory and technology, students will advance their understanding of the fundamental design concepts and software to develop 3D and 2D technical drawings and models. Advanced manufacturing and emerging technologies such as 3D printing, scanning, laser cutting, CNC machining, coding, and robotics may be introduced.
Hours: 84 hrs (2-4)
Credits: 4

CADD 132 • Mechanical Design I - Applied Physics
Prerequisite: CADD 101 & CADD 173
This course will examine statics and strength of materials. CADD applications will be used as a tool to explore and visualize problems and solutions to mechanical and physics problems. Topics will include force vectors, force system resultants, moment of a force, equilibrium of a rigid body, frictional forces, structural analysis, simple trusses, frames and machines, center of gravity, centroid and moment of inertia, strain, stress, mechanical properties of materials and Hooke's law.
Hours: 84 hrs (2-4)
Credits: 4

CADD 151 • Technical Communication
This course prepares students for written, visual and oral communication for technology disciplines. The primary focus of this course is to develop the skills to write and format technical reports. Students will be introduced to various drafting, design and technical illustration software such as Autodesk Revit, Autodesk Inventor, and Adobe Photoshop. The user interface, tools, model development, workflows, file management and presentation layout will be addressed to produce basic design, working, and presentation drawings in the engineering drafting and design disciplines. Advanced manufacturing and emerging technologies such as 3D printing, scanning, laser cutting, CNC machining, coding, and robotics may be introduced.
Hours: 84 hrs (2-4)
Credits: 4

CADD 161 • Civil Design I - Civil Design Fundamentals
Prerequisite: CADD 101 & CADD 173
The theory of surveying covering the vertical and horizontal measurement of distances and angles. Open and closed traverse computations and adjustment, levelling circuits, profiles, cross sections and horizontal curves. Introduction to the land survey system of Western Canada and the relationship to topographical drafting and topographic maps. Topographical nomenclature; contour maps; interpretation of survey notes to complete Civil engineering drawings. Aerial photo interpretations, map reference, map location grids and interpretation of topographical features are discussed.
Hours: 84 hrs (2-4)
Credits: 4

CADD 172 • Sustainability & Systems Thinking
Students are introduced to sustainability concepts and programs; and are given the opportunity to discuss and explore sustainability as it relates to the built environment. Systems Thinking is introduced as a means to think critically, understand and discuss sustainability topics.
Hours: 56 hrs (2-2)
Credits: 3

CADD 173 • Construction Methods
This course presents the functions, concepts, and drawings related to construction methods for projects in the mechanical design, civil design and building design disciplines. Students will have the opportunity to explore these topics for various components of the built environment while incorporating the appropriate codes and specifications. The essential theories of project management as they relate to the engineering environment within the confines of owner specifications and applicable codes will be explored. Students will be introduced to the project manager’s role in the process of coordinating people and projects using various management methods including but not limited to: work breakdown structures, project scheduling, estimating, contract administration, management of change, quality, safety and risk management.
Hours: 56 hrs (2-2)
Credits: 3

CADD 174 • CADD Labs
This course will provide students with an interdisciplinary opportunity to work hands-on in a lab environment in order to gain practical experience related to one or more disciplines related to the engineering of the built environment. Opportunities may include one or more of visual communications, business, plumbing, electrical, welding, pipe-fitting, carpentry, automotive/heavy equipment, or other interactions with external partners. Issues and topics relating to workplace health and safety will also be addressed.
Hours: 70 hrs (0-5)
Credits: 4

CADD 182 • Building Design I - Building Systems
Prerequisite: CADD 101 & CADD 173
Major building systems influence the form, function and performance of buildings as well as how people experience the spaces they work and live in. This course will introduce students to structural, building envelope, HVAC, plumbing, and electrical systems for residential and/or light commercial buildings. Students will also explore how environmental and site conditions can impact how a building functions with respect to its major systems.
Hours: 84 hrs (2-4)
Credits: 4
CHEM (Chemistry)

CHEM 020 • Introductory General Chemistry
Prerequisite: (MATH 010 or MATH 010FN [minimum grade of B]) & SCIE 010
CHEM 020 builds on the concepts of properties of matter, basic nomenclature and balancing equations covered in SCIE 010.
CHEM 020 concentrates on the diversity of forms of matter, chemical bonding and the quantitative relationships in chemical reactions. Lab work is required.
Hours: 84 hrs (4-2)
Credits: 4
Available On-Site and in a Distributed Learning Format

CHEM 030 • Matriculation Chemistry
Prerequisite: CHEM 020 & (MATH 020 [highly recommended] or MATH 020FN [minimum grade of B])
CHEM 030 builds on the concepts of changes in matter and the stoichiometry of chemical reactions when dealing with thermochemical and electrochemical changes. Solution chemistry (with an emphasis on acids and bases) and chemical equilibrium (focusing on acids and bases) are major components. Organic compounds and their reactions are introduced. Lab work is required.
Hours: 84 hrs (4-2)
Credits: 4
Available On-Site and in a Distributed Learning Format

CHEM 201 • General Chemistry I
Prerequisite: CHEM 30 & MATH 30-1. MATH 31 is strongly recommended
This course features both lecture and laboratory work for instruction.
Lecture: Basic chemical concepts with an emphasis on stoichiometry; chemical bonding; atomic and molecular structure; the states of matter and phase changes; properties of solutions.
Laboratory: Experiments are designed to illustrate the lecture material and to develop skill in using basic laboratory equipment.
Hours: 98 hrs (4-3)
Credits: 4
Available On-Site and in a Web-based Format

CHEM 203 • General Chemistry II
Prerequisite: CHEM 201
This course features both lecture and laboratory work for instruction.
Lecture: An extension of CHEM 201 with an emphasis on: gas phase, acid-base and solubility equilibria; thermodynamics; oxidation-reduction concepts and electrochemistry; chemical kinetics and nuclear chemistry.
Laboratory: Experiments are designed to highlight the lecture material and to develop skill in using the necessary laboratory equipment.
Hours: 98 hrs (4-3)
Credits: 4

CHEM 250 • Organic Chemistry I
Prerequisite: CHEM 201 or the equivalent
This course features both lecture and laboratory work. Lectures: The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereo-chemistry important to biology (e.g., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in everyday life (soaps, detergents, fibres, perfumes, polymers, etc.) are discussed. Laboratory: Techniques in organic chemistry, and preparation of some organic compounds.
Hours: 98 hrs (4-3)
Credits: 4

CHEM 251 • Organic Chemistry II
Prerequisite: CHEM 250
Continuation of CHEM 250.
Hours: 98 hrs (4-3)
Credits: 4

CHEM 350 • Organic Chemistry I
Prerequisite: CHEM 203
Both lecture and laboratory work comprise the instruction for this course. Lectures: A systematic view of organic chemistry from the traditional functional group approach. It provides a comprehensive background in organic chemistry as a basis for the further study of molecular processes and events in biological, environmental and industrial systems. Emphasis is on the relationship between chemical families and their interconversions. Mechanistic concepts such as acidity, basicity, and redox reactions will be used throughout to explain and predict organic and bio-organic reactions. Bio-organic and biologically significant organic chemistry is illustrated throughout. Laboratory: Techniques in organic chemistry; and the preparation of organic and bio-organic compounds.
NOTE: Students who have obtained credit for CHEM 250 cannot take CHEM 350 for credit.
Hours: 98 hrs (4-3)
Credits: 4

CHEM 351 • Organic Chemistry II
Prerequisite: CHEM 350
This course is a continuation of CHEM 350. NOTE: Students who have obtained credit for CHEM 251 cannot take CHEM 351 for credit.
Hours: 98 hrs (4-3)
Credits: 4

CHPC (Childhood Professional Course)

CHPC 120 • Child Development I
This course presents information regarding the principles, theories, and research findings that contribute to our understanding of normative development in children from birth to early adolescence. It introduces you to information related to all aspects of the “whole” child - language, cognition, emotion, social, physical, moral and creative.
Hours: 40 hrs (4-0) 10 wks
Credits: 3
Available On-Site and in a Distributed Learning Format

CHPC 121 • Child Development II: An Introduction to Children with Special Needs
You are introduced to child development that may not follow normative patterns. Major areas of disability are reviewed and you have opportunities to learn about the characteristics of these disabilities, and to consider the developmental implications for...
children. Introduction to strategies that assist in the inclusion of children with disabilities is included.
**Hours:** 40 hrs (4-0) 10 wks  
**Credits:** 3  
Available On-Site and in a Distributed Learning Format

**CHPC 122 • Interpersonal Relations I**  
This course assists you in developing effective interpersonal communication skills, and has three foci: 1) self analysis and reflection - providing opportunities to better understand yourself, your values, beliefs, attitudes, and style of communication, 2) techniques and skills that may enable you to improve your communications with children - active listening, paraphrasing and the use of non-verbal communication; and 3) techniques that enable you to work effectively in team situations.
**Hours:** 40 hrs (4-0) 10 wks  
**Credits:** 3

**CHPC 123 • Health, Safety and Nutrition**  
Information in this course provides a foundation for developing good health and safety practices for self and others (especially young children). An examination of health and safety factors in the child’s environment are included.
**Hours:** 28 hrs (2.5-0) 10 wks; (3-0) 1 wk  
**Credits:** 1.5

**CHPC 124 • Language and Literacy**  
An overview of children’s literature and a discussion of not only how this literature can be presented to young children but also how children can be active participants in language activities.
**Hours:** 40 hrs (4-0) 10 wks  
**Credits:** 3  
Available On-Site and in a Distributed Learning Format

**CJLS (Criminal Justice and Legal Studies)**

**CJLS 101 • Introduction to Criminal Justice Careers**  
The focus of this course involves the study of the philosophy and history of careers within the criminal justice profession. Topics include orientation to a broad variety of criminal justice careers including: law enforcement, correctional services, security agencies and their organizational structures. The basics of risk identification; quantification; prioritization; and the risk transfer process will be reviewed. Additionally, a component on interagency communications will be presented. Students will also gain an understanding of the importance of recording accurate and thorough professional notebooks.
**Hours:** 56 hrs (4-0)  
**Credits:** 3

**CJLS 102 • Effective Communications in Criminal Justice**  
This course focuses on the theory and practice of effective human relations. Rewarding interpersonal relationships are the foundation of both our personal and professional success. The quality of our relations with others – family, friends, colleagues, and the general public – depends on our interpersonal skills. The purpose of this course is to help students understand and master those skills. The course offerings will also address the importance of diversity in law enforcement and the need to have an appreciative understanding of other cultures, races, orientations, abilities and the need for gender equality.
**Hours:** 42 hrs (3-0)  
**Credits:** 3

**CJLS 106 • Law and the Administration of Justice**  
This is an introductory course on the fundamental legal precepts and philosophies in the areas of criminal law in Canada. A study relating the civil court structure to criminal law is included, as well as a discussion of Canadian case law.
**Hours:** 42 hrs (3-0)  
**Credits:** 3

**CJLS 111 • Investigations and Forensics**  
This course is an introductory investigations course focusing on the basics of forensics at a crime scene. The legal and procedural aspects of processing a crime scene are covered in detail. Investigative actions include the securing of a crime scene, controlling access, assessing evidence potentiality, recording the scene and the proper handling of evidence. Search techniques, report writing, incident scene drawing and measuring techniques are studied and applied.
**Hours:** 42 hrs (3-0)  
**Credits:** 3

**CJLS 116 • Federal and Provincial Criminal Justice Legislation**  
**Prerequisite:** CJLS 106  
This course will introduce the students to a myriad of legislation utilized by criminal justice industry professionals. While CJLS 101 touches on the various career paths available in criminal justice, CJLS 116 will reach deeper to establish the legal parameters these professionals work within. This course will evaluate the legislative framework found in both federal and provincial criminal justice agencies.
**Hours:** 42 hrs (3-0)  
**Credits:** 3

**CJLS 120 • Lifestyles and Career Orientation**  
The focus of this course is to offer the students important information about lifestyle challenges specific to a law enforcement environment such as the impact of shift work and stress, the hazard of post-traumatic stress disorder, the value of physical fitness, and the need for dietary balance. The students will be introduced to concepts of healthful living and the dangers of self-medication and substance abuse. The second component of the course will involve preparations for future careers, including covering letters, resumes and undertaking a behavioral interview.
**Hours:** 28 hrs (2-0)  
**Credits:** 1.5

**CJLS 126 • Criminal Code, Offence Elements and the Charter**  
This course is a comprehensive study of various Criminal Code sections. Emphasis is placed on an in-depth analysis of selected criminal offences, the elements of crime pre-trial criminal procedures, the trial process, and the significance of the Canadian Charter of Rights. There is also an examination of the statutes and procedures related to civil and administrative tribunals.
**Hours:** 42 hrs (3-0)  
**Credits:** 3

**CJLS 131 • Interviewing and Statements**  
This course introduces the human element into investigative procedures, including information of the frailty of human recollection and observation as well as aspects of detecting deception. Statement
CJLS 135 • Police and Security Technical Reports
This course focuses on the technical forms and report writing required in the police and security fields. This course includes the preparation of original, continuation, investigative, and exhibit reports. Students will learn the logical analysis of material and evidence as well as the proper format, structure, and presentation of material and evidence in written and oral forms. This course incorporates a computer element, and students will be required to attain keyboarding and word processing speed of 20 wpm. Students will also attain proficiency in Microsoft Word.
Hours: 56 hrs (4-0)
Credits: 3

CJLS 166 • Introduction to Natural Resource Law
This course is an introduction to the Canadian legal system and sources of environmental law. The evolution and creation of law with a direct focus on the role of resource law enforcement in resource management are examined. The fundamental principles of the Canadian judicial system, trials, sentencing, appeals and the Canadian Charter of Rights and Freedoms are also reviewed. Selected provincial and federal environmental laws that regulate air, contaminated land, waste and wildlife are addressed. Officer, directors, corporate liability, and common defenses are examined.
Hours: 56 hrs (4-0)
Credits: 3

CJLS 221 • Investigative Techniques
Prerequisite: CJLS 111 and CJLS 231
The course focuses on witness interview as well as persons of interest interview techniques. An in-depth study of various police investigative techniques, including wiretaps, use of technology, the role of social media, crime management systems, and risk management and assessment in criminal investigations will be undertaken. This course also focuses on interagency cooperation and investigations and includes a study of white-collar crime and investigation techniques. This course will also undertake a practical application of surveillance techniques as utilized by a variety of enforcement practitioners.
Hours: 42 hrs (3-0)
Credits: 3

CJLS 224 • Mental Health
This course examines the major mental disorders and their relationship to criminal behavior. The focus is on recognizing, understanding, and effectively responding to situations involving individuals displaying abnormal behavior.
Hours: 42 hrs (3-0)
Credits: 3

CJLS 231 • Forensic Science
Prerequisite: CJLS 111
This course focuses on the use of various methods of crime scene management, methods of identifying persons involved in crimes, and a study of selected criminal offences. Areas that are covered in this course include crime scene collection methods, forensic issues such as DNA, hair and fibre, fingerprinting, explosives, and other related issues. Students will become familiar with exhibit and lab reports and the use of various crime scene labs.
Hours: 42 hrs (3-0)
Credits: 3

CJLS 233 • Legal Evidence and Trial Presentation
Prerequisite: CJLS 101, CJLS 106, CJLS 116 and CJLS 126
As a group project, students will utilize notes, statements and evidence gathering techniques to investigate a crime and then prepare a proper report, court brief and criminal charges which are presented at a mock trial. The extensive nature of this detailed reporting and procedural course demands attention to and understanding of Impaired Driving legislation from the Criminal Code and provincial legislation perspectives.
Hours: 42 hrs (3-0)
Credits: 3

CJLS 241 • Major Criminal Investigations
Prerequisite: CJLS 111, CJLS 126, CJLS 231 and CJLS 233
This course focuses on criminal investigations. There is a review of crime scene management techniques and basic and advanced investigative techniques. Topics include some selected case studies and specific issues such as homicide, search and seizure, property offences and related offences. Students in a group project will investigate a major mock crime and will employ techniques and methods learned in this course to complete a full and proper investigation. Students will utilize investigative interviews and person of interest interview techniques during the mock investigation.
Hours: 56 hrs (4-0)
Credits: 3

CJLS 246 • Federal and Provincial Statutes
Prerequisite: CJLS 106
This course focuses on crimes against persons including homicides, criminal harassment, peace bonds, obstruction, perjury, and related offences. It also covers other federal statutes including the Controlled Drugs and Substances Act and the Youth Criminal Justice Act. A number of Alberta provincial statutes are covered including but not limited to: The Gaming and Liquor Act, The Police Act and Regulations, Traffic Safety Act, and other relevant statutes including municipal by-laws.
Hours: 42 hrs (3-0)
Credits: 3

CJLS 247 • Public Safety, Emergency Planning, and Response
This course prepares the student to render assistance to the public regardless of what unforeseen natural or man-made disasters should occur when employed in the law enforcement field. Students also receive instruction in the areas of crowd control, fire hazards, fire prevention, and the identification of dangerous goods, officer safety, bomb threat, and site management.
Hours: 42 hrs (3-0)
Credits: 3
CJLS 251 • Specialized Investigations
Course focuses on developing the analytical techniques applicable to many aspects of the criminal justice industry. The honing of critical thinking skills will include the utilization of an array of systematic processes for evaluation. The threat risk assessment process and threat mitigation will be discussed. This framework is then utilized to develop an understanding of crime analysis, criticality and impact analysis and corporate espionage.

Hours: 42 hrs (3-0)
Credits: 3

CJLS 257 • Leadership and Development
This course focuses on the dynamics of effective leadership. Leaders are human relations specialists. They understand themselves and others, appreciate the challenges and responsibilities of leadership, and are committed to maximizing human potential. The purpose of this course is to examine basic management concepts and leadership styles, and to arrive at a deeper understanding of the critical issues in law enforcement management today. Human relations, team-building, and oral communication skills are further developed.

Hours: 42 hrs (3-0)
Credits: 3

CJLS 261 • Intelligence, Espionage and Terrorism
This course examines the intelligence community globally and in Canada. It will include discussion and implementation of analytical techniques utilized to identify and assess a threat to national security as well as the techniques utilized in espionage and the potential impact on Canadian strategic interest. The course extensively covers the concern of modern terrorism in the context of the various international perspectives and priorities. The program will also undertake a practical application of surveillance techniques as utilized by a variety of enforcement practitioners.

Hours: 42 hrs (3-0)
Credits: 3

CMMB (Cellular Molecular Microbiology)

CMMB 250 • Microbiology for Health Care Professionals
Prerequisite: BIOL 30
Recommended Background: CHEM 30
This course is intended to provide health care professionals with a working knowledge of infectious disease. Major lecture topics will be devoted to structure and function relationships in pathogenic micro-organisms and how these are expressed in host-parasite interactions. Microbial diseases of specific organ systems will be examined as will host response mechanisms. The laboratory will emphasize fundamental microbial techniques, and use them to illustrate lecture content.

Hours: 84 hrs (3-3)
Credits: 4

CMMB 343 • Introduction to Microbiology
Prerequisite: BIOL 231 & CHEM 250
Introductory study of the systematics, ecology, physiology, molecular biology, and role in pathogeneses of the major groups of prokaryotes.

Hours: 84 hrs (3-3)
Credits: 4

COMM (Communications)

COMM 140 • Communication in the Workplace
This introductory communications course provides a general foundation for quality communication in the workplace through written, oral, and visual representation. Its emphases are reviewing basic grammar, developing a personal style, attending to audience and purpose, and enhancing research skills. You will work individually and collaboratively on various written assignments, including a documented research report, as well as give oral/visual presentations.

Hours: 56 hrs (4-0)
Credits: 3

COMM 154 • Interpersonal Communications for Practical Nurses
Introduction to the concept of self-awareness and the process of communication. Emphasis is on understanding the communication process and on building personal and professional communication skills. Communication techniques for working with cultural diversity and special populations are also explored.

Hours: 45 hrs (3-0) 15 wks
Credits: 3

COMM 250 • Oral Communications
This course helps you develop the necessary confidence and skill to present your ideas clearly and effectively to both large and small audiences. The course is designed to provide a number of different speaking and listening opportunities so that you can practice the techniques necessary to become competent oral communicators in a wide variety of social and business settings.

NOTE: Students cannot receive credit for both COMM 250 and SPCH 2001.

Hours: 42 hrs (3-0)
Credits: 3

COMM 252 • Advanced Business Communications
This course examines specific business communications products: memos, letters, resumes and employability skills and presentations. You will develop these products within a business employment context and gain an understanding of the organizational processes that govern internal and external communications strategies.

Hours: 56 hrs (4-0)
Credits: 3

COMM 253 • Human Relations in the Workplace
Introductory course in interpersonal relations that focuses on specific skills, behaviours, and attitudes needed to work productively with others. By encouraging self-awareness, along with an understanding of communication dynamics, this course can help you develop the “people skills” needed to be successful in today’s organizations.

Hours: 42 hrs (3-0)
Credits: 3

COMM (Communications)
COMP (Computer Technology)

COMP 010  •  Computer Literacy  
Corequisite: ENGL 009  
This is a basic introductory course for a general understanding of computers and their use. An effort has been made to coordinate and minimize content overlap with other programs and to accommodate you whether you have some or no previous computer experience.  
Hours: 70 hrs (5-0)  
Credits: 4

COMP 1103  •  Introduction to Computers  
This course provides a non-scientific introduction to the use of computers and their impact on society. Major topics in the field will be explored, ranging from the workings of computers and software, to the implications of the Internet. Students will develop a technical competency by applying foundational concepts from lecture in the lab through the use of computers for word processing, spreadsheet analysis, database management and communications.  
This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guide-lines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both MICO 191 and COMP 1103.  
Hours: 42 hrs (3-0)  
Credits: 3

CPSC (Computer Science)

CPSC 203  •  Introduction to Computers  
An overview of computers and technology designed to examine in some detail the ever changing world of Information Technology, embedded computer technology and the impact of these technologies upon society. You learn what you will need to know about Information Technology to prosper in an increasingly technical world. You work with personal computers to gain advanced proficiency with word processing, spreadsheets, presentation software and Internet access software applications for increased productivity and security. NOTE: CPSC 203 is not available for credit for Engineering majors.  
Hours: 84 hrs (3-3)  
Credits: 4

CPSC 231  •  Introduction to Computer Science I  
Introduction to problem solving, the analysis and design of small-scale computational systems, and implementation using a procedural programming language. NOTE: This course does not assume prior programming background but does assume a mathematical/scientific inclination.  
Hours: 84 hrs (3-1T-2)  
Credits: 4

CPSC 233  •  Introduction to Computer Science II  
Prerequisite: CPSC 231 or permission of the Dean  
Emphasis is on object-oriented analysis and design of small-scale computational systems and implementation using an object oriented language. Issues of design, modularization, and programming style will be emphasized.  
Hours: 84 hrs (3-1T-2)  
Credits: 4

CYCC (Child and Youth Care Counsellor)

CYCC 111  •  The Profession of Child and Youth Care  
Introduction to foundational principles of Child & Youth Care practice. Focus is on identifying and exploring values, beliefs, and ethics within a professional context. The scope of CYCC practice, including the essential characteristics of an effective Child & Youth Care Counsellor, will be addressed. Therapeutic relationships, professional conduct, effective communication, and self-awareness will be topics of discussion. NOTE: CYCC 111 is a prerequisite for all subsequent CYCC courses. This course has an off-site retreat and the fee will be noted in the course outline.  
Hours: 56 hrs (3-1)  
Credits: 3

CYCC 120  •  Practicum I  
Prerequisite: A minimum of a C grade in CYCC 111 & IDST 100  
Corequisite: CYCC 125  
Student placement with community partners in conjunction with a weekly seminar is designed to facilitate individual self-awareness and the impact on one’s professional Child & Youth Care practice. Focus is on professional practice, therapeutic communication, reflective practice and relationship development. Topics of discussion include the development of objective observation and recording skills as well as the development of the interpersonal skills necessary for an effective Child & Youth Care Counsellor.  
Hours: 112 hrs (0-2-6P)  
Credits: 4.5

CYCC 122  •  Working with Vulnerable Children, Youth and Families  
Prerequisite: A minimum of a C grade in CYCC 111  
Introduction to effective trauma informed interventions with children, youth and families who have experienced trauma, abuse and neglect. Detailed indicators of child abuse are presented and intervention approaches are explored through a lens of intergenerational trauma, child, youth and family advocacy, and strategies that enhance Child & Youth Care Counsellor professional relationships with vulnerable children, youth and families.  
Hours: 42 hrs (3-0)  
Credits: 3

CYCC 125  •  Fundamental Skills in Counselling  
Prerequisite: A minimum of a C grade in CYCC 111 & IDST 100  
Introduction to individual counselling with an emphasis on the acquisition and practical application of therapeutic communication. Characteristics and strategies of person centered and strength based approaches are explored in assisting clients within a professional helping relationship. Experiential learning opportunities are provided, as counselling theory is integrated into practice. Reflection on the impact of ones values, beliefs, and ethical standards will also be explored.  
Hours: 56 hrs (1-3)  
Credits: 3

CPSC (Computer Science)
CYCC 230 • Practicum II
Prerequisite: A minimum of a C grade in CYCC 120
Student placement with community partners, in conjunction with a weekly seminar, is designed to facilitate the integration and application of theory within the context of a Child & Youth Care Counselling practice setting. Professional practice, communication, self, theoretical knowledge, and assessment and intervention will be examined. Additional Requirement: Prior to starting practicum students must receive certification in Applied Suicide Intervention Skills Training (ASIST). This course has an off-site retreat and the fee will be noted in the course outline.
Hours: 238 hrs (2-15P)
Credits: 6

CYCC 232 • Mental Health and Substance Abuse Issues
Prerequisite: A minimum of a C grade in CYCC 111
Introduction to a variety of childhood and adolescent mental health topics that contextualizes social, emotional and behavioral disorders in relation to the context or culture in which it is observed. Focus on the role of trauma, attachment, and resilience as a means for understanding behavior will be examined. Various drugs and substances seen in youth culture, alongside the comorbid existence of mental health disorders and drug abuse will be examined. Child & Youth Care Counsellor interventions that consider the transtheoretical model of change, harm reduction approaches, and looking beyond the symptoms to the strengths of the child, will also be explored.
Hours: 42 hrs (3-0)
Credits: 3

CYCC 233 • Legal and Cultural Issues Regarding Children and Youth
Prerequisite: A minimum of a C grade in CYCC 111
Various laws that affect children, youth and families in Alberta and Canada will be examined. These include the Youth Criminal Justice Act, The Child, Youth & Family Enhancement Act, Alberta School Act and Family Law Act. The context of these laws as they apply to the legal accountability and liabilities of the Child and Youth Care Counsellor in the human service field will be explored. Issues of socialization, conflict with the law, and advocacy for vulnerable children, youth and families are addressed within the various legal documents. Historical, ecological and environmental factors are also considered.
Hours: 42 hrs (3-0)
Credits: 3

CYCC 235 • Group Facilitation
Prerequisite: A minimum of a C grade in CYCC 125.
Planned interventions involving activity programming within a contextual framework will be explored. Emphasis will be placed on designing, facilitating, and processing experiential learning opportunities that are sensitive to cultural and human diversity. To enhance effective activity programming, and address group dynamics, an eclectic approach to counselling theory will also be discussed and implemented.
Hours: 42 hrs (3-0)
Credits: 3

CYCC 237 • Youth Care Practice with Families
Prerequisite: A minimum of a C grade in CYCC 111
Introduction to family support that integrates cultural and human diversity understandings and sensitivities. Focus is on systems theory as a framework for understanding diverse family types, and the multifaceted issues facing families. An ecological perspective for assessing family need, dynamics, and patterns of interacting will also be emphasized. Child & Youth Care Counsellor strength based interventions for engaging families that nourishes family growth and resiliency will also be explored.
Hours: 42 hrs (3-0)
Credits: 3

CYCC 240 • Practicum III
Prerequisite: A minimum of a C grade in CYCC 230
Student placement with community partners, in conjunction with a weekly seminar, is designed to deepen student integration and theory application within the context of a Child & Youth Care Counselling practice setting. Professional practice, communication, self, theoretical knowledge, and assessment and intervention, will be examined in theory and application. Throughout the term, student progression of theory, application, and practice will be supported. An emphasis on practice will occur, in preparation of the transition from student to practitioner.
Hours: 238 hrs (0-2-15P)
Credits: 6

CYCC 245 • Assessment and Intervention
Prerequisite: A minimum of a C grade in CYCC 235
Assessment skills necessary to working professionally with children, youth and families are emphasized, including: asset based assessments; ecological perspective mapping; genogram development; developmental theory assessments; needs and risk assessments; intervention planning and implementation; case management and reporting. Integration of theory to practice, including applying change theory to an approved case occurs. Professional documentation, consistent with working effectively and respectively with a diverse population, will be developed.
Hours: 42 hrs (3-0)
Credits: 3

DANC (Dance)
DANC 255 • Social Dance
Introduction to basic steps in the following ballroom dances: waltz, fox trot, cha cha, tango, rumba, jive, etc. NOTE: This is a Physical Education Activity (PEAC) Option.
Hours: 42 hrs (0-3A)
Credits: 1.5

DBSS (Deaf and Blind Support Services)
DBSS 160 • Introduction to American Sign Language
Introduction to American Sign Language (ASL), which is the official language of the Deaf community in Canada and United States. ASL has its own unique grammar and sentence structure. This course teaches you about Deaf culture and history while you develop basic vocabulary, fingerspelling, facial expressions, receptive and expressive skills to communicate with persons whom are Deaf. Even if you are outside the program, you are invited to take the course, subject to approval by the instructor.
Hours: 70 hrs (0-7) 10 wks
Credits: 4
Available through Distributed Learning
DBSS 161 • American Sign Language I  
**Prerequisite:** DBSS 160  
Course builds on DBSS 160, by developing broader vocabulary and conversational skills. You continue with ASL sentence types, time, numbers, pronominalization, classifiers, pluralization, and temporal aspects. Even if you are outside the program, you are invited to take the course, subject to approval by the instructor.  
**Hours:** 90 hrs (0-9) 10 wks  
**Credits:** 4  
Available through Distributed Learning

DBSS 260 • American Sign Language II  
**Prerequisite:** DBSS 161  
A continuation of the DBSS 161 ASL course and builds upon previously learned ASL grammar and sentence structure, vocabulary, and Deaf culture. Even if you are outside the program, you are invited to take the course, subject to approval by the instructor.  
**Hours:** 110 hrs (0-7.8)  
**Credits:** 4  
Available through Distributed Learning

DCED (Dance Education)  

DCED 243 • Introduction to Dance in Culture and Education  
An overview of the nature and role of dance and dance forms in culture and education is the focus of this course.  
**Hours:** 56 hrs (2-2)  
**Credits:** 3

DEV 5 (Developmental Studies)  

DEV 501 • Developmental Studies  
This is an introductory level course which supports students enrolled in College Preparation courses who may be under-prepared or at risk. This course is offered through the Open Learning Centre (OLC) ensuring maximum flexibility in scheduling and availability. Students are supported by access to both tutors and instructors. This course is focused on developing the abilities of the students to become self-directed, independent learners. Students will be encouraged to use learning strategies appropriate to their learning styles and subject demands.  
**Hours:** 40 hrs  
**Credits:** 3

DEV 502 • Developmental Studies  
This is an introductory level course which supports students enrolled in College Preparation courses who may be under-prepared or at risk. This course is offered through the Open Learning Centre ensuring maximum flexibility in scheduling and availability. Students are supported by access to both tutors and instructors. This course is focused on developing the abilities of the students to become self-directed, independent learners. Students will be encouraged to use learning strategies appropriate to their learning styles and subject demands.  
**Hours:** 90 hrs  
**Credits:** 4

DEV 003 • Developmental Studies  
Continuation of the 002 level course at an advanced pace.  
**Hours:** 40 hrs  
**Credits:** 3

DEV 004 • Developmental Studies  
Continuation of the 003 level course at an advanced pace.  
**Hours:** 90 hrs  
**Credits:** 4

