Study Permit

Most students need a study permit to study in Canada. You can apply after receiving your MHC admission. Requirements and processing times vary by country (typically 3–12+ weeks). Learn more at www.canada.ca

Financial Requirements

To obtain a study permit, you must show the Government of Canada that you can support yourself during your studies. This includes proof of funds for one year of tuition such as MHC's \$15,000 tuition deposit along with one year of living expenses and the cost of travel to Canada.

These requirements ensure you can study in Canada without relying on employment during your first year. View MHC's program cost estimator to generate a cost estimate for your first year

Working in Canada

Full-time international students may work part-time if permitted on their study permit. Graduates of eligible MHC programs can apply for the Post-Graduation Work Permit (PGWP). Connect with an MHC Regulated International Student Immigration Advisor for guidance.
