

PROGRAM PLANNING GUIDE 2022-2023

Power Engineering Technology Diploma

The purpose of this program-planning guide is to help students track their progress within their chosen program. The information in this planning guide is accurate at the time of printing and is subject to change without notice. It is the students' responsibility to ensure the accuracy of their program and course choice. Students should use the program-planning guide dated the year in which they began the program. This guide should be used in conjunction with the official version of the Medicine Hat College Calendar, and calendars of appropriate transfer institutions, which are the final authorities regarding program requirements.

Year One

BLOCK ONE: September – November		
COURSE	DATE	GRADE
PLAC 111 Work Practicum <i>Prerequisite: PLAB 116 & POWE 161 & POWE 162 & POWE 163 or permission of the Dean AND must possess valid First Aid with CPR and WHMIS</i>		
PLAB 116 First Lab <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 161 Introductory Mechanics & Thermodynamics, Legislation and Safety <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 162 Introductory Electricity and Instrumentation, Materials, Welding and Safety <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 163 Introductions to Boilers, Environment, Communication <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
BLOCK TWO: December – February		
COURSE	DATE	GRADE
PLAB 117 Second Lab <i>Prerequisite: PLAB 116</i>		
POWE 166 Lubrication, Pumps, Compressor, Boiler Safety and Operation <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 167 Maintenance, Water Treatment, Prime Movers / Engines and Auxiliary Building Systems <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 168 Refrigeration & Air Conditioning and Types of Plants <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
BLOCK THREE: February – May		
COURSE	DATE	GRADE
PLAB 118 Third Lab <i>Prerequisite: PLAB 117 & ABSA Fourth Class Certificate of Competency (or other regulatory body equivalent certificate)</i>		
POWE 151 Intermediate Mechanics & Thermodynamics <i>Prerequisite: POWE 161</i>		
POWE 152 Metallurgy <i>Prerequisite: POWE 162</i>		
POWE 153 Codes & Drawings		

<i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 154 Intermediate Electricity & Instrumentation <i>Prerequisite: POWE 162</i>		

Year Two

BLOCK FOUR: September – December		
COURSE	DATE	GRADE
PLAB 219 Fourth Lab <i>Prerequisite: PLAB 118 or PLAB 201 (in special circumstances ONLY) & ABSA Fourth Class Certificate of Competency (or other regulatory body equivalent certificate)</i>		
POWE 260 Intermediate Boilers <i>Prerequisite: POWE 143 or POWE 163, and POWE 166</i>		
POWE 261 Intermediate Prime Movers <i>Prerequisite: POWE 146 or POWE 167, and POWE 166</i>		
POWE 262 Water Treatment & Special Equipment <i>Prerequisite: POWE 143 or POWE 167, and POWE 166 and POWE 168</i>		
BLOCK FIVE: January – April		
COURSE	DATE	GRADE
POWE 265 Advanced Boilers <i>Prerequisite: POWE 260</i>		
POWE 266 Advanced Pumps & Water Treatment <i>Prerequisite: POWE 262</i>		
POWE 270 Advanced Codes <i>Prerequisite: POWE 153</i>		
POWE 271 Plant Installation & Management <i>Prerequisite: Acceptance into the Power Engineering Technology Program</i>		
POWE 272 Advanced Mechanics <i>Prerequisite: POWE 151</i>		
POWE 280 Advanced Thermodynamics <i>Prerequisite: POWE 151</i>		
POWE 281 Advanced Metallurgy <i>Prerequisite: POWE 152</i>		

Continuation Requirements:

- Prerequisite grades must be C- or higher.

Graduation Requirements:

- Obtain a minimum grade of C- in all POWE and PLAB courses.
- Achieve mandatory 100% attendance in all lab courses (PLAB).

Program Notes:

- PLAC 111 (80 hour unpaid industrial work placement) is scheduled for the last two weeks of Block One of Year One. Students are responsible for cost of obtaining safety certification in Standard First Aid with CPR and WHMIS *before* being eligible for PLAC 111 (Work Practicum). Copies of these safety certificates must be on file with the PLAC 111 instructor by the date stated in the course outline.
- Current ABSA regulations:
 - Students may acquire a 4th class certificate after passing 4th class theory and labs, completing the college-arranged field placement, and passing the ABSA 4th class exams.
 - Students are required to **independently** find three months of “Steam Time”, complete the two-year college program, and pass the ABSA 3rd class exams before a 3rd class certificate is awarded.
 - 2nd class ABSA exams can be written after being awarded 3rd class certificate.