DEV 005 • Developmental Studies  
Continuation of the 004 level course at an advanced pace.  
**Hours:** 40 hrs  
**Credits:** 3

DEV 006 • Developmental Studies  
Continuation of the 005 level course at an advanced pace.  
**Hours:** 90 hrs  
**Credits:** 4

DRAM (Drama)  

DRAM 200 • Introduction to Acting I  
You gain practical experience in acting through introductory work from texts, developing skills and personal acting creativity through improvisation and performance.  
**Hours:** 70 hrs (3-2)  
**Credits:** 4

DRAM 201 • Introduction to Acting II  
**Prerequisite:** DRAM 200 or permission of the Dean  
Continued study of acting techniques which promote: freedom of emotional expression, relaxation on stage, giving and accepting constructive criticism, increasing trust between performers, controlling energy, and refining your acting process. Performance in a departmental production may be required.  
**Hours:** 70 hrs (3-2)  
**Credits:** 4

DRAM 222 • Fundamentals of Stage Production I  
Technical and organizational aspects of stage production; creative approaches to design for the theatre leading to and including projects in design and construction; practical production assignments coordinated with community and college theatre productions, as applicable, are all part of what this course has to offer.  
**Hours:** 56 hrs (2-2)  
**Credits:** 3

DRAM 223 • Fundamentals of Stage Production II  
**Prerequisite:** DRAM 222 or permission of the Dean  
You increase the scope of study to include technical areas of theatre production and apply the principles learned in DRAM 222 toward practical assignments connected to the department’s productions.  
**Hours:** 56 hrs (2-2)  
**Credits:** 3

DRAM 240 • Introduction to Drama I  
Course in the interpretation and study of dramatic genres; and an introduction to play analysis.  
**Hours:** 56 hrs (3-1)  
**Credits:** 3
DRAM 241 • Introduction to Drama II
Prerequisite: DRAM 240 or ENGL 237 or permission of the Dean
Continued work in the interpretation and study of dramatic genres and play analysis.
Hours: 56 hrs (3-1)
Credits: 3

DRAM 300 • Advanced Acting I
Prerequisite: DRAM 201 or permission of the Dean
Continued examination and further refining of the actor’s emotional process. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 70 hrs (3-2)
Credits: 4

DRAM 301 • Advanced Acting II
Prerequisite: DRAM 300 or permission of the Dean
Advanced work in text preparation, vocal and physical performance skills. Participation in the department’s season of plays may be required.
Hours: 70 hrs (3-2)
Credits: 4

DRAM 321 • Stage Management
Prerequisite: DRAM 223
You learn the principles of stage management, as well as the roles and duties of a stage manager in all levels of production from amateur to professional. Projects are related to a production of the department. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 56 hrs (2-2)
Credits: 3

DRAM 323 • Introduction to Stage Design
Prerequisite: DRAM 223 or permission of the Dean
An extension of the principles learned in DRAM 223, this course focuses on practical approaches to translating ideas to the stage. Mediums of communication between the designer and director are explored. You assist a faculty director in projects related to a college production. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 56 hrs (2-2)
Credits: 3

DRAM 339 • Seminar in Drama I
Prerequisite: DRAM 241
This course is a critical examination of plays, including at least one staged by The University of Calgary Drama Department, centered upon their genres and historical settings. Other works by the same authors and their contemporaries may also be studied. This course also focuses on staging requirements for contemporary productions.
Hours: 56 hrs (4-0)
Credits: 3

DRAM 340 • Seminar in Drama II
Prerequisite: DRAM 339 or permission of the Dean
Continuation of DRAM 339.
Hours: 56 hrs (4-0)
Credits: 3

DRAM 360 • Developmental Drama I
An exploration in personal creativity; the study of the principles, theories, and application of developmental drama; as well as practical experience in creating drama. Registration priority is given to Education students.
Hours: 56 hrs (2-2)
Credits: 3

DRAM 361 • Developmental Drama II
Focus of this course is on studying and applying the collective creation technique to embrace drama as a means of interdisciplinary discourse. Registration priority is given to Education students.
Hours: 56 hrs (2-2)
Credits: 3

DRAM 390 • Performance Practicum I
Prerequisite: DRAM 201 & DRAM 223 or permission of the Dean
You gain practical knowledge of performance through preparation of a role for production. Open to students wishing to further experience in either performance or technical areas. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 84 hrs (0-6P)
Credits: 3

DRAM 391 • Performance Practicum II
Prerequisite: DRAM 390 or permission of the Dean
Development, refining, and performance of a role in either the acting or technical areas of production under the supervision of a faculty member. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 84 hrs (0-6P)
Credits: 3

DRAM 409 • Fundamentals of Directing I
Prerequisite: DRAM 201 & DRAM 223 or permission of the Dean
You learn the theories and practical techniques of directing plays in consultation with a faculty member. You may be required to observe or assist faculty directors. Studies will be coordinated with productions of the department. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 56 hrs (2-2)
Credits: 3

DRAM 410 • Fundamentals of Directing II
Prerequisite: DRAM 409 or permission of the Dean
Coursework focuses on the application of directing technique to rehearsal with actors. If this course is not offered in classroom format, it may be available as a directed study.
Hours: 56 hrs (2-2)
Credits: 3
EAPI (English for Academic Purposes)

EAPI 079 • Intermediate
Prerequisite: IELTS 4.0, TOEFL 31, TOEFL PBT 400, TOEIC 470 or equivalent as determined by the EAP Coordinator
This course is designed for students who have had some exposure to English and have a solid working knowledge of the language. The course will work towards an academic understanding and application of English.
Hours: 312 hours (24-0) 13 wks
Credits: 15

EAPI 089 • Low Advanced
Prerequisite: B+ in EAPI 079 or equivalent as determined by the EAP Program Coordinator
This course is designed for students that still need some support in English language development. Students are expected to have good English comprehension, but still need to further develop their academic skills in areas such as writing and critical analysis of English readings.
Hours: 312 hours (24-0) 13 wks
Credits: 15

EAPI 099 • Advanced
Prerequisite: B+ in EAPI 089 or equivalent as determined by the EAP Coordinator
This course is designed for students with a strong grasp of the English language who need to further develop their academic English skills. The course will focus on the student’s ability to write academic essays including research papers, analyze English readings, not only for comprehension but also application. Students will further develop their listening and oral skills using current media and presentations. NOTE: you cannot have credit for both EAPI 099 and EAPI 199.
Hours: 312 hours (24-0) 13 wks
Credits: 15

EAPI 199 • Bridging
Prerequisite: B+ in EAPI 089 or equivalent as determined by the EAP Coordinator
Corequisite: 1, 3 credit program class
This course is designed for students with a strong grasp of the English language who need to further develop their academic English skills. The course will focus on the student’s ability to write academic essays including research papers, analyze English readings, not only for comprehension but also application. In place of communicative courses found in EAPI 099, students in this class will be required to take 1 program based career class. This course must be taken in conjunction with 1 or 2 career based courses. NOTE: you cannot have credit for both EAPI 099 and EAPI 199.
Hours: 208 hours (15-0) 13 wks
Credits: 9

ECOM (E-Commerce)

ECOM 220 • Web Development II
Prerequisite: ITEC 190
Building on knowledge gained in Web Development I and Programming Fundamentals, this course examines concepts and application of server side Internet development. Topics include roles of client and server, web form fundamentals, web controls, dynamic content, state management, server side programming and database access.
Hours: 70 hrs (2-3)
Credits: 4

ECON (Economics)

ECON 201 • Principles of Microeconomics
Principles of consumption, production, exchange, market and firm equilibrium under different competitive conditions are introduced. These principles are applied to various contemporary problems and issues in the economy, such as property rights, foreign ownership and control, pollution, and poverty.
Hours: 56 hrs (4-0)
Credits: 3

ECON 203 • Principles of Macroeconomics
This course features an introduction to national income determination, monetary and banking, and elementary fiscal and monetary policies. Contemporary problems of unemployment, inflation, economic growth, business cycles and the international economy are examined.
Hours: 56 hrs (4-0)
Credits: 3

EDAS (Education Assistant)

EDAS 101 • The Education Assistant in the Classroom
Course focuses on the duties and responsibilities of the Education Assistant within the school setting. Training is provided enabling you to offer meaningful assistance and educational help to teachers. Emphasis is placed on developing an understanding of the role of the Education Assistant, which includes: Developing a personal philosophy of education; learning to create a positive and stimulating learning environment; learning to implement
EDAS 102 • Children with Social and Emotional Difficulties
Course considers the various contexts of behavioral challenges, particularly as they occur within a developmental context. Specific conditions, such as attention deficit disorder, pervasive developmental disorders, autism, fetal alcohol effects (syndrome), and fragile X syndrome, are studied. Implications for the child's development and learning are studied, as the role of the Education Assistant in working with children who are experiencing these difficulties.
Hours: 40 hrs (4-0) 10 wks
Credits: 3
Available in a Distributed Learning Format

EDAS 103 • Children with Specific Learning Disabilities
Course focuses on assisting children with specific learning difficulties. Children with learning disabilities typically have a disorder in basic information processing essential in understanding or using language, spoken or written, which manifests itself in the child's difficulty or inability to listen, think, speak, write, spell, or to do mathematical calculations. Terms used to describe the causes of these conditions include: Perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and expressive aphasia. Children who have learning disabilities as a result of visual, hearing or physical disabilities, or who are delayed in development in other ways, are not included in this group. This course looks at the characteristics of children with specific learning disabilities, and provides opportunities for you to understand and develop strategies to assist these children in their learning and development.
Hours: 40 hrs (4-0) 10 wks
Credits: 3
Available in a Distributed Learning Format

EDAS 104 • Children with Physical Impairments
Course provides you with an opportunity to consider the varieties of physical and orthopedic impairments, including cerebral palsy, muscular dystrophy, spina bifida, and head and spinal cord injuries. The implications of these impairments on the child's learning and development are reviewed. The roles of the Education Assistant in working with children with these impairments are a primary focus of the course.
Hours: 30 hrs (3-0) 10 wks
Credits: 1.5
Available in a Distributed Learning Format

EDAS 105 • Children with Sensory Impairments
The two areas of sensory impairment focused on in this course are vision and hearing. Children with visual impairments include those with problems that cannot be corrected, those who are reluctant or who refuse to wear corrective lenses or eye patches, and those whose visual impairments have not yet been detected. Children with hearing impairments, whether the loss is mild or severe, will be affected in areas of language and communication. This course provides an overview of the types of visual impairments and of hearing impairments. The impacts of these impairments on learning and development, and the role of the Education Assistant in using technology and instruction strategies to assist the child are discussed.
Hours: 30 hr (3-0) 10 wks
Credits: 1.5
Available in a Distributed Learning Format

EDAS 106 • Technology in Education
Course provides you with a basic understanding of the use of educational media and computer technology. Instruction is provided in the use of audio, visual and duplicating equipment, and graphic techniques used for the preparation of teaching materials. The course also provides an opportunity for you to acquire basic skills and knowledge about computers, computer software and peripherals, as you investigate how computer technology may be utilized to assist students with special needs.
Hours: 40 hrs (4-0) 10 wks
Credits: 1.5
Available in a Distributed Learning Format

EDAS 108 • Assisting with Numeracy
Through a blend of theory and practice, this course provides an overview of the development of numeric skills in children and youth. It pays particular attention to the ways that the education assistant may assist in the effective implementation of helpful strategies. Learning to adapt and modify classroom experiences to suit the learning needs of individual students is emphasized.
Hours: 30 hrs (3-0)
Credits: 1.5
Available in a Distributed Learning Format

EDAS 110 • Practicum I
Prerequisite or Corequisite: (CHPC 120 or CHPC 124) & (CHPC 121 or ENGL 123) & CHPC 122 & CHPC 123 & EDAS 101 & EDAS 108
You complete 100 hours of practicum in school settings. The primary purpose of this experience is to work directly with children under the supervision and direction of a teacher. You have the opportunity to develop and demonstrate appropriate skills and attitudes in the work environment. A seminar component of practicum (two hours per week for four weeks) provides you an opportunity to discuss your practicum experiences and to integrate information and knowledge from program course work.
Hours: 108 hrs (2-0) 4 wks; (0-20P) 5 wks
Credits: 4
Available in a Distributed Learning Format

EDAS 120 • Practicum II
Prerequisite: CHPC 120 & CHPC 121 & CHPC 124 & EDAS 102 & EDAS 103 & EDAS 104 & EDAS 105 & EDAS 106 & EDAS 110 & ENGL 123
Corequisite: CHPC 120 & CHPC 121 & CHPC 122 & CHPC 123 & CHPC 124 & EDAS 101 & EDAS 102 & EDAS 103 & EDAS 104 & EDAS 105 & EDAS 106 & EDAS 108 & EDAS 110 & ENGL 123
You complete 100 hours of practicum in school settings. The primary purpose for this experience is for you to work directly with children under the supervision and direction of a teacher. You
have the opportunity to develop and demonstrate appropriate skills and attitudes in the work environment. A seminar component of practicum (2 hours per week for four weeks) provides you and your fellow classmates an opportunity to discuss your practicum experiences and to integrate information and knowledge from program course work.

**EDTS (Education Teaching Studies)**

**EDTS 232 • Professional Dimensions of Teaching I**
This introductory course offers the opportunity to explore what is involved in being a teacher within the context of a classroom and a school. Through an examination of the teaching-learning process with reference to psycho-social, philosophical, and political influences in contemporary society, you will explore the concept of personal worldview, its impact on teaching and learning and begin to construct an understanding of your own professional identity. You will participate in relevant field experiences within local schools.

In order to ensure the safety of children in classrooms, local school jurisdictions require that student teachers submit a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check. It is recommended that you possess a current Emergency or Standard First Aid Certificate and that Health Immunizations are up to date.

| Hours: 84 hrs (3-1T-2P) |
| Credits: 4 |

**EDTS 233 • Introduction to Teaching**
This introductory course offers the opportunity to explore what is involved in being a teacher. Through a focus on the purpose and nature of pedagogy, you begin to understand the life of teaching — the rewards and responsibilities, difficulties and joys of spending one’s life with children and young adults. The 60 hour practicum with a mentor teacher in a local classroom provides valuable experience in a school setting.

In order to ensure the safety of children in classrooms, local school jurisdictions require that student teachers submit a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check. It is recommended that you possess a current Emergency or Standard First Aid Certificate and that Health Immunizations are up to date.

| Hours: 116 hrs (3-1T-4.3P) |
| Credits: 4.5 |

**EDTS 234 • Professional Dimensions of Teaching II**
**Prerequisite: EDTS 232**
This course investigates the evolution of schooling through historical and personal perspectives as well as possible future development and their impact on education. You will explore philosophical orientations to teaching, the structure of classrooms and schools, the purpose and function of curriculum, the role of the teacher in this context and begin the process of constructing your own philosophical statement of belief about learning and teaching.

A key outcome of this course is the development of a professional teaching portfolio. Field experiences involving diverse school environments are a required component of this course.

In order to ensure the safety of children in classrooms, local school jurisdictions require that student teachers submit a current Police Information Check with Vulnerable Sector Search as well as an Alberta Children’s Services Intervention Record Check. It is recommended that you possess a current Emergency or Standard First Aid Certificate and that Health Immunizations are up to date.

| Hours: 46 hrs (1-1T-1.3P) |
| Credits: 3 |

**EDTS 321 • Education Psychology for Teaching**
**Corequisites: EDTS 232 or EDTS 234**
This course focuses on the psychological, social, and educational determinants of child development. It includes theory, research, and illustrations all dealing with the classroom application of psychological principles and will involve you in interpersonal experiences with children. Topics typically covered relate to physical, cognitive, and socio-emotional development of children, student learning and instruction, individual and group differences in student abilities, and student motivation. NOTE: Registration priority given to first year Education students.

| Hours: 42 hrs (3-0) |
| Credits: 3 |

**EDTS 325 • Tools for Teaching and Learning in the Digital Classroom**
**Prerequisite: EDTS 233 or (EDTS 232 & EDTS 234)**
This course provides you with strategies and skills for the effective use of digital technologies within the classroom learning environment. You will develop educational resources for integrating technology into current curriculum and become familiar with emerging trends for learning and teaching in today’s digital classroom. NOTE: Registration priority given to second year Education students.

| Hours: 70 hrs (2-3) |
| Credits: 4 |

**EDTS 341 • Interpersonal Communication in the School**
**Prerequisite: EDTS 233 or (EDTS 232 & EDTS 234)**
This course is designed to develop effective interpersonal communication skills that will assist pre-service teachers as they interact with students in classroom settings and with colleagues in professional environments. The topics, readings, assignments and field experience have been constructed to develop the skills of self analysis, introduce techniques to improve communication with children, and explore ways in which adults can work more effectively in collaborative environments with colleagues and parents. This course includes weekly lectures and tutorials as well as an eighteen (18) hour field experience in a local elementary school classroom.

In order to ensure the safety of children in classrooms, local school jurisdictions may require that student teachers submit a current Police Information Check with Vulnerable Sector Search and an Alberta Children’s Services Intervention Record Check. It is also recommended that student teachers possess a current Emergency or Standard First Aid Certificate and that Health Immunization Records are up to date.

| Hours: 46 hrs (1-1T-1.3P) |
| Credits: 3 |
EDUC 3101 • Program of Studies and Curriculum Instruction in Teaching Art
Prerequisites: EDUC 3010
This course examines the fundamental knowledge, understanding, values, attitudes, skills, and processes required to implement an effective program of studies for teaching elementary Art in elementary schools. The course will address relevant instructional methodologies, unit planning, curriculum integration, and resource development. Students will investigate a range of assessment strategies including test design and construction and the reporting of evaluation results. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3

EDUC 3102 • Program of Studies and Curriculum Instruction in Teaching Drama
Prerequisites: EDTS 234 & EDTS 321 & EDTS 325 & EDTS 371
This course examines the fundamental knowledge, understanding, values, attitudes, skills, and processes required to implement an effective program of studies for teaching elementary Drama. The course will address a range of approaches to develop instruction, plan units of study, integrate curriculum, develop resources and assessment strategies to meet students' needs, including test design and construction and the reporting of evaluation results. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3

EDUC 3103 • Program of Studies and Curriculum Instruction in Teaching English Language Arts
Prerequisites: EDTS 234 & EDTS 321 & EDTS 325 & EDTS 371
This course explores the knowledge and skills required to implement programs of studies in teaching English Language Arts in elementary schools. The course will address relevant instructional methodologies, unit planning, curriculum integration and resource development. Students will investigate a range of assessment strategies. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3

EDUC 3105 • Program of Studies and Curriculum Instruction in Teaching Physical Education
Prerequisites: EDUC 3010
This course examines the fundamental knowledge, understanding, values, attitudes, skills, and processes required to implement an effective program of studies for teaching Physical Education in elementary schools. The course will address relevant instructional methodologies, unit planning, curriculum integration, and resource development. Students will investigate a range of assessment strategies including test design and construction and the
EDUC 3106 • Program of Studies and Curriculum Instruction in Teaching Science
Prerequisites: EDTS 234 & EDTS 321 & EDTS 325 & EDTS 371
This course provides an introduction to the teaching and learning of Science in elementary schools. The course will focus on instruction, planning and facilitating learning experiences, integrating curriculum, creating and utilizing resources and developing assessment strategies to meet students’ needs. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3

EDUC 3108 • Program of Studies and Curriculum Instruction in Teaching Mathematics
Prerequisites: EDTS 234 & EDTS 321 & EDTS 325 & EDTS 371
This course explores the knowledge and skills required to implement programs of studies in teaching Mathematics in Elementary schools. The course will address a range of approaches to develop instruction, plan units of study, integrate curriculum, develop resources and assessment strategies to meet students’ needs. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3

EDUC 4030 • Practicum II
Prerequisites: EDUC 3010
Corequisites: EDUC 4201 and EDUC 4104
This practicum focuses on professional responsibilities, planning for learning, facilitating learning, assessment, and the classroom environment. Students are expected to be directly involved in all aspects of teaching progressing from 50% and achieving 100% for at least three weeks of the practicum. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 420 hrs (0-35) 12 wks
Credits: 9

EDUC 4104 • Program of Studies and Curriculum Instruction in Teaching Music
Prerequisites: EDUC 3010
This course is designed to provide musical experiences which will help the student gain skills to appropriately enhance the musical growth of children in K – 6 classrooms. The course participant’s personal skill and understanding of musical concepts will be developed; musical needs and capabilities of young children will be investigated; methods of teaching music to young children will be presented through observation and application. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
Hours: 42 hrs (3-0)
Credits: 3
EDUC 4361 • Exceptional Students, Special Needs, and Inclusive Schooling

Prerequisites: EDUC 3010
This course examines characteristics of students exhibiting a range of mild, moderate, and severe disabilities and students exhibiting exceptional gifts and talents. Diverse educational, cultural, and linguistic backgrounds will be discussed. The course also examines methods that can be used in adapting classroom instruction and management of the diverse needs. Third and Fourth years of the B.Ed. Program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

Hours: 42 hrs (3-0)
Credits: 3

ELCC (Early Learning and Child Care)

ELCC 101 • Introduction to Early Learning and Child Care
Course focuses on developing understanding of the goals and philosophies for play-oriented, child-centered early childhood care, and education for children up to age eight. Roles of the early childhood professional are studied with particular emphasis on the experience of caring for other people's children.

Hours: 30 hrs (3-0) 10 wks
Credits: 1.5
Available On-Site and in a Distributed Learning Format

ELCC 102 • Development through Play I
You will explore the nature and development of play in the lives of young children, and learn to prepare and provide meaningful play experiences for children to enhance their growth and development. The course incorporates considerations of the space, time, materials, and involvement of the adult and their impact on the play of young children.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 105 • Practicum I
Corequisite: CHPC 120 & CHPC 122 & CHPC 123 & ELCC 102 & ENGL 123
You will be placed in an early learning and child care setting for observation and for practical application of ideas and theories learned in theory classes. The primary emphasis of this practicum is on 1) positive interactions with children, their parents, and other early childhood professionals; and 2) providing and extending play opportunities for children to enhance their growth and development.

Hours: 150 hrs (2-28P) 5 wks
Credits: 4

ELCC 112 • Development through Play II
Prerequisite: ELCC 102
This course is an extension of ELCC 102. You have the opportunity to further your understanding of children's play, increase your sensitivity to the learning and development that occurs through this medium, and increase your skills as a provider of play experiences and as a participant with children in their play.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 113 • Music and Movement
This course introduces you to the importance of music for young children. It includes learning songs and rhymes and making simple instruments for use with children.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 115 • Practicum II
Corequisite: CHPC 121 & CHPC 124 & ELCC 101 & ELCC 112 & ELCC 113
This practicum is divided into two distinct experiences. The first requires you to spend 30 hours working in volunteer capacities in the community in settings other than child care or early learning and child care education settings, in which young children and families are involved. These settings may include recreation facilities, children's libraries, Cubs, Scouts, Brownies, and so on. The intent of this experience is to broaden your awareness of the community services available to young children and families. The second aspect of this practicum continues on from ELCC 105. You are placed in preschool care and education settings and are provided with opportunities to integrate class knowledge in a practical application with young children.

Hours: 200 hrs (0-2P)14 wks; (2-32.4P) 5 wks
Credits: 5.5

ELCC 201 • Fine Arts
Prerequisite: ELCC 105 & ELCC 115
This course provides opportunities for you to increase your ability to provide developmentally appropriate experiences for children in the arts. Theoretical and practical applications in the areas of visual expressive arts, music and drama will be presented.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 202 • Math and Science
Prerequisite: ELCC 105 & ELCC 115
Experiences in math and science occur naturally for young children. This course is experiential as you are helped to understand the development of science and math concepts in young children and to consider ways in which you may assist that development.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 203 • Interpersonal Relations II
Prerequisite: ELCC 105 & ELCC 115
This course is designed to help you develop skills in initiating, developing and maintaining effective and fulfilling interactions as professionals in the field of early childhood. Emphasis is placed on team skills and collaborative skills needed to work with parents and other professionals.

Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 204 • Ecology of the Family
Prerequisite: ELCC 105 & ELCC 115
This course is centered on the role of early childhood professional personnel in the lives of Canadian children and families. It includes an overview of the family in today's society and of the many issues that affect the family. The course includes reference to poverty.
ELCC - ENGG

ELCC 205 • Practicum III
Prerequisite: ELCC 105 & ELCC 115
The focus of this practicum is a continuation of the experiences necessary to take increasing responsibility for the care and education of young children. It includes understanding administrative responsibilities, community and parent involvement, and staff relations. The importance of emergent curriculum development is explored in detail.
Hours: 150 hrs (2-28P) 5 wks
Credits: 4

ELCC 211 • Infant and Toddler Care
Prerequisite: ELCC 105 & ELCC 115
The focus of this course is on the practical implementation and application of developmentally appropriate practice with infants and toddlers. The course integrates knowledge of development in all areas - social, physical, cognitive, and emotional - with ideas for providing experiences that are both appropriate and worthwhile.
Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 212 • Professional Practice
Prerequisite: ELCC 105 & ELCC 115
A study in the historical, philosophical, social and political context of child care in Canada today. Contemporary models and theories that have influenced early childhood programs are examined. Codes of ethics, the roles of professional associations, and the role of research are also included in this course.
Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 213 • Inclusive Care and Education
Prerequisite: ELCC 105 & ELCC 115
This course is designed to look specifically at the strategies and approaches that are fundamental to the inclusion of all children, regardless of abilities and social or cultural backgrounds. You will explore various approaches to planning to ensure that these approaches are inclusive, and you will examine your attitudes and beliefs in these areas.
Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 214 • Children in Society
Prerequisite: ELCC 105 & ELCC 115
Opportunities to study issues within the field of early childhood care and education through involvement in primary research studies. You read, prepare and plan research questions; develop research strategies; and implement experimental or naturalistic studies aimed to increase your knowledge and understanding. The research studies are written as final reports and presented orally in seminars. You work with your fellow students on a relevant community project and provide documentation throughout this process.
Hours: 40 hrs (4-0) 10 wks
Credits: 3

ELCC 215 • Practicum IV
Prerequisite: ELCC 105 & ELCC 115
This practicum is divided into two sections. Section One requires you to spend 30 hours working in a volunteer capacity in community settings with children and families other than early childhood care and education settings. Section Two requires you to work in community placements that serve children and families. You have the opportunity to integrate theory and practice in the development of your skills. The focus is on the full integration of play into children’s programs, program preparation and implementation, and building relationships with families and with other professionals in the community.
Hours: 200 hrs (0-2P) 14 wks; (2-32.4P) 5 wks
Credits: 5.5

ENGG (Engineering)

ENGG 100 • Orientation to the Engineering Profession
This course provides an introduction to the engineering profession and disciplines; study skills; cooperative education; and work opportunities. It will also explore engineering and society through elements of ethics, equity, concepts of sustainable development and environmental stewardship, public and worker safety, and health considerations, including the context of the Alberta Occupational and Safety Act.
Hours: 14 hrs (1-0)
Credits: 1

ENGG 160 • Introduction to Engineering Design, Communication, and Profession
Prerequisite: ENGG 100 or ENGL 199
This course surveys fundamental design process; communications; team work; and the engineering disciplines and career fields. It will also cover professional responsibilities of the engineer, including elements of ethics and equity, concepts of sustainable development and environmental stewardship, public and worker safety, and health considerations, particularly the context of the Alberta Occupational and Health and Safety Act.
Hours: 42 hrs (1-2)
Credits: 3

ENGG 205 • Engineering Mechanics I
This course mainly deals with engineering statics. It covers the following topics: force vectors; equilibrium of particles in two and three dimensions, force system resultants, equilibrium of a rigid body in two and three dimensions; trusses, frames, machines; internal forces in beams and friction.
Hours: 77 hrs (3-2.5)
Credits: 4

ENGG 233 • Computing for Engineers I
This is the first course in computer programming with the emphasis on engineering problem solving. It consists of programming in a high level language such as Matlab to solve engineering problems. The course focuses on the following topics: Scalar, Vector and array operations in Matlab; flow control; built in and user defined functions; file input/output; searching/sorting/plotting, and solving common engineering problems using numerical methods and built in functions.
Hours: 70 hrs (3-2)
Credits: 4
ENGG 235 • Engineering Graphics  
Course focuses on graphical communications for engineers; orthographic, isometric, and pictorial projections; working, detail and assembly drawings; dimensioning; an introduction to 3D drawing; selected topics in civil engineering; and a group design project. There is no prerequisite, but normally you would have previously taken ENGG 215.  
Hours: 70 hrs (2-3)  
Credits: 4

ENGG 349 • Engineering Mechanics II  
Prerequisite: ENGG 205  
Corequisite: AMAT 219  
A review of Mechanics I fundamentals: Mass center; moments of inertia; composite bodies. Kinematics and kinetics of particles and rigid bodies; work and energy principles; conservative systems; and impulse and momentum are featured in this course.  
Hours: 77 hrs (3-2.5)  
Credits: 4

ENGL (English)  
ENGL 007 • Developmental English Skills  
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.  
This course focuses on developing basic skills in English usage, spelling, punctuation, grammar, and simple sentences. The reading component consists of improving vocabulary and increasing comprehension skills.  
Hours: 84 hrs (6-0)  
Credits: 4

ENGL 008 • Fundamental English Skills  
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.  
This course focuses on improving English usage, grammar, and punctuation skills. Students are introduced to the paragraph outline form and begin writing paragraphs. The reading component further develops vocabulary and comprehension skills.  
Hours: 84 hrs (6-0)  
Credits: 4

ENGL 009 • Intermediate English Skills  
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.  
This course is designed to expand key reading, writing, and grammar skills that students need for success in the English 010/013 courses. Students continue to refine their paragraph-writing skills. Students are introduced to the short story and novel.  
Hours: 84 hrs (6-0)  
Credits: 4

ENGL 010 • Introduction to Literature and Composition  
Prerequisite: 1) a grade of A- or higher in ENGL 009 or equivalent; or 2) a grade of B or higher in ENGL 013, or 3) a placement based on the Medicine Hat College Academic Assessment  
The purpose of this course is to help you acquire and improve your skills in all language areas of communication. Topics include a review of the language fundamentals of spelling, grammar, punctuation, sentence and paragraph writing; reading comprehension and analysis; and oral discussion. The literature covered includes short stories, poetry, essays, and the novel.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

ENGL 013 • Fundamental English Skills I  
Prerequisite: 1) Successful completion of ENGL 009 or equivalent; or 2) a placement based on the Medicine Hat College Academic Assessment  
The purpose of this course is to help you acquire and improve your skills in all language areas of communication. Topics include a review of the language fundamentals of spelling, grammar, punctuation, sentence and paragraph writing; reading and comprehension and analysis; and oral discussion.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

ENGL 020 • Literature and Composition Skills  
Prerequisite: ENGL 010 or equivalent  
This course continues with an introduction to literature and composition and helps you develop your ability to communicate ideas clearly and emphatically. The content includes writing paragraphs and essays and studying the short story, poetry, the novel, and drama.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

ENGL 023 • Fundamental English Skills 2  
Prerequisite: ENGL 013 or ENGL 010 or equivalent  
This course furthers the development of the skills and abilities developed in ENGL 013. A substantial portion of the course involves developing writing abilities. A selection of literature is also included.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

ENGL 030 • Matriculation English  
Prerequisite: ENGL 020 or equivalent  
This course is an advanced study of literature and composition. Selections in the essay, short story, poetry, the novel and drama are studied, and you will complete written assignments on these genres. You should have a command of essay writing before entering this level. Credit equivalent to ENGL 30-1.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

ENGL 033 • Senior English  
Prerequisite: ENGL 023 or ENGL 020 or equivalent  
This course completes the College Preparation non-matriculation English sequence. Focusing on developing written communication skills, this course provides concentrated instruction in grammar and the rules of composition. A selection of literature is also included.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

MHC CALENDAR 2020/2021 203
ENGL 123 • Fundamentals of Writing and Speech
Topics for this course include grammar and punctuation, informal reports, business writing formats, proposals, library skills, and oral presentations.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 125 • Introductory Report Writing and Speech
Topics for this course include informal reports, formal technical reports, resumes and cover letters, and prepared speeches.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 155 • Scientific and Technical Writing
In this course, students will develop research skills, and become familiar with scientific and technical journals, indexes, and technical reports, summaries, descriptive/informative abstracts, business letters, memos, and a mailable resume and cover letter. Students will also review the language fundamentals of grammar and punctuation.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 199 • English for Engineering Students
This course aims to develop the student's ability to provide effective written and oral information. It will focus on instruction in fundamental writing skills, including building effective sentences and paragraphs, and on learning to communicate clearly across a range of genres and media used in academic and professional contexts, including correspondence and presentations. Students will be introduced to the principles of information gathering, analysis, and citation. (Restricted to Engineering Students)
Hours: 42 hrs (3-0)
Credits: 3

ENGL 202 • Reading and Writing about Literature I
This course focuses on reading and writing about literature written in English (poetry, drama, prose), with an emphasis on pre-20th-century writers. Instruction in critical writing is part of this course.
NOTE: Students cannot receive credit for both ENGL 202 and ENGL 1151.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 203 • Reading and Writing about Literature II
This course focuses on reading and writing about literature written in English (poetry, drama, prose), with an emphasis on post-nineteenth-century writers. Instruction in critical writing is part of this course.
NOTE: Students cannot receive credit for both ENGL 203 and ENGL 1152.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 231 • The Novel and the Short Story
This course provides an introduction to fiction in both the short story and novel forms. Instruction in critical writing is part of this course.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 235 • Introduction to Poetry
This course studies selected poetry written in English. Instruction in critical writing is part of this course.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 237 • Introduction to Dramatic Literature
This course examines the development of Western drama from various periods. Instruction in critical writing is part of this course.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 252 • Introductory Composition
This course focuses on academic essay writing and critical thinking at the university level. ENGL 252 is not a remedial course; students should have at least a senior high school level of competency in both grammar and composition. NOTE: Students cannot receive credit for both ENGL 252 and GNED 1401.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 300 • Survey of English Literature I
Prerequisite: Any one 200 level English course; strongly recommend a second 200 level English course
This course examines English literature from the Middle Ages, the sixteenth century, the early seventeenth century, the Restoration and the eighteenth century. The development and continuity of English literature in relation to historical and social contexts are also studied. NOTE: You cannot receive credit for both ENGL 200 and ENGL 300. Students cannot receive credit for both ENGL 300 and ENGL 2210.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 301 • Survey of English Literature II
Prerequisite: Any one 200 level English course
This course examines English literature from the Romantic and Victorian periods, as well as from the twentieth century to the present. The development and continuity of English literature in relation to historical and social contexts are also studied. NOTE: You cannot receive credit for both ENGL 201 and ENGL 301. Students cannot receive credit for both ENGL 301 and ENGL 2211.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 308 • The Novel from 1900 to Now
Prerequisite: Any 200 level English course or permission of the Dean
While we read works of literature as fiction, we also see it as mediating and reflecting certain truths about our lived experience. This course explores, through the lens of 20th century literary criticism and theory, the relationship between the novel and its borders, or texts and their contexts. Each novel will be considered in light of its mediation of socio-political and cultural concerns; this includes themes such as literature and philosophy, literature and science, and literature and identity. NOTE: Students cannot receive credit for both ENGL 308 and ENGL 3308.
Hours: 42 hrs (3-0)
Credits: 3
ENGL 309 • Theatre & Performance from 1900 to Now
Prerequisite: Any 200 level English course or permission of the Dean
This course examines the extent to which “all the world’s a stage.” Theatre and performance texts and theories will be used to illuminate key issues and ideas in contemporary culture, such as ritual, realism, the absurd, the society of spectacle, subjectivity, and identity. NOTE: Students cannot receive credit for both ENGL 309 and ENGL 3309.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 311 • Modern & Postmodern Poetry and Poetics
Prerequisite: Any one 200 level English course; strongly recommended: a second 200 level English course
This course examines the diverse ways in which the English language has been used in twentieth and twenty-first century poetry. The course begins with the challenges to traditional poetry evident in the early 1900s, then highlights the effects of key literary theories on the poetry of the mid to late twentieth century, before turning to the multiple ways in which both spoken word and digital media have affected twenty-first century poetic practices. NOTE: Students cannot receive credit for both ENGL 311 and ENGL 3311.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 312 • Shakespeare I
Prerequisite: Any two 200 level English course or permission of the Dean
This course examines a selection of Shakespeare’s works from the early years of his career, or the Elizabethan era. It surveys his comedies, tragedies, and histories. Topics covered may include performance, adaptation, source material, publication, editing, cultural studies, and/or politics. NOTE: Students cannot receive credit for both ENGL 312 and ENGL 3312.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 313 • Shakespeare II
Prerequisite: Any two 200 level English course or permission of the Dean
This course examines a selection of Shakespeare’s works from the final years of Elizabeth’s reign as well as from the Jacobean era. It surveys his comedies, tragedies, and problem plays. Topics covered may include performance, adaptation, source material, publication, editing, cultural studies, and/or politics. NOTE: Students cannot receive credit for both ENGL 313 and ENGL 3313.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 317 • Women’s Literary Tradition
Prerequisite: Any two 200 level English course or permission of the Dean
This course surveys the tradition of women’s writing from its beginnings to the present. Relations between gender and genre and between sexuality and textuality, as well as configurations of race, form the core themes of the course.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 320 • The History of English
Prerequisite: Any two 200 level English course or permission of the Dean
This course offers an introduction to important changes and states in the history of English.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 340 • Romantic Literature I
Prerequisite: Any two 200 level English course or permission of the Dean
This course introduces the literature of the Romantic period through studying select works by major authors from the early Romantic period.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 341 • Romantic Literature II
Prerequisite: Any two 200 level English course or permission of the Dean
This course explores the literature of the Romantic period through studying select works by major authors from the late Romantic period.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 353 • North American Indigenous Literature
Prerequisite: Any two 200 level English course or permission of the Dean
This course will critically engage the literary works of Indigenous peoples through various genres and will be framed by cultural, historical, social, theoretical, and political contexts. The focus will vary and may include: Indigenous knowledge, Nation/Identity formation, the numbered Treaties, the role of women, humour, orality and language, stereotyping and racism. NOTE: Students cannot receive credit for both ENGL 353 and ENGL 3353.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 358 • British Fiction I
Prerequisite: Any two 200 level English course or permission of the Dean
This course examines the artistic techniques and historical development of British fiction from the eighteenth century to the late nineteenth century through studying a representative selection of major authors and texts.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 359 • British Fiction II
Prerequisite: Any two 200 level English course or permission of the Dean
This course examines the artistic technique and historical development of British fiction from the late nineteenth century to the present, through studying a representative selection of major authors and texts including those of contemporary writers.
Hours: 42 hrs (3-0)
Credits: 3

<tbody>
<tr>
<td>ENGL 360</td>
<td>American Literature I</td>
<td>Any two 200 level English course or permission of the Dean</td>
<td>This course analyzes American literature from its beginnings to 1890. A key focus is on the development and continuity of early American literature in relation to historical and social contexts.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 361</td>
<td>American Literature II</td>
<td>Any two 200 level English course or permission of the Dean</td>
<td>This course studies American literature from 1890 to the present. A key focus is on the development and continuity of twentieth and twenty-first century American literature in relation to historical and social contexts.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 370</td>
<td>Survey of Canadian Literature I</td>
<td>Any two 200 level English course or permission of the Dean</td>
<td>This course centred on Canadian literature from the late eighteenth to the mid-twentieth century. Representative selections from Canadian poets and prose writers are studied.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 371</td>
<td>Survey of Canadian Literature II</td>
<td>Any two 200 level English course or permission of the Dean</td>
<td>This course studies English Canadian literature from the mid-twentieth century to the present including analysis of the development of Modernism and Postmodernism.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 382</td>
<td>Textualities/Sexualities</td>
<td>Any one 200 level English course; strongly recommended: a second 200 level English course</td>
<td>This course examines literary textuality as a sexually infused construct in both form and content. Gendered literary genres, archetypes and stereotypes, and theoretical approaches to the sexualized body (historical and contemporary) form the basis for the course. NOTE: Students cannot receive credit for both ENGL 382 and ENGL 3382.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 394</td>
<td>The Graphic Novel</td>
<td>Any one 200 level English course or permission of the Dean</td>
<td>The graphic novel has recently emerged as a unique storytelling medium. This course focuses on both the theoretical bases of sequential art and the graphic novel's literary and aesthetic properties. Students will draw on a variety of modern and postmodern theories of texts to analyze specific graphic novels. NOTE: Students cannot receive credit for both ENGL 394 and ENGL 3394.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 397</td>
<td>Children's Literature I</td>
<td>Any two 200 level English courses or permission of the Dean</td>
<td>This course provides a historical and critical study of children's literature, focusing on the roots of children's literature in mythology, epic, romance, fairy tales, and allegory through an examination of representative works. NOTE: Students cannot receive credit for both ENGL 397 and ENGL 2298.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 398</td>
<td>Children's Literature II</td>
<td>Any two 200 level English courses or permission of the Dean</td>
<td>This course examines children's literature in relation to such topics as oral tradition and folk literature, mythology and allegory, realistic and historical fiction, and fantasy. NOTE: Students cannot receive credit for both ENGL 398 and ENGL 2299.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 399</td>
<td>Detective Fiction</td>
<td>Any two 200 level English courses or permission of the Dean</td>
<td>This course studies the evolution of British, American and Canadian detective fiction. Theoretical approaches to understanding this genre of literature within the framework of popular culture are also included.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 1151</td>
<td>Introduction to Literature: Studies in Story</td>
<td></td>
<td>This course introduces the principles and practices of literary analysis by examining the narrative features of selected works of prose, poetry, or drama. Students will apply close reading techniques to a range of narratives in order to develop foundational skills in writing and thinking about literature critically. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 1151 and ENGL 202.</td>
<td>42 hrs</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 1152</td>
<td>Introduction to Literature: Studies in Identity</td>
<td></td>
<td>This course introduces the principles and practices of literary analysis by examining the narrative features of selected works of prose, poetry, or drama. Students will apply close reading techniques to a range of narratives in order to develop foundational skills in writing and thinking about literature critically. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. </table>
ENGL 2210 • English Literature to the Restoration
Prerequisite: One of ENGL 1000 level or ENGL 200 level or permission of the Dean
This course surveys English literature from its earliest beginnings to the Restoration (1660), with an emphasis on major authors. Students will read a variety of genres closely and critically, and will examine how these texts relate to their socio-political, religious and cultural environments. Students will be introduced to literary research. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 2210 and ENGL 300.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 2211 • English Literature from the Restoration to the Present
Prerequisite: One of ENGL 1000 level or ENGL 200 level or permission of the Dean
This course surveys English literature from the Restoration (1660) to the present. Students will read a variety of texts closely and critically within various cultural contexts. Students will be introduced to literary research. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 2211 and ENGL 301.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 2298 • Children’s Literature to 1900
Prerequisite: One of ENGL 1000 level or ENGL 200 level or permission of the Dean
This course investigates the history and development of children’s fantasy from its origins in the oral tradition to current achievements. Situating such work within its literary and cultural context, this course explores changing attitudes toward childhood and adolescence while also examining the debt that contemporary juvenile fantasy owes to classic folklore and fairy tales. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 2298 and ENGL 397.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 2299 • Children’s Literature: Imagining the Real
Prerequisite: One of ENGL 1000 level or ENGL 200 level or permission of the Dean
This course examines the relationship between the real and the imagined in works for children and adolescents. Focusing on classic and contemporary material that asks readers to think about who they are and what kind of world they inhabit, this course explores the literary, social, and educational values that inform the construction of juvenile realities. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 2299 and ENGL 398.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3308 • The Novel from 1900 to Now
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
Using critical theory to interrogate contemporary practice, this course examines the development of prose fiction from the beginning of the twentieth century to the present day. In particular, it considers how the novel, as both a literary and cultural form, mediates the aesthetic, intellectual, social, and political concerns of the twentieth and twenty-first centuries. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3308 and ENGL 308.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3309 • Theatre and Performance from 1900 to Now
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
This course examines the extent to which “all the world’s a stage.” Theatre and performance texts and theories will be used to illuminate key issues and ideas in contemporary culture such as ritual, realism, the absurd, the society of spectacle, subjectivity, and identity. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3309 and ENGL 309.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3312 • Shakespeare I
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
This course examines a selection of Shakespeare’s works from the early years of his career, or the Elizabethan era. It surveys his comedies, tragedies, and histories. Topics covered may include performance, adaptation, source material, publication, editing, cultural studies, and/or politics. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3312 and ENGL 312.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3313 • Shakespeare II
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
This course examines a selection of Shakespeare’s works from the final years of Elizabeth’s reign as well as from the Jacobean era. It surveys his tragedies, romances, and problem plays. Topics covered may include performance, adaptation, source material, publication, editing, cultural studies, and/or politics. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3313 and ENGL 313.
Hours: 42 hrs (3-0)
Credits: 3
ENGL - EREC

ENGL 3353 • North American Indigenous Literatures
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
This course will critically engage the literary works of Indigenous peoples through various genres and will be framed by cultural, historical, social, theoretical, and political contexts. The focus will vary and may include: Indigenous knowledge, Nation/Identity formation, the numbered Treaties, the role of women, humour, orality and language, stereotyping and racism. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3353 and ENGL 353.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3382 • Textualities/Sexualities
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
This course examines both the body of the text and the text of the body. While reading the body as it is represented in writing, we will investigate such concepts as representation (including what has been erased or silenced), the gendered text, the imaginary and the limits of textualized sexualities. Students will be introduced to literary research. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3382 and ENGL 382.
Hours: 42 hrs (3-0)
Credits: 3

ENGL 3394 • The Graphic Novel
Prerequisite: One of ENGL 2000 level or ENGL 200 level or permission of the Dean
The graphic novel has recently emerged as a unique storytelling medium. This course focuses on both the theoretical bases of sequential art and the graphic novel's literary and aesthetic properties. Students will draw on a variety of modern and postmodern theories of texts to analyze specific graphic novels. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENGL 3394 and ENGL 394.
Hours: 42 hrs (3-0)
Credits: 3

ENTR (Entrepreneurship)

ENTR 211 • Introduction to Entrepreneurship
This course is designed to help students develop an understanding of the business skills necessary to successfully develop an entrepreneurial venture. Students will acquire the knowledge and skills needed to: Recognize and evaluate potential business opportunities; develop a feasibility analysis; conduct industry and competitor analysis; and build a viable business model.
Hours: 42 hrs (3-0)
Credits: 3

ENTR 2301 • Innovation and the Entrepreneurial Experience
This experiential course develops an understanding of innovation and builds awareness of the practical experiences of entrepreneurs. Students participate in experiential activities and competitions, and learn using a practical framework that integrates current research, practice and lessons learned from people who have started impactful businesses with limited resources. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENTR 2301 and MGMT 270.
Hours: 42 hrs (3-0)
Credits: 3

ENTR 4433 • Business Plan Development
Prerequisite: (ACCT 215 or ACCT 323 or ACCT 324) & MKTG 171 & (MGMT 161 or MGMT 270 or ENTR 2301)
You will be able to prepare and present a solid business plan for new or existing enterprise. Areas covered will include identifying and assessing opportunities, developing a winning strategy, identifying resource requirements and selling the plan to financing sources. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both ENTR 4433 and MGMT 443.
Hours: 42 hrs (3-0)
Credits: 3

EREC (Environmental Reclamation)

EREC 100 • Introduction to Environmental Science Concepts
Prerequisite: ENGL 30 or equivalent
Survey of fundamental concepts of environmental science focusing on the environment of aquatic and terrestrial ecosystems. Topics include the biological and chemical principles that relate to current environmental issues, conservation of plants and animals, energy flow as well as nutrient cycling, basic ecological and technological concerns and advances, and scientific analysis and solutions to environmental problems.
Hours: 56 hrs (3-1)
Credits: 3

EREC 115 • Introduction to CAD and Surveying for Environmental Reclamation Technicians
You will be introduced to various software programs such as AutoCAD, Google Sketch UP, Google Earth and Layout to produce drawings related to the Environmental Reclamation program. In addition to various software, you will be introduced to survey systems used in western Canada and the various survey techniques used to find elevations, angles and distances on the earth’s surface.
Hours: 140 hrs (5-5)
Credits: 4
EREC 120 • Petroleum Industry Fundamentals
A general overview of the different aspects of the petroleum industry operations in Alberta and Canada. The course describes how the petroleum industry contributes to the economy of Canada, the origin of oil and gas, prospecting for petroleum, drilling and completion, production and abandonment. Environmental and safety issues in the petroleum industry are introduced. Field trips are a mandatory part of this course.
Hours: 56 hrs (4-0)
Credits: 3

EREC 140 • Environmental Chemistry
Prerequisite: Admission to the Environmental Reclamation Technician program or permission of the Dean.
Recommended Background: CHEM 30
This course will introduce the concepts of inorganic and organic chemistry that are most relevant to soils and aquatic systems. Lectures will cover atomic and molecular structure, formulae and equations, equilibria, gases, acids and bases, major classes and nomenclature of organic compounds, functional groups, detergents and environmental applications. The laboratory will support the lecture content with an emphasis on analytical and organic chemistry. The experiment will introduce the students to laboratory equipment, data collection and the interpretation of analytical results.
Hours: 70 hrs (3-2)
Credits: 4

EREC 160 • Integrated Vegetation Management
Prerequisite: BOTA 205
Integrated vegetation management uses an understanding of plant ecology to manage vegetation in a variety of effective, economical and environmentally responsible ways to achieve desired species composition and dominance in Southern Alberta following ground disturbance. You are introduced to the classification, importance, growth and dispersal of weeds and invasive plant species. Identification of common Western Canadian weeds are emphasized. Strategies and techniques for site preparation, vegetation re-establishment and maintenance will be introduced with the goals of minimizing environmental impact; conservation of biodiversity; and control of weeds and invasive species.
Hours: 84 hrs (3-3)
Credits: 4

EREC 210 • Agrology and Agro-Ecology for Environmental Technologists.
EREC 210 introduces the agriculture industry and practices in Alberta. It includes the study of forages, tame pasture, field crops (cereal, oil seed, and pulse) and native grasslands. Agro-Ecology topics focus on range and riparian health assessment. Other topics include soil, land and water conservation and stewardship; seed industry and quality control; farm safety and equipment; agriculture policy, legislation and programs; agricultural professional organizations and communication. All topics are relevant to environmental reclamation and restoration of disturbed agricultural landscapes. EREC 210 will be presented in both a classroom and field lab/workshop environment.
Hours: 70 hrs (3-2)
Credits: 4

EREC 220 • Environmental Sampling and Monitoring
Reclamation not only involves the collection of data and samples prior to development of a reclamation plan, but during the process and on an on-going basis for monitoring. This course will cover the development of sampling strategies, sample collection, the management of samples and related data, plus documentation and interpretation of results obtained from accredited testing facilities. This course also introduces you to the major categories of environmental contaminants encountered during environmental reclamation as well as industrial sampling and monitoring processes, which may not always be related to oil and gas sectors. This course will involve field trips, lab activities and group projects where samples from reclamation sites.
Hours: 70 hrs (3-2)
Credits: 4

EREC 230 • Water Fundamentals
The progression of water through the hydrologic cycle affects all people and most scientific disciplines. Many issues involving contaminants within the environment, also involve the water cycle in some way (surface water, soil water, groundwater). In this course students will learn the components of the hydrologic cycle, precipitation, snow processes, evapotranspiration, infiltration and soil water, surface runoff, and groundwater. Additionally, students will be introduced to river processes, channel hydraulics, forest hydrology, wetlands, surface water quality concerns and contaminant hydrogeology. Analytic skills regarding quantitative and qualitative hydrologic data will be enhanced through lab exercises, field trips and class assignments.
Hours: 70 hrs (3-2)
Credits: 4

EREC 240 • Environmental Assessment
This course provides an introduction to the Canadian Environmental Assessment Act (2012) and a comparison to the previous Canadian Environmental Assessment Act as well as their corresponding process of Environmental Impact Assessments (EIAs). Students will learn the basic process of planning, organizing and collecting information for EIAs at both the federal and provincial level. This course will also introduce the process of developing and implementing Phase I and II Environmental Site Assessments (ESAs) in Alberta, as well as pre-disturbance site assessments. Various provincial and federal assessment guidelines will be studied. This course has both field, tutorial components, including group projects.
Hours: 70 hrs (3-2)
Credits: 4

EREC 260 • Land Reclamation and Revegetation
Following site assessment and development of a reclamation plan this course involves you in the reclamation of a site. You gain familiarity with equipment used in this process; the correct documentation and disposal of waste materials; erosion control; soil amendment; weed management and monitoring of the reclamation site. This course also introduces the practices and techniques of revegetation of disturbed lands associated with oil and gas exploration, drilling and well abandonment. Topics include: assessment and surveying of native plant species; the collection
EREC - ESLC

of native plant species for revegetation; evaluation of purity and germination of seeds for reclamation sites; production of reclamation vegetation and follow-up monitoring. Bioengineering practices to reduce erosion is introduced.
Hours: 70 hrs (3-2)
Credits: 4

EREC 263 • Land Reclamation Legislation
Provincial, federal and municipal governments requires land reclamation to be carried out following environmentally related legislation, policy, directives, standards, guidelines and criteria. Familiarity with land reclamation legislation is an important aspect of being able to develop approved and successful reclamation plans and ensure compliance leading to certification. This course covers the legislation and details the legal requirements required for reclamation certification.
Hours: 56 hrs (4-0)
Credits: 3

EREC 285 • Capstone Project
Prerequisite: EREC 210 and EREC 220
Corequisite: EREC 240 or EREC 260 or EREC 263
Students will research, prepare, and present a major technical report that will apply and demonstrate the knowledge and skills obtained during their Environmental Reclamation program. The technical report is based on research, presentation techniques, technical and knowledge content, and written style with a specific emphasis on communication.
Hours: 84 hrs (2-4)
Credits: 4

ESLC (English as a Second Language for New Canadians)

ESLC 026 • Basic ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 80 hrs (5-0) 16 wks
Credits: 4

ESLC 027 • Basic ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 160 hrs (10-0) 16 wks
Credits: 6

ESLC 028 • Basic ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 350 hrs (22-0) 16 wks
Credits: 16.5

ESLC 046 • Advanced ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 80 hrs (5-0) 16 wks
Credits: 4

ESLC 047 • Advanced ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 160 hrs (10-0) 16 wks
Credits: 6

ESLC 048 • Advanced ESLC
Designed for new Canadians who have completed Language Instruction for New Canadians (LINC) but require higher skill levels to pursue educational or employment opportunities. All of the four major communicative skills; reading, writing, speaking, and listening are developed to enhance your proficiency and enable you to be successful in an English speaking work environment. You are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmark (CLB) assessments. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 350 hrs (22-0) 16 wks
Credits: 16.5

ESLC 056 • English Language Transitional Proficiency
This course is designed for eligible newcomers to Canada who desire to move from foundational to proficient English communication skills, and wish to integrate more successfully into the community and workplace. The course is targeted toward those who can produce a Language instruction for Newcomers to Canada (LINC) certificate with completed CLB Levels 4, or who have been assessed with CLB Levels 4 or higher in at least three of four communication skills areas. Essential skills will be embedded into the
LINC curriculum and will be those skills that people need for work, learning, and life. They include reading, writing, oral communication, numeracy, document use, working with others, problem solving, computer use, and continuous learning. Students are placed into the program based on demonstrated proficiency in English as measured by the standards for Canadian Language Benchmarks. Graded on a CR (Pass)/NC (Fail) basis.

**ESLC 078 • English Language Proficiency**
This course is designed for eligible newcomers to Canada who desire to move from foundational to proficient English communication skills, and wish to integrate more successfully into the community and workplace. The course is targeted toward those who can produce a Language instruction for Newcomers to Canada (LINC) certificate with completed CLB Levels 6, or who have been assessed with CLB levels 6 or higher in at least three of four communication skills areas. Essential skills will be embedded into the LINC curriculum and will be those skills that people need for work, learning, and life. They include reading, writing, oral communication, numeracy, document use, working with others, problem solving, computer use, and continuous learning. Students are placed into the program based on demonstrated proficiency in English as measured by the standards for Canadian Language Benchmarks. Graded on a CR (Pass)/NC (Fail) basis.

**EVSC 238 • Introduction to Geographic Information Science**
Prerequisite: GEOG 201 or GEOG 203
Introduction to Geographic Information Science (GIS). This course introduces the creation, management, and analysis of digital spatial data. Topics include data models and representation, relational databases, analytical models, error and accuracy and precision, map standards, and data translation (Google Earth, CADD and other data standards). QGIS - a free and open-source GIS - will be used for the course.

**EVSC 336 • Advanced GIS and Remote Sensing**
Prerequisite: EVSC 238
This course introduces students to methods for remote sensing of the Earth, and how spatial analysis can applied to landscape ecology and agriculture. Major course topics include electromagnetic radiation, spectral and spatial properties, sensor characteristics, accuracy assessment, image processing, and spatial analysis methods.

**FINA (Finance)**

**FINA 255 • Finance**
Prerequisite: ACCT 113 or ACCT 321
An introductory course in financial management. All managers need to understand the basic concepts and techniques of financial analysis. Quality decisions require an understanding of the analytical techniques of finance including interpretation of financial position, profit analysis, planning and budgeting, cash flow analysis, working capital management, capital budgeting and investment, cost of capital, and risk. Sources of funding will also be discussed.

**FNCE 2130 • Personal Finance**
This course explores the importance of financial planning within the Canadian political and economic environment, enabling students to understand the principles and practices of managing personal finances. Students will develop an appreciation for financial planning, both in the short and long-term, including making informed decisions about personal budgeting, use of credit, insurance, taxation, investment alternatives, and other important considerations. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based on their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both FNSV 210 and FNCE 2130.

**FNSV (Financial Services)**

**FNSV 200 • Canadian Investment Funds**
This course teaches the content of the Canadian Investment Funds (CIFC) course of the Investment Funds Institute of Canada. The course focuses on the basics of mutual funds and the mutual funds industry in Canada. Specific topics include assessing client needs, types of mutual funds, investing and financial instruments, taxation, and pensions and retirement. In addition to MHC’s tuition fee, you are required to register and pay an additional course fee to IFSE.ca. With this mandatory registration and fee, you receive all course materials and access to on-line resources, are registered with IFSE.ca and are eligible to write the mutual funds exam, which, if passed, gives you license to sell mutual funds when employed at a Canadian financial institution. As a non-Business student you are also welcome to take the course for reasons of personal interest or professional development.

**FNSV 210 • Personal Investing**
Course focuses on the investment process, investment portfolios, investment tools, and portfolio management from an individual investor perspective. Topics include stocks, bonds, debentures, mutual funds, securities, money markets, and financial planning. NOTE: Students cannot receive credit for both FNSV 210 and FNCE 2130.

**FNCE (Finance)**

**FNCE 2130 • Personal Finance**
This course explores the importance of financial planning within the Canadian political and economic environment, enabling students to understand the principles and practices of managing personal finances. Students will develop an appreciation for financial planning, both in the short and long-term, including making informed decisions about personal budgeting, use of credit, insurance, taxation, investment alternatives, and other important considerations. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based on their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both FNSV 210 and FNCE 2130.

**FNCE 2130 • Personal Finance**
This course explores the importance of financial planning within the Canadian political and economic environment, enabling students to understand the principles and practices of managing personal finances. Students will develop an appreciation for financial planning, both in the short and long-term, including making informed decisions about personal budgeting, use of credit, insurance, taxation, investment alternatives, and other important considerations. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based on their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both FNSV 210 and FNCE 2130.
FREN (French)

FREN 200 • Beginner’s French I
Starting with the alphabet, you progress to learning the basic elements and structures of the French language. Using cassette tapes, computer programs, and videos, you will comprehend, speak, read, and write French in everyday situations. Cultural aspects in various French-speaking countries are introduced. Dialogues and group discussions improve conversational skills and general fluency. NOTE: Not to be taken by students with native or near native proficiency in French, or with credit in French 30 or French 31 or their equivalents in Canada and other countries. NOTE: Students cannot receive credit for both FREN 200 and FREN 1109.
Hours: 70 hrs (4-1)
Credits: 4

FREN 202 • Beginner’s French II
Prerequisite: FREN 200 or permission of the Dean
A continuation of FREN 200 and a preparation for FREN 219. Basic vocabulary and grammatical structures are introduced. Instruction is provided in pronunciation, oral expression, reading and writing. Comprehension and communication skills are practiced in dialogues and discussion groups. You are introduced to cultural aspects of interest to those traveling or living in various Francophone countries of the world. NOTE: Not to be taken by students with native or near native proficiency in French, or with credit in French 30 or French 31 or their equivalents in Canada. NOTE: Students cannot receive credit for both FREN 202 and FREN 1111.
Hours: 70 hrs (4-1)
Credits: 4

FREN 219 • First Year University: French I
Prerequisite: FREN 30 or FREN 31 or FREN 202 or permission of the Dean
You expand your abilities in spoken and written French and buildup your grammatical skills. Short texts from well-known Francophone authors form a basis for study and discussion of cultural, personal, and universal themes. Through individual and group participation, this course prepares you for foreign travel or residence abroad and also for university programs such as Education, International Studies, and Commerce. NOTE: Not to be taken by students with native or near native proficiency in French.
Hours: 56 hrs (3-1)
Credits: 3

FREN 221 • First Year University: French II
Prerequisite: FREN 219 or permission of the Dean
A continuation of FREN 219. You have the opportunity to converse and communicate through individual and group presentations. You will practice new grammatical structures and vocabulary and study and discuss short excerpts from Francophone authors covering topics such as careers, travel, personal goals, and current issues. This course provides a good basis for the requirements of further university studies, federal institutions, and global corporations. NOTE: Not to be taken by students with native or near native proficiency in French.
Hours: 56 hrs (3-1)
Credits: 3

FREN 319 • Second Year University: French I
Prerequisite: FREN 221
Course further develops grammatical skills and provides a wider vocabulary. You will study and discuss short texts, and practice writing descriptive, narrative and expository prose.
Hours: 56 hrs (3-1T)
Credits: 3

FREN 321 • Second Year University: French II
Prerequisite: FREN 319 or permission of the Dean
A continuation of FREN 319 and refines grammatical accuracy and fluency in speaking and writing.
Hours: 56 hrs (3-1T)
Credits: 3

GEOG (Geography)

GEOG 201 • The Physical Environment
An introduction to the physical elements of the environment (weather, climate, hydrology, land forms, soils, vegetation and the processes producing variations of these elements on the surface of the earth). Examples of environmental inter-relationships and problems that affect people are studied.
Hours: 70 hrs (3-2)
Credits: 4

GEOG 203 • The Human Environment
This course is the study of people - their origins, culture, technology, economy and impact on the environment, and the manner in which people attempt to impose order upon the surface of the earth. Concepts of relative location are introduced, with particular regard to both the external orientation and the internal organization of urban areas. There will be project work in the laboratories.
Hours: 70 hrs (3-2)
Credits: 4
GEOG 321 • Environmental Problems and Resource Management
Prerequisite: Any 200 level Geography course
Environmental and resource issues are studied, with emphasis on such topics as: Principles of resource use; global environmental and resources management strategies including sustainable development; and environmental impact assessment. Case examples are highlighted.
Hours: 42 hrs (3-0)
Credits: 3

GEOG 332 • Map and Air Photo Interpretation
Prerequisite: GEOG 201 or permission of the Dean.
The purpose of this course is to introduce you to the discipline of cartography through the detailed examination and use of maps and air photographs. Concepts stressed in the course include scale, location, direction, evaluation, projections, and elements of air photography.
Hours: 70 hrs (3-2)
Credits: 4

GEOG 334 • Remote Sensing
Prerequisite: GEOG 201 or permission of the Dean
This course covers the use of aerial photographs for the interpretation and mapping of renewable resources, and is an introduction to the physical basis of remote sensing. A full range of data products are used including black and white, black and white infrared, colour, colour infrared photographs, and satellite images.
Hours: 70 hrs (3-2)
Credits: 4

GEOG 338 • Introduction to Geographic Information Systems (GIS)
Prerequisite: GEOG 201
This course focuses on spatial data, its nature, acquisition and manipulation. Several of the industry-leading GIS software programs are utilized in exploring spatial relationships.
Hours: 70 hrs (3-2)
Credits: 4

GEOG 379 • The United States of America
The physical and cultural framework of the country and its historical significance, and the patterns and characteristics of geographic regions are studied in this course. NOTE: You are strongly advised to have taken a previous course in geography.
Hours: 42 hrs (3-0)
Credits: 3

GEOG 381 • Canada
Course focuses on the regional geography and physical framework of Canada and its significance in Canada’s historical development. The concept of the geographic region, the patterns and characteristics of these regions, and selected detailed studies are included in this course. NOTE: You are strongly advised to have taken a previous course in geography. Students cannot receive credit for both GEOG 381 and GEOG 2225.
Hours: 42 hrs (3-0)
Credits: 3

GEOG 387 • Russia
The systematic and topical geography of Russia and aspects of economic activity, transportation, regional development settlement patterns, and population distribution are discussed in this course. NOTE: You are strongly advised to have taken a previous course in geography.
Hours: 42 hrs (3-0)
Credits: 3

GEOG 397 • Geography of the Northlands
Course focuses on the environment, resource development and human activity with emphasis on Alaska, Yukon, Northwest Territories, Nunavut, Russia, Scandinavia, Greenland and Iceland. NOTE: You are strongly advised to have taken a previous course in geography.
Hours: 42 hrs (3-0)
Credits: 3

GEOG 2225 • Regional Geography of Canada
This course involves a regional geography approach to the study of Canada. Included is the study of the physical framework of Canada and its significance in Canada's historical development. The concept of geographic regions, and the patterns and characteristics of these regions are explored using selected detailed studies. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GEOG 2225 and GEOG 381.
Hours: 42 hrs (3-0)
Credits: 3

GLGY (Geology)

GLGY 201 • Principles of Geology and Geophysics I
Introduction to the origin, composition and evolution of the Earth and the solar system. Introduction to plate tectonics and the rock cycle with a description of surface processes and internal processes. Simple energy balances and interactions between radiation and the atmosphere, land, oceans, ice masses, and the global hydro geological cycle. Laboratory: Rocks and minerals, topographic and geologic maps.
Hours: 84 hrs (3-3)
Credits: 4

GNED (General Education)

GNED 210 • Scientific and Mathematical Literacy for the Modern World
You will expand your understanding of the intersections of mathematics, science and technology with daily life. The course will develop and apply critical thinking and scientific reasoning skills through the examination of issues drawn from the real world and current events. NOTE: Students cannot receive credit for both GNED 210 and GNED 1101.
Hours: 42 hrs (3-0)
Credits: 3
**GNED 220 • Texts and Ideas**

“Texts and Ideas” is a course that explores how specific ideas shape attitudes, belief systems, and values through the perspectives of various disciplines. You will learn about the nature, origins and relevance of one or more complex concepts, such as beauty, mind, identity, modernity, or the good life. NOTE: Students cannot receive credit for both GNED 220 and GNED 1202.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 221 • Aesthetic Experience & Ideas**

This course examines human aesthetic responses and our capacities to interpret diverse forms of cultural expressions. Students will study some of the following: literary and/or religious texts, paintings, sculpture, architecture, music, film, dance, opera, the decorative arts, as well as other forms of aesthetic expression. Students will critically explore the values, beliefs and ideas that shape, and are shaped by human experience, and are expressed by individuals, communities, and societies, through their art and cultural expression. Students will also explore the various media through which cultural expression takes place. NOTE: Students cannot receive credit for both GNED 221 and GNED 1201.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 230 • Citizenship Without Borders**

You will gain an understanding of the impact and opportunities of globalization, as well as the barriers. A thorough discussion of the pros and cons of globalization will be included. The international environment will be introduced through a holistic analysis of political, economic, and cultural differences. International institutions and trading blocs will be discussed, and the factors contributing to cross-cultural effectiveness will be introduced. NOTE: Students cannot receive credit for both GNED 230 and GNED 1301.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 234 • Communities and Societies**

In this course students will be guided to develop a richer awareness of the various communities and societies in which they live and participate. This course will progressively examine family, communities of belonging, post-secondary education, the city, the province, the state, and global economic, political and cultural concentric systems. In the course, stereotypes will be questioned, critical skills developed, and key topics will be addressed and examined. Themes and topics to be considered include the following: Community building, power and authority, social systems, institutions, and rules and responsibilities. NOTE: Students cannot receive credit for both GNED 234 and GNED 1304.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 1101 • Scientific and Mathematical Literacy for the Modern World**

Students will expand their understanding of the intersections of mathematics, science and technology with daily life. The course will develop and apply critical thinking and scientific reasoning skills through the examination of issues drawn from the real world and current events. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GNED 1101 and GNED 210.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 1201 • Aesthetic Experience and Ideas**

This course examines human aesthetic responses and our capacities to interpret diverse forms of cultural expression. Students will study some of the following: literary and/or religious texts, paintings, sculpture, architecture, music, film, dance, opera, the decorative arts, as well as other forms of aesthetic expression. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GNED 1201 and GNED 221.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 1202 • Texts and Ideas**

“Texts and Ideas” is a course that explores how specific ideas shape attitudes, belief systems, and values through the perspectives of various disciplines. Through the critical reading of key texts, students will learn about the nature, origins and relevance of one or more ideas, such as “leadership,” “mind,” “the self,” “modernity,” or “the good life.” This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GNED 1202 and GNED 220.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 1301 • Citizenship without Borders**

Students will gain a broad overview and understanding of issues related to global interaction and global interconnectedness. The complex concept of ‘globalization’ will be analyzed through interdisciplinary perspectives and students will be encouraged, through debating key issues, to be active global citizens. Instructors may approach the course through the use of specific thematic structures. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GNED 1301 and GNED 230.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**GNED 1304 • Communities and Societies**

Local, national, and global communities suffer from similar problems. This interdisciplinary course will critically examine key issues within communities and societies, explore the meaning, power, and obligations of citizenship, and begin to develop the skills necessary to create positive, effective, and sustainable change. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both GNED 1304 and GNED 234.

**Hours:** 42 hrs (3-0)

**Credits:** 3
GNED 1401 • Critical Writing & Reading
This course develops students' skills in the types of writing, reading, and thinking required in university today. Students will review basics, analyze contemporary examples, develop research and referencing skills, and design their writing for specific audiences. Writing for Academic Success provides an opportunity to develop new talents and gain confidence in expressing ideas. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.
NOTE: Students cannot receive credit for both GNED 1401 and ENGL 252.
Hours: 42 hrs (3-0)
Credits: 3

GNST (Gender Studies)

GNST 300 • Gender Studies
Course provides theoretical, historical, cultural, and ethical contexts for the study of gender. What is gender? How are gender and sex different? How have gender roles been determined in the past and present? How are gender and gender roles depicted in our culture and through the media? How are issues pertaining to gender related to personal identity, race and ethnicity, family, economics, education, law, medicine and health care? This course has no prerequisites but SOCI 201 or PSYC 205 are highly recommended. NOTE: Students cannot receive credit for both GNST 300 and SLGY 2233.
Hours: 42 hrs (3-0)
Credits: 3

HCAP (Health Care Aide)

HCAP 140 • Health Care Aide Role & Responsibility
Corequisite: HCAP 141 & HCAP 142 & HCAP 143
You will obtain knowledge about the role of the health care aide, legislation, functioning effectively as a team member, environmental safety, client safety, self-care, and safety. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 45 hrs (2.85-.36)
Credits: 3

HCAP 141 • The Human Body, Health & Chronic Illness
Corequisite: HCAP 140 & HCAP 142 & HCAP 143
You will gain an understanding of body systems, functions, and chronic conditions. Normal human growth, development, and death will be discussed. You will gain an understanding of the role of a Health Care Aide and the aspects of healthy aging as well as the importance of the maintenance and fostering of client independence. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 45 hrs (3.21-0)
Credits: 3

HCAP 142 • Communication & Documentation in the Health Care Environment
Corequisite: HCAP 140 & HCAP 141 & HCAP 143
You will learn how to communicate effectively within a collaborative team. You will also acquire skills in both written and oral communications and learn how to deal with problems and conflict. You will gain understanding in communication impairments and related strategies to mitigate potential challenges. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 60 hrs (2.14 - 2.14)
Credits: 3

HCAP 143 • Providing Person-Centered Care & Comfort
Corequisite: HCAP 140 & HCAP 141 & HCAP 142
You will learn how to deliver basic physical care such as grooming, personal care, bathing, bed-making, assisting with elimination, client mobility, positioning, lifts and transfers in a safe, ethical manner. You will also acquire knowledge and skills related to client nutrition, food safety and mealtimes. This course includes a high impact consolidation lab. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 75 hrs (2.07 - 3.29)
Credits: 4

HCAP 144 • Clinical Placement I
Prerequisite: HCAP 140 & HCAP 141 & HCAP 142 & HCAP 143
Placement to occur in a continuing care setting (home care, supportive living (designated supportive living (DSL), senior lodge, group homes). Graded on a CR (Pass)/NC (Fail) basis.
Hours: 80 hrs (0 - 80C)
Credits: 4

HCAP 145 • Meeting Complex Care Needs
Prerequisite: HCAP 140 & HCAP 141 & HCAP 142 & HCAP 143
Corequisite: HCAP 144
This course covers the more complex skills required for complete personal care such as range of motion, assistance with wound care, assistance with Naso-Gastric, Gastrostomy and tube feeds, assistance with urinary catheters and drainage systems. In addition, you will learn how to measure vital signs, height, and weight, assess vital signs, assistance with specimen collection, and assistance with respiratory care and oral suctioning, medication assistance. This course includes a high impact consolidation lab. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 75 hrs (1.75-3.61) 14 wks
Credits: 4

HCAP 146 • Special Activities for Clients with Various Health Conditions
Prerequisite: HCAP 144
Corequisite: HCAP 145
You will build on the skills previously learned and expand your range of skills to include assistance with care of infants, assistance with child, and care for clients with a diagnosis of Dementia and other mental health diagnoses. You will assist clients with physical disabilities and developmental delays. Furthermore, you will learn about palliative and end of life care and how to meet the care needs of patients and families at the time of death. This course includes a high impact consolidation lab. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 75 hrs (3.64 - 1.71)
Credits: 4

**HIST 231 • Canada, Origins to 1867**
A historical introduction to the dynamic themes in early Canadian history. Special attention is devoted to social, economic, and political development. White-Aboriginal relations and the opening of the Canadian West is also studied. NOTE: Students cannot receive credit for both HIST 231 and HIST 1131.

**HIST 233 • Canada Since 1867**
This course focuses on the development of the Canadian nation from Confederation to 1945, with particular attention to federal-provincial relations, economic development, social movements, and western political protest. NOTE: Students cannot receive credit for both HIST 233 and HIST 1133.

**HIST 331 • Canadian Social Development**
A study of the growth of Canadian society from colonial times to the present. Emphasis is placed on European and American backgrounds of Canadian social institutions and their development in various regional settings. Consideration is given to the role of immigrants, social and ethnic groups, health, crime and punishment, education, religion, the arts, and recreation. NOTE: Students cannot receive credit for both HIST 331 and HIST 2232.

**HIST 333 • Popular Culture in Nineteenth Century Canada**
This course focuses on selected themes in 19th century Canadian culture: Working class culture and leisure; rural and urban lifestyles; social class and the Victorian family; newspapers and periodicals; regional societies and folk myths; and political culture.

**HIST 345 • Crime and Criminal Justice in Canada**
This course focuses on the history of crime and criminal justice in Canada from the earliest settlement by Europeans to the late twentieth century. Topics include crime and the development of the criminal law, criminal courts and jurisdictions, the police, punishments, correctional institutions in Eastern, Central and Western Canada during the time period. Attention will be given to the relationship of criminality to the moral attitudes and socio-economic conditions, and the historic role of crime and punishment in the local communities, society and the state.

**HIST 350 • Eighteenth Century Europe, 1715-1815 Age of Enlightenment and Revolution**
Topics for this course include: State building and international relations; aristocracy, peasants, and the urban middle classes; popular culture; critical spirit of the Enlightenment; crises of the old regimes; and the era of the French Revolution and Napoleon.

---

216 MHC CALENDAR 2020/2021
HIST 351 • Nineteenth Century Europe, 1815-1914
Material Progress and Political Collapse
Topics for this course include: New ideologies of liberalism, conservatism, nationalism, and socialism; 19th century revolutions; industrialization and its social consequences; emergence of new nation-states; imperialism, partial emancipation of women; new cultural trends; and the successes and ultimate failure of the European balance of power. NOTE: Students cannot receive credit for both HIST 351 and HIST 2243.

Hours: 42 hrs (3-0)
Credits: 3

HIST 1131 • Introduction to Canada: Pre-Confederation
This course introduces students to key issues and events in early Canadian history. Themes include social and cultural change, as well as economic and political developments. Specific topics covered may include Canada's military participation, the Cold War, immigration and regionalism. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HIST 1131 and HIST 231.

Hours: 42 hrs (3-0)
Credits: 3

HIST 1133 • Modern Canada, 1867 to Present
This course introduces students to key issues and events in modern Canadian history. Themes include social and cultural change, as well as economic and political developments. Specific topics covered may include Canada's military participation, the Cold War, immigration and regionalism. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HIST 1133 and HIST 233.

Hours: 42 hrs (3-0)
Credits: 3

HIST 2232 • Canadian Social History
This course focuses on the history of Canadians in a number of spaces such as home, workplace and recreational settings. A variety of topics such as religion, education, health, crime and punishment, the arts, and popular culture may be examined, as may issues such as race and ethnicity, gender and sexuality, regional identity and class. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HIST 2232 and HIST 331.

Hours: 42 hrs (3-0)
Credits: 3

HIST 2243 • Europe in the Nineteenth and Twentieth Centuries
This course examines the history of Europe between 1789 and 1989. This period is distinguished by transformations in virtually every area of human life; the creation and destruction of a European dominated world order; the rise, spread and collapse of communism; increasingly destructive spasms of organized violence; and ongoing efforts at collective identity formation. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HIST 2243 and HIST 351.

Hours: 42 hrs (3-0)
Credits: 3

HLSC (Health Sciences)

HLSC 151 • Personal Health and Wellness
This course offers an overview of the physical, social, mental, environmental and spiritual aspects of personal health and wellness within the context of community and the Canadian health care system.

Hours: 45 hrs (3-0) 15 wks
Credits: 3

HLSC 200 • Introduction to Addictions Studies
Prerequisite: Meets admission criteria into the Addictions Counselling program
This foundational course provides an overview of the study and treatment of addictive behaviours and compulsive disorders.

Hours: 42 hrs (3-0)
Credits: 3

HLSC 220 • Introduction to Counselling
Prerequisite: HLSC 200 & PSYC 205 & IDST 100 or permission of the Dean
An introduction to the theory and practice of counselling individuals experiencing addictions.

Hours: 84 hrs (3-3)
Credits: 4

HLSC 230 • Physiology and Processes of Addictions
Prerequisite: HLSC 200 or permission of the Dean
This course examines the physiology and processes of addictions. Methods and agents used for the restoration of physiologic equilibrium are also discussed.

Hours: 42 hrs (3-0)
Credits: 3

HLSC 320 • Counselling II (Individuals and Groups)
Prerequisite: HLSC 220
Theories and techniques of counselling individuals and groups are examined. Lab work includes techniques for working with individuals and groups of addicted persons.

Hours: 98 hrs (3-4)
Credits: 4

HLSC 340 • Assessment of Addictions
Prerequisite: HLSC 220 & HLSC 230
This course provides you with the necessary knowledge and skills to identify and understand clients with needs related to addictions and to plan interventions in partnership with the client.

Hours: 84 hrs (3-3)
Credits: 4
HLSC 350 • Internship in Addictions Counselling
Prerequisite: All first and second year courses
You observe and participate in the practice of addictions counseling within a fieldwork experience. On-line and on-site seminars facilitate the integration of theory, research, and practice. You are required to attend a one week seminar on campus part way through the semester. NOTE: You must have access to the Internet at your placement site or residence in order to participate in the online weekly assignments and discussions. Additional Requirements: Prior to starting practicum students must receive certification in Applied Suicide Intervention Skills Training (ASIST). Opportunity for this training will be coordinated by the program but students are responsible for the cost. (Approx $200)
Hours: 490 hr (3-32P)
Credits: 12

HLSC 365 • Health Education and Promotion
Prerequisite: Admission into the Addictions Counselling program
An overview of the theory essential to health education including health promotion, models of health, health education, and learning; ethical concerns in education and basic teaching methods and tools. NOTE: You cannot receive credit for both HLSC 365 and NURS 365.
Hours: 42 hrs (3-0)
Credits: 3

HPED (Health and Physical Education)

HPED 1010 • Historical and Philosophical Foundations in Sport & Culture
This course provides an examination of the cultural meanings of sport, leisure, and physical education; and the place of the body in our culture both historically and in the present This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HPED 1010 and KNES 264.
Hours: 42 hrs (3-0)
Credits: 3

HPED 2507 • Introductory Nutrition
This course will provide the student with a basic understanding of the role of nutrition in health and fitness. By surveying the basics of human nutrition, and considering practical applications, the student will be prepared to apply nutrition guidelines to their individual nutrition needs and those of specialized populations. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HPED 2507 and NUTR 200.
Hours: 42 hrs (3-0)
Credits: 3

HPED 3010 • The Body in Socio-Cultural Studies II
An examination of current methodologies in the study of cultural meaning of sport, leisure and physical education. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both HPED 3010 and KNES 204.
Hours: 42 hrs (3-0)
Credits: 3

IDST (Interdisciplinary Studies)

IDST 100 • Introductory Communications for Helping Professionals
This introductory course provides foundational knowledge and skills in communication for students beginning studies in the helping professions.
Hours: 78 hrs (3-3) 13 wks
Credits: 4
Available On-Site and in a Distributed Learning Format

IDST 485 • Death and Dying
Society’s attitudes towards death and dying, rituals associated with death, and the impact of technology are examined. The effect of death and dying on those who are dying, on their families and friends, and on those providing care and comfort is discussed. NOTE: Students cannot receive credit for both IDST 485 and PSYC 3320.
Hours: 39 hrs (3-0) 13 wks
Credits: 3

IMIN (Infection and Immunity)

IMIN 200 • Infection and Immunity
Prerequisite or Corequisite: CMMB 343 & (BCEM 200 or BCEM 393)
Infection and Immunity introduces the fundamental principles, components and functioning of the immune system. It examines how the immune system responds to each of the three major groups of infectious agents (bacteria, viruses and parasites) and the strategies employed by these agents in order to evade an effective immune response.
Hours: 42 hrs (3-0)
Credits: 3

IMIN 202 • Infection and Immunity for Health Care Professionals
Prerequisite or Corequisite: BIOL 275 and permission of the Dean
Infection and Immunity for Health Care Professionals introduces the fundamental principles, components and functioning of the immune system. It examines how the immune system responds to each of the three major groups of infectious agents (bacteria, viruses and parasites) and the strategies employed by these agents in order to evade an effective immune response.
Hours: 42 hrs (3-0)
Credits: 3
INBU (International Business)

INBU 330 • International Marketing
This course provides students with an understanding of the role of marketing in international business and how it differs from marketing in the domestic market. A brief review of the basic principles of marketing and its relationship to the other functional areas of Marketing will be included. The course will focus on identifying international marketing opportunities and developing appropriate market access strategies. The influence of cultural, political, economic and legal factors on the marketing decisions will be a vital component of the market research which will be used to gain a better understanding of the identified target market.

NOTE: Students cannot receive credit for both INBU 330 and INBU 3302.

Hours: 42 hrs (3-0)
Credits: 3

INBU 3301 • Global Business Environment
An introduction to the field of international business: national economic, political and cultural differences; the issues surrounding globalization; the role of international institutions in facilitating international trade; international trade agreements; the international monetary system; current international business trends and developments. The course will stress Canada’s place in the global economy and the challenges Canadian businesses face in doing international business. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

NOTE: Students cannot receive credit for both INBU 3301 and MGMT 330.

Hours: 42 hrs (3-0)
Credits: 3

INBU 3302 • International Marketing
There are ways to succeed in international marketing and they include understanding who your customers are, what they want and how you can best provide it. International Marketing prepares you to master the challenges of international markets. Topics include domestic versus international marketing, principles of marketing, market research techniques, promotional strategies, pricing, missions and trade fairs and international marketing management. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

NOTE: Students cannot receive credit for both INBU 3302 and INBU 330.

Hours: 42 hrs (3-0)
Credits: 3

ITEC (Information Technology)

ITEC 100 • Professional Communications I
This introductory course helps you develop the skills, strategies, and techniques needed to prepare a variety of business and technical documents. Instruction will include a focus on grammar proficiency, document development, and oral presentation skills. You will use Microsoft Office Suite to create, edit and track changes to documents.

Hours: 70 hrs (2-3)
Credits: 4

ITEC 110 • A+ Computer Technology I
Named after CompTIA A+, a microcomputer industry-wide proficiency standard, this course includes essential operating system competencies and hardware knowledge for a microcomputer service technician. This course will help students prepare for the (optional) CompTIA A+ industry examinations.

Hours: 84 hrs (2-4)
Credits: 4

ITEC 120 • Applied Mathematics
A combination of technical and business mathematics, this course is designed to improve general math and problem solving capabilities particularly in areas relevant to information technology. Topics include a thorough treatment of binary and hexadecimal number systems and related conversions, review of arithmetic and algebra, exponents and logarithmic functions, IP addressing, truth tables, etc. As well as some business mathematics such as percentages, interest, break-even analysis, etc. Lab exercises include hands on work with spreadsheets (e.g. Microsoft Excel) and some programming.

Hours: 70 hrs (2-3)
Credits: 4

ITEC 130 • A+ Computer Technology II
Prerequisite: ITEC 110
This course extends the range and depth of coverage begun in ITEC 110. It is also named after CompTIA A+, a microcomputer industry-wide proficiency standard, and continues coverage of essential operating system competencies and hardware knowledge for a microcomputer service technician. This course will help students prepare for the (optional) CompTIA A+ industry examinations.

Hours: 84 hrs (2-4)
Credits: 4

ITEC 140 • Programming Fundamentals I
Introduction to computer programming using a mainstream object oriented, event driven language. Topics include user interface design, algorithms, and various foundational programming concepts such as types, variables, objects, expressions, control structures, and so on. In the labs you are given the opportunity to complete a variety of event driven, windows based programs.

Hours: 70 hrs (2-3)
Credits: 4

ITEC 145 • Programming Fundamentals II
Prerequisite: ITEC 140
Continuing from ITEC 140, you will continue to develop your expertise in object oriented, event driven programming. Topics include: additional control structures, arrays, subprograms and parameters, file handling, and introduction to classes.

Hours: 70 hrs (2-3)
Credits: 4
ITEC 150 • Application Software
This course focuses primarily on database software and introductory database concepts. Main topics include database design, relationships, tables, queries, forms and reports. Additional software topics include software installation, requirements, licensing, compatibility and data transfer between different applications.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 155 • IT Systems Support
This course examines the installation and use of Linux client/desktop operating systems and the role that the Linux operating system plays in today’s computing environment. Additional topics will focus on system protection. Logical and physical security concepts and crypography will be introduced including such uses as encryption of files, drives, e-mail and public key infrastructure. Students will also use a variety of methods to detect, remove and prevent malware infections. This course will help students prepare for the (optional) CompTIA A+ industry examinations.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 170 • Networking Fundamentals
This course covers networking and communications fundamentals and terminology, communication protocols, the OSI model, TCP/IP and encapsulations. You will work with current networking hardware and software to study the appropriate configuration of these components. Networking concepts such as routing and remote access are introduced in the context of an Internet connection. The course represents the program’s primary preparation for the CompTIA Network+ certification exam which you will be encouraged to complete by the middle of the third term of the IT program.
Hours: 84 hrs (2-4)
Credits: 4

ITEC 180 • Business and Accounting Principles
You are introduced to the terms, concepts and practices of business as well as elementary accounting (the accounting cycle, the accounting equation, and financial statements). Through a business simulation, you will learn about the business environment, organization, management, marketing, and financial considerations of operating and being part of a business. You will use Microsoft Office Suite to create and edit professional-looking spreadsheets and documents for a variety of purposes and situations.
Hours: 70 hrs (3-2)
Credits: 4

ITEC 190 • Web Development I
Focus is on the development of web pages and complete web sites. Utilizing HTML and/or XHTML you are introduced to various tags, attributes and scripting syntax necessary to ready text and images for use on the World Wide Web. Enabling technologies such as browser software and web page publishing are also covered.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 205 • Work Experience Preparation
Prerequisite: ITEC 100
This course prepares students in the Co-op stream for the work experience, ITEC 291. Seminars are given to help you improve resume writing skills, acquaint yourself with workplace procedures, familiarize yourself with job interviews and the co-op evaluation process. Successful completion of the course will enable you to make a smooth transition to the workplace for your co-op term.
Hours: 14 hrs (1-0)
Credits: 1

ITEC 230 • Emerging Technologies I
Prerequisite: ITEC 140 or ITEC 170
New technologies continually rise to prominence in information technology. This course focuses on important current technologies that round out the skill set of the information technology graduate. Students will choose from a number of technical ‘modules’ that allow them to focus their studies and build their strengths in certain areas of their choice.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 235 • Emerging Technologies II
Prerequisite: ITEC 140 or ITEC 170
Students will select a number of learning modules focused on current topics. This course will include a self-directed capstone project.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 240 • Web Server Administration
This course focuses on the systems administration of Web servers and sites. Topics include the installation, configuration, monitoring, maintenance and management of at least two variations of server environments (currently Microsoft Internet Information Services [IIS] and Linux Apache). Emphasis is on practical, hands-on application and configuration.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 260 • Applied Technical Support I
Prerequisite: ITEC 130
This course prepares students to provide technical support in industry. You learn how to deal effectively with a wide variety of customer situations and to create positive interaction between customers and co-workers. Practical experience gained by completing projects in the community is a major component of this course.
Hours: 70 hrs (2-3)
Credits: 4

ITEC 265 • Applied Technical Support II
Prerequisite: ITEC 260
Being an integral part of the Information Technology Support function can be challenging, frustrating, and exciting all at once. This course continues from ITEC 260 and teaches innovative and “best practice” techniques in solving problems and developing solutions to meet client needs. Hands-on projects and ‘real-world’ experience continue to provide students with job preparation.
Hours: 70 hrs (2-3)
Credits: 4
ITEC 270 • Database Management I
An introduction to data, databases, and data management, this course offers a combination of theory and hands-on experience necessary for a foundational understanding of data management. Topics include database design and normalization, Structured Query Language (SQL), indexes, forms, queries and reports.

**Hours:** 70 hrs (2-3)
**Credits:** 4

ITEC 275 • Database Management II
**Prerequisite:** ITEC 270
Following ITEC 270, you expand your ability to analyze and develop database related applications. Course topics include examination of client server models, multi-user support, distributed databases, Internet connectivity, and n-tier software design. In the labs, you work on developing solutions for various business data management applications using relevant software development tools and programming for Internet/Intranet and or Windows.

**Hours:** 70 hrs (2-3)
**Credits:** 4

ITEC 285 • Security
**Prerequisite:** ITEC 170
This course focuses on the operational and technical aspects of computer and network security such as managing permissions, accounts, security updates, virus protection, encryption, firewall installation and configuration, network monitoring, and auditing.

**Hours:** 70 hrs (2-3)
**Credits:** 4

ITEC 291 • Work Experience
**Prerequisite:** ITEC 205
The work experience is the core of the Co-op stream of the Information Technology program. You will be placed in employment situations at competitive wages with local employers. Progress will be evaluated by employers, students and Co-op Coordinator who will supervise the course. The work experience normally takes place in the spring/summer session between the first and second years of the Information Technology program. Graded on a CR (Pass)/NC (Fail) basis. Total tuition for this course is $814.16.

**Hours:** 4 mths
**Credits:** 15

ITPL (Information Technology Placement)

**ITPL 220 • Information Technology Career Advancement**
This course provides special coverage of new and emerging technologies within the computer industry and/or relevant industry certification topics.

**Hours:** 70 hrs (0-17.5) 4 wks
**Credits:** 4

KNES (Kinesiology)

KNES 200 • Developing Critical Thinking
Critical thinking is designed to improve your ability to analyze and evaluate the kinds of arguments and assertions commonly met within everyday life. This course also helps you improve your own arguments and presentations by showing you how to draw sound conclusions from available evidence, and how to construct well-reasoned cases to support these conclusions.

**Hours:** 42 hrs (1.5-1.5)
**Credits:** 3

KNES 203 • Principles and Concepts of Physical Activity
Exploration of the principles and concepts that underlie movement of individuals and groups in a variety of settings. It is designed as a lead up course to the required study of Biomechanics. The focus of the course is the development of a conceptual understanding of movement. A wide range of activities and their contexts is examined and experienced.

**Hours:** 56 hrs (1-3)
**Credits:** 3

KNES 204 • Sociocultural Aspects of Leisure and Sport
Course focuses on the study of play, physical education, recreation, sport, and leisure as institutionalized ways in which society organizes and teaches attitudes and skills. NOTE: Students cannot receive credit for both KNES 204 and HPED 3010.

**Hours:** 42 hrs (3-0)
**Credits:** 3

KNES 206 • Psychology of Sport and Physical Activity
**Prerequisite:** PSYC 205
This course introduces you to select psychological theory as it relates to sport and physical activity. Psychological constructs along with their theoretical perspectives will be viewed within a cognitive, emotional and behavioral framework. NOTE: Students cannot receive credit for both KNES 206 and PHYL 2510.

**Hours:** 42 hrs (3-0)
**Credits:** 3

KNES 210 • Motor Skill Acquisition and Performance
This course presents a behavioral approach to understanding human movement. The course examines the processes involved in learning motor skills and controlling movement, and the factors that influence acquisition and performance. The course content relies on theoretical frameworks and empirical support for principles of motor control and learning. Critical neural and cognitive concepts underlying an understanding of human behavior in physical activity, sport and health are also examined.

**Hours:** 42 hrs (3-0)
**Credits:** 3

KNES 211 • Leadership Communication and Instruction
Focus on the study and application of knowledge, skills, and abilities that contribute to effective leadership and communication in kinesiology and physical education. This course provides study and application of theories, concepts, skills, and practice of effective communication, leadership, and instruction in fitness leadership, sport leadership, physical activity settings, and other related professional areas.

**Hours:** 70 hrs (3-2)
**Credits:** 4

MHC CALENDAR 2020/2021  221
KNES 212 • Research Methods in Kinesiology
Prerequisite: STAT 251 or STAT 333
An introduction to research in Kinesiology, with an emphasis on a practical application of research techniques and design. Learning how to evaluate and design combining critical thinking to understand the various types of qualitative, quantitative and mixed research methods.
Hours: 42 hrs (3-0)
Credits: 3

KNES 220 • Prevention and Care of Athletic Injuries
Prerequisite: KNES 261 or BIOL 275 & BIOL 277
The principles of injury prevention, and the study of selected sports injuries and how to manage them are studied in this course. Upon successful completion of this course, students can apply to the Sports Medicine Council of Alberta for an equivalency certificate in Athletic First Aid and Sport Taping and Strapping. This course includes an additional fee for taping and strapping supplies.
Hours: 70 hrs (3-2)
Credits: 4

KNES 240 • Adapted Physical Education
An introduction to research, theory and practice pertaining to participation in sport, physical education and leisure by persons with impairments. NOTE: Students cannot receive credit for both KNES 240 and PHYL 3320.
Hours: 56 hrs (3-1)
Credits: 3

KNES 247 • Introduction to Wellness, Fitness & Nutrition
This course is designed to introduce students to the general concepts of wellness, fitness and nutrition. Topics include dimensions of wellness, nutrition and body composition, components of fitness, exercise prescription and physical activity. Laboratory experiences will provide students with an introduction to basic wellness activities that, in combination with lecture material, can be applied to individual needs and circumstances.
Hours: 70 hrs (3-2)
Credits: 4

KNES 250 • Introduction to the Administration of Sport and Physical Education Programs
Course provides you with the basic skills required to successfully administer a sport and/or Physical Education Program.
Hours: 56 hrs (3-1)
Credits: 3

KNES 255 • Biomechanics
Prerequisite: KNES 261 or BIOL 275 & BIOL 277
Corequisite: KNES 265 or permission of Dean
Recommended Background: PHYS 20 & MATH 30
An introduction to the biomechanics of movement. Both qualitative and quantitative approaches are used in the study of key biomechanical concepts and principles as they are applied to sport and exercise.
Hours: 70 hrs (3-2)
Credits: 4

KNES 260 • Introduction to Coaching
Coaching theory, incorporating components of the National Coaching Certification Program, is part of this course. This class has supplemental costs for certification requirements. Students will complete the National Coaching Certification Program (NCCP)

KNES 261 • Human Anatomy
Topics for this course include: Systemic human anatomy, and a study of anatomical systems and their structural interrelationships - skeletal, arthrodial, muscular, circulatory, digestive, respiratory, urogenital and neural.
Hours: 84 hrs (3-3)
Credits: 4

KNES 264 • History and Philosophies of Physical Education, Sports and Recreation
A study of the philosophies and the development of physical education, sport, recreation and athletics from ancient to modern times. The Canadian setting is emphasized. NOTE: Students cannot receive credit for both KNES 264 and HPED 1010.
Hours: 42 hrs (3-0)
Credits: 3

KNES 265 • Functional Anatomy
Prerequisite: KNES 261
The application of anatomical and mechanical principles as they relate to human movement in sport, physical education, and daily activities. The focus will be on incorporating knowledge associated with the skeletal, muscular, and nervous systems to perform in-depth analyses of various movement situations.
Hours: 70 hrs (3-2)
Credits: 4

KNES 281 • Introduction to Movement Activities of Children and Youth
Introduction to the theory and practice of instruction in physical activity settings, instructional techniques are applied to a variety of activities and environments in order to enhance the development of instructional skills that can promote skill learning.
Hours: 56 hrs (2-2)
Credits: 3

KNES 290 • Growth and Development
Study of the sequential changes in physical growth and motor development with emphasis on individual differences.
Hours: 70 hrs (3-2)
Credits: 4

KNES 373 • Exercise Physiology
Prerequisite: PHSL 370
Corequisite: PHSL 371
This course will provide an overview of acute physiological responses and chronic adaptations to exercise. Focus will be on the nervous, muscular, cardiovascular and respiratory systems as well as the effects of exercise and training on the human body as a whole.
Hours: 84 hrs (3-3)
Credits: 4
LING (Linguistics)

LING 201 • Introduction to Linguistics I
This course provides a survey of basic linguistic concepts, including universals of language, linguistic rules, articulatory phonetics, the phonology of English and other languages, words and meaning, and the formation of sentences. NOTE: Students cannot receive credit for both LING 201 and LING 1111.
Hours: 42 hrs (3-0)
Credits: 3

LING 203 • Introduction to Linguistics II
Prerequisite: LING 201
This course focuses on language in historical and social contexts; writing systems; language families and areas; elements of sociolinguistics/psycho linguistics; and Canadian bilingualism. NOTE: Students cannot receive credit for both LING 203 and LING 1113.
Hours: 42 hrs (3-0)
Credits: 3

LING 1111 • The Nature of Language I
This course provides a survey of the field of theoretical linguistics: its content, techniques and objectives through the solution of problems from selected languages. Topics include articulatory phonetics and phonology; words and their meaning; and the formation of sentences. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both LING 201 and LING 1111.
Hours: 42 hrs (3-0)
Credits: 3

LING 1113 • The Nature of Language II
Prerequisite: LING 201 or LING 1111
This course provides a survey of the field of applied linguistics: its content, techniques and objectives. Topics include language in historical and social context; language change and variation; language families; writing systems; language acquisition; and psycholinguistics. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both LING 201 and LING 1113.
Hours: 42 hrs (3-0)
Credits: 3

LSCM (Logistics and Supply Chain Management)

LSCM 3403 • Operations Management
Prerequisite: MGMT 284 or STAT 251
This course is a survey of the decision processes in production and operations management, and the relationship to other business areas. Topics covered include forecasting, product and service design, capacity planning, waiting line models, facility location and layout, process selection, design of work systems, linear optimization, quality inspection and control, life cycle management, inventory management, aggregate planning, material requirements planning, project operations management, and operation scheduling. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both LSCM 3403 and MGMT 440.
Hours: 42 hrs (3-0)
Credits: 3

MATH (Mathematics)

MATH 007 • Developmental Math Skills
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.
This course is designed to give you a review of basic skills in arithmetic. Topics may include basic arithmetic operations, fractions, decimals, and an introduction to solving equations.
Hours: 84 hrs (6-0)
Credits: 4

MATH 008 • Fundamental Math Skills
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.
This course is designed to give you a review of basic skills in arithmetic and extend the concepts learned in MATH 007. Topics may include basic arithmetic operations, fractions, decimals, solving equations, ratios, and percents.
Hours: 84 hrs (6-0)
Credits: 4

MATH 009 • Intermediate Math Skills
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.
This course is designed to give you a review of basic skills in arithmetic and extend the concepts learned in MATH 008. Topics may include basic arithmetic operations, fractions, decimals, ratios, percent, measurement, geometry, real numbers and an introduction to algebra. Upon successful completion of MATH 009, you will be prepared to proceed to MATH 010R, MATH 010FN, or MATH 010.
Hours: 84 hrs (6-0)
Credits: 4

MATH 010 • Developmental Math Skills
Prerequisite: Placement in the appropriate level is based on an assessment evaluation. In order to register in the course, you must have the approval of the instructor.
This course is designed to give you a review of basic skills in arithmetic and extend the concepts learned in MATH 007. Topics may include basic arithmetic operations, fractions, decimals, ratios, percent, measurement, geometry, real numbers and an introduction to algebra. Upon successful completion of MATH 009, you will be prepared to proceed to MATH 010R, MATH 010FN, or MATH 010.
Hours: 84 hrs (6-0)
Credits: 4
MATH 010 • Introductory Algebra
Prerequisite: 1) A grade of A or higher in MATH 009 or equivalent, OR 2) a grade of B or higher in MATH 010R
This course has the transfer equivalency of Alberta Education's MATH 10C and consists primarily of the topics in the MATH10C program. Topics include the real number system, linear equations and inequalities, linear systems and graphing, and polynomials. Rational expressions, radicals, quadratic equations, and trigonometry will be introduced.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 010FN • Introductory Math Foundations
Prerequisite: 1) A grade of A or higher in MATH 009 or equivalent, OR 2) Successful completion of MATH 010R or equivalent
This is the first course in the MATH 010FN/020FN/030FN sequence. Topics include a review of number skills, geometry and measurement, radicals, polynomials and factoring, coordinate geometry, and trigonometry.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 020 • Intermediate Math
Prerequisite: MATH 010 or equivalent
This course has the transfer equivalency of Alberta Education's MATH 20-1 and consists primarily of the topics in the MATH 20-1 program. Topics at this level include linear equations and inequalities, graphs and functions, linear systems, polynomials, rational expressions, radicals, exponents, and quadratics.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 020FN • Intermediate Math Foundations
Prerequisite: MATH 010FN or MATH 010 or equivalent
This is the second course in the MATH 010FN/020FN/030FN sequence. This course has the transfer equivalency of MATH 20-2 and consists primarily of the topics found in the MATH 20-2 program. The content covered includes a review of operations on real numbers, equations and inequalities, coordinate geometry, trigonometry, polynomials and factoring, and quadratic equations.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 030 • Algebra and Trigonometry
Prerequisite: MATH 020 or equivalent
This course has the transfer equivalency of MATH 30-1 and consists primarily of the topics found in the current MATH 30-1 program. The content includes a review of basic concepts and a study of some special functions and conic sections. The functions of special interest are polynomial, exponential, logarithmic and trigonometric.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 030FN • Senior Math Foundations
Prerequisite: MATH 020FN or MATH 020 or equivalent
This is the last course in the MATH 010FN/MATH 020FN/MATH 030FN sequence. This course has the transfer equivalency of MATH 30-2 and consists primarily of the topics found in the MATH 30-2 program. The content covered includes a review of basic algebra, equations and inequalities, rational expressions, polynomials and factoring, functions and graphing, logarithms and exponential functions, and probability.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 031 • Introduction to Calculus
Prerequisite: MATH 030 or equivalent
This course has the transfer equivalency of Alberta Education's Math 31 and consists primarily of the topics in the MATH 31 program. This course is designed to prepare you for courses such as MATH 202, MATH 203, MATH 221, and CHEM 201. Topics include a pre-calculus review, limits, differentiation, applications of differentiation, and an introduction to integration.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

MATH 150 • Technical Math
An introductory mathematics course for engineering technicians. Elementary algebra, geometry, and trigonometry will be introduced to prepare students to solve mathematical problems at a technician level. Students will learn and employ mathematical strategies such as models, geometric representations, formulas, algebraic equations, descriptive statistical methods and mathematical reasoning.
Hours: 70 hrs (5-0)
Credits: 4

MATH 160 • Mathematical Literacy for the 21st Century
Prerequisite: MATH 30-1 or MATH 30-2
Mathematics often comes to us as pre-packaged collections of abstract concepts, words, symbols, relations, and manipulations. Typically, individuals memorize "one-size-fits-some" algorithms but remain perplexed at how, when, or why these methods work. This course tracks the historical and conceptual foundations of mathematics with a view to understanding mathematics as a language and way of thinking and discovering its relevance to our world.
Hours: 56 hrs (3-1)
Credits: 3
MATH 202 • Elementary Calculus I  
**Prerequisite:** MATH 30-1 or equivalent  
A review of analytical geometry, functions and graphs. Differentiation and integration of polynomial, trigonometric, exponential and logarithmic functions; applications including curve sketching and optimization; and the fundamental theorem of calculus are featured.  
**Hours:** 56 hrs (4-0)  
**Credits:** 3

MATH 203 • Elementary Calculus I  
**Prerequisite:** MATH 30-1 & MATH 31 or equivalents  
Topics of this course include: A review of analytical geometry, functions and graphs; differentiation and integration of polynomial, trigonometric, exponential and logarithmic functions; applications including curve sketching and optimization; and the fundamental theorem of calculus. **NOTE:** Credit not given if credit for MATH 202 completed.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MATH 204 • Elementary Calculus II  
**Prerequisite:** MATH 202 or MATH 203  
Topics of this course include the inverse trigonometric functions; techniques of integration; indeterminate forms; improper integrals; applications including areas and volumes; power series, Taylor series; differential equations, including separable equations, linear first order, and linear second order equations with constant coefficients.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MATH 221 • Linear Algebra  
**Prerequisite:** 1) a grade of 70% or higher in MATH 30-1, or, 2) a grade of 60% or higher in MATH 31, or, 3) MATH 202 or MATH 203 or AMAT 217.  
Topics of this course include systems of equations and matrices, vector geometry in two and three dimensions, vectors in n-space, matrix algebra and determinants. Introduction to linear transformations; complex numbers, eigenvalues, eigenvectors; orthogonality; and applications in the physical science.  
**Hours:** 56 hrs (4-0)  
**Credits:** 3

MATH 271 • Discrete Mathematics  
**Prerequisite:** MATH 221  
This course features sets and relations; functions; induction; counting, recurrence and trees; symbolic logic; graphs; and applications.  
**Hours:** 56 hrs (4-0)  
**Credits:** 3

MATH 311 • Linear Methods II  
**Prerequisite:** MATH 221  
This course features: vector spaces and subspaces; linear independence; matrix representation of linear transformations; eigenvalues and eigenvectors; quadratic forms; inner products; and Gram-Schmidt orthogonalization. This course is available as a directed study course. **For more information, consult the Dean of Science.**  
**Hours:** 56 hrs (3-1T)  
**Credits:** 3

MATH 331 • Calculus and Linear Algebra  
**Prerequisite:** MATH 204  
A brief introduction to linear algebra, this course features calculus of functions of several variables and an introduction to vector analysis. **NOTE:** Credit is allowed for only one of MATH 331, MATH 353 or AMAT 309. This course is available as a directed study course. For more information, consult the Dean of Science.  
**Hours:** 56 hrs (3-1T)  
**Credits:** 3

MATH 349 • Calculus III  
**Prerequisite:** MATH 204 & MATH 221  
This course features parametric curves, polar coordinates, and differentiation and integration of vector-valued functions; infinite sequences and series as well as Taylor polynomials; vector geometry; the functions of several variables; differentiation, implicit functions, extreme values, and double and triple integration; and applications. This course is available as an independent study course. For more information, consult the Dean of Science.  
**Hours:** 56 (4-0)  
**Credits:** 3

MGMT (Management)  

MGMT 161 • Management Theory  
Focus of this course is on the management functions of planning, organizing, leading and controlling within the context of today's dynamic and changing world. Specific topics include strategic planning, decision making, organizational design, staffing, motivation, and ethics.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 193 • Business Problems Software Applications  
This course is designed to challenge you to think critically and to find effective solutions to realistic business problems. You will use contemporary and integrated software applications including Microsoft Office as the tools to analyze business problems for decision making. **NOTE:** Students cannot receive credit for both MICO 193 and MGMT 193.  
**Hours:** 70 hrs (0-5)  
**Credits:** 4

MGMT 230 • Management Principles for Power Engineers  
Course focuses on three components of management for power engineers. The first component provides an overview of the general elements of management and touches on topics such as planning, decision-making, human resource management, and communications. The second component addresses the management of plant maintenance and covers topics such as preventative and corrective maintenance, scheduling, and plant budgeting. The last section focuses on the processes and management of plant safety.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 243 • Human Resource Management  
This course examines a range of topics essential to effective management of human resources in today's organizations. Topics include job analysis, performance appraisal, employee selection, training, compensation, and labour relations.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3
MGMT 250 • Hotel and Resort Management  
Prerequisite: MGMT 161 or MGMT 263 & Second Year Standing  
This course examines a range of topics essential to effective management of hotel and resort operations. Topics include guest services, the role of the general manager, accounting, revenue management, front office, housekeeping, and property operations and maintenance.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 252 • Food and Beverage Management  
Prerequisite: MGMT 161 or MGMT 264 & Second Year Standing  
This course builds on basic management theory as it relates to the restaurant industry. Topics covered include restaurant management, marketing, service-delivery, menu creation, site selection, and interior design. The topic of cost control is also introduced.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 254 • Introduction to Tourism Marketing  
Prerequisite: MKTG 171  
This course covers the basic principles of marketing, specifically focusing on the tourism and hospitality industry. Central to the course is understanding key components of marketing, information systems, marketing research, consumer behavior, pricing and promotion, components of the marketing plan, and destination marketing.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 263 • Organizational Behaviour  
A behavioral approach to the understanding of people who influence the workings of organizations. Topics of study include team dynamics, motivation, communication, leadership, decision-making, and organizational culture.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 267 • Leadership Development  
Prerequisite: MGMT 161 or MGMT 263 & second year standing  
This course provides an introduction to leadership issues and focuses on developing knowledge and capacities that contribute to leadership success. This course assumes a personal level of interest in the subject: the purpose in learning about leaders and leadership is to enable you to become a better leader. The focus is not so much on leadership in terms of content, but more so about leadership processes and in developing your self-confidence and the skills necessary to lead. Topics include knowledge of leadership techniques and theories, teamwork, learning styles, values, personal needs, behavioral styles, individual and group conflict, and supportive communications. NOTE: Students cannot receive credit for both MGMT 267 and MGMT 4431.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 268 • Business Integration  
Prerequisite: (ACCT 113 or ACCT 321) & MGMT 161 & second year standing  
Business Integration is the study of general management. The general manager’s primary responsibility is the direction and performance of an organization as a whole. The pervasive concept in the Business Integration course is that of strategy as a general management tool to guide the survival, growth and profitability of an enterprise. The case analysis approach is used extensively to uncover the social, political, and competitive environments faced by organizations in developing viable strategic choices.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 270 • The Entrepreneurial Experience  
This highly experiential course develops an understanding of entrepreneurship and builds awareness of the experiences an entrepreneur will have in the real world. You will be exposed to industry entrepreneurs and participate in entrepreneurial competitions. A framework of entrepreneurial attitudes, behaviors and skills will be examined based on current entrepreneurial research and practices observed in industry. Entrepreneurial experiences are explored in developing and industrial nations, in new and existing companies and in non-profit settings. NOTE: Students cannot receive credit for both MGMT 270 and MGMT 215. NOTE: Students cannot receive credit for both MGMT 270 & ENTR 2301.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

MGMT 284 • Business Statistics I  
This course introduces descriptive and inferential statistical analysis while emphasizing thinking skills and computer literacy. Topics include descriptive statistics, probability theory, simple random samples, discrete and continuous random variables, the central limit theorem, confidence intervals and hypotheses testing. This course will emphasize the application of statistical analysis to business situations, the understanding of which will be further enhanced through exposure to current statistical computer software.  
**Hours:** 56 hrs (4-0)  
**Credits:** 3

MGMT 285 • Business Statistics II  
Prerequisite: MGMT 284  
This second level course in applied statistics examines inferential statistical analysis while emphasizing thinking skills and computer literacy. Topics include parametric and nonparametric hypothesis testing procedures. Simple and multiple regression analysis will also be examined and applied to business situations. The understanding of the course material will be further enhanced through exposure to both manual and computerized methods using current statistical computer software.  
**Hours:** 56 hrs (4-0)  
**Credits:** 3

MGMT 326 • Management Information Systems  
Prerequisite: ACCT 113 or ACCT 321  
This course focuses on the role of information technology in an organization and its application to business problems. Techniques for designing, implementing and managing information systems are presented. Topics covered include hardware and software, file
management, database organization, networking and telecommunications, systems development and design, flowcharting, system security, backup and recovery, and artificial intelligence. NOTE: Students cannot receive credit for both MGMT 326 and MGMT 3265.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 330 • Global Business Environment
An introduction to the field of international business: national economic, political and cultural differences; the issues surrounding globalization; the role of international institutions in facilitating international trade; international trade agreements; the international monetary system; current international business trends and developments. The course will stress Canada’s place in the global economy and the challenges Canadian businesses face in doing international business. NOTE: Students cannot receive credit for both MGMT 330 and INBU 3301.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 395 • Business Law
An analysis of the legal framework of law that establishes the basis for rules of conduct among business people and that influences business policy, this course seeks to develop insight into the functions of the law as a system of social thought and economic development. Course deals with the importance and role of law in society, the legal system of Canada, private property and contract, and legal attitudes toward business. Tort, contract, and law of negotiable instruments are emphasized.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 440 • Operations Management
Prerequisite: MGMT 284 or STAT 251
This course is a survey of the decision processes in production and operations management, and the relationship to other business areas. Topics covered include forecasting, product and service design, capacity planning, waiting line models, facility location and layout, process selection, design of work systems, linear optimization, quality inspection and control, life cycle management, inventory management, aggregate planning, material requirements planning, project operations management, and operation scheduling. NOTE: Students cannot receive credit for both MGMT 440 and LSCM 3403.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 443 • Business Plan Development
Prerequisite: ACCT 215 & (MGMT 161 or MGMT 270) & MKTG 171
You will be able to prepare and present a solid business plan for new or existing enterprise. Areas covered will include identifying and assessing opportunities, developing a winning strategy, identifying resource requirements and selling the plan to financing sources. NOTE: Students cannot receive credit for both MGMT 443 and ENTR 4433.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 533 • Strategic Management
Prerequisite: ACCT 215 & FINA 255 & MGMT 243 & MGMT 263 & MKTG 171
Prerequisite or Corequisite: MGMT 440
This capstone course develops the conceptual and applied skills associated with analyzing a competitive situation from a general management point of view. It addresses issues affecting the fundamental direction of the firm, considers the formulation and implementation of strategy, focuses on the extent to which different aspects of the firm fit with key environmental forces, and discusses the organization’s ability to leverage its unique core competencies. The course views the organization holistically and, as such, goes beyond the mere integration of specific organizational functions. NOTE: Students cannot receive credit for both MGMT 533 and MGMT 5333.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 3265 • Management Information Systems
Prerequisite: ACCT 113 or ACCT 321
This course focuses on the role of information technology in an organization and its application to business problems. Techniques for designing, implementing and managing information systems are presented. Topics covered include hardware and software, file management, database organization, networking and telecommunications, systems development and design, flowcharting, system security, backup and recovery, and artificial intelligence. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

NOTE: Students cannot receive credit for MGMT 326 and MGMT 3265.

Hours: 42 hrs (3-0)
Credits: 3

MGMT 4431 • Leadership Development
Prerequisite: MGMT 263
Introduction to leadership issues and focuses on developing knowledge and capacities that contribute to leadership success. This course assumes a personal level of interest in the subject: the purpose in learning about leaders and leadership is to enable you to become a better leader. The focus is not so much on leadership in terms of content, but more so about leadership processes and in developing your self-confidence and the skills necessary to lead. Topics include knowledge of leadership techniques and theories, teamwork, learning styles, values, personal needs, behavioral styles, individual and group conflict, and supportive communications. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

NOTE: Students cannot receive credit for both MGMT 4431 and MGMT 267.

Hours: 42 hrs (3-0)
Credits: 3
MGMT - MKTG

MGMT 5333 • Strategic Management
Prerequisite: (ACCT 215 or ACCT 323 or ACCT 3224) & FINA 255 & MKTG 243 & MKTG 263 & MKTG 171
Prerequisite or Corequisite: MGMT 440 or LSCM 3403
This capstone course develops the conceptual and applied skills associated with analyzing a competitive situation from a general management point of view. It addresses issues affecting the fundamental direction of the firm, considers the formulation and implementation of strategy, focuses on the extent to which different aspects of the firm fit with key environmental forces, and discusses the organization’s ability to leverage its unique core competencies. The course views the organization holistically and, as such, goes beyond the mere integration of specific organizational functions. Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both MGMT 5333 and MGMT 533.
Hours: 42 hrs (3-0)
Credits: 3

MICO (Microcomputers)

MICO 191 • Introduction to Microcomputers
This course provides an overview of commercial business software packages, with emphasis on word-processing, spreadsheet, database, and presentation software. An introduction to the Internet is also included. It is recommended that if you are registering in MICO 191 you have a minimum keyboarding speed of 20 wpm. NOTE: Students cannot receive credit for both MICO 191 and COMP 1103.
Hours: 42 hrs (3-0)
Credits: 3
Available On-Site and in a Distributed Learning Format

MKTG (Marketing)

MKTG 171 • Marketing
Introductory look at the concepts and activities involved in the marketing of goods and services. Central to the course is understanding the marketing mix variables of product, pricing, promotion, and distribution. Other topics include consumer behavior, marketing research, and the strategic marketing process.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 206 • Advertising and Promotions
Prerequisite: MKTG 171 or 3rd year standing in Visual Communications Program
Introduction to the fast changing field of advertising and promotion. While advertising is a primary focus of the course, it is but one element of a larger integrated marketing communications perspective. Course content includes the role of advertising and promotion in marketing, communication theories and models of how consumers respond to advertising, creative strategy, media planning, and promotional tools including sales promotion, publicity, and direct marketing.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 208 • Professional Selling Skills
This course is designed to provide the fundamental knowledge of the principles and skills required by today's salesperson. Lectures on such subjects as qualifying prospects, making forceful sales presentations, and building long term relationships with clients will be supplemented by case studies, class discussions, and student sales presentations.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 271 • Consumer Behaviour
Prerequisite: MKTG 171
Developed to follow MKTG 171, this course concentrates on the area of consumer marketing as follows: Market classification, the Canadian market, customer analysis, marketing management and consumer preparation, attitudes, and reaction.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 272 • Marketing Research
Prerequisite: MKTG 284 & MKTG 171
A study of the methodology of problem definition, data collection, analysis of data, and presentation of results for problems in the area of marketing. Research methods that can be utilized in all functions of business are outlined, with an emphasis on the marketing function. Specific areas of marketing research (including product research and advertising research) are discussed.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 280 • International Business and Culture
Prerequisite: MKTG 171 or permission of the Dean
Designed to provide specific knowledge about particular countries, this course presents an opportunity for an international experience, including the study of the business culture, competitive opportunities and challenges in these locations. Fee approximately $4500 (dependant on destination).
Hours: 70 hrs (17.5 - 0) 4 wks
Credits: 4

MKTG 315 • Science of Persuasion
Prerequisite: MKTG 171
Marketing ultimately hinges on the ability to comprehend human motivation in order to understand the attitudes and behaviours of people and organizations. In this course, students investigate the theory and practice of persuasion, learning to use these concepts to develop persuasive and compelling stories in visual, verbal and written formats. NOTE: Students cannot receive credit for both MKTG 315 and MKTG 3150.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 325 • Evidence-Based Marketing
Prerequisite: MKTG 171
This course explores the goals of evidence-based marketing and essential methodologies used to gain insight. Students will have the opportunity to learn how to support effective marketing decisions through focused marketing research and analysis. A key outcome of this course is the initial development of a student's marketing portfolio. NOTE: Students cannot receive credit for both MKTG 325 or MKTG 3258.
Hours: 42 hrs (3-0)
Credits: 3
MKTG 345 • Managing Marketing Relationships
Prerequisite: MKTG 171 or MKTG 325
Business success depends on relationships with diverse groups of people, including customers, employees, shareholders, suppliers, distribution partners, communities and regulators. In this course students will learn to identify, evaluate and prioritize these relationships. This will include areas of study such as social exchange theory, market segmentation and network analysis.
NOTE: Students cannot receive credit for both MKTG 345 and MKTG 3458.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 355 • Creating Brand Intelligence
Prerequisite: MKTG 315 or MKTG 3150 or 3rd year standing in the Visual Communications Program
Meaningful marketing campaigns are developed through a trans-disciplinary, rigorous, and creatively-driven process. In this course, students are immersed in the deconstruction, critique and reconstruction of the creative and emotional potential of existing marketing assets.
Using Brand Intelligence tools and techniques, student then reframe, redesign, rewrite and develop new narrative elements for extraordinary advertising and promotion campaigns.
NOTE: Students cannot receive credit for both MKTG 355 and MKTG 3550.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 358 • Navigating Marketing Trends
Prerequisite: MKTG 325 or MKTG 3258
The marketer’s ability to understand complex issues today and anticipate change in the future drives competitive advantage. In this course, students will learn to determine the relevant contextual variables that impact strategy, such as the size and culture of the business, the nature of the industry, the competitive dynamics, and the relevant political, legal, social and technological trends.
NOTE: Students cannot receive credit for both MKTG 358 and MKTG 3558.
Hours: 42 (3-0)
Credits: 3

MKTG 3150 • Science of Persuasion
Prerequisite: MKTG 171
Marketing ultimately hinges on the ability to comprehend human motivation in order to understand the attitudes and behaviours of people and organizations. In this course, students investigate the theory and practice of persuasion, learning to use these concepts to develop persuasive and compelling stories in visual, verbal and written formats. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College but pay MRU fees. NOTE: Students cannot receive credit for both MKTG 3150 and MKTG 315.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 3258 • Evidence-Based Marketing
Prerequisite: MKTG 171
This course explores the goals of evidence-based marketing and essential methodologies used to gain insight. Students will have the opportunity to learn how to support effective marketing decisions through focused marketing research and analysis. A key outcome of this course is the initial development of a student’s marketing portfolio. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College but pay MRU fees. NOTE: Students cannot receive credit for both MKTG 3258 and MKTG 325.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 3458 • Managing Marketing Relationships
Prerequisite: MKTG 325 or MKTG 3258
Business success depends on relationships with diverse groups of people, including customers, employees, shareholders, suppliers, distribution partners, communities and regulators. In this course students will learn to identify, evaluate and prioritize these relationships. This will include areas of study such as social exchange theory, market segmentation and network analysis.
This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College but pay MRU fees. NOTE: Students cannot receive credit for both MKTG 3458 and MKTG 345.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 3550 • Creating Brand Intelligence
Prerequisite: MKTG 315 or MKTG 3150
Meaningful marketing campaigns are developed through a trans-disciplinary, rigorous, and creatively-driven process. In this course, students are immersed in the deconstruction, critique and reconstruction of the creative and emotional potential of existing marketing assets.
Using Brand Intelligence tools and techniques, student then reframe, redesign, rewrite and develop new narrative elements for extraordinary advertising and promotion campaigns.
This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College but pay MRU fees. NOTE: Students cannot receive credit for both MKTG 3550 and MKTG 355.
Hours: 42 hrs (3-0)
Credits: 3

MKTG 3558 • Navigating Marketing Trends
Prerequisite: MKTG 325 or MKTG 3258
The marketer’s ability to understand complex issues today and anticipate change in the future drives competitive advantage. In this course, students will learn to determine the relevant contextual variables that impact strategy, such as the size and culture of the business, the nature of the industry, the competitive dynamics, and the relevant political, legal, social and technological trends.
Third and Fourth years of the BBA program are Mt. Royal University courses. The numbering system is based upon their guidelines. NOTE: Students cannot receive credit for both MKTG 3558 and MKTG 358.
Hours: 42 hrs (3-0)
Credits: 3
MUHL (Music History and Literature)

MUHL 209 • Music Past and Present
Directed listening to and study of important music of the past and present. Course is intended for non-majors.
Hours: 42 hrs (3-0)
Credits: 3

MUHL 211 • Music and the Humanities
Study of the interrelationship of music and the humanities in a broad cultural and historical framework. Course is intended for non-majors.
Hours: 42 hrs (3-0)
Credits: 3

MUPF (Music Performance)

MUPF 201 • Chamber Choir I
Prerequisite: Successful audition
Performance experience in the Chamber Choir.
Hours: 42 hrs (0-3A)
Credits: 1.5

MUPF 202 • Chamber Choir I
Prerequisite: Successful audition
Performance experience in the Chamber Choir.
Hours: 42 hrs (0-3A)
Credits: 1.5

MUPF 215 • Orchestra
Prerequisite: Successful audition
Performance experience in the Orchestra.
Hours: 42 hrs (0-3A)
Credits: 1.5

MUPF 216 • Orchestra
Prerequisite: Successful audition
Performance experience in the Orchestra.
Hours: 42 hrs (0-3A)
Credits: 1.5

NETW (Networking)

NETW 200 • Cisco Networking
Prerequisite: ITEC 170
This course will provide an introduction to Cisco based networking including Cisco devices and their configuration. You will learn how to configure a router, manage routing tables and configure various routing protocols.
Hours: 84 hrs (2-4)
Credits: 4

NETW 220 • Microsoft Server Technologies
Prerequisite: ITEC 170
This course teaches the implementation, deployment and support of current Microsoft client and server network operating systems. Topics include planning and implementation of Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and Routing in an Active Directory environment. The course will examine in detail, the TCP/IP protocol stack including the use of variable length subnet masks as well as an introduction to IPv6. Various Microsoft implementations of Network Address Translation (NAT) will also be examined.
Hours: 84 hrs (2-4)
Credits: 4

NETW 222 • Advanced Microsoft Server Technologies
Prerequisite: NETW 220
Advanced server management topics will include Windows Server Update Services (WSUS), performance monitoring and auditing, and remote access methods, including Virtual Private Networks (VPNs). You will learn the advanced configuration of network infrastructure services such as DNS, DHCP and group policy.
Hours: 84 hrs (2-4)
Credits: 4

NETW 290 • Network Administration
Prerequisite: ITEC 170
Focusing on account and resource management in a Windows Server environment, this course covers topics such as appropriate and efficient creation and management of users, computers, groups and organizational units in Active Directory Domains. Students will learn how to effectively control access and permissions on the files, folders and printers, and configure group policy for network management and security.
Hours: 84 hrs (2-4)
Credits: 4

NURS (Nursing)

NURS 285 • The Discipline and Profession of Nursing I:
Foundation Professional Concepts
Corequisite: NURS 287 & NURS 288 & NURS 289
The study of concepts foundational to the profession and discipline of nursing. Exploration of concepts of complexity, transition, social justice, ethic of caring, health promotion and principles of population health. Emphasis on understanding the social commitments and contributions made by nursing within its professional scope of practice. And overview of the Canadian health care system.
Hours: 36 hrs (3-0) 12 wks
Credits: 3

NURS 287 • The Science of Health I: Communities and Populations
Corequisite: NURS 285 & NURS 288 & NURS 289
Determinants of health, health indices, principles and methods of epidemiology, and population-based health management are emphasized. Conduct of health surveys and use of population-based health data to identify health risk are addressed. Integration of concepts of microbiology and risk elevation related to ages and stages of the lifespan. Basic tenets of the meaning of evidence-based practice will be introduced.
Hours: 36 hrs (3-0) 12 wks
Credits: 3
NURS 288 • Supporting Health I: Communities and Populations
Corequisite: NURS 285 & NURS 287 & NURS 289
Focus on a broad understanding of health and the basic framework and principles of population health promotion, primary healthcare and upstream thinking. Explores how health can be created and supported in a society. Emphasis on developing communication and relationship building skills to work effectively in a group or a team. Strategies to assess protect and promote the health of groups and communities.
Hours: 36 hrs (3-0) 12 wks
Credits: 3

NURS 289 • Integrating Nursing Roles and Practices I: Learning, Praxis and Scholarship in the Practicum Setting
Prerequisite: CPR Basic Cardiac Life Support
Corequisite: NURS 285 & NURS 287 & NURS 288
Integration and application of theoretic knowledge in simulated and nursing practice settings. Develop skills and competencies in nursing of groups, communities, and populations within a collaborative practice model. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 228 hrs
Credits: 6

NURS 385 • The Discipline and Profession of Nursing II: Inter-Professional Practice and Professional Accountability
Prerequisite: NURS 285 & NURS 287 & NURS 288 & NURS 289
Corequisites: NURS 387 & NURS 388 & NURS 389
Concepts of inter-professional practice and its core competencies are introduced. Examination of the contributions of nursing and nursing sensitive outcomes. Full scope nursing roles on intra and interprofessional teams are explored, in particular as pertains to the complex health care needs of families in transition and at risk. Of primary focus is exploration of the scholarly and research foundations of the profession as the basis of the professional role of a Registered Nurse.
Hours: 36 hrs (3-0) 12 wks
Credits: 3

NURS 387 • The Science of Health II: Families in Transition
Prerequisite: NURS 285 & NURS 287 & NURS 288 & NURS 289
Corequisites: NURS 385 & NURS 388 & NURS 389
Holistic models addressing bio/psycho/social/spiritual/cultural dimensions of family health processes are addressed. Focus on the epidemiological, physiological, pathology, and mental health knowledge that underlies the assessments of key family transitional periods. Young and senior families are highlighted.
Hours: 36 hrs (3-0) 12 wks
Credits: 3

NURS 388 • Supporting Health II: Families in Transition
Prerequisite: NURS 285 & NURS 287 & NURS 288 & NURS 289
Corequisites: NURS 385 & NURS 387 & NURS 389
Focus on how health, inclusive of mental health and wellness, is created and supported in families. The study of how health can be enhanced or compromised in important transition periods across the lifespan - from young to senior families. Examination of the manner in which nursing practice and health education serve to enhance family health.
Hours: 36 hrs (3-0) 12 wks
Credits: 3

NURS 389 • Integrating Nursing Roles and Practices II: Learning, Praxis and Scholarship in the Practicum Setting
Prerequisite: NURS 285 & NURS 287 & NURS 288 & NURS 289 & Current CPR Basic Cardiac Life Support
Corequisites: NURS 385 & NURS 387 & NURS 388
Integration and application of theoretic knowledge in simulated and nursing practice settings. Develop skills and competencies in nursing families in transitional periods across the lifespan. Focus on optimizing family health and functioning while mitigating health risks to family members. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 228 hrs
Credits: 6

NURS 485 • The Discipline and Profession of Nursing III: Furthering Inquiry and Scholarship in Nursing
Prerequisites: NURS 385 & NURS 387 & NURS 388 & NURS 389
Corequisites: NURS 487 & NURS 488 & NURS 489
Focus on strategies for the development of evidence-informed nursing practice. Examination of strategies to critique and facilitate the use of evidence for practice. Introduction to basic quantitative and qualitative methods used in nursing research. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.
Hours: 36 hrs (3-0) 12 wks

NURS 487 • The Science of Health III: People Experiencing Threatening Health Challenges
Prerequisites: NURS 385 & NURS 387 & NURS 388 & NURS 389
Corequisites: NURS 485 & NURS 488 & NURS 489
Theoretical understanding of the holistic experience of acuity and life-threat for individuals and families is presented. Epidemiology, pathophysiology, diagnostic studies, complex physical and other nursing assessments relevant to common life-threatening health challenges, including mental health disorders. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.
Hours: 36 hrs (3-0) 12 wks

NURS 488 • Supporting Health III: People with Life-Threatening Health Challenges
Prerequisites: NURS 385 & NURS 387 & NURS 388 & NURS 389
Corequisites: NURS 485 & NURS 487 & NURS 489
Addresses nursing practices in acute unstable illness, injury and disease. The study of application of nursing assessments, technological interventions and best evidence nursing practices in common major acute illnesses in individuals of all age groups, set within the context of their families and communities. Emphasis is on attaining knowledge of secondary and tertiary prevention strategies. Pharmacological applications to major acute disease conditions. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.
Hours: 36 hrs (3-0) 12 wks

Credits: 3
Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 36 hrs (3-0) 12 wks

NURS 489 • Integrating Nursing Roles and Practices III: Learning, Praxis and Scholarship in the Practicum Setting
Prerequisites: NURS 385 & NURS 387 & NURS 388 & NURS 389 & Current CPR Basic Cardiac Life Support
Corequisites: NURS 485 & NURS 487 & NURS 488
Integration and application of theoretic knowledge in simulated and nursing practice settings. The focus in this course is nursing care of clients and families experiencing life-threatening health challenges. Development of skills of complex communication and relationship building, high-level assessment and clinical reasoning, and nursing care planning and implementation. Graded on a CR (Pass)/NC (Fail) basis. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 228 hrs

NURS 495 • The Discipline and Profession of Nursing IV: Understanding the Challenges of Leadership and Systems of Care
Prerequisites: NURS 485 & NURS 487 & NURS 488 & NURS 489
Corequisites: NURS 497 & NURS 498 & NURS 499
This course explores knowledge related to the current health care system, systems of care responsive to the needs of clients with chronic health disruptions, and nursing roles of leadership and delegation. Evidence examining the efficacy of systems of care and the efficacy of nursing roles, practices, and contributions are highlighted. Examination of selected approaches to nursing research. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 36 hrs (3-0) 12 wks

NURS 497 • The Science of Health IV: People Experiencing Chronic Health Challenges
Prerequisites: NURS 485 & NURS 487 & NURS 488 & NURS 489
Corequisites: NURS 495 & NURS 498 & NURS 499
Experience of living with chronic health challenges, including common complications. Epidemiology, pathophysiology, diagnostic studies, complex physical and other nursing assessments relevant to common chronic health challenges, including mental health disorders. A holistic perspective is taken to examine the challenges of ongoing health management faced by populations of chronically ill individuals and their families. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 36 hrs (3-0) 12 wks

NURS 498 • Supporting Health IV: People With Chronic Health Challenges
Prerequisites: NURS 485 & NURS 487 & NURS 488 & NURS 489
Corequisites: NURS 495 & NURS 497 & NURS 499
Nursing practices in caring for the chronically ill. A focus on practices to achieve healthful transitions and preservation of quality of life are emphasized. Common treatment modalities are presented including nursing therapeutics and pharmacological approaches to management of common chronic diseases. Tertiary prevention is emphasized and concepts and approaches to ongoing health assessment, health education, self-management, harm reduction, support, restoration, and palliation are addressed. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 36 hrs (3-0) 12 wks

NURS 499 • Integrating Nursing Roles and Practices IV: Learning, Praxis and Scholarship in the Practicum Setting
Prerequisites: NURS 485 & NURS 487 & NURS 488 & NURS 489 & Current CPR Basic Cardiac Life Support
Corequisites: NURS 495 & NURS 497 & NURS 499
Integration and application of theoretic knowledge in simulated and nursing practice settings. Long-term nursing care of individuals, families and populations with chronic health challenges. Implementation of effective therapeutic relationships, complex assessments, reasoned clinical decision-making, client and family health education, client self-management and collaborative practice models. Graded on a CR (Pass)/NC (Fail) basis. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 228 hrs

NURS 517 • Philosophy and Practice in Palliative Care
Prerequisites: NURS 495 & NURS 497 & NURS 498 & NURS 499
Corequisite: NURS 585 & NURS 589
Examination of the philosophy of palliative/hospice care, taught by faculty from many disciplines. An important focus includes the students’ self-exploration of their own beliefs, values, and attitudes about life, illness, death, and dying, and how this self-exploration shapes interactions with those we care for. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary.

Hours: 36 hrs (3-0) 12 wks

NURS 541 • Using Research in Nursing Practice: Moving Evidence to Action
Prerequisites: NURS 495 & NURS 497 & NURS 498 & NURS 499
Corequisite: NURS 585 & NURS 589, plus three of NURS 544, NURS 545, NURS 546, NURS 547, NURS 549, NURS 551
Focus on implementation of evidence-informed practice in the
clinical practice setting. Builds on previous course work and leads to examining strategies to become a change agent and creating a culture conducive to engaging in evidence-informed practice. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 541 and NURS 503.41.

**NURS 546 • Older Adult Nursing: Managing Complexity**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisite:** NURS 585 & NURS 589, plus three of NURS 517, NURS 541, NURS 550, NURS 552, NURS 553

Develop the reasoning, knowledge and skills required to respond to the unique presentation of acute illness in older adults. The demystification of popular aging beliefs and related care practices offers students the opportunity to develop care that combines theory, best practice, research and experience in caring for individuals impacted by acute health crises as they age. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 546 and NURS 503.46.

**Hours:** 36 hrs (3-0) 12 wks

**NURS 547 • Perinatal Nursing: Emerging Trends and Issues**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisite:** NURS 585 & NURS 589, plus three of NURS 517, NURS 541, NURS 550, NURS 552, NURS 553

Maternity and infant health is examined within the context of the family. The role of family centered nursing addressing wellness patterns and alterations in perinatal family health will be investigated from a multi-setting, multicultural and holistic perspective. Current perinatal trends will be addressed. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 547 and NURS 503.47.

**Hours:** 36 hrs (3-0) 12 wks

**NURS 549 • Addictions and Mental Health Care**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisite:** NURS 585 & NURS 589, plus three of NURS 517, NURS 541, NURS 550, NURS 552, NURS 553

Re-conceptualizing mental health and addictions across the lifespan to prevent illness, and strengthen lifelong health and well-being. Critical analysis focuses on the ecological, socio-cultural, political, and complex health and illness situations with a view to furthering social justice. Core concepts include risk and resilience, brain plasticity, intergenerational transmission, cumulative burden, mental illness and addictions. Comprehensive assessment, intervention and prevention are highlighted with a view to leadership in practice. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 549 and NURS 503.49.

**Hours:** 36 hrs (3-0) 12 wks

**NURS 551 • Rural Health**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisite:** NURS 585 & NURS 589, plus three of NURS 517, NURS 541, NURS 550, NURS 552, NURS 553

Using a social determinant of health perspective, an examination and solutions to health, health care beliefs, and health care challenges of people living in rural communities, as well as the strengths of rural communities. An exploration of the implications for rural health care theory, practice, education, ethics and research as well as geographical, historical, sociocultural, economic, and political variables that affect health. Multidisciplinary and international content and nursing practice experience in rural settings will also be explored. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 551 and NURS 503.51.

**Hours:** 36 hrs (3-0) 12 wks

**NURS 553 • Quality Care Practices: System and Patient Safety**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisite:** NURS 585 & NURS 589, plus three of NURS 544, NURS 545, NURS 546, NURS 547, NURS 549, NURS 551

Building on knowledge of nursing and interdisciplinary practice specifically in the context of the provision of safe, quality health care. The changing focus from the individual nurse/patient to the larger health care system in relationship to safe, quality care. Integration of new concepts as they relate to a system approach to patient/client safety. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 553 and NURS 503.43.

**Hours:** 36 hrs (3-0) 12 wks

**NURS 585 • The Discipline and Profession of Nursing V: Preparing for Professional Role Transition**

**Prerequisites:** NURS 495 & NURS 497 & NURS 498 & NURS 499

**Corequisites:** NURS 589 & two senior nursing course options

This course focuses on the integration of senior students into the environment of professional nursing practice with an evidence-informed emphasis on the essentials of leadership, relational and practice ethics, effective inter and intra-professional collaboration, communication and conflict management for the purpose of facilitating a healthy transition to the role of a new graduate professional nurse within a contemporary health-care climate. Third and Fourth Years of the Nursing program are University of Calgary courses. The numbering system is based upon the guidelines of this institution. You must register through the University of Calgary - fees are charged by the University of Calgary. NOTE: Students cannot receive credit for both NURS 585 and NURS 503.49.

**Hours:** 36 hrs (3-0) 12 wks
Nursing

NURS 589 • Integrating Nursing Roles and Practices V: Learning, Praxis and Scholarship in the Practicum Setting
Prerequisites: NURS 495 & NURS 497 & NURS 498 & NURS 499
Corequisites: NURS 585 & two senior nursing course options
This focused clinical experience, supported by two corequisite substan-
tive nursing option theory courses, is aimed at refining critical
tinking and competent use of theoretic frameworks and evidence
to support clinical reasoning processes including; comprehensive
essment, holistic analysis and interpretation of client data, and
ence and confidence in clinical decision-making. Students
will choose a focused area of nursing practice. Third and Fourth
Years of the Nursing program are University of Calgary courses.
The numbering system is based upon the guidelines of this institu-
tion. You must register through the University of Calgary - fees are
charged by the University of Calgary.
Hours: 228 hrs

NURS 599 • Integrating Nursing Roles and Practices VI: Transition to Nursing Practice
Prerequisites: NURS 585 & NURS 589 & Current CPR Basic
Cardiac Life Support
Synthesis, application and further acquisition of knowledge, skills,
and attitudes in a selected nursing practice setting. Emphasis
on complexity of nursing care with clients (individuals, families,
and/or aggregates). Selection of focus area will be made through
consultation with faculty. Graded on a CR (Pass)/NC (Fail) basis.
Third and Fourth Years of the Nursing program are University of
Calgary courses. The numbering system is based upon the guide-
lines of this institution. You must register through the University of
Calgary - fees are charged by the University of Calgary.
Hours: 418 hrs

Nutrition

NUTR 200 • Introduction to Nutrition
An introductory course designed to provide students with a basic
understanding of the role of nutrition in health, disease & fitness.
The course will cover both fundamental nutrition principles and
practical applications. Current topics in the field will be examined
critically. The overall goal of this course is to gain an under
standing of individual nutrition needs as well as those of special-
ized populations. NOTE: Students cannot receive credit for both
NUTR 200 and HPED 2507.
Hours: 42 hrs (3-0)
Credits: 3

OCTA (Occupational Therapist Assistant)

OCTA 215 • OTA Therapeutic Processes I
Prerequisite: A minimum of a C grade in OPTA 212
This course provides an introduction to occupational therapy as
well as the role and skills required of an Occupational Therapist
Assistant. Topics include the components and interventions related
to the understanding and application of physical, cognitive, and
affective/psychosocial elements of the person and the occupation
of self-care. In-person lab attendance at Medicine Hat College or
an affiliated site is required.
Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

OCTA 216 • OTA Therapeutic Processes II
Prerequisite: A minimum of a C grade in OPTA 212
This course provides an advanced study of components and
interventions related to the occupations of productivity and play
& leisure with the goal of increasing the knowledge and skills
required of an Occupational Therapist Assistant. Topics include
assistive technology, joint protection, energy conservation, splint-
ing and wheelchairs. In-person lab attendance at Medicine Hat
College or an affiliated site required.
Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

OCTA 217 • OTA Therapeutic Processes III
Prerequisite: A minimum of a C grade in OCTA 215 &
OCTA 216 & PHTA 215 & PHTA 216 & TAPC 210
This course provides a five-week fieldwork placement, which
provides the opportunity to integrate theory and practice under the
supervision of an Occupational Therapist. Graded on a CR (Pass)/
NC (Fail) basis.
Hours: 175 hrs (0-35P) 5 wks
Credits: 4
Available On-Site and in a Distributed Learning Format

Office Management

OMGT 235 • Work Experience III
Prerequisite: A minimum of a C grade in APRO 190 and
acceptance into the Administrative Office Management
Diploma program.
In Work Experience III, you will work in an office setting
applying the skills you have acquired in the first year of your
diploma program.
Hours: 42 hrs (0-3P)
Credits: 1.5

OMGT 237 • Work Experience IV
Prerequisite: A minimum of a C grade in OMGT 235 and
acceptance into the Administrative Office Management
Diploma program.
In Work Experience IV, you will work in an office setting
applying the skills you have acquired from the Administrative
Office Management Diploma program.
Hours: 42 hrs (0-3P)
Credits: 1.5

OPTA (Occupational/Physical Therapist
Assistant)

OPTA 212 • Principles and Techniques of Client Contact
Prerequisite: A minimum of a C grade in KNES 265 &
TAPC 111 & TAPC 112 & TAPC 113
This course will provide an introduction to the knowledge and prac-
tice of fundamental interventions used by occupational therapist
assistants / physical therapist assistants working in rehabilitation. Topics include bed mobility, transferring, use of ambulation devices, wheelchairs, and range of motion. In-person lab attendance at Medicine Hat College or an affiliated site required.

**Hours:** 60 hrs (3-1.25)

**Credits:** 3

Available On-Site and in a Distributed Learning Format

OPTA 217 • OTA/PTA Therapeutic Processes IV

**Prerequisite:** A minimum of a C grade in OCTA 215 & OCTA 216 & PHTA 215 & PHTA 216 & TAPC 210

This course provides a five-week fieldwork placement under the supervision of an Occupational Therapist and/or Physical Therapist to implement knowledge and skills of therapeutic interventions. Graded on a CR (pass) / NC (fail) basis.

**Hours:** 175 hrs (0-35P) 5 wks

**Credits:** 4

Available On-Site and in a Distributed Learning Format

**PARA 218 • Career Preparation for the OTA/PTA**

**Prerequisite:** A minimum of a C grade in OCTA 215 & OCTA 216 & PHTA 215 & PHTA 216 & TAPC 210

Corequisite: OCTA 217 or OPTA 217 or PHTA 217

This online course that provides the employment-seeking Occupational Therapist Assistant / Physical Therapist Assistant with knowledge, and skills necessary to enter the workplace, with a focus on the job search process. This course should be completed concurrently with a fieldwork course.

**Hours:** 14 hrs (1-0)

**Credits:** 1

Available in a Distributed Learning Format Only

**PARA (Paramedic)**

**PARA 100 • Foundations of Paramedic Practice I**

Introduction to the EMS system, its origins, and provincial, national, and international structure and organization. Emphasis is placed on developing understanding of the roles of various levels of practitioners. The course is focused on legal and ethical issues inherent in the EMS system. Professional responsibilities of the contemporary EMS practitioner are also considered.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**PARA 115 • Professional Communications for Paramedics**

**Prerequisite:** BIOL 275 & IDST 100 & PARA 100

This course is focused on enhancing the written and oral communications for those entering the paramedic profession. There will be an emphasis on medical terminology, academic and professional writing (e.g. patient care reports) and case presentations.

**Hours:** 42 hrs (3-0)

**Credits:** 3

**PARA 120 • Foundations of Paramedic Practice II**

**Prerequisite:** BIOL 275 & IDST 100 & PARA 100

This course provides an introduction to the concepts and skills in peripheral intravenous insertion, fluid administration, introductory pharmacology and medication administration, cardiac monitoring, and ECG interpretation. Scene safety, triage, mass casualty response, communication systems, and transport techniques are also presented. Documentation, record management, and infection control procedures are also discussed.

**Hours:** 98 hrs (3-4)

**Credits:** 4

**PARA 125 • Assessment and Diagnostics**

**Prerequisite:** BIOL 275 & IDST 100 & PARA 100 & KNES 247

This course provides an introduction to a systems based approach to gathering comprehensive health data from patients. The focus is on the development of skills for effective interview, examination, and evaluation techniques and on integration of assessment finding into treatment plans for patients experiencing medical and traumatic events.

**Hours:** 84 hrs (3-3)

**Credits:** 4

**PARA 130 • Introductions to Paramedic Management of Emergency Situations**

**Prerequisite:** BIOL 275 & IDST 100 & PARA 100 & KNES 247

The focus of this course is the acquisition of knowledge and problem-solving skills essential for the care of various patient populations: scene assessment, patient management, and basic life support.

**Hours:** 112 hrs (4-4)

**Credits:** 4

**PARA 145 • Introduction to Primary Care Practice**

**Prerequisite:** BIOL 277 & IDST 100 & KNES 247 & PARA 115 & PARA 120 & PARA 125 & PARA 130

In this course, you are placed in various rural and urban clinical settings. Your focus is on the consolidation of previous learning and on development of critical skills necessary to function effectively as a health care provider. Physical assessment, history taking, and interventions are stressed. Graded On a CR (Pass)/NC (Fail) basis. NOTE: If you have an EMT-A/PCP certification from a CMA accredited program you may apply for transfer credit for this course.

**Hours:** 56 hrs (0-28C) 2 wks

**Credits:** 3

**PARA 150 • Primary Care Practice**

**Prerequisite:** BIOL 277 & IDST 100 & KNES 247 & PARA 115 & PARA 120 & PARA 125 & PARA 130

Corequisite: PARA 145

Under the supervision of an EMS provider, you refine and expand your cognitive and practical skills. In addition, you serve as team leader for a variety of calls. Graded on a CR (Pass)/NC (Fail) basis. NOTE: If you are from a CMA accredited program you must present proof of current employment as an EMT/PCP to apply for transfer credit.

**Hours:** 200 hrs (0-25P) 8 wks

**Credits:** 4.5

**PARA 200 • Introduction to Advanced Care**

**Prerequisite:** BIOL 277 & IDST 100 & KNES 247 & PARA 145 & PARA 150

Course enhances and builds upon existing theoretical base and on assessment and psychomotor skills to increase your depth of assessment, treatment, and communication skills.

**Hours:** 84 hrs (3-3)

**Credits:** 4
**PARA 205 • Mental Health for First Responders**  
**Prerequisite: PARA 100**  
The course will provide an overview of mental illness, the symptoms of the mental illnesses often presented in emergency services, and strategies for responding to with people who are experiencing symptoms of mental illnesses. The course will also provide information on work related stress, work place trauma, and self-care.  
**Hours: 42 hrs (3-0)**  
**Credits: 3**

**PARA 210 • Advanced Critical Care Practice**  
**Prerequisite: PARA 205 & PARA 230 & PARA 240**  
The focus of course is on continued synthesis of knowledge and skills in relation to patients experiencing chronic and acute alterations in health status. Experience occurs in a variety of clinical settings and under the direct supervision of appropriate practitioners and educators. NOTE: You are required to present registration with the ACP certification at the EMT or PCP level prior to practicum. Graded On a CR (Pass)/NC (Fail) basis.  
**Hours: 182 hrs (0-13C)**  
**Credits: 7.5**

**PARA 215 • Pharmacology for the Prehospital Professional**  
**Prerequisite: PARA 150**  
The focus of this course is a holistic approach to pharmacology. The course is designed to enhance critical thinking between the relationship of disease process and pharmacological management.  
**Hours: 42 hrs (3-0)**  
**Credits: 3**

**PARA 220 • Paramedic Management of Trauma and Environmental Conditions**  
**Prerequisite: BIOL 277 & IDST 100 & KNES 247 & PARA 145 & PARA 150**  
The focus of course is quick identification and treatment of life-threatening conditions, including recognition and evaluation of the mechanism of injury, performance of critical interventions, and rapid stabilization and transport.  
**Hours: 77 hrs (2.5-3)**  
**Credits: 4**

**PARA 230 • Skills and Practice in Patient Modalities**  
**Prerequisite: PARA 200 & PARA 215 & PARA 220 & PHSL 200**  
The focus of course is the advanced skills required for patient management in medical and trauma situations. Experience will occur in lab and clinical settings. Integration and enhancement of advanced patient assessments, diagnostics, and interventions are assessed.  
**Hours: 84 hrs (3-3)**  
**Credits: 4**

**PARA 240 • Management of Special Population Groups**  
**Prerequisite: PARA 200 & PARA 215 & PARA 220 & PHSL 200**  
The focus of this course is on development of knowledge, skills, and judgment to successfully care for patients experiencing unique health care challenges and is facilitated through lab and clinical experiences. Key concepts regarding pediatric, geriatric, obstetric, psychiatric, and other special need populations are presented.  
**Hours: 84 hrs (3-3)**  
**Credits: 4**

**PARA 300 • Advanced Care Paramedic Practice I**  
**Prerequisite: PARA 210**  
You begin to integrate ALS knowledge and skills into the delivery of patient care, under the direct supervision of a practicing paramedic. Emphasis is placed on the management of a variety of emergency calls. NOTE: You must show proof of EMT-A or PCP registration with the Alberta College of Paramedics prior to beginning the course. Graded on a CR (Pass)/NC (Fail) basis.  
**Hours: 500 hrs (0-36P)**  
**Credits: 10.5**

**PARA 305 • Advanced Paramedic Care**  
**Corequisite: PARA 300**  
The focus of this course is the management of the critically ill and injured patient. Learning concentrates on advanced cardiac life support (ACLS) techniques as well as care of the critically ill and injured pediatric patient (PALS). Management of the aeromedical patient and trauma patients, are also studied. NOTE: PALS, ACLS, ITLS & NRP certifications will be granted upon successful completion of this course.  
**Hours: 60 hrs (30-0) 2 wks**  
**Credits: 3**

**PARA 310 • Advanced Care Paramedic Practice II**  
**Prerequisite: PARA 305**  
Continue to expand on the cognitive and practical skills required of the professional paramedic, under the direct supervision of a practicing paramedic. Graded on a CR (Pass)/NC (Fail) basis. NOTE: You may opt to exit with a diploma upon successful completion of this course. NOTE: You are required to present registration with the ACP certification at the EMT or PCP level prior to practicum.  
**Hours: 500 hrs (0-36P)**  
**Credits: 10.5**

**PARA 452 • EMS and the Canadian Health System**  
**Prerequisite: Paramedic (ACP) Diploma or Certificate**  
This distance delivery course will introduce you to the history and development of the Canadian Health Care system. In addition, the course will extend your current understanding of health delivery systems and categories. It will also build on your present understanding of the recipients and providers of care.  
**Hours: 39 hrs (3-0) 13 wks**  
**Credits: 3**  
Available in Distributed Learning Format Only

**PARA 453 • Community Focused Theory**  
**Prerequisite: Paramedic (ACP) Diploma or Certificate**  
This course explores the concepts and models related to the focus of community as client - with an emphasis on dimensions of community and population health, health promotion perspectives, team building and partnerships, community assessment, planning and evaluation approaches, and intervention strategies. (You should be aware that this course is equivalent to NURS 453).  
**Hours: 52 hrs (4-0) 13 wks**  
**Credits: 3**  
Available in Distributed Learning Format Only
PARA 454 • Leadership in Health Care  
Prerequisite: Paramedic (ACP) Diploma or Certificate.  
Focus on professional and interpersonal relationships with an emphasis on leadership, interdisciplinary collaboration, and the management of EMS at the micro and macro levels.  
Hours: 42 hrs (3-0)  
Credits: 3  
Available in Distributed Learning Format Only

PARA 455 • Research  
Prerequisite: Paramedic (ACP) Diploma or Certificate  
Completion of a statistics course is highly recommended.  
Introduction to quantitative and qualitative research methods appropriate to health care, with an emphasis on the critique of studies for their application to practice.  
Hours: 39 hrs (3-0) 13 wks  
Credits: 3  
Available in Distributed Learning Format Only

PARA 470 • Paramedic Work Term I  
Prerequisite: PARA 452 & PARA 453 & PARA 454 & PARA 455 or permission of the Program Coordinator  
This field study course will focus on a project that will apply and integrate knowledge from the prerequisite courses. The student will design the project which must be approved by the assigned instructor. The project must also meet the relevance and collaborative expectations of the student’s employer. Results of the project are submitted to the instructor and the work term employer. Graded on a CR (Pass)/NC (Fail) basis. Total tuition for this course is $814.16.  
Hours: 4 mths (0-35P)  
Credits: 15  
Available in Distributed Learning Format Only

PARA 480 • Paramedic Work Term II  
Prerequisite: PARA 470 & MGMT 243 & PHIL 313 & STAT 333  
This field study course provides you further opportunity to apply concepts to the EMS industry. The work term is designed to allow you to develop and apply a project in leadership, education, or community health. The topic or focus is determined by the student in collaboration with the assigned instructor. The project must be approved by the student’s employer. The results of the project are submitted to the instructor and the work term employer. Graded on a CR (Pass)/NC (Fail) basis. Total tuition for this course is $814.16.  
Hours: 4 mths (0-35P)  
Credits: 15  
Available in Distributed Learning Format Only

PEAC (Physical Activity Class)  
PEAC 200 • Aquatics  
Development of basic swimming strokes and aquatic skills equivalent to Red Cross Senior (white) level, this course is not intended for non-swimmers.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 210 • Strength Training  
An introduction to the principles and methods in resistance training. Acquisition of theoretical and practical knowledge using various forms of resistance training. Emphasis will be based upon providing the student with leadership skills on resistance training techniques, lifting mechanics, program design and implementation.  
Hours: 42 hrs (1-2)  
Credits: 3

PEAC 211 • Basketball  
Focus of course is the acquisition of basic skills and fundamentals of team play.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 218 • Soccer  
Focus of course is the acquisition of basic skills and fundamentals of team play.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 228 • Cardiovascular Training  
Course provides an opportunity to improve your levels of cardiovascular fitness through a variety of training methods. Theory is combined with activity, giving you an information base with which you are able to develop personalized training programs. You are expected to train both during and outside of the normally scheduled class time.  
Hours: 42 hrs (1-2)  
Credits: 3

PEAC 231 • Badminton  
Focus of course is the development of introductory skills, strategies, and techniques.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 233 • Racquetball and Squash  
Focus of course is the acquisition of basic skills and understanding of game strategies.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 235 • Tennis  
Focus of course is the development of introductory skills, strategies, and techniques.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 237 • Volleyball  
Focus of course is the acquisition of basic skills and the understanding of team play.  
Hours: 42 hrs (0-3A)  
Credits: 1.5

PEAC 245 • Golf  
Focus of course is the acquisition of skills in the basic shots of golf and instruction in the rules, and etiquette of the game. You must provide your own equipment. NOTE: $45.00 is charged to cover the costs of green and range fees.  
Hours: 42 hrs (0-3A)  
Credits: 1.5
PEAC 256 • Yoga for Beginners
This course is designed to introduce students to fundamental yoga postures while developing a basic appreciation of yoga theory as it pertains to health and wellness.
Hours: 42 hrs (0-3A)
Credits: 1.5

PEAC 266 • Power Skating
Focus of course is the acquisition of skills in the basic elements of skating. You must provide your own skates, helmets, and sticks.
Hours: 42 hrs (0-3A)
Credits: 1.5

PEAC 270 • Track and Field
Focus of course is the development of basic skills and fundamentals in competitive track and field events.
Hours: 42 hrs (0-3A)
Credits: 1.5

PECA (Pre-Employment Carpentry)
PECA 001 • Pre-Employment Carpentry
Graded on a CR (Pass)/NC (Fail) basis.
Hours: 360 hrs

PEEL (Pre-Employment Electrical)
PEEL 001 • Pre-Employment Electrical
Graded on a CR (Pass)/NC (Fail) basis.
Hours: 360 hrs

PEPL (Pre-Employment Plumbing)
PEPL 001 • Pre-Employment Plumbing
Graded on a CR (Pass)/NC (Fail) basis.
Hours: 360 hrs

PEWE (Pre-Employment Welding)
PEWE 001 • Pre-Employment Welding
Graded on a CR (Pass)/NC (Fail) basis.
Hours: 360 hrs

PHIL (Philosophy)
PHIL 201 • Problems of Philosophy
Introduction to philosophy through the discussion of selected topics such as skepticism, perception, personal identity, free will and determinism, and God.
Hours: 42 hrs (3-0)
Credits: 3

PHIL 249 • Morality, Virtue, and Society
This course provides a first enquiry into the nature and justification of moral standards. NOTE: Students cannot receive credit for both PHIL 249 and PHIL 1149.
Hours: 42 hrs (3-0)
Credits: 3

PHIL 275 • Reason and Argument
An introduction to deductive and inductive techniques used in appraising arguments, this course contains some elementary formal logic, but its main focus will be on analyzing arguments as they occur in everyday life and ordinary language. An alternative to PHIL 279. NOTE: Not open to students with credit in PHIL 279.
Hours: 56 hrs (3-1T)
Credits: 3

PHIL 279 • Logic I
Sentential and first-order logic from both deductive and semantic points of view, and some elementary metatheorems are studied in this course.
Hours: 56 hrs (3-1T)
Credits: 3

PHIL 313 • Bioethics
A critical and analytical examination of ethical and legal problems arising in and about health care. Issues to be considered may include euthanasia, abortion, the conditions for withdrawal of treatment, the physician-patient relationship, research on human subjects, and genetic engineering. The course emphasizes the practical applications of ethical and legal theory. NOTE: Students cannot receive credit for both PHIL 313 and PHIL 2223.
Hours: 42 hrs (3-0)
Credits: 3

PHIL 319 • Philosophy of Law
This course is an investigation of philosophical accounts of the nature of law and legal systems, intended if you are interested in any facet of the legal system. Acquaints you with central concepts, issues, and themes in jurisprudence, such as descriptive theories of law and the relations between law and morality. NOTE: Students cannot receive credit for both PHIL 319 and PHIL 2219.
Hours: 42 hrs (3-0)
Credits: 3

PHIL 321 • Metaphysics
Prerequisite: Any 200-level university transfer course
An examination of such topics as categories, existence, persons, space, time, and necessity.
Hours: 42 hrs (3-0)
Credits: 3

PHIL 330 • Professional Ethics
Introduction to the ethical and conceptual issues which are inherent in the practice of professions. Questions such as, what does it mean to identify oneself as a ‘professional’, what special character issues arise for people engaged in professional practice, is there a difference between the moral issues one might face as a professional as opposed to the other roles one fills, are there special moral issues with respect to practice in multicultural settings, and how are the interests of the practitioner, client, and community related, will form the core of the course’s inquiry.
Hours: 42 hrs (3-0)
Credits: 3
PHIL 347 • Contemporary Moral Problems
A critical and analytic examination of some current moral issues is studied in this course. Topics investigated may include authority, religion in society, suicide, sexual morality, abortion, and the legal enforcement of morality, justice.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 353 • Social and Political Philosophy
Prerequisite: Any 200-level university transfer course
In this course some of the fundamental issues in social and political thought are studied. Issues to be studied may include rights, justice, authority, equality, freedom, democracy, property, liberalism, the family, and communitarianism.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 363 • Epistemology
Prerequisite: Any 200-level university transfer course
A study of some of the central problems in theory of knowledge and belief, empirical (perceptual and inductive) knowledge, a priori knowledge, appearance and reality, truth and skepticism.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 367 • Philosophy of Science
This course provides an understanding of some of the fundamental principles of scientific enquiry. Topics include scientific explanation, theory, prediction, and confirmation. (Open to students in any discipline.)

Hours: 42 hrs (3-0)
Credits: 3

PHIL 382 • Philosophy and Pop Culture
This course brings philosophical reflection together with pop culture. It explores philosophical issues within pop culture (such as film, television, graphic novels, pop music, videos, social networks or advertising), as well as insights in philosophy about the nature of pop culture itself.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 383 • Philosophy of Mind
Prerequisite: Any 200-level course in PHIL or permission of the Dean
This course is a philosophical study of topics such as thought, emotions, action and the will, mind-body identity, personal identity, and theories about the nature of mind.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 399 • Topics in Philosophy
Prerequisite: Any 200-level course in PHIL or permission of the Dean
This course is a detailed examination of a topic or tradition in Anglo-American philosophy. In years when the course is being offered a detailed course outline giving the topic or tradition to be discussed will be available. This course may be repeated for credit.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 1149 • Philosophy: Values and Ethics
This course provides an introduction to philosophy through a first enquiry into the nature and justification of moral standards. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PHIL 1149 and PHIL 249.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 2219 • Philosophy of Law
This course is an investigation of philosophical accounts of the nature of law and legal systems, intended if you are interested in any facet of the legal system. Acquaints you with central concepts, issues, and themes in jurisprudence, such as descriptive theories of law and the relations between law and morality. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PHIL 2219 and PHIL 319.

Hours: 42 hrs (3-0)
Credits: 3

PHIL 2223 • Bioethics
A critical and analytical examination of ethical and legal problems arising in and about health care. Issues to be considered may include euthanasia, abortion, the conditions for withdrawal of treatment, the physician-patient relationship, research on human subjects, and genetic engineering. The course emphasizes the practical applications of ethical and legal theory.

This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PHIL 2223 and PHIL 313.

Hours: 42 hrs (3-0)
Credits: 3

PHSL (Physiology)

PHSL 200 • Pathophysiology
Prerequisite: PARA 150 or PRNU 152 or BIOL 152
This course relates the knowledge of anatomy and physiology to the causes, treatment and usual courses of illness. It provides a body systems approach to common health care issues, focusing on physiological changes that occur with alterations in biological health.

Hours: 60 hrs (4.6-0)
Credits: 3

PHSL 370 • Introduction to Human Physiology I
An examination of the basics of human physiology, including the body’s physiological adaptation to stress. Emphasis is on function of individual organs and organ systems.

Hours: 63 hrs (3-3/2)
Credits: 4
PHSL - PHYS

PHSL 371 • Introduction to Human Physiology II
Prerequisite: PHSL 370
Continuation of PHSL 370.
Hours: 63 hrs (3-3/2)
Credits: 4

PHTA (Physical Therapist Assistant)

PHTA 215 • PTA Therapeutic Processes I
Prerequisite: A minimum of a C grade in OPTA 212
An introduction to background, knowledge and skills in therapeutic exercise for Physical Therapist Assistants (PTA) to provide assigned interventions safely and correctly with a focus of the role of the PTA in client care. Anatomy background is essential. In-person lab attendance at Medicine Hat College or an affiliated site required.
Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

PHTA 216 • PTA Therapeutic Processes II
Prerequisite: A minimum of a C grade in OPTA 212
An introduction to background, knowledge and electrotherapy modalities utilized by Physical Therapist Assistants with an emphasis on an understanding of the principles and safe application of these various modalities. In-person lab attendance at Medicine Hat College or an affiliated site required.
Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

PHTA 217 • PTA Therapeutic Processes III
Prerequisite: A minimum of a C grade in OCTA 215 & OCTA 216 & PHTA 215 & PHTA 216 & TAPC 210
A five-week fieldwork placement under the supervision of a Physical Therapist aimed at furthering the working knowledge of and practice with therapeutic modalities common in physiotherapy practice. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 175 hrs (0-35P) 5 wks
Credits: 4
Available On-Site and in a Distributed Learning Format

PHYL (Physical Literacy)

PHYL 2510 • Sport & Exercise Psychology
Prerequisite: PSYC 205 or PSYC 1105
This course provides an introduction to the psychosocial concepts underlying an understanding of human behaviour in physical activity, sport and health. This course is divided into two equal components. The first examines the perspective of Exercise and Health Psychology, while the second uses the perspective of Personality and Social Psychology. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PHYL 2510 and KNES 260.
Hours: 42 hrs (3-0)
Credits: 3

PHYL 2520 • Introductory and Intermediate Coaching
This course provides exposure to motor learning, growth and development, philosophy, psychology, audio visual, public relations, administration and training methods as it pertains to coaching. Students will be introduced to the material included in the National Coaching Certification Program Part A and Part B of the Multi-Sport Competition Introduction Stream. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PHYL 2520 and KNES 260.
Hours: 42 hrs (3-0)
Credits: 3

PHYS (Physics)

PHYS 020 • General Elementary Physics
Prerequisite: (MATH 010 or MATH 010FN [minimum grade of B]) & SCIE 010 or equivalent
The concepts relating to measurement and motion from SCIE 010 will be expanded upon, and you will predict and describe motion using vectors, graphs and equations. Forces causing changes in motion are investigated. Other topics include periodic motion and conservation of mechanical energy. Lab work is required.
Hours: 84 hrs (4-2)
Credits: 4
Available On-Site and in a Distributed Learning Format

PHYS 030 • Matriculation Physics
Prerequisite: PHYS 020 or equivalent
Prerequisite/Corequisite: MATH 030 [highly recommended] or MATH 030FN
PHYS 030 builds on the concepts in Newton’s Laws from PHYS 020 and deals with the topics of momentum and impulse. Other topics will deal with electric and magnetic fields and the forces from these fields. Electromagnetic radiation, the electric nature of the atom and quantization of energy are other topics covered. Lab work is required.
Hours: 84 hrs (4-2)
Credits: 4
Available On-Site and in a Distributed Learning Format
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisite</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 241</td>
<td>Physics I</td>
<td>PHYS 30 &amp; MATH 30-1</td>
<td>Introductory general physics, primarily for students in the life sciences. Topics include particle kinematics, force and acceleration, gravitational forces and satellite orbits, rotational motion, conservation of energy and momentum, oscillations and waves, optics and an introduction to quantum physics; quantization of radiation, and the Bohr atom. Hours: 98 hrs (3-1T-3) Credits: 4</td>
</tr>
<tr>
<td>PHYS 243</td>
<td>Physics II</td>
<td>PHYS 241</td>
<td>Introductory general physics, primarily for students in the life sciences. Topics include fluid statics and dynamics; electric forces, fields and potentials; electrical current, resistance and DC circuits; magnetic forces and fields; magnetic induction; alternating current circuits and an introduction to nuclear physics, nuclear radiation, nuclear reactions, and fundamental particles. Hours: 98 hrs (3-1T-3) Credits: 4</td>
</tr>
<tr>
<td>PHYS 259</td>
<td>Electricity and Magnetism</td>
<td>AMAT 219</td>
<td>This course focuses on electric charges and electric current; Ohm’s Law; Kirchhoff’s Laws; application to simple circuits; potential and capacitance; electromagnetic induction, electromagnetic force, and electrical properties of materials. Hours: 98 hrs (3-1T-3) Credits: 4</td>
</tr>
<tr>
<td>PHYS 269</td>
<td>Oscillation, Waves, and Optics</td>
<td>MATH 31 &amp; PHYS 30 or equivalents</td>
<td>Advanced calculus methods are applied to oscillatory and wave motion. Topics in wave motion include energy transport, interference, standing waves and resonance. Topics in sound include Doppler shifts, and the decibel scale. Topics in optics include polarization, reflection, image formation, interference and refraction. Hours: 77 hrs (3-1T-3/2 wks) Credits: 4</td>
</tr>
<tr>
<td>PLAB 116</td>
<td>First Lab</td>
<td>PLAB 117</td>
<td>Introductory lab focusing on safety, tool use, water treatment and industrial steam plant equipment. Hours: 80 hrs (0-7.3) 11 wks Credits: 4</td>
</tr>
<tr>
<td>PLAB 117</td>
<td>Second Lab</td>
<td>PLAB 116</td>
<td>Operation of industrial steam plant equipment. Hours: 88 hrs (0-8) 11 wks Credits: 4</td>
</tr>
<tr>
<td>PLAB 118</td>
<td>Third Lab</td>
<td>PLAB 117 &amp; ABSA Fourth Class Certificate of Competency (or other regulatory body equivalent certificate)</td>
<td>An intermediate lab which increases the student’s competency in operating industrial steam plant equipment. Hours: 72 hrs (0-6.55) 11 wks Credits: 4</td>
</tr>
<tr>
<td>PLAB 201</td>
<td>Power Lab Transition</td>
<td></td>
<td>This transition course will familiarize (or refamiliarize) you with the EnCana Power Engineering Training Centre to prepare you for PLAB 219. You will be required to trace and sketch all systems, including: make-up water, feedwater, steam, condensate, cooling water, and chemical feed systems. You will be required to review all operating procedures and control systems for each operating system. This course is required if you have not successfully completed PLAB 118 at Medicine Hat College. Hours: 14 hrs (0-3.5) 4 wks Credits: 1</td>
</tr>
<tr>
<td>PLAB 219</td>
<td>Fourth Lab</td>
<td>PLAB 118 or PLAB 201 (in special circumstances ONLY) &amp; ABSA Fourth Class Certificate of Competency (or other regulatory body equivalent certificate)</td>
<td>An advanced level lab which increases the student’s skills in plant operation, with a focus on troubleshooting. Hours: 128 hrs (0-8) 16 wks Credits: 4</td>
</tr>
<tr>
<td>PLAC 111</td>
<td>Field Placement</td>
<td>PLAB 116 &amp; POWE 161 &amp; POWE 162 &amp; POWE 163</td>
<td>This course is designed to provide you with 80 hrs of unpaid industrial work experience. Upon successful completion of PLAC 111 and all other first year courses, you will be eligible to write the Fourth Class Part B ABSA exams. Graded on a CR (Pass)/NC (Fail) basis. Hours: 80 hrs (0-40F) 2 wks Credits: 3</td>
</tr>
<tr>
<td>PLSC 1101</td>
<td>Introduction to Government and Politics</td>
<td></td>
<td>This course provides a systematic introduction to the basic concepts and institutions of the process of politics. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PLSC 1101 and POLI 201. Hours: 42 hrs (3-0) Credits: 3</td>
</tr>
</tbody>
</table>
PMAT (Pure Math)

PMAT 315 • Abstract Algebra
Prerequisite: MATH 221
This course features integers - division algorithm, prime factorization; groups - permutations, Lagrange's theorem; and rings - congruences, polynomials. This course is available as an independent study course. For more information, consult the Dean of Science.
Hours: 56 hrs (3-1T)
Credits: 3

POWE (Power Engineering)

POWE 151 • Intermediate Mechanics and Thermodynamics
Prerequisite: POWE 161
An intermediate level study of applied mechanics and thermodynamics.
Hours: 84 hrs (7.64-0) 11 wks
Credits: 4

POWE 152 • Metallurgy
Prerequisite: POWE 162
Metallurgy, corrosion, and chemistry fundamentals will be discussed as they pertain to power engineering. This course will also provide an intermediate level study of legislation, safety and fire protection systems.
Hours: 58 hrs (5.45-0) 11 wks
Credits: 3

POWE 153 • Codes and Drawings
Prerequisite: Acceptance into Power Engineering Technology
The student will take a more in depth look at industrial drawings. Code calculations, piping, traps and valves will also be discussed.
Hours: 58 hrs (5.45-0) 11 wks
Credits: 3

POWE 154 • Intermediate Electricity and Instrumentation
Prerequisite: POWE 162
An intermediate level study of electrical and instrumentation theory.
Hours: 80 hrs (7.64-0) 11 wks
Credits: 4

POWE 161 • Introductory Mechanics & Thermodynamics, Legislation and Safety
Prerequisite: Acceptance into Power Engineering Technology
This course will provide the student with an introduction to applied mathematics, mechanics, and thermodynamics. It will also cover legislation and safety.
Hours: 70 hrs (7-0) 10 wks
Credits: 4

POWE 162 • Introductory Electricity and Instrumentation, Materials, Welding and Safety
Prerequisite: Acceptance into Power Engineering Technology
An introduction to electricity and instrumentation, safety, materials, welding and piping.
Hours: 80 hrs (8-0) 10 wks
Credits: 4

POWE 163 • Introduction to Boilers, Environment and Communication
Prerequisite: Acceptance into Power Engineering Technology
This is an introductory course focusing on boiler design, fittings, operation and combustion. Environment and communication will also be discussed.
Hours: 80 hrs (8-0) 10 wks
Credits: 4

POLI (Political Science)

POLI 201 • Introduction to Government and Politics
The focus of this course is a systematic introduction to the basic concepts and institutions of the process of politics. Course studies the relationship among man, society and the states; examines key political ideologies and explores different political systems and structures. NOTE: Students cannot receive credit for both POLI 201 and PLSC 1101.
Hours: 42 hrs (3-0)
Credits: 3

POLI 223 • Conflict and Unity: Canadian Issues
Course examines topics in Canadian politics such as federalism and regionalism, the place of Quebec in Confederation, the Charter of Rights, class conflict and immigration, and foreign policy.
Hours: 42 hrs (3-0)
Credits: 3

POLI 301 • History of Political Thought I
This course provides an introduction to some of the most profound attempts to think about the meaning, limits, and possibilities of political life through an examination of selected texts within the early history of Western political philosophy.
Hours: 42 hrs (3-0)
Credits: 3

POLI 311 • History of Political Thought II
This course provides an introduction to some of the most profound attempts to think about the meaning, limits, and possibilities of political life through an examination of selected texts within the later history of Western political philosophy.
Hours: 42 hrs (3-0)
Credits: 3

POLI 313 • Political Ideologies
An introduction to the study of political ideologies (i.e., nationalism, socialism, liberalism and fascism, populism and conservatism).
Hours: 42 hrs (3-0)
Credits: 3
POWE 166 • Lubrication, Pumps, Compressor, Boiler Safety and Operation
Prerequisite: Acceptance into Power Engineering Technology
This course will introduce lubrication, compressors and pumps. Boiler safety and operation will be discussed.
Hours: 90 hrs (7.5-0) 12 wks
Credits: 4

POWE 167 • Maintenance, Water Treatment, Prime Movers/Engines and Auxiliary Building Systems
Prerequisite: Acceptance into Power Engineering Technology
An introduction to maintenance, water treatment, prime movers, engines and auxiliary building systems.
Hours: 90 hrs (7.5-0) 12 wks
Credits: 4

POWE 168 • Refrigeration and Air Conditioning and Types of Plants
Prerequisite: Acceptance into Power Engineering Technology
This course focuses on refrigeration and air conditioning. Different types of plants will also be discussed.
Hours: 90 hrs (7.5-0) 12 wks
Credits: 4

POWE 260 • Intermediate Boilers
Prerequisite: POWE 143 or POWE 163
This is an intermediate course focusing on boiler design, construction, and operation. Plant operation and maintenance will also be discussed.
Hours: 96 hrs (6-0) 16 wks
Credits: 4

POWE 261 • Intermediate Prime Movers
Prerequisite: POWE 146 or POWE 167
An intermediate course on turbines, internal combustion engines, and compressors.
Hours: 96 hrs (6-0) 16 wks
Credits: 4

POWE 262 • Water Treatment and Special Equipment
Prerequisite: POWE 143 or POWE 167
This course focuses on water treatment, refrigeration, pumps, and special industrial equipment.
Hours: 96 hrs (6-0) 16 wks
Credits: 4

POWE 265 • Advanced Boilers
Prerequisite: POWE 260
An advanced level course on boilers and legislation.
Hours: 60 hrs (3.75-0) 16 wks
Credits: 3

POWE 266 • Advanced Pumps and Water Treatment
Prerequisite: POWE 262
An advanced level course on pumps and water treatment.
Hours: 60 hrs (3.75-0) 16 wks
Credits: 3

POWE 270 • Advanced Codes
Prerequisite: POWE 153
An advanced level code calculations course.
Hours: 60 hrs (3.75-0) 16 wks
Credits: 3

POWE 271 • Plant Installation and Management
Prerequisite: Acceptance into Power Engineering Technology
An advanced level plant installation and management course for power engineers.
Hours: 60 hrs (3.75-0) 16 wks
Credits: 3

POWE 272 • Advanced Mechanics
Prerequisite: POWE 151
An advanced level applied mechanics course.
Hours: 96 hrs (6-0) 16 wks
Credits: 4

POWE 280 • Advanced Thermodynamics
Prerequisite: POWE 151
An advanced level thermodynamics course.
Hours: 96 hrs (6-0) 16 wks
Credits: 4

POWE 281 • Advanced Metallurgy
Prerequisite: POWE 152
An advanced level course on metallurgy and corrosion.
Hours: 72 hrs (4.5-0) 16 wks
Credits: 4

PRNU (Practical Nursing)

PRNU 156 • Nursing Theory I and Nursing Science Lab I
Nursing Theory I – In this course holistic nursing care (developmental, psychological, sociocultural and spiritual) is emphasized within the framework of the nursing process. Focus is on the principles underlying nursing actions, health promotion and integration of concepts from other courses.
Nursing Science Lab I – In the nursing skills lab, utilizing the underlying theoretical principles, students will begin to develop psychomotor nursing skills to provide safe, competent care.
Hours: 90 hrs (3-3) 15 wks
Credits: 4

PRNU 158 • Clinical Experience I - Continuing Care
Prerequisite: PRNU 151 or HLSC 151 & PRNU 152 or BIOL 152 & PRNU 153 or PSYC 153 & PRNU 154 or COMM 154 & PRNU 156
This course will provide the student with hands-on experience in a continuing care facility. The schedule for this clinical experience will be at the discretion of the clinical instructor. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 78 hrs (0-39C) 2 wks
Credits: 4

PRNU 159 • Clinical Experience I - Continuing Care
Prerequisite: PRNU 151 or HLSC 151 & PRNU 152 or BIOL 152 & PRNU 153 or PSYC 153 & PRNU 154 or COMM 154 & PRNU 156
This course will provide the student with hands-on experience in a continuing care facility. The schedule for this clinical experience will be at the discretion of the clinical instructor. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 78 hrs (0-39C) 2 wks
Credits: 4

PRNU 160 • Adult Health Assessment Theory and Lab
Prerequisite: PRNU 158
This course focuses on applying knowledge of anatomy and physiology to the skill of completing an adult health assessment. Students will learn to differentiate between normal and abnormal assessments and understand the significance of these findings. Students will gain knowledge and critical thinking skills required to demonstrate competence in physical health assessment.
Hours: 60 hrs (1.5 - 3.1) 13 wks
Credits: 3
PRNU 162 • Applied Pharmacology and Medication Administration Lab
Prerequisite: PRNU 158
This course deals with developing the body of knowledge needed to administer therapeutic medications. The practical nurse must understand the pharmacokinetics of medications, the rationale for their use, and the expected results of the therapy. The practical nurse must also learn to use critical thinking skills to assess the need for, and response to medication. Practical nurse competencies, scope of practice and legal responsibilities will also be emphasized. Accurate/successful demonstration of the math skills to safely calculate dosages will be imperative. In the nursing skills lab, utilizing the underlying theoretical principles, students will develop psychomotor skills to provide safe, competent medication administration to clients with multiple health care issues.
Hours: 85 hrs (4.6-1.9) 13 wks
Credits: 4

PRNU 166 • Nursing Theory II and Nursing Science Lab II
Prerequisite: PRNU 158
Holistic nursing care (developmental, psychological, sociocultural and spiritual) and skills are emphasized within the framework of the nursing process. Focus is on the principles underlying nursing actions, adult physical assessment, health promotion and integration of concepts from other courses. In the nursing skills lab, learners, utilizing the underlying theoretical principles will develop psychomotor nursing skills to provide safe, competent care to clients with multiple health care issues. This course builds on the knowledge and nursing therapeutics introduced in previous courses. Diversity, culture and spiritual needs are incorporated into caring for clients.
Hours: 80 hrs (4.6-1.5) 13 wks
Credits: 4

PRNU 168 • Clinical Experience II - Continuing & Acute Care
Prerequisite: PRNU 160 & PRNU 162 & PRNU 166 & PHSL 200
The focus of this second clinical experience is the practical nurse’s role in both continuing care and acute care settings. During this time, the student will be assigned to specific clients and expected to research adequately to provide safe, organized nursing care. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 155 hrs (0-38.8C) 4 wks
Credits: 6

PRNU 200 • Nursing Theory III & Nursing Science Lab III
Prerequisite: PRNU 168
Nursing Theory III – care of clients in acute care settings, pre- operative surgical specialties, emergency care, palliative care, rehabilitation and community clinical based care. The emphasis is on critical thinking within the framework of the nursing process. The course focuses on the principles and rationale underlying nursing actions utilizing a problem solving approach, integrated multi-system assessment of clients with complex needs. Discharge planning and assisting the client to transition to community settings will also be included, integrating knowledge from previous courses. In the nursing skills lab, utilizing the underlying theoretical principles, learners will develop psychomotor nursing skills to provide safe, competent care for clients requiring medical or surgical interventions.
Hours: 120 hrs (3.33-0.83) 12 wks
Credits: 4

PRNU 201 • Maternal and Newborn Theory and Lab
Prerequisite: PRNU 168
A family-centered introduction to the needs and nursing care of childbearing families. This course focuses on assessment, monitoring, patient teaching for the care of the mother and infant during pregnancy, labor and delivery and the postpartum period. In maternity lab, learners will develop nursing skills to provide safe competent care for both mother and newborn.
Hours: 50 hrs (3.33-0.83) 12 wks
Credits: 3

PRNU 203 • Mental Health and Addiction
Prerequisite: PRNU 168
This course provides an introduction to the assessment and treatment of clients with psychiatric/mental health issues. The course includes basic mental health concepts, therapeutic relationships, assessment strategies and the nursing process, legal and ethical practices, mental health, addiction issues, and treatments.
Hours: 40 hrs (3.33 - 0) 12 wks
Credits: 3

PRNU 204 • Clinical Experience III - Acute Care
Prerequisite: PRNU 200 & PRNU 201 & PRNU 203 & PRNU 205
The focus of this third clinical experience will be the practical nurse’s role in the acute care setting. During this time, the student will be assigned to specific clients and expected to research adequately to provide safe, organized nursing care. The focus of care is to assist people who have had surgery or have multiple medical problems. Working with a variety of health team members, assessment and communication with clients and staff will be stressed.
Hours: 271 hrs (0-38.7C) 7 wks
Credits: 12

PRNU 205 • Pediatric Nursing
Prerequisite: PRNU 168
A family centered introduction to the needs and nursing care of child rearing families. Community resources and client teaching are addressed. This course provides you with an introduction to common health issues of children related nursing care.
Hours: 40 hrs (3.33-0.0) 12 wks
Credits: 3

PRNU 208 • Transition to Practical Nursing Graduate
Prerequisite: PRNU 204
This course will facilitate the transition from learner roles to the graduate roles within the context of the practical nurse profession. A strong emphasis will be placed on professional roles and responsibilities in general and practical nurse roles and responsibilities in particular. Learners will gain knowledge of leadership skills required for their leadership roles in a health care team. Legal, ethical and management concepts will be integrated into the course, with the expectation that learners apply these principles to prepare for and participate in the workforce.
Hours: 45 hrs (11.25-0) 4 wks
Credits: 3
PRNU 209 • Community Nursing
Prerequisite: PRNU 204
The present focus of community health nursing is on community wide approaches to promote health of populations. Community health nursing includes working with individuals and defining risk factors for illness and injury and encompasses a broad scope of practice. This course will introduce learners to the practice of community health nursing: nursing roles and activities, levels of prevention, immunizations, primary health care, and determinants of health, nursing strategies, and varied practice settings within the community. The purpose will be to provide a theory base and understanding of community health concepts that will provide the learner with the basis for nursing practice with individuals, families, and groups within the community setting. In the lab setting the learners will develop the skills, knowledge and ability to administer various immunizations.
Hours: 46 hrs (10-1.5) 4 wks
Credits: 3

PRNU 215 • Final Practicum
Prerequisite: PRNU 208 & PRNU 209
This course will provide an opportunity to apply nursing knowledge and skills within a variety of settings. Eighty hours will be spent in a leadership role in a continuing care facility and 220 hours will be spent on a medical/surgical nursing unit, giving the student the opportunity to apply nursing knowledge and skills into practice. In each component, the student nurse will experience a more independent role while mentored by a Licensed Practical Nurse who acts as a resource to assist the student to achieve his/her goals. Graded on a CR (Pass)/NC (Fail) basis.
Hours: 300 hrs (0 - 33P) 9 wks
Credits: 6

PROG (Programming)

PROG 210 • Systems Analysis and Design
This course covers tools, techniques and methods used by system analysts in the work place to achieve workable computer solutions for a wide range of problems. Topics include hardware/software, network planning; requirements analysis; feasibility study and research; cost benefit analysis; hardware/software evaluation; design of custom applications; database design; and user interface design. Assignments and case studies used provide practice with the above concepts.
Hours: 70 hrs (2-3)
Credits: 4

PROG 225 • Intermediate Programming
Prerequisite: ITEC 145
Building on two prior programming courses, you will gain an in depth grounding in object oriented programming concepts and practices. Topics include class and interface design, the principles of encapsulation, inheritance and polymorphism, components generics, delegates, unit testing, etc. In the labs, you construct and test your own classes and DLL’s as well as continue to enlarge your familiarity with various framework objects.
Hours: 70 hrs (2-3)
Credits: 4

PROG 245 • Dynamic Web Application Development
Prerequisite: PROG 225
Building on knowledge gained in Web Development and Programming Fundamentals, this course examines concepts and application of server side Internet development with dynamic content. Topics include web controls, state management, database access, display of real time data, web services and emerging web development methodologies. Reflecting the industry trend of using teamwork for development of complex applications, this course may involve project teamwork in the lab component.
Hours: 70 hrs (2-3)
Credits: 4

PROG 280 • Advanced Programming
Prerequisite: PROG 225
This course takes various programming concepts to greater depth and includes topics such as parallelism and multi-threading, network programming, distributed applications, synchronous and asynchronous web services, object serialization, optimizations, software design patterns, programming language comparison, etc. Lab assignments and projects related to the above topics form an essential component of the course.
Hours: 70 hrs (2-3)
Credits: 4

PSYC (Psychology)

PSYC 153 • Growth and Development for Practical Nurses
This course presents a comprehensive overview of human growth and development and normal behavioral responses throughout the life span. Emphasis is placed upon the stages of development and their linkage to common events and adaptations.
Hours: 45 hrs (3-0) 15 wks
Credits: 3

PSYC 205 • Principles of Psychology
Focuses of course are fundamental procedures, findings, terminology and theories in the major areas of psychology. This course is a prerequisite to all of the senior psychology courses. NOTE: Students cannot receive credit for both PSYC 205 and PSYC 1105.
Hours: 42 hrs (3-0)
Credits: 3

PSYC 312 • Research Methods in Social Science
Prerequisite: PSYC 205 or SOCI 201 or permission of the Dean
This course will introduce you to experimental and nonexperimental research methods in social science. You will learn to think critically about research claims in the social sciences, develop an awareness of ethical concerns in research, and gain understanding of research methodology, its benefits, and its shortcomings. NOTE: Credit will be only be granted for one of PSYC 312 or SOCI 313.
Hours: 84 hrs (3-3)
Credits: 4

PSYC 340 • Positive Psychology
Prerequisite: PSYC 205
Positive Psychology is the scientific study of how human beings prosper. Its goal is to identify and enhance the human strengths and virtues that make life worth living and allow individuals and
PSYC 343 • Social Interaction and Perception  
**Prerequisite: PSYC 205**  
An introduction to research and theory in the areas of social perceptions, social attractions, language and communication, and group processes.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 345 • Social Psychology  
**Prerequisite: PSYC 205**  
Social psychological approaches to understanding social influence, social perception and cognition, attitudes and group dynamics are studied in this course. NOTE: Not open to students with credit in PSYC 343. Students cannot receive credit for both PSYC 345 and PSYC 2245.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 351 • Developmental Psychology  
**Prerequisite: PSYC 205**  
The focus of this course is the study of psychological development through childhood. NOTE: Students cannot receive credit for both PSYC 351 and PSYC 3351.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 357 • Human Development  
**Prerequisite: PSYC 205**  
This course is a continuation of PSYC 351. The curriculum includes an overview of physical, intellectual, personality and social development through adolescence, early adulthood, middle adulthood, and late adulthood. Key social issues affecting adolescents and adults are highlighted. NOTE: Students cannot receive credit for both PSYC 357 and PSYC 3355.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 365 • Cognitive Psychology  
**Prerequisite: PSYC 205**  
This course provides an overview of research and theory in cognitive psychology. Topics include but are not limited to: attention, memory, thinking, and other mental processes.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 368 • Perception  
**Prerequisite: PSYC 205**  
Introduction to the theoretical and experimental issues associated with sensory and perceptual experience. It focuses primarily on visual perception. Major topics include the visual system, visual attention, the perception of colour, space, form, visual art, and motion, as well as the constancies. Other topics examined include the auditory system and hearing, touch, taste, and smell. In addition to lectures, the course provides you with hands-on activities intended to illustrate perceptual processes.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 383 • Personality  
**Prerequisite: PSYC 205**  
This course studies the approaches to the study of personality.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 385 • Introduction to Abnormal Psychology  
**Prerequisite: PSYC 205**  
Focus of course is an overview of abnormal behaviour and experiences, their causes and treatment. NOTE: Students cannot receive credit for both PSYC 385 and PSYC 2285.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 205 or PSYC 1105  
**Introduction to Psychology**  
This course introduces the history, methods, and current state of knowledge in modern psychological research. A wide range of content areas will be surveyed, including biological psychology, learning, memory, perception, personality, psychological disorders, therapy, stress, social psychology, psychological development in children, and the ethics of research. Additional topics may be included at the discretion of the instructor.  
This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PSYC 1105 and PSYC 205.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 2245 • Social Psychology  
**Prerequisite: PSYC 205 or PSYC 1105**  
Students will examine social psychological approaches to understanding social influence, social perception and cognition, attitudes and group dynamics.  
**This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.**  
NOTE: Students cannot receive credit for both PSYC 2245 and PSYC 345.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3

PSYC 2285 • Introduction to the Psychology of Abnormal Behaviour  
**Prerequisite: PSYC 205 or PSYC 1105**  
Introduction to the Psychology of Abnormal Behaviour  
This senior-level course is a survey of the symptoms, causes and treatment of psychological disorders as they occur across the lifespan. Through lecture, videos and in-class applied exercises, students will consider the experience of psychological abnormality and study contemporary methods used in clinical diagnosis and intervention.  
**This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.**  
NOTE: Students cannot receive credit for both PSYC 2285 and PSYC 385.  
**Hours:** 42 hrs (3-0)  
**Credits:** 3
PSYC 3320 • Psychology of Death and Dying
Prerequisite: PSYC 205 or PSYC 1105
The course examines social and psychological aspects of death and dying, such as: historical and cross cultural variability in death attitudes, spirituality, the dying process, ethical issues such as euthanasia and suicide, bereavement, burial practices and death perceptions across the life-span. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PSYC 3320 and IDST 485.
Hours: 42 hrs (3-0)
Credits: 3

PSYC 3351 • Topics in Child Development
Prerequisite: PSYC 205 or PSYC 1105
This course focuses on psychological development from conception through childhood and adolescence, examining such topics as the development of cognition, emotion, identity, moral thinking, and psychosocial abilities. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PSYC 3351 and PSYC 351.
Hours: 42 hrs (3-0)
Credits: 3

PSYC 3355 • Topics in Adolescence
Prerequisite: PSYC 205 or PSYC 1105
This course emphasizes the biological, cognitive, social and emotional changes that occur within adolescent development. It investigates the impact of various contexts (family, peers, school, etc) on developmental outcomes. Topics include the transitory difficulties and psychosocial problems that may arise during this period as well as cultural and historical aspects of development. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both PSYC 3355 and PSYC 357.
Hours: 42 hrs (3-0)
Credits: 3

RELI (Religious Studies)

RELI 205 • The Nature of Religion
This course examines the histories and worldviews of a number of religious traditions, as well as philosophical issues arising within and from these traditions. Some ancient and tribal traditions are studied, but the focus is on major, living world religions. Philosophical topics that may be addressed are the existence and nature of ultimate reality, life after death, pain and evil, faith and knowledge, and religious pluralism.
Hours: 42 hrs (3-0)
Credits: 3

SCIE (Science)

SCIE 009 • Basic Science
Prerequisite: ENGL 009 or equivalent & MATH 009 or equivalent
This course will focus on the core science skills, knowledge, and vocabulary needed for further study in the science areas. Topics to be covered will include formulas, units, graphs, temperature scales, heat, simple machines, cells, and properties of matter.
Hours: 56 hrs (3-1)
Credits: 3

SCIE 010 • Introductory Science
Prerequisite: SCIE 009 or equivalent & ENGL 009 or equivalent
Corequisite: MATH 010 or MATH 010FN or equivalent
This course is designed to review basic concepts in science including the metric system, measurement, and the scientific method. These skills are used to investigate the relationships and changes between matter and energy in living systems, during chemical change, and in the physical world.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

SLGY (Sociology)

SLGY 1101 • Introduction to Sociology
This course introduces students to the discipline of Sociology. Sociology is the study of social life in all its forms. A variety of topics within the discipline will be explored throughout this course, such as social theory, social research methods, culture, with a strong focus on gender, sexuality, class, and racial inequality. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both SLGY 1101 and SOCI 201.
Hours: 42 hrs (3-0)
Credits: 3

SLGY 2229 • Crime and Society
Prerequisite: SOCI 201 or SLGY 1101
This course serves as an introduction to the sociological study of crime. The goal is to critically assess crime as it intersects with race, class, and gender. Students will become familiar with classical and contemporary theories of crime as well as strategies toward rehabilitation or social change. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both SLGY 2229 and SOCI 225.
Hours: 42 hrs (3-0)
Credits: 3

SLGY 2233 • Sociology of Gender
Gender operates on four dimensions in Canadian society: within individuals; through interaction with others; in the features of social institutions such as work, law, and family; and in the norms and values that shape the socio-cultural landscape. This course will introduce students to gender on each of these dimensions. This course is a Mt. Royal University course for students in their...
Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College.

NOTE: Students cannot receive credit for both SLGY 2233 and GNST 300.

Hours: 42 hrs (3-0)
Credits: 3

SLGY 2271 • Sociology of Families
Prerequisite: SOCI 201 or SLGY 1101
This course offers a sociological investigation into families. The focus will be on theories of family and the social history of families. Some specific topics covered include the structure and function of families, family systems, family life stages (dating, marriage, parenting and old age), diverse family forms, and problems in family life such as violence and divorce. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both SLGY 2271 and SOCI 371.

Hours: 42 hrs (3-0)
Credits: 3

SLPA (Speech Language Pathologist Assistant)

SLPA 206 • Therapeutic Processes III
Prerequisite: DBSS 160 & (EDAS 101 or CHPC 124) and a minimum of a C grade in SLPA 215 & SLPA 216 & TAPC 210
A six-week fieldwork placement which provides the opportunity to integrate theory and practice, under the supervision of a Speech-Language Pathologist. Graded on a CR/NC (Pass/Fail) basis.

Hours: 225 hrs (0-37.5P) 6 wks
Credits: 4.5
Available On-Site and in a Distributed Learning Format

SLPA 207 • Therapeutic Processes IV
Prerequisite: DBSS 160 & (EDAS 101 or CHPC 124) and a minimum of a C grade in SLPA 215 & SLPA 216 & TAPC 210
A six-week fieldwork placement which provides the opportunity to integrate theory and practice, under the supervision of a Speech-Language Pathologist. Placement focuses on a different caseload than previous fieldwork, although the setting may remain the same. Graded on a CR/NC (Pass/Fail) basis.

Credits: 4.5
Available On-Site and in a Distributed Learning Format

SLPA 212 • Basics for the Speech Language Pathologist Assistant
Prerequisite: A minimum of a C grade in KNES 265 or any 200 level LING & TAPC 111 & TAPC 112 & TAPC 113
This course provides an introduction to the basic skills required by a Speech-Language Pathologist Assistant (SLPA) to function effectively in the workplace. Topics include goal-based intervention, hearing disorders, and roles and responsibilities of SLPAs. In-person lab attendance at Medicine Hat College or an affiliated site may be required.

Hours: 60 hrs (3 - 1.25)
Credits: 3
Available On-Site and in a Distributed Learning Format

SLPA 215 • SLPA Therapeutic Processes I
Prerequisite: Minimum of a C grade in SLPA 212
This course provides an introduction to the advanced skills required by a Speech-Language Pathologist Assistant in understanding speech disorders and providing intervention for articulation, phonology and motor speech disorders. Fluency, voice and swallowing disorders are also discussed. In-person lab attendance at Medicine Hat College or an affiliated site may be required.

Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

SLPA 216 • SLPA Therapeutic Processes II
Prerequisite: Minimum of a C grade in SLPA 212
The course focus is on the essential background, knowledge and skills for a Speech-Language Pathologist Assistant to provide intervention to clients of all ages with developmental and acquired language disorders. In-person lab attendance at Medicine Hat College or an affiliated site may be required.

Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

SLPA 218 • Career Preparation for the Speech-Language Assistant
Prerequisite: DBSS 160 & (EDAS 101 or CHPC 124) and a minimum of a C grade in SLPA 215 & SLPA 216 & TAPC 210
Corequisite: SLPA 206 or SLPA 207
This online course provides the employment-seeking Speech-Language Pathologist Assistant with knowledge and skills necessary to enter the workplace, with a focus on the job search process. This course should be completed concurrently with a fieldwork course.

Credits: 1
Available in a Distributed Learning Format only

SLWK (Social Work)

SLWK 100 • Introduction to Social Work Practice
SLWK 100 is a foundation course for the Social Work program. You study the history of Social Work and learn the basic theoretical principles, concepts and values of Generalist Social Work Practice, and how to apply these principles in a variety of helping situations. You will also be asked to reflect on your own values and beliefs and to evaluate your compatibility with the Social Work profession. Learning about stress, reactions to stress, and stress management is also a key component of the course.

Hours: 42 hrs (3-0)
Credits: 3

SLWK 101 • Social Work Theories & Practice
Prerequisite: Minimum of a C grade in SLWK 100
SLWK 101 is a continuation of SLWK 100 with a focus on areas of Generalist Practice and theoretical models of Social Work practice. You will also learn about the Social Work Code of Ethics and Standards of Practice.

Hours: 42 hrs (3-0)
Credits: 3
SLWK 102 • Social Problems & Policies
The focus of SLWK 102 is an exploration of social issues, problems and concerns, and a review and analysis of social policies as they relate to the development and delivery of appropriate social services. You will learn what constitutes a social problem and how social policies are developed.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 103 • Social Work with Individuals
Prerequisite: Minimum of a C grade in IDST 100 & SLWK 100
SLWK 103 concentrates on the further development of social work attitudes and skills focusing on working with individuals and the close examination of your attitude as a help or a hindrance in working with individuals. This course focuses on expanding interpersonal communication skills, exploring the role of the helper, and developing counselling skills. You will also learn about the interviewing process and the development of the counselling relationship.
Hours: 42 hrs (1.5-1.5)
Credits: 3

SLWK 105 • Social Work with Groups
Prerequisite: Minimum of a C grade in IDST 100 & SLWK 100
SLWK 105 is designed to further develop and refine social work skills for working with groups. The class is designed to create experiential learning opportunities in a group environment. You will learn about group development process, stages of group development, types of groups, and theories related to Social Work with groups. You will also learn about yourself as a group leader and as a group member.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 206 • Social Work Research & Leadership in Human Services
Prerequisite: Minimum of a C grade in IDST 100 & SLWK 101 & SLWK 102
SLWK 206 covers the topics of social work research and human service organizations. In the first part of the course you will gain an understanding and appreciation of social work research. You will learn the basic elements of research, research design, and ethics and research. You will also learn about different ways of knowing, evidence based practice, and evaluation. In the second part of the course you will study the various aspects of human service organizations, social work administration, and leadership. You will learn about organizational culture, theories of organization function and structure, and theories of leadership.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 208 • Social Work with Families
Prerequisite: Minimum of a C grade in SLWK 101 & SLWK 102 & (SLWK 103 or HLSC 220) & (SLWK 105 or HLSC 320)
SLWK 208 provides you with a framework for understanding the diversity and changing concepts of family dynamics as related to social work practice and to develop skills for working with families. You will apply social work process to working with families and learn about theories of family, problems and how they manifest in families, to reflect on your personal values of family, and to view the family as a client.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 209 • Social Work with Communities
Prerequisite: Minimum of a C grade in (SLWK 103 or HLSC 220) & (SLWK 105 or HLSC 320) & SLWK 206
The focus of the course is on community practice and theory. SLWK 209 provides you with an opportunity to develop skills in community organization and development. You will learn about the application of the social work process to community, exploring community development, social determinants of health, capacity building, and partnership development. You will also learn to view the community as the client.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 211 • Social Work with Mental Illness, Trauma, and Addictions
Prerequisite: Minimum of a C grade in SLWK 101 & SLWK 102 & (SLWK 103 or HLSC 220) & (SLWK 105 or HLSC 320)
SLWK 211 provides you with an understanding of the many interrelated factors that affect various client populations and the roles of social workers in dealing with mental illness, trauma, and addictions. You will learn the importance of a cross cultural perspective, and to examine traditional beliefs and assumptions about mental illness and addictions. From a best practices model you will review creative preventative programs looking at the social determinants of health. You will be invited to challenge your personal views about mental illness and addictions.
Hours: 42 hrs (3-0)
Credits: 3

SLWK 212 • Social Work Practicum I
Prerequisite: Minimum of a C grade in SLWK 101 & SLWK 102 & (SLWK 103 or HLSC 220) & (SLWK 105 or HLSC 320)
SLWK 212 involves supervised study and practice. You spend three days a week in a social service agency. After an initial orientation period, you are expected to assume responsibility for assigned agency duties in order to enhance your knowledge, skills, values and attitudes in social work methods. During agency work, attention is given to teaching you specific skills, developing competence in terms of offering services to clients, and participating in overall agency programs. Biweekly seminars focus on integrating the program philosophy, common themes and social work theory with practicum experiences. NOTE: You must receive a minimum of a “C” grade in Social Work Practicum I in order to go on to Social Work Practicum II. Additional Requirements: Prior to starting practicum students must receive certification in Applied Suicide Intervention Skills Training (ASIST). Opportunity for this training will be coordinated by the program but students are responsible for the cost. (Approximately $200) NOTE: Students in Addictions Counselling/Social Work Combined diplomas program must also have a minimum of a C grade in HLSC 340 & HLSC 365.
Hours: 357 hrs (1.5-24P)
Credits: 9

SLWK 213 • Social Work Practicum II
Prerequisite: Minimum of a C grade in SLWK 206 & SLWK 208 & SLWK 212
SLWK 213 involves supervised study and practice. You spend three days a week in a social service agency. After an initial orientation period, you are expected to assume responsibility for assigned work in order to enhance your knowledge, skills, values, and attitudes in social work methods, and actively engage in social work practice. During agency work, attention is given to teaching...
SLWK - SOCI

you specific skills, developing competence in terms of offering services to clients, and participating in overall agency programs. Biweekly seminars focus on integrating the program philosophy, common themes and social work theory with practicum experiences. NOTE: You must achieve a minimum of a “C” grade in this placement in order to get credit for the course.

Hours: 357 hrs (1.5 - 24P)
Credits: 9

SLWK 219 • International Social Work
Prerequisite: Approval of the Program Coordinator
SLWK 219 is an internet course. This is the preparation course for the International Practicum. Students must successfully complete this course in order to participate in the international practicum. In this course you will learn about social work in an international context. You explore the similarities and differences of social work practice in another country and in Canada. This course is only offered when SLWK 220 is in place.

Hours: 21 hrs (1.5-0)
Credits: 1.5

SLWK 220 • International Social Work Practicum
Prerequisite: Minimum of a C grade in SLWK 101 & SLWK 102 & SLWK 103 & SLWK 105 & SLWK 219
This course involves supervised study and practice abroad. An international practicum gives you new perspectives on social work, greater cultural awareness and an appreciation of comparative social policies. This course will be a block placement opportunity eight weeks in duration and will include both practice and seminar components. The seminars focus on integrating the program philosophy, common themes and social work theory with practicum experiences. This opportunity is open as a first or second practicum requirement. In addition to tuition costs, students are also responsible for the expenses of any required vaccinations, travel insurance, and incidentals. This course is only available when there is sufficient student interest and available program resources.

Hours: 344 hrs (3-40P) 8 wks
Credits: 7.5

SOCI (Sociology)

SOCI 201 • Introductory Sociology
This course provides a foundation for sociological inquiry and consideration of important topics including socialization, group development and cohesion, social inequality. In doing so, it provides an introduction to sociological thought and theory. NOTE: Students cannot receive credit for both SOCI 201 and SLGY 1101.

Hours: 42 hrs (3-0)
Credits: 3

SOCI 203 • Current Social Issues
This course draws on different sociological perspectives and theories to consider social issues such as population growth, industrial conflict, abortion, drug abuse, and the status of women. Each of these current social issues is given critical engagement and analysis, thereby demonstrating the broad treatment sociologists give each. NOTE: This course is not a substitute for SOCI 201.

Hours: 42 hrs (3-0)
Credits: 3

SOCI 205 • Canadian Society
An examination of the major institutions of Canadian Society, consideration is given to the diversity of the Canadian population and to the dynamics of contemporary patterns of social change. NOTE: This course is not a substitute for SOCI 201.

Hours: 42 hrs (3-0)
Credits: 3

SOCI 225 • Criminology
Prerequisite: SOCI 201
Criminology is the search for, and explanation of, general patterns characterizing the socially unacceptable and/or law breaking behavior of individuals. This course is an introduction to the sociological study of crime and critical appraisal of theoretical explanations and methods of conducting research. NOTE: Students cannot receive credit for both SOCI 225 and SLGY 2229.

Hours: 42 hrs (3-0)
Credits: 3

SOCI 305 • Sociology of Work
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course uses the students’ own experiences of work as the starting point for exploration of paid and unpaid work in a globalized world. Topics include the following: definitions of work, employment relations, carework, international migration of workers, education and work, precarious work, outsourcing, offshoring, defining skill and competence, job satisfaction, finding a job, rewards of work, occupational health and safety, unemployment, and retirement.

Hours: 42 hrs (3-0)
Credits: 3

SOCI 313 • Research Methods in Social Science
Prerequisite: PSYC 205 or SOCI 201 or permission of the Dean
This course will introduce you to experimental and nonexperimental research methods in social science. You will learn to think critically about research claims in the social sciences, develop an awareness of ethical concerns in research, and gain understanding of research methodology. NOTE: Credit will be only be granted for one of PSYC 312 or SOCI 313.

Hours: 84 hrs (3-3)
Credits: 4

SOCI 321 • Youth Crime
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course examines the nature and extent of youth crime in Canada and its treatment and control. Matters to be examined include family, school, peers, and the economy as influences; legislation, and social responses to youthful deviance; theories of delinquency; measurement of youth crime; public policy; and future trends.

Hours: 42 hrs (3-0)
Credits: 3
SOCI 325 • Deviant Group Behaviour
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course provides systematic analyses of deviant group behavior with an emphasis on the non-legal aspects of deviance. In particular, this course emphasizes deviant subcultures and the ways in which sociologists consider deviance. Through a sociological lens, the course examines histories in which LGBT+ communities, mental health conditions, and other identities have been mislabeled as deviant.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 333 • Offender Rehabilitation
Prerequisite: Any 200 level PSYC or SOCI course (PSYC 205 or SOCI 201 is highly recommended)
This course will examine how society attempts to rehabilitate those who have contravened the law. The focus will be on Canadian criminal justice, but relevant global approaches to offender rehabilitation will also be considered. Both the theory and practice of rehabilitative practices will be explored.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 345 • Mass Communication
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course provides an analysis of socio-psychological effects of the mass media of communication, radio, television, movies, comic books, etc.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 357 • Human Ecology
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
Human Ecology integrates information from diverse disciplines in exploring the evolution of human social systems. Among the topics examined are ecological principles and paradigms; the emergence and evolution of human societies; the effects on human society of the transition from food collecting to food production; the emergence of social stratification; the development of the state and civilization; the challenges of urban life; the impact on human populations of disease, especially newly emerging and re-emerging diseases; the population explosion and the impact on human society of globalization.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 361 • Comparative Social Organization
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
The focus of this course is the study of social groups and organizations, stratification, conflict, and change.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 365 • Social Stratification
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course serves as an introduction to social inequality and the major sociological theories of social stratification. It examines multiple avenues of stratification and the ways in which social structure enables and constrains individuals in negotiating social inequalities. It specifically draws on student experiences to consider and interrogate everyday social inequality.
Hours: 42 hrs (3-0)
Credits: 3

SOCI 371 • Sociology of Families
Prerequisite: Any 200-level Sociology (SOCI 201 recommended)
This course interrogates notions of families and family life. It does so through consideration of coupling, child rearing and family systems as well as processes of aging and change within families throughout the life course. In doing so, it provides a foundation for further study of families and family life. NOTE: Students cannot receive credit for both SOCI 371 and SLGY 2271.
Hours: 42 hrs (3-0)
Credits: 3

SOSC (Soil Science)

SOSC 213 • Soil Resources
This course provides an investigation into the formation, description, identification, and classification of soils. The lab emphasizes the basic biological, chemical, and physical techniques used to describe and classify soils. Emphasis is placed on management of soil as a resource in natural and altered ecosystems.
Hours: 70 hrs (3-2)
Credits: 4

SOST (Social Studies)

SOST 010 • Canada Today (Selected Topics)
Corequisite: ENGL 010
Development of Canada’s sovereignty, national security and role in the world are the basic topics covered in this course. A study of Canada throughout history with regards to politics, laws, internal struggles and international involvement are covered.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format

SOST 020 • The Contemporary World: Political and Social Changes
Prerequisite: SOST 010 strongly recommended
Corequisite: ENGL 020
This course is divided into two major sections - tradition and change, and interdependence in the global environment. The first section deals with the history of Europe from the Renaissance to WWI. The second section focuses on the economic and social aspects of the global community.
Hours: 84 hrs (6-0)
Credits: 4
Available On-Site and in a Distributed Learning Format
SOST 030 • Perspectives on Ideology  
Prerequisite: ENGL 020  
Students will explore the origins and complexities of ideologies and examine multiple perspectives regarding the principles of classical and modern liberalism. An analysis of various political and economic systems will allow students to assess the viability of the principles of liberalism. Developing understandings of the roles and responsibilities associated with citizenship will encourage students to respond to emergent global issues.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available On-Site and in a Distributed Learning Format

SOST 033 • Understanding of Ideologies  
Students will examine the origins, values and components of competing ideologies. They will explore multiple perspectives regarding relationships among individualism, liberalism, common good and collectivism. An examination of various political and economic systems will allow students to determine the viability of the values of liberalism. Developing understandings of the roles and responsibilities associated with citizenship will encourage students to respond to emergent global issues.  
Hours: 84 hrs (6-0)  
Credits: 4  
Available in Distributed Learning Format Only

SPAN (Spanish)  
SPAN 101 • Beginners’ Spanish I  
Introduction to Spanish designed to meet your needs if you have no previous knowledge of the language and if you want to learn the language for practical reasons (for example, for purposes of travel, tourism, and basic commerce). The course provides instruction in all aspects of communication in Spanish (listening, speaking, reading, and writing). NOTE: Not to be taken by students with native or near native proficiency in Spanish, or with credit in Spanish 30 or its equivalents in Canada and other countries.  
Hours: 70 hrs (4-1)  
Credits: 4

SPAN 103 • Beginners’ Spanish II  
Prerequisite: SPAN 101  
Continuation of SPAN 101. NOTE: Not to be taken by students with native or near native proficiency in Spanish, or with credit in Spanish 30 or its equivalents in Canada and other countries.  
Hours: 70 hrs (4-1)  
Credits: 4

SPAN 201 • University Transfer: Beginners’ Spanish I  
This is a comprehensive Spanish course designed to meet your needs if you are a university transfer student with no prior knowledge of the language. The course includes training in listening, speaking, reading and writing of Spanish in its cultural context. SPAN 201 and its continuation course, SPAN 203, are designed to prepare you for more advanced level university study in the language. NOTE: Not to be taken by students with native or near native proficiency in Spanish, or with credit in Spanish 30 or its equivalents in Canada and other countries.  
Hours: 70 hrs (4-1)  
Credits: 4

SPAN 203 • University Transfer: Beginners’ Spanish II  
Prerequisite: SPAN 201  
Continuation of Spanish 201. NOTE: Not to be taken by students with native or near native proficiency in Spanish, or with credit in Spanish 30 or their equivalents in Canada and other countries.  
Hours: 70 hrs (4-1)  
Credits: 4

SPCH (Speech)  
SPCH 2001 • Introduction to Public Speaking  
This course provides an introduction to current theories of communication. An understanding of effective communication and its potential is promoted through participation in a variety of speaking situations. Opportunity is given for group discussion; audience analysis; development of good listening habits and how to research, organize and prepare various types of speeches. This course is a Mt. Royal University course for students in their Third and Fourth year. The numbering system is based upon their guidelines. Students register through Medicine Hat College. NOTE: Students cannot receive credit for both SPCH 2001 and COMM 250.  
Hours: 42 hrs (3-0)  
Credits: 3

STAT (Statistics)  
STAT 213 • Introduction to Statistics I  
Prerequisite: MATH 30  
Introduction to the collection and presentation of data. You receive an introduction to probability including Bayes’ law, expectations and distributions. The properties of the normal curve will be discussed. An introduction to estimation and hypothesis testing is also provided.  
Hours: 70 hrs (3-2)  
Credits: 4

STAT 217 • Introduction to Statistics II  
Prerequisite: STAT 213 or STAT 251 or STAT 333  
This course includes estimation of population parameters, confidence intervals for means, and choice of sample size. You also cover topics such as test of hypotheses including two-sample tests and paired comparisons, the Chi-squared tests for association and goodness-of-fit, regression and correlation, variance estimates, tests for regression and correlation coefficients, non-parametric methods and associated tests, analysis of variance.  
Hours: 70 hrs (3-2)  
Credits: 4

STAT 251 • Introduction to Applied Statistics  
Prerequisite: MATH 030 or equivalent  
Introduction to data collection, data presentation and descriptive statistics. Probability distributions, sampling distributions and the central limit theorem are covered, as are point estimation and hypotheses testing. Subjects such as correlation and regression analysis, goodness to fit, A.N.O.V.A., and contingency tables are included.  
Hours: 70 hrs (3-2)  
Credits: 4
STAT 333 • Statistics for the Life Sciences
Prerequisite: MATH 30 or equivalent
This course includes exploratory data analysis, relationships between variables, elementary probability, random variables, statistical inference, and hypothesis testing, as well as the application of statistical methods to medical and biological problems through data simulations.
Hours: 84 hrs (3-3)
Credits: 4

TAPC (Therapist Assistant Program)

TAPC 110 • Introduction to Health Care and Rehabilitation
This course provides a study of Canada’s current health care system with a detailed focus on rehabilitation philosophy and the professions of physical therapy, occupational therapy, and speech-language pathology. The roles of the occupational therapist assistant / physical therapist assistant and speech-language pathologist assistant are introduced. Skills and knowledge are developed through exposure to clinical rehabilitation settings, institutional policies and procedures, universal precautions, and documentation.
Hours: 56 hrs (1.5-2.5)
Credits: 3
Available On-Site and in a Distributed Learning Format

TAPC 111 • Rehabilitation Process
Prerequisite: A minimum of a C grade in IDST 100 & KNES 261 & TAPC 110
This course provides a continuation of the introduction to client care practices and processes in rehabilitation. Fundamental knowledge and skills, including monitoring client health, ethics, disability awareness, helping relationships, challenging behaviors, teaching fundamentals, body mechanics, positioning and draping, client instruction, group work, and administrative activities, prepare the occupational therapist assistant / physical therapist assistant and speech-language pathologist assistant for the clinical role.
Hours: 70 hrs (3-2)
Credits: 4
Available On-Site and in a Distributed Learning Format

TAPC 112 • Health Disorders & Conditions in Rehabilitation
Prerequisite: A minimum of a C grade in IDST 100 & KNES 261 & TAPC 110
This course provides an introduction to developmental, physical, and mental health conditions experienced by rehabilitation clients. Topics include essential terms, etiology, signs, symptoms, and medical/rehabilitation goals and interventions, as well as primary and long-term effects of the condition.
Hours: 56 hrs (3-1)
Credits: 3
Available On-Site and in a Distributed Learning Format

TAPC 113 • Growth and Development for Rehabilitation Service Providers
Prerequisite: A minimum of a C grade in IDST 100 & KNES 261 & TAPC 110
This course provides an introduction to the study of growth and development across the lifespan with an emphasis on speech and language, physical, motor, cognitive, sensory, and social development, including their underlying physiological processes. The focus will be the applicability of this information to rehabilitation service providers.
Hours: 84 hrs (3-3)
Credits: 4
Available On-Site and in a Distributed Learning Format

TAPC 209 • Directed Study
Prerequisite: Coordinator approval
This is a bridging course to assist blending previous education and experience into current program requirements. The focus is on addressing topics specific to the individual needs of the occupational therapist assistant / physical therapist assistant and speech-language pathologist assistant student.
Hours: 42 hrs (3-0)
Credits: 3
Available by Directed Study Only

TAPC 210 • Professional Integration for the Therapist Assistant
Prerequisite: A minimum of a C grade in OPTA 212 or SLPA 212
This is an integrative course covering current rehabilitation topics, including research, interprofessional collaboration, and professional rehabilitation organizations. The capstone project includes the development and presentation of a professional poster.
Hours: 14 hrs (1-0)
Credits: 1
Available On-Site and in a Distributed Learning Format

TCOM (Technical Communications)

TCOM 110 • Technical Communications
This course covers written and oral communication skills for preparing and presenting scientific and technical reports. Basic writing skills, oral communication skills, and communication graphics (charts, figures, data) are discussed. Communication skills also involve building arguments based on evidence; this course introduces methods of finding, evaluating, and citing scientific references (and other information sources) to back up arguments. Students will write a scientific report and build a resume.
Hours: 70 hrs (3-2)
Credits: 4

ZOOL (Zoology)

ZOOL 224 • Vertebrate Diversity
Prerequisite: BIOL 233
This course is a survey of the major lineages of vertebrates, emphasizing evolutionary relationships and classification, as well as characteristics and adaptations of the major groups.
Hours: 84 hrs (3-3)
Credits: 4
ZOOL 375 • An Introduction to Invertebrate Zoology  
Prerequisite: BIOL 233  
This course provides a structural, functional, and phylogenetic survey of protozoan and metazoan invertebrate phyla that comprise a majority of all animals with an emphasis on the lophotrochozoan and ecdysozoan protostomes and the deuterostomes. Laboratories emphasize the functional morphology of major phyla occurring in Canada's streams, lakes and oceans, including insect and parasite representatives.  
Hours: 84 hrs (3-3)  
Credits: 4

ZOOL 377 • Comparative Anatomy of the Vertebrates  
Prerequisite: ZOOL 224  
This course focuses on comparative anatomy of the vertebrates; providing an understanding of the functional and structural organization, development, and adaptive radiation of vertebrates in the environment.  
Hours: 84 hrs (3-3)  
Credits: 4
